

Pilbara Iron Ore Project

WESTERN AUSTRALIA

Forging ahead

Australian Investor Presentation

Gary Sutherland, Managing Director

Flinders Mines Ltd (ASX: FMS)

Compliance statements

Disclaimer

This presentation contains forward looking statements that are subject to risk factors associated with the exploration and mining industry.

It is believed that the expectations reflected in these statements are reasonable, but they may be affected by a variety of variables which could cause actual results or trends to differ materially.

Exploration Targets

Exploration Targets are reported according to Clause 18 of the JORC Code. This means that the potential quantity and grade is conceptual in nature and that considerable further exploration, particularly drilling, is necessary before any Identified Mineral Resource can be reported. It is uncertain if further exploration will lead to a larger, smaller or any Mineral Resource.

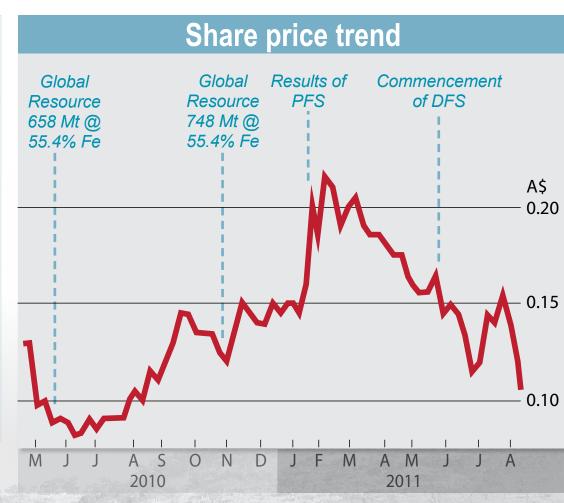

Competent Person

The information in this report that relates to Exploration Results, Mineral Resources and Ore Reserves is based on information compiled by Mr N Corlis (who is a member of the Australian Institute of Geoscientists) and Dr G McDonald (who is a member of the Australian Institute of Mining and Metallurgy). Mr Corlis and Dr McDonald are employees of Flinders Mines Limited. Both have sufficient experience that is relevant to the style of mineralisation and types of deposit under consideration and consent to inclusion of the information in this report in the form and context in which it appears. Mr Corlis and Dr McDonald qualify as Competent Persons as defined in the 2004 Edition of the "Australasian Code for reporting of Exploration Results, Mineral Resources and Ore Reserves".

Corporate

| ASX code | FMS |
|-----------------------------------|------------------|
| Shares on issue | 1,821 million |
| Average daily turnover (shares) | 9.7 million |
| Market capitalisation at 9/8/2011 | A\$209.4 million |
| Cash in hand at 9/8/2011 | A\$34.1 million |

Executive team – A proven record

Gary Sutherland, Managing Director

25 years in the resources industry. Over the last decade Gary has filled senior leadership roles in both operations and greenfield/brownfield projects with BHP Billiton, WMC and Pasminco. He has worked across a range of commodities including iron ore, copper, lead, zinc, gold, silver and uranium.

Nick Corlis, General Manager – Business Development

17 years domestic and international resource industry experience. Senior management roles in both consulting and public sector companies including WMC, Golder and Perilya. Significant experience in minerals exploration and project management, from project generation through to discovery and feasibility.

Miro Rapaic, General Manager – Project Development

18 years domestic and international experience in the resource industry across a broad range of commodities. Extensive technical, operational, project and senior management experience having managed mining operations and mine development projects for BHP Billiton and Macmahon Contractors.

Mick Anstey, General Manager – HSEC & HR

Mick has over 20 years domestic and international experience, having worked in the resource industry across a range of commodities including base metals, copper, gold, iron ore, uranium and coal. He has extensive senior management experience in roles at BHP Billiton, Newmont and WMC that included large open-cut operations, involvement in projects from design through to commissioning and corporate roles.

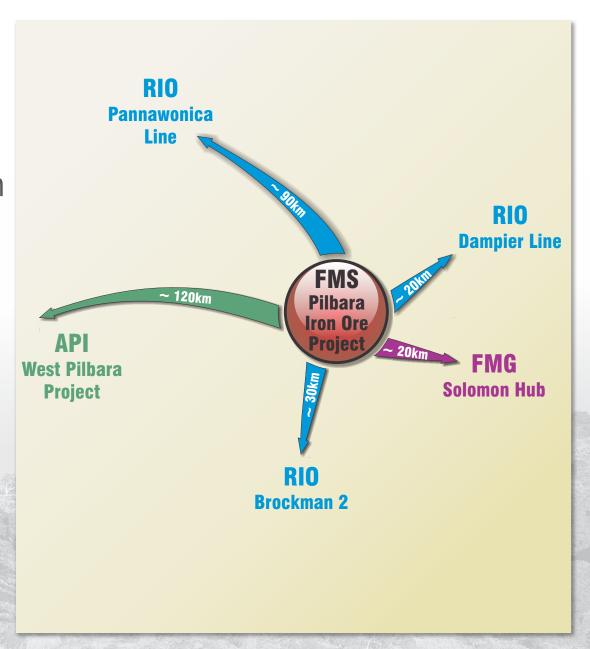

David Godfrey, Chief Financial Officer and Company Secretary

25 years in the resources and finance industries. A member of Australian Society of CPAs, Chartered Secretaries Australia and Australian Institute of Company Directors and a Fellow of the Financial Services Institute. Has held senior finance roles in major corporations and for the Treasury of New Zealand. Was previously Secretary for many publicly listed and subsidiary companies for Normandy, Newmont and UXA.

FMS – Uniquely positioned

- Multiple infrastructure options
- Long life, high volume, low cost and high margin
- Strengths:
 - » Executive team
 - » Quality
 - » Location
 - » Size
- Dynamic precinct
 negotiations well
 advanced

Significant strategic opportunities

- Project marketing in Asia underpins strong product demand
- Significant offtake/project financing opportunities
- Confidentiality agreements in place with a range of potential domestic and international strategic partners
- FMS appeal
 - independent
 - security of supply

Project at a glance

| Base case | 15 Mtpa (DFS) |
|-----------|--------------------------|
| Resource | 748 Mt Global Resource |
| Product | 246 Mt DID and BID |
| Capex | A\$1.1b |
| Opex | \$35/tonne FOB |
| Revenue | A\$25b over life of mine |
| NPV* | A\$3.1b |

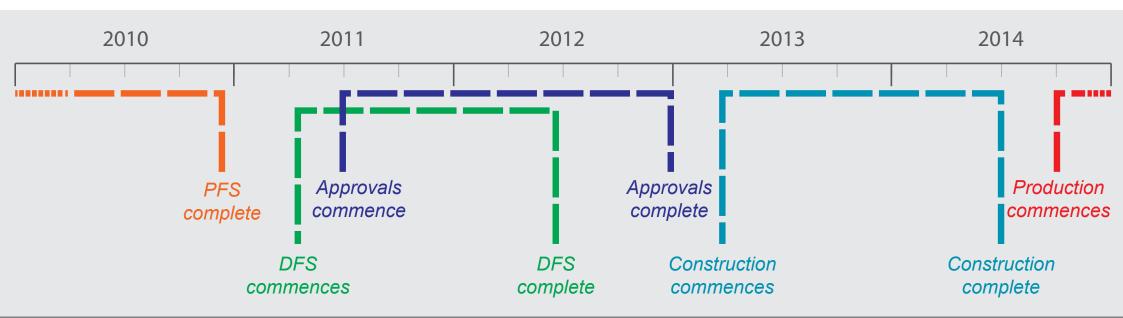

^{*} based on exchange rate of US\$0.96

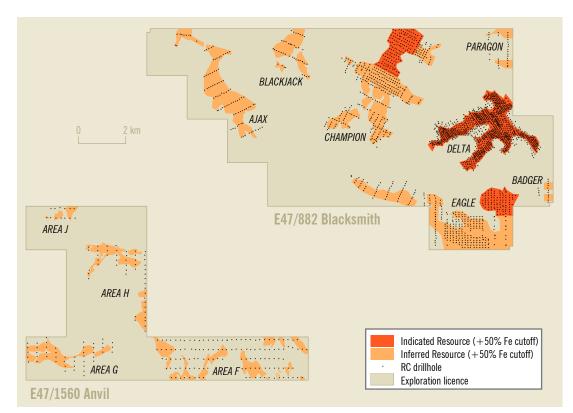

DFS decision

- FMS Board has approved DFS commencement
- 15 Mtpa case demand driven
- Underpins confidence in infrastructure and marketing solution
- Multiple funding options available
- WorleyParsons appointed Pilbara track record

Resource and product mix

| Global resource | Fe cut-off (%) | Tonnage (Mt) | Fe (%) | SiO ₂ (%) | Al ₂ O ₃ (%) | P (%) | LOI (%) |
|------------------------------------|----------------|-----------------|---------------|----------------------|------------------------------------|--------------|------------|
| Total Inferred | 50 | 475 | 54.9 | 10.5 | 5.1 | 0.06 | 5.1 |
| Total Indicated | 50 | 273 | 56.2 | 9.2 | 4.6 | 0.07 | 4.7 |
| TOTAL Indicated and Inferred | 50 | 748 | 55.4 | 10.0 | 4.9 | 0.07 | 5.0 |

- Only 30% of Blacksmith drill tested to date
- 16 km drilling since previous Global Resource estimate
- 35 km of measured drilling
- New Resource estimate Q4, 2011

| Product mix | Tonnage (Mt) | Fe (%) | CaFe [*] (%) | SiO ₂ (%) | Al ₂ O ₃ (%) | P (%) |
|-------------|-----------------|---------------|-----------------------|----------------------|------------------------------------|--------------|
| DID product | 104 | 60.6 | 62.5 | 6.0 | 3.5 | 0.06 |
| BID product | 142 | 56.9 | 62.9 | 5.3 | 3.0 | 0.11 |
| CID product | 27 | 57.9 | 64.6 | 5.4 | 3.0 | 0.10 |
| TOTAL | 273 | | | | | |

^{*}CaFe (Calcined iron) = Fe/(100–LOI)x100

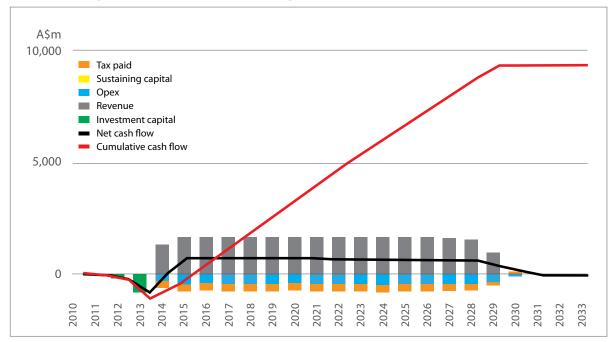

Product value – High margin

| | A\$/tonne (long term) | % of market price* |
|-----|--------------------------|--------------------|
| BID | 103 | 88 |
| DID | 116 | 93 |

^{*}Relative to Rio Tinto Pilbara Fines Blend @ 100% of market price

Unleveraged cash flow for 15 years

 BID – Direct shipping ore (DSO)

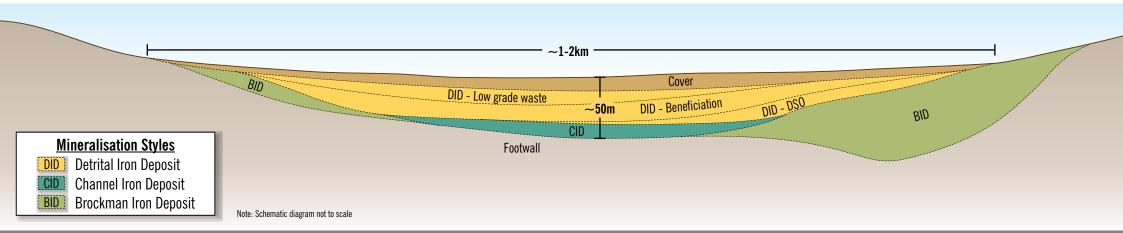

DID – Simple beneficiation

 Value-in-Use study supports pricing assumptions

Low risk operation

- Shallow and wide deposits
- Predictable resource
- Dry mining
- Minimal drill and blast
- Contract mining
- Multiple resources optimisation in scheduling
- Conventional low risk processing

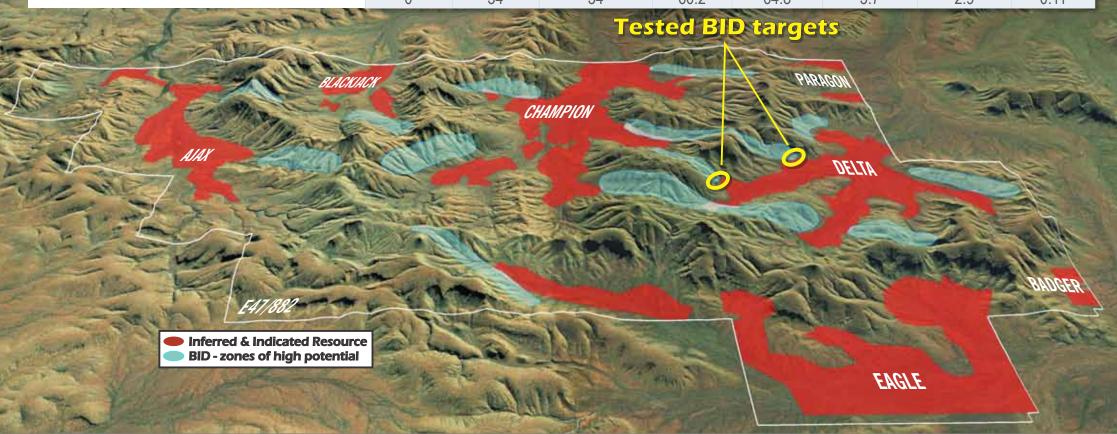

BID – High grade DSO resource upside

- Currently testing BID targets
- Low stripping ratio
- High grade
- Value add

| From (m) | To (m) | Interval (m) | Fe (%) | CaFe (%) | SiO₂ (%) | Al_2O_3 (%) | P (%) |
|----------|--------|--------------|---------------|-----------------|----------------------------|---------------|-------|

Opex

| | A\$/t ore |
|----------------------------|-----------|
| Mining | 9.42 |
| Processing | 4.89 |
| General and administrative | 4.48 |
| Product transport (FOB) | 16.53 |
| TOTAL COSTS | 35.32 |

Comparable iron ore mining cash costs

- Estimated Net Present Value (NPV) after tax of A\$3.1 billion
- Calculated on a post-tax real basis at a Discount Cash Flow rate of 10%
- Forecast capital payback from commissioning ~3 years
- IRR of 48%
- Low FOB unit cost relative to Pilbara peers

Capex – 15 Mtpa

| Description | A\$m |
|------------------------------------|------|
| DIRECT COSTS | |
| Mine buildings and ROM wall | 29 |
| Process plant* | 428 |
| Rail and signalling | 107 |
| Infrastructure | 195 |
| CONSTRUCTION INDIRECTS | 74 |
| PROJECT MANAGEMENT AND OTHER COSTS | |
| EPCM | 91 |
| Owners' costs | 40 |
| Contingency | 165 |
| TOTAL | 1129 |

^{*} Includes modular design

Major milestones

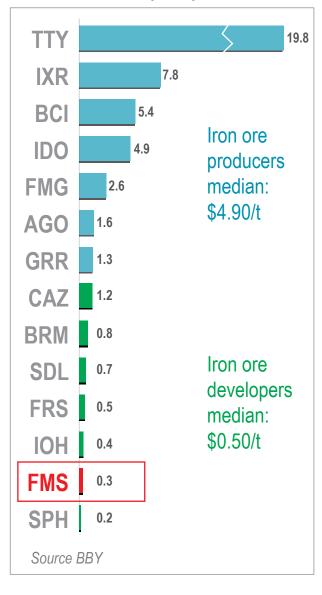

- Sinter testwork completed
 Q3, 2011
- Native Title agreement in place Q4, 2011
- DFS Global Resource model completed
 Q4, 2011
- DFS completed
 Q2, 2012
- State and Commonwealth environmental approvals completed Q4, 2012
- Complete infrastructure and/or offtake negotiations

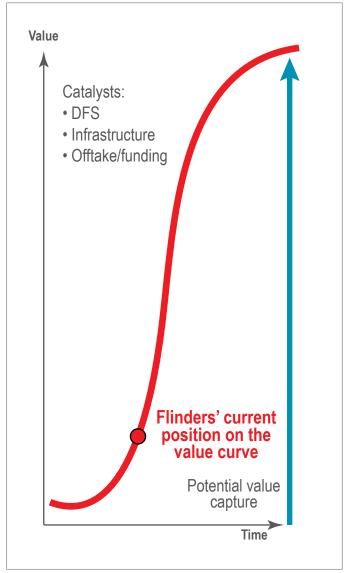

Realising value

EV/Resources (A\$/t)

Project development value curve

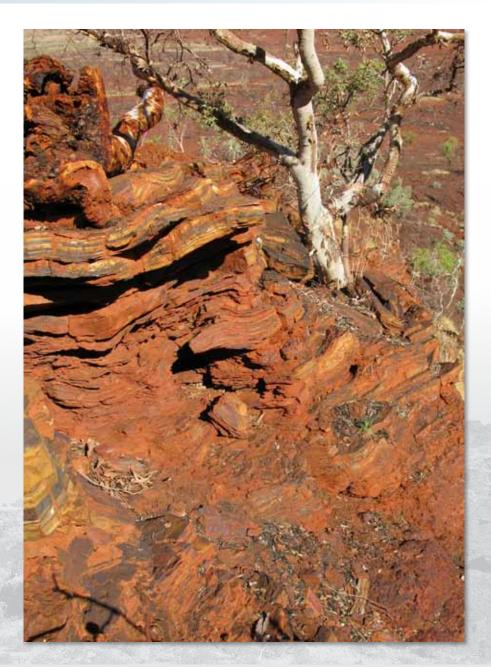

- FMS is currently trading at the lower end of its peers
- Scope for re-rating by the market as project newsflow gathers momentum
- Monetising the asset
- A range of commercial possibilities – leverage

Summary

- Infrastructure is our immediate focus
- Robust project economics
- Delivering on milestones
- Upside
 - » resource / products
- The team to deliver
- Undervalued
- Uniquely positioned
 - » location, size, quality, margin and cash in hand

Thank you
