ASX ANNOUNCEMENT

28 October 2011

Successful Completion of Speed Trials on the Don Muang Tollway using MIKOH RFID Tags

The Board of MIKOH Corporation Limited (**ASX: MIK**) is pleased to advise that the benchmark testing using the MIKOH Smart&Secure tags for speed control on the Don Muang Tollway has come to a highly successful conclusion.

The test was conducted using a sample of 1,000 public vehicles that were tagged with the MIKOH Smart&Secure tamper evident tags. Readers were placed at 7 kilometre intervals along the tollway (see *Figure 1*) and average speeds were calculated using the time that vehicles took to pass through the various reader points.

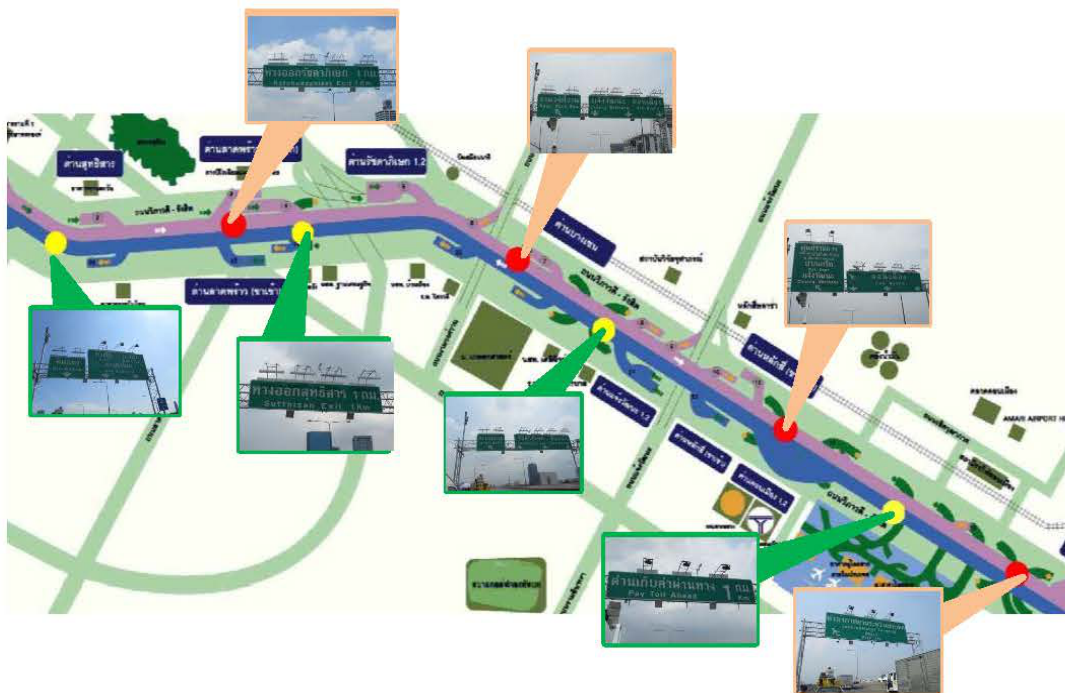

Figure 1 Reader Sites along the Don Muang Tollway

During the period demonstrations were made to senior managers of the Department of the Ministry of Transport (DLT) to show how the system could be mounted into a vehicle (such as a police car) and used to identify vehicles travelling on the Tollway in *real time*.

The information from the three month trial was recorded and the statistics drawn (see Table 1) showed that:

- A very high proportion of public vehicles travel at between 90 and 110 kilometres per hour when the speed limit on the Don Muang tollway is 80 kilometres per hour;
- Points 6 to 7 were where the greatest speed violations occurred; and
- A number of vehicles were recorded at speeds of close to 150 kilometres per hour.

Average Speed	Point 1-2	Point 2-3	Point 3-4	Point 5-6	Point 6-7	Point 7-8
80	744	615	165	1,736	542	376
80 < speed <= 90	867	515	363	1,340	1,414	750
90 < speed <= 100	1,695	1,374	1,146	460	4,677	2,536
100 < speed <= 110	1,394	1,294	802	31	4,423	2,617
110 < speed <= 120	648	781	440	-	2,068	1,093
120 < speed <= 130	169	235	112	-	398	183
130 < speed <= 140	31	45	18	-	40	15
140 < speed	4	11	7	-	3	4
Total Number of Vehicles	5,552	4,870	3,053	3,567	13,565	7,574
Maximum Speed	144.46	149.01	150.85	107.78	143.88	144.44

Table 1: Results from Speed Control Trials on Don Muang Tollway

The DLT is now using the system to unofficially warn drivers who are recorded as excessively exceeding the speed limits.
