Shareholder Communication

(Recommendations: 6.1, 6.2)

The Company has not created a written communications policy for promoting effective communication with shareholders and encouraging shareholder participation at general meetings. While the Company has not established a formal shareholder communication strategy, it actively communicates with its shareholders in order to identify the expectations of its shareholders and actively promote shareholder involvement in the Company. It achieves this by posting on its website, copies of all information which is lodged with the ASX. Shareholders with internet access are encouraged to provide their email addresses to receive electronic copies of information distributed by the Company. Alternatively, hard copies of information distributed by the Company are available on request or as otherwise required by law. Such matters are also expected to be addressed in the disclosure policy to be adopted by the Company following the current review of the Company's corporate governance policies.

The Company is incorporated under the laws of Canada and is not required to comply with section 205RA of the Corporations Act. However, the Company invites its lead auditor to attend its annual general meetings or to arrange to be represented at the meeting with a suitably qualified member of the audit team who is in a position to answer questions about its audit. It is the responsibility of the Board (pursuant to the Board Mandate) to ensure that policies and processes are in place for identifying principal business risks and opportunities for the Company, addressing the extent to which such risks are acceptable to the Company, and ensuring that appropriate systems are in place to manage risks. The Board is also responsible for ensuring policies and processes are in place to ensure the integrity of the Company's internal control, financial reporting and management information systems. Further, the Board reviews the principal risks inherent in the Company's business, including financial risks, through periodic reports from management of such risks. This review takes place in conjunction with the Board's review of operations and risk issues at each Board meeting, at which time the Board assesses the systems established to manage those risks. Directly and through the Audit Committee, the Board also assesses the integrity of the internal financial control and management information systems.

The Board, through the Audit Committee, must ensure that management has designed and implemented effective systems of risk management and internal controls and, at least annually, reviews and assesses the effectiveness of such systems.

MANAGEMENT INFORMATION CIRCULAR
(Containing information as at April 7, 2011 unless indicated otherwise)

SOLICITATION OF PROXIES

This Management Information Circular is furnished in connection with the solicitation of proxies by the management of Olympus Pacific Minerals Inc. (the “**Company**”) for use at the Annual Meeting of shareholders of the Company (the “**Shareholders**”) (and any adjournment thereof) to be held on Monday, June 6, 2011 (the “**Meeting**”) at the time and place and for the purposes set forth in the accompanying Notice of Meeting. While it is expected that the solicitation will be primarily by mail, proxies may be solicited personally or by telephone by the directors, officers and regular employees of the Company at nominal cost. All costs of solicitation by management will be borne by the Company.

The contents and the sending of this Management Information Circular have been approved by the directors of the Company.

APPOINTMENT OF PROXYHOLDER

The individuals named in the accompanying form of proxy are directors and/or officers of the Company. **A SHAREHOLDER WISHING TO APPOINT SOME OTHER PERSON (WHO NEED NOT BE A SHAREHOLDER) TO REPRESENT HIM AT THE MEETING HAS THE RIGHT TO DO SO, EITHER BY STRIKING OUT THE NAMES OF THOSE PERSONS NAMED IN THE ACCOMPANYING FORM OF PROXY AND INSERTING THE DESIRED PERSON’S NAME IN THE BLANK SPACE PROVIDED IN THE FORM OF PROXY OR BY COMPLETING ANOTHER FORM OF PROXY. A proxy will not be valid unless the completed form of proxy is received by COMPUTERSHARE INVESTOR SERVICES INC. (the “Transfer Agent”), Proxy Department, 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, not less than 48 hours (excluding Saturdays, Sundays and holidays) before the time for holding the Meeting or any adjournment thereof. Proxies delivered after that time will not be accepted.**

Voting by mail or by Internet are the only methods by which a holder may appoint a person as proxyholder other than the Management nominees named on the form of proxy.

REVOCAION OF PROXIES

A Shareholder who has given a proxy may revoke it by an instrument in writing executed by the Shareholder or by his attorney authorized in writing or, where the Shareholder is a corporation, by a duly authorized officer or attorney of the corporation, and delivered either to the registered office of the Company, at Suite 500, 10 King Street East, Toronto, Ontario, M5C 1C3, at any time up to and including the last business day preceding the day of the Meeting, or if adjourned, any reconvening thereof, or to the Chairman of the Meeting on the day of the Meeting or, if adjourned, any reconvening thereof or in any other manner provided by law. A revocation of a proxy does not affect any matter on which a vote has been taken prior to the revocation.

INFORMATION FOR NON-REGISTERED SHAREHOLDERS

Only registered Shareholders or duly appointed proxyholders are permitted to vote at the Meeting. Most Shareholders of the Company are “non-registered” Shareholders because the shares they own are not registered in their names but are instead registered in the names of a brokerage firm, bank or other intermediary or in the name of a clearing agency. Shareholders who do not hold their shares in their own name (referred to herein as “Beneficial Shareholders”) should note that only registered Shareholders may vote at the Meeting. If common shares are listed in an account statement provided to a Shareholder by a broker,

then in almost all cases those common shares will not be registered in such Shareholder's name on the records of the Company. Such common shares will more likely be registered under the name of the Shareholder's broker or an agent of that broker. In Canada, the vast majority of such shares are registered under the name of a clearing agency such as CDS & Co. (the registration name for The Canadian Depository for Securities, which company acts as nominee for many Canadian brokerage firms) or CHESS Depository Nominees Pty. Ltd. ("CDN"). Common shares held by brokers (or their agents or nominees) on behalf of a broker's client can only be voted (for or against resolutions) at the direction of the Beneficial Shareholder. Without specific instructions, brokers and their agents and nominees are prohibited from voting shares for the brokers' clients. **Therefore, each Beneficial Shareholder should ensure that voting instructions are communicated to the appropriate person well in advance of the Meeting.**

Beneficial Shareholders (Other than CDI Holders)

Existing regulatory policy requires brokers and other intermediaries to seek voting instructions from Beneficial Shareholders in advance of Shareholders' meetings. The various brokers and other intermediaries have their own mailing procedures and provide their own return instructions to clients, which should be carefully followed by Beneficial Shareholders in order to ensure that their common shares are voted at the Meeting. Often the form of proxy supplied to a Beneficial Shareholder by its broker is identical to the form of proxy provided by the Company to the registered Shareholders. However, its purpose is limited to instructing the registered Shareholder (i.e. the broker or agent of the broker) how to vote on behalf of the Beneficial Shareholder. The majority of brokers now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. ("**Broadridge**"). Broadridge typically prepares a machine-readable voting instruction form, mails those forms to the Beneficial Shareholders and asks Beneficial Shareholders to return the forms to Broadridge, or otherwise communicate voting instructions to Broadridge (by way of the internet or telephone, for example). Broadridge then tabulates the results of all instructions received and provides appropriate instructions respecting the voting of common shares to be represented at the Meeting. **A Beneficial Shareholder who receives a Broadridge voting instruction form cannot use that form to vote common shares directly at the Meeting. The voting instruction form must be returned to Broadridge (or instructions respecting the voting of common shares must be communicated to Broadridge) well in advance of the Meeting in order to have the common shares voted.**

This Management Information Circular and accompanying materials are being sent to both registered Shareholders and Beneficial Shareholders. Beneficial Shareholders fall into two categories – those who object to their identity being known to the issuers of securities which they own ("**Objecting Beneficial Owners**", or "**OBO's**") and those who do not object to their identity being made known to the issuers of the securities they own ("**Non-Objecting Beneficial Owners**", or "**NOBO's**"). Subject to the provision of National Instrument 54-101 – Communication with Beneficial Owners of Securities of Reporting Issuers ("**NI 54-101**") issuers may request and obtain a list of their NOBO's from intermediaries via their transfer agents. Pursuant to NI 54-101, issuers may obtain and use the NOBO list for distribution of proxy-related materials directly (not via Broadridge) to such NOBO's. If you are a Beneficial Shareholder, and the Company or its agent has sent these materials directly to you, your name, address and information about your holdings of common shares have been obtained in accordance with applicable securities regulatory requirements from the intermediary holding the common shares on your behalf.

By choosing to send these materials to you directly, the issuer (and not the intermediary holding on your behalf) has assumed responsibility for (i) delivering these materials to you, and (ii) executing your proper voting instructions. Please return your voting instructions as specified in the request for voting instructions.

The Company's OBO's can expect to be contacted by Broadridge or their brokers or their broker's agents as set out above.

Although Beneficial Shareholders may not be recognized directly at the Meeting for the purposes of voting common shares registered in the name of his broker, a Beneficial Shareholder may attend the Meeting as proxyholder for the registered Shareholder and vote the common shares in that capacity. **Beneficial Shareholders who wish to attend the Meeting and indirectly vote their common shares as proxyholder for the registered Shareholder should enter their own names in the blank space on the proxy provided to them and return the same to their broker (or the broker's agent) in accordance with the instructions provided by such broker.**

All references to Shareholders in this Management Information Circular and the accompanying form of Proxy and Notice of Meeting are to Shareholders of record unless specifically stated otherwise.

CDI Holders

A CDI is evidence of an indirect ownership in a common share. Holders of CDIs are non-registered or beneficial owners of the underlying common shares. The underlying common shares are registered in the name of CDN. As holders of CDIs are not the legal owners of the underlying common shares, CDN is entitled to vote at meetings of shareholders on the instruction of the registered holder of the CDIs.

As a result, registered holders of CDIs can expect to receive a voting information form (a “**VIF**”), together with the Meeting materials from Computershare Limited (“**Computershare**”), the CDI Registry in Australia. These VIFs are to be completed by holders of CDIs who wish to vote at the Meeting and returned to Computershare in accordance with the instructions contained therein. CDN is required to follow the voting instructions properly received from registered holders of CDIs. If you hold your interest in CDIs through a broker, dealer or other intermediary, you will need to follow the instructions of your intermediary.

A registered holder of a CDI can request CDN to appoint the holder (or a person nominated by the registered holder) as proxy to exercise the votes attaching to the underlying common shares represented by the holders of CDIs. In such case, a holder the CDI may, as proxy, attend and vote in person at the Meeting.

If you hold your interest in CDIs through a broker, dealer or other intermediary, you will need to follow the instructions of your intermediary and request a form of legal proxy which will grant you the right to attend the Meeting and vote in person.

Registered holders of CDIs that wish to change their vote must in sufficient time in advance of the Meeting contact Computershare to arrange to change their vote. If you hold your interest in CDIs through a broker, dealer or other intermediary, you must in sufficient time in advance of the Meeting, arrange for your intermediary to change its vote through Computershare in accordance with the revocation procedure set out above.

VOTING OF PROXIES

The shares represented by a properly executed proxy in favour of persons proposed by Management as proxyholders in the accompanying form of proxy will:

- (a) be voted for or against or withheld from voting in accordance with the instructions of the person appointing the proxyholder on any ballot that may be taken; and
- (b) where a choice with respect to any matter to be acted upon has been specified in the form of proxy, be voted in accordance with the specification made in such proxy.

ON A POLL SUCH SHARES WILL BE VOTED IN FAVOUR OF EACH MATTER FOR WHICH NO CHOICE HAS BEEN SPECIFIED OR WHERE BOTH CHOICES HAVE BEEN SPECIFIED BY THE SHAREHOLDER.

The enclosed form of proxy when properly completed and delivered and not revoked confers discretionary authority upon the person appointed proxy thereunder to vote with respect to amendments or variations of matters identified in the Notice of Meeting, and with respect to other matters which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the persons designated in the enclosed form of proxy to vote in accordance with their best judgment on such matters or business. At the time of the printing of this Management Information Circular, the management of the Company knows of no such amendment, variation or other matter which may be presented to the Meeting.

STATEMENT OF EXECUTIVE COMPENSATION

Named Executive Officers

For the purposes of this Information Circular, a Named Executive Officer (each an “NEO”) of the Company means each of the following individuals:

- (a) the chief executive officer (“CEO”) of the Company;
- (b) the chief financial officer (“CFO”) of the Company;
- (c) each of the Company’s three most highly compensated executive officers, or the three most highly compensated individuals acting in a similar capacity, other than the CEO and CFO, at the end of the most recently completed financial year whose total compensation was, individually, more than CAD\$150,000, as determined in accordance with subsection 1.3(6) of Form 51-102F6, for that financial year; and
- (d) each individual who would be an NEO under paragraph (c) above but for the fact that the individual was neither an executive officer of the Company, nor acting in a similar capacity, at the end of that financial year.

During the year ended December 31, 2010, the Company had seven NEO’s: David A. Seton, the Chairman and CEO; John Seton, the CFO; Peter Tiedemann, the Chief Information Officer; Charles Barclay, the Chief Operations Officer; Paul Seton, the Chief Commercial Officer; James Hamilton, the VP Investor Relations; Russell Graham, the VP Commercial Vietnam, and S. Jane Bell, the VP Finance.

Compensation Discussion and Analysis

The Company’s board of directors (the “Board”) is responsible for ensuring that the Company has in place an appropriate plan for executive compensation and for making recommendations to the Board with respect to the compensation of the Company’s executive officers. The Board ensures that total compensation paid to its NEO’s is fair and reasonable and is consistent with the Company’s compensation philosophy.

Compensation plays an important role in achieving short and long-term business objectives that ultimately drive business success. The Company’s compensation philosophy is to foster entrepreneurship at all levels of the organization by making long term equity-based incentives, through the granting of stock options, a significant component of executive compensation. This approach is based on the assumption that the performance of the Company’s common share price over the long term is an important indicator of long-term performance.

The Company’s compensation philosophy is based on the following fundamental principles:

1. *Compensation programs align with Shareholder interests* – the Company aligns the goals of executives with maximizing long term Shareholder value;
2. *Performance sensitive* – compensation for executive officers should be linked to operating and market performance of the Company and fluctuate with the performance; and
3. *Offer market competitive compensation to attract and retain talent* – the compensation program should provide market competitive pay in terms of value and structure in order to retain existing employees who are performing according to their objectives and to attract new individuals of the highest calibre.

The objectives of the compensation program in compensating all NEOs were developed based on the above-mentioned compensation philosophy and are as follows:

- to attract and retain highly qualified executive officers;

- to align the interests of executive officers with Shareholders' interests and with the execution of the Company business strategy;
- to evaluate executive performance on the basis of key measurements that correlate to long-term Shareholder value; and
- to tie compensation directly to those measurements and rewards based on achieving and exceeding predetermined objectives.

Competitive Compensation

The Company's principal goal is to create value for its Shareholders. The Company's compensation philosophy is based on the objectives of linking the interests of the executive officers with both the short and long-term interests of the Company, of linking executive compensation to the performance of the Company and the individual and of compensating executive officers at a level and in manner that ensures the Company is capable of attracting, motivating and retaining individuals with exceptional executive skills. The executive compensation program is externally developed and is designed to encourage, compensate and reward employees on the basis of individual and corporate performance, both in the short and the long term. Base salaries are competitive with corporations of a comparable size and stage of development within the mining industry, thereby enabling the Company to compete for and retain executives critical to the Company's long-term success. Incentive compensation is directly tied to corporate performance. Share ownership opportunities are provided to align the interests of executive officers with the longer-term interests of Shareholders.

Compensation for each of the NEOs consists of a base salary, along with an annual incentive compensation in the form of a performance based bonus, and a longer term incentive in the form of stock options.

Aligning the Interests of the NEOs with the Interests of the Company's Shareholders

Annual Bonus

Senior managers are eligible for an annual incentive award. Corporate performance, as assessed by the board of directors, determines the aggregate amount of bonus to be paid by the Company to all eligible senior officers in respect of a fiscal year.

The aggregate amount of bonus to be paid will vary with the degree to which targeted corporate performance was achieved for the period.

Base Salary

The Committee approves ranges for base salaries for senior management of the Company based on reviews of market data from peer companies in the mineral exploration industry. The level of base salary for each employee within a specified range is determined by the level of past performance, as well as by the level of responsibility and the importance of the position to the Company.

The Committee has approved agreements with respect to the base salary to be paid to the Chairman and Chief Executive Officer, the Chief Financial Officer, the Vice President Exploration, the Chief Operations Officer, the Vice President Human Resources, the Vice President Investor Relations and Vice President, Finance Vietnam. The Committee's recommendations for such base salaries are then submitted for approval by the Board of the Company.

During financial year ended December 31, 2010, the Company awarded increases in base salary of the NEOs in response to the subjective assessment of their respective performance, analysis of external market conditions and competitive needs to retain its qualified personnel.

The following table sets forth the compensation awarded, paid to or earned by the NEOs for the three most recently completed years of the Company.

Long Term Compensation

The Company has no long-term incentive plans other than its incentive stock option plan (the “Plan”). The Plan is designed to encourage share ownership and entrepreneurship on the part of the senior management and other

employees. The Board believes that the Plan aligns the interests of the NEOs with Shareholders by linking a component of executive compensation to the longer term performance of the Company's common shares.

Options are determined by the Board. In monitoring or adjusting the option allotments, the Board takes into account the level of options granted for similar levels of responsibility and considers each NEO or employee based on reports received from management, its own observations on individual performance (where possible) and its assessment of individual contribution to Shareholder value, previous option grants and the objectives set for the NEOs. The scale of options is generally commensurate to the appropriate level of base compensation for each level of responsibility.

In addition to determining the number of options to be granted pursuant to the methodology outlined above, the Board also makes the following determinations:

- the NEOs and others who are eligible to participate in the Plan;
- the exercise price for each stock option granted, subject to the provision that the exercise price cannot be lower than the market price on the date of grant;
- the date on which each option is granted;
- the vesting period, if any, for each stock option;
- the other material terms and conditions of each stock option grant; and
- any re-pricing or amendment to a stock option grant.

The Board makes these determinations subject to and in accordance with the provisions of the Plan. The Board reviews and approves grants of options on an annual basis.

All of the NEOs are eligible to participate in the Company's Plan.

Perquisites and Personal Benefits

The Company does not award perquisites or other personal benefits to its NEOs other than benefits integrally and directly related to the performance of the NEO's duties.

Pension Plan Benefits

The Company does not provide retirement benefits for directors or executive officers.

Defined Benefit or Actuarial Plan Disclosure

The Company does not have a defined benefit or actuarial plan under which benefits are determined primarily by final compensation (or average final compensation) and years of service of the Company's officers and key employees. The Company does not provide retirement benefits for directors or executive officers.

Termination and Change of Control Benefits

The Company currently has the following arrangement set forth below in place with respect to remuneration received or that may be received by the executive officers or directors of the Company in respect of compensating such officer or director in the event of termination of employment (as a result of resignation, retirement, change of control etc.) or a change in responsibilities following a change of control.

The Company has entered into management contracts with its NEOs that provide for specific benefits in the event that executive's employment is terminated as a result of resignation, retirement, change of control, or a change in responsibilities following a change of control. A summary of these benefits follows.

Termination

The executive officer may terminate his/her management agreement (the "**Management Agreement**") and the services being provided by it hereunder by giving the Company at least three (3) months' prior written notice (the "**Executive's Termination Notice**"), provided that the Company shall have the right to give written notice to the executive that the Company is waiving the full notice period and is permitting the agreement and the services of the executive to be terminated upon a date that is less than three months after the date of the executive's Termination Notice as determined by the Company (the "**Company's Termination Notice**") and further provided that all fees payable to the executive hereunder and all other obligations of the Company to the executive hereunder shall cease upon the date specified in the executive's Termination Notice or the Company's Termination Notice, whichever is applicable.

The executive shall be entitled to terminate his/her Management Agreement immediately upon serving written notice to the Company in the event that:

The Management Agreements also provide that they will terminate if certain objectives of the Company are met ("**Set Objectives**") which are described in each executive's Management Agreement. In the event of termination of the Management Agreement upon achievement of the Set Objectives prior to the expiry of the Management Agreement's term, the executive will be entitled to all remuneration and options he/she would have received had the Management Agreement remained in full force and effect for its term.

Pursuant to the Management Agreements referred to herein entered into by the Company with each NEO, the Company is required to make certain payments upon termination (whether voluntary, involuntary, or constructive), resignation, retirement, change of control or change in the NEO's responsibilities, as applicable. An estimate of the

- (d) equal to three (3) months of the executive's then existing annual fees should termination occur within the first twelve (12) months from the date the executive commenced providing services to the Company; or
 - (i) equal to six (6) months of the executive's then existing annual fees should termination occur after the first twelve (12) months from the date the executive commenced providing services to the Company; and
 - (ii) the executive's options on shares of the Company shall remain in full force and effect for the earlier of the expiry date of such options or twelve (12) months following the Company's Notice of Termination and the option agreements shall be deemed to have been amended, to the extent required, to the effect that any provision which would otherwise terminate such options as a result of the termination of the executive's services shall be null and void.

The Company may at any time terminate the services of the executive and his/her Management Agreement for any just cause that would in law permit the Company to, without notice, terminate the executive, in which event the executive shall not be entitled to the payment set forth above), but shall be entitled to receive the full amount of the executive's fees due through to the date of the notice of termination.

The Management Agreement will be deemed to have been terminated by the Company if: without the written agreement of the executive, the nature of the duties, requirements and arrangements of the executive are substantially changed such that the nature of the work that is required to be performed is not work which is

consistent with the work ordinarily required to be performed for a position similar to that assumed by the executive for a publicly listed mining company, in which event the Company shall be obligated to provide the executive with a payment as described above.

Any termination by the Company shall be communicated by written Notice of Termination. For purposes of this Agreement, a "Notice of Termination" shall mean a notice which shall indicate the specific termination provision of this Agreement relied upon and, in the case of a notice of termination for cause, shall set forth in reasonable detail the facts and circumstances claimed to provide a basis for termination of the executive's engagement.

On an executive's termination for any reason, the executive agrees to deliver up to the Company all equipment, all documents, financial statements, records, plans, drawings, papers of every nature in any way relating to the affairs of the Company and its associated or affiliated companies which may be in its possession or under its control.

The Management Agreement provides that the executive shall have a special right to terminate its engagement with the Company pursuant to the Section for Good Cause at any time within twelve (12) months of the Takeover of Control of the Company (as defined in the Management Agreement) by giving notice of its resignation in writing to the Board. The notice of resignation must be in writing, must cite the Takeover of Control Provision, and must contain at least one month's notice and not more than two (2) months notice. The executive will not receive any payment unless a notice resignation is provided to the Company or a notice of termination is provided to Company. The executive must exercise this right within twelve (12) months of the Takeover of Control. The Company shall be obligated to provide the executive with a payment on the fifth calendar day following the earlier of the last calendar day specified in the notice of resignation or the notice of termination, as applicable, and the date the executive actually ceases to be employed by the Company (the "**Date of Resignation**") which shall consist of the following:

- (a) the executive's fees through to the Date of Resignation at the amount of the executive's then existing annual fee at the time notice of termination or notice of resignation was given, the amount of any reimbursable expenses, plus an amount equal to the amount, if any, of any bonuses previously made to the executive which have not been paid, accrued vacation and any other amounts due upon termination or resignation;
 - (i) in lieu of further fees for periods subsequent to the Date of Resignation, a payment equal to the number of months set out in the respective Management Agreement at the rate of the executive's then existing annual fee and incentive bonus; and
 - (ii) in lieu of common shares of the Company issuable upon exercise of options, if any, previously granted to the executive under the Company's incentive programs and remaining unexercised at 5:00 p.m. (Toronto time) on the fourth calendar day following the Date of Resignation, which options shall be cancelled upon the payment referred to herein, a cash amount equal to the aggregate difference between the exercise price of all options held by the executive, whether or not then fully exercisable, and the higher of (i) the average of the closing prices of the Company's common shares as reported on the TSX (or such other stock exchange on which the Company's shares may be listed) for thirty (30) calendar days preceding the Date of Resignation or (ii) the average price actually paid for the most highly priced one percent (1%) of the Company's common shares, however and for whatever reason by any person who achieves control of the Company as such term is defined in the Management Agreement; and
 - (iii) the executive shall have the right, exercisable up to the fourth calendar day following the Date of Resignation, to elect to waive the application of the provisions regarding stock options, following the Date of Resignation. The executive may exercise this election on or before 5:00 p.m. Toronto time on such fourth calendar day by delivering a notice in writing to the Company of such waiver whereupon:
 - (A) in accordance with the Company's stock option plan, the executive's unvested options on shares of the Company shall immediately vest and the executive's

vested options on shares of the Company will expire within ninety (90) days of the Date of Resignation; and

- (B) the Company shall be relieved of any obligation in connection with termination of the executive's engagement to make the payment as described therein.
- (b) The executive agrees to accept such compensation in full satisfaction of any and all claims the executive has or may have against the Company and the executive agrees to execute and deliver a full and final release in writing of the Company with respect to the same upon payment of said sum, except monies owing by either party to the other up to the Date of Resignation.

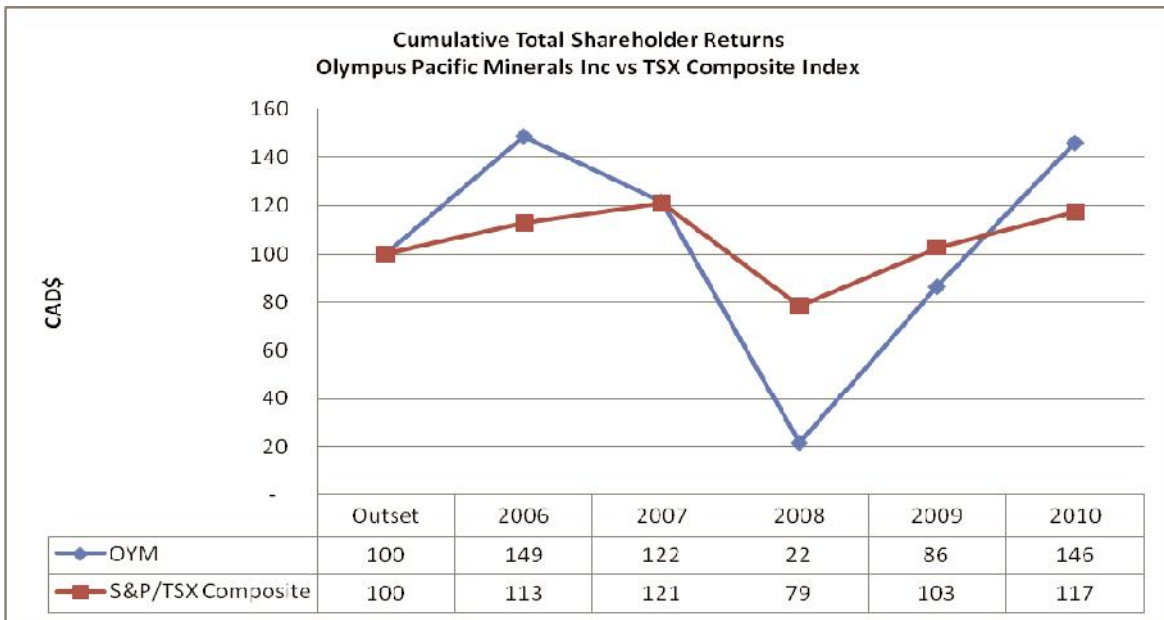

The executive shall not be required to mitigate the amount of any payment provided for under any paragraph of these termination provisions by seeking other engagement or otherwise nor shall the amount of any payment provided by the termination provisions be reduced by any other compensation earned by the executive as a result of engagement by another client after the date of termination or otherwise.

The Company shall have full rights to offset any money properly due by the executive to the Company against any amounts payable by the Company to the executive hereunder.

The executive will cease to be enrolled in any Company benefit plan after the last day of any notice period given.

Performance Graph

The following chart compares the total cumulative Shareholder return on \$100 invested in common shares of the Company on January 1, 2006 with the cumulative total returns of the S&P/TSX Composite Index at the end of the five most recently completed financial years.

Director Compensation

The Company paid a total of \$90,000 to non executive directors of the Company during the most recently completed financial year. In second quarter 2008, the Company set up a deferred share unit plan for the non-executive members of the Board of Directors. Under this plan, fees are paid as deferred share units (the “DSUs”) whose value is based on the market value of the common shares. Under terms of the plan, the DSU plan will be an unfunded and unsecured plan. The DSUs are paid out in cash upon retirement/resignation. The value of the DSU cash payment changes with the fluctuations in the market value of the common shares. Compensation expense for this plan is

recorded in the year the payment is earned and changes in the amount of the DSU payments as a result of share price movements are recorded in management fees and salaries in the Consolidated Statements of Operation in the period of the change. No DSUs were granted during the year ended December 31, 2010. Liabilities related to this plan are recorded in accrued liabilities in the Consolidated Balance Sheet and totalled \$181,296 as at December 31, 2010. The DSU plan was discontinued as at April 1, 2010.

⁽²⁾ Figures represent the grant date fair value of the options. The Company used the Black Scholes option pricing model for calculating such fair value, as such model is commonly used by public companies. Assumptions used for such calculations include a risk free interest rate of 2.2% annualized volatility of 76.28% and a dividend rate of nil.

The fees payable to the directors of the Company are for their service as directors and as members of committees of the board of directors as follows:

Stock Option Plan

The Company adopted the Plan, approved by directors on April 24, 2007, which was most recently approved by the Shareholders of the Company at the Company's annual meeting held on May 11, 2010 and must be reapproved every three years. The purpose of the Plan is to provide an increased incentive for participants to contribute to the future success and prosperity of the Company. The key features of the Plan are as follows:

Under the Plan, stock options may be granted to directors, officers, employees and consultants of the Company and its affiliates or subsidiaries.

The Plan is a form of "evergreen/rolling maximum" incentive stock option plan which provides for the maximum number of common shares reserved for issuance under such plan to be no more than 12% of the issued and outstanding shares at the time of any stock option grant. In addition, the number of common shares subject to each option grant will be determined by the Board (or its duly appointed Compensation Committee) provided that any grant of options, may not result in the maximum number of common shares issuable:

- (a) to insiders of the Company, at any time, exceeding 10% of the Company's issued and outstanding common shares (on a non-diluted basis) on the date of grant;
- (b) to insiders within any one-year period exceeding 10% of the Company's issued and outstanding common shares (on a non-diluted basis) on the date of grant;

- (c) to any one individual insider within a one-year period, exceeding 5% of the outstanding common shares (on a non-diluted basis) at the time of the grant; and
- (d) to any non-employee directors, as a group, exceeding 5% of the outstanding common shares (on a non-diluted basis) at the time of grant;

The exercise price of any options granted shall be determined by the Board of Directors and shall not be less than the volume weighted average trading price of the common shares on the TSX, or another stock exchange where the majority of the trading volume and value of the listed shares occurs, for the five trading days immediately prior to the date of grant (or, such other price required by the TSX) (calculated by dividing the total value by the total volume of securities traded for the relevant period) (“**Market Price**” options may be exercisable for a period of time fixed by the Board of Directors, not to exceed a maximum of up to five years (and may be adjusted to 10 days if the expiry date falls with a blackout period imposed by the Company), such period and any vesting schedule to be determined by the Board of Directors (or Compensation Committee) of the Company, and are non-assignable, except in certain circumstances.

The options are non-assignable and non-transferable. The options can only be exercised by the optionee as long as the optionee remains an eligible optionee pursuant to the Plan. Options granted to any optionee who is a director, employee, consultant or management company employee must expire on the earlier of (i) ninety (90) days after the optionee ceases to be in a least one of these categories, unless amended by the board to provide a longer period; or (ii) the date the option expires in accordance with its terms; or (iii) the date provided for in any employment or consulting agreement between such optionee and the Company, however Shareholder approval is required to be obtained should this cause options held by an optionee who is an insider of the Company to be extended beyond their original expiry. If an optionee ceases to be employed or retained by the Company for cause or if an optionee is removed from office as a director or becomes disqualified from being a director by law, any option or the unexercised portion thereof granted to such optionee shall terminate forthwith.

In the event of death of the optionee, the outstanding options shall remain in full force and effect and exercisable by the heirs or administrators of the deceased optionee in accordance with the terms of the agreement for one (1) year from the date of death or the balance of the option period, which ever is earlier.

Options that expire during a period when the optionee is prohibited from trading the Company’s securities (a “**blackout period**”) can be adjusted, without being subject to the approval of the Board of Directors or the Shareholders of the Company, to take into account any blackout period imposed on the Optionee by the Company as follows:

- (a) if the expiry date falls within a blackout period imposed on the Optionee by the Company, then the expiry date is the close of business on the 10th business day after the end of such blackout period (the “**Blackout Expiration Term**”); or
- (b) if the expiry date falls within two business days after the end of a blackout period imposed on the Optionee by the Company, then the expiry date is the date which is the Blackout Expiration Term reduced by the number of days between the original expiry date and the end of such blackout period. By way of example, Options whose expiry date is two business days after the end of the blackout period may be exercised for an additional eight business days.

Subject to the policies of the TSX, the Board of Directors may, at any time, without further action by its Shareholders, revise or amend the Plan or any option granted thereunder in such respects as it may consider advisable and, it may do so to:

- (a) ensure that the Options granted thereunder will comply with any provisions respecting stock options in the income tax and other laws in force in any country or jurisdiction of which a participant to whom an Option has been granted may from time to time be resident or a citizen;
- (b) change vesting provisions of an option or the Plan;

- (c) change termination provisions of an option provided, that the expiry date does not extend beyond the original expiry date;
- (d) reduce the exercise price of an option for a participant who is not an Insider, but in no case will it be lower than Market Price; and
- (e) make amendments to correct typographical or clerical errors or to add clarifying statements to ensure the intent and meaning of an option or the Plan is properly expressed.

However, specific disinterested Shareholder approval is required to reduce the exercise price of an option for an optionee who is an insider.

All option shares subject to an option become vested in the event of a take-over bid, change of control, arrangement or corporate organization.

The exercise price and the number of common shares which are subject to an option may be adjusted from time to time for share dividends, and in the event of reclassifications, reorganizations or changes in the capital structure of the Company.

The U.S. Units will consist of:

- (a) four-year 8% unsecured convertible redeemable notes (the "U.S. Notes"), in the aggregate principal amount of a minimum of US\$8,000,000 and a maximum of US\$15,000,000 and convertible into common shares of the Company (the "U.S. Conversion Shares") at a rate of US\$0.51 per U.S. Conversion Share;

As partial consideration of the services of the agent under the U.S. Private Placement, the Company will issue to the agent of the U.S. Private Placement, Europac Pacific Capital Inc. (the “**Placement Agent**”) a minimum of 1,254,902 and a maximum of 2,352,941 common share purchase warrants (the “**Placement Agent’s U.S. Warrants**”), each Placement Agent’s U.S. Warrant immediately exercisable (subject to Shareholder approval) on or before the date that is four years after the issue of the Placement Agent’s U.S. Warrants, for the purchase of one common share of the Company (a “**Placement Agent’s U.S. Warrant Share**”) at a price of CAD\$0.55 per Placement Agent’s U.S. Warrant Share. Once the U.S. Private Placement closes, the Company will announce to the ASX the exact number of U.S. Notes, U.S. Vested Warrants, U.S. Vesting Warrants and Placement Agent’s U.S. Warrants which have been issued.

The conversion of the U.S. Notes into U.S. Conversion Shares is subject to Shareholder approval. Resolution 4.1 seeks Shareholder approval to approve this right of conversion and to the issue of the U.S. Conversion Shares. ASX Listing Rule 7.1 broadly provides, subject to certain exceptions, that shareholder approval is required for any issuance of securities by a listed company, where the securities proposed to be issued represent more than 15% of the company’s securities then on issue. The following information in relation to the U.S. Notes and U.S. Conversion Shares is provided to Shareholders for the purposes of ASX Listing Rule 7.3:

- (a) U.S. Notes in the aggregate principal amount of a minimum of US\$8,000,000 and maximum of US\$15,000,000, will be created and issued. The maximum number of U.S. Conversion Shares to be issued by the Company on conversion of the U.S. Notes is 29,412,000;
- (b) the U.S. Notes will be issued prior to the date of the Meeting (with the rights of conversion into U.S. Conversion Shares subject to Shareholder approval). If Resolution 4.1 is passed, the U.S. Notes will have a right of conversion into U.S. Conversion Shares from the date of the Annual Meeting;
- (c) the U.S. Conversion Shares will be allotted progressively;
- (d) the U.S. Notes were issued (with the rights of conversion into U.S. Conversion Shares subject to Shareholder approval) as part of the U.S. Units, which were issued at an issue price of US\$1.00 each. ;
- (e) a summary of the terms and conditions of the U.S. Notes, is set out in Schedule “C-1” of this Management Information Circular. The U.S. Conversion Shares will rank equally in all respects with the Company’s existing issued common shares;
- (f) the U.S. Notes and U.S. Conversion Shares are to be issued to sophisticated clients of the Placement Agent. These investors are unrelated to the Company; and
- (g) funds raised from the issue will be used to acquire mining equipment, develop underground access to mineralized zones and upgrade certain plant circuits of the Company’s Phuoc Son and Bong Mieu mines in Vietnam and for feasibility exploration and acquisition costs at the Bau project in Malaysia, and for general exploration and corporate purposes.

At the Meeting, the Shareholders will be asked to pass an ordinary resolution approving the conversion rights of the U.S. Notes, and the issue of the U.S. Conversion Shares such resolution to be substantially in the following form:

“BE IT HEREBY RESOLVED, as an ordinary resolution, that for the purposes of ASX Listing Rule 7.1 and for all other purposes, the conversion rights attached to the four-year 8% unsecured convertible redeemable notes of the Company in the aggregate amount of a minimum of US\$8,000,000 and a maximum of US\$15,000,000 (the “**U.S. Notes**”) to be issued by the Company, which conversion rights enable the U.S. Notes to be converted into common shares of the Company (the “**U.S. Conversion Shares**”) at a rate of

US\$0.51 per U.S. Conversion Share (the “**U.S. Conversion Price**”), and the issue of the U.S. Conversion Shares on conversion of the U.S. Notes, is hereby approved.”

For the purposes of the above, the Company will disregard any votes cast on the foregoing resolution by any person who may participate in the proposed issue, and any person who might obtain a benefit, except a benefit solely in the capacity of a holder of ordinary securities, if Resolution 4.1 is passed, and any person associated with those persons. However, the Company need not disregard a vote if the vote is cast by a person as proxy for a person who is entitled to vote, in accordance with the directions on the proxy form or the vote is cast by the person chairing the meeting as proxy for a person who is entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

The exercise of the U.S. Vested Warrants, U.S. Vesting Warrants, and Placement Agent's U.S. Warrants into common shares in the Company is subject to Shareholder approval. Resolution 4.2 seeks Shareholder ratification of the issue of the U.S. Vested Warrants, the U.S. Vesting Warrants and the Placement Agent's U.S. Warrants (in all of which the exercise rights were subject to Shareholder approval) as well as approval for the issue of the underlying U.S. Vested Warrant Shares, U.S. Vesting Warrant Shares and the Placement Agent's U.S. Warrant Shares, and for the rights of exercise.

ASX Listing Rule 7.4 permits the ratification of previous issues of securities made without prior shareholder approval, provided the issue did not breach the 15% threshold in ASX Listing Rule 7.1. The effect of such ratification is to restore a company's maximum discretionary power to issue further securities up to 15% of the issued capital of the company without requiring shareholder approval.

ASX Listing Rule 7.1 requires shareholder approval to the proposed issuance of securities in the Company. ASX Listing Rule 7.1 broadly provides, subject to certain exceptions, that shareholder approval is required for any issuance of securities by a listed company, where the securities proposed to be issued represent more than 15% of the company's securities then on issue.

The conversion of the Offshore Notes into Offshore Conversion Shares is subject to Shareholder Approval. Resolution 4.3 seeks Shareholder approval to approve this right of conversion and to the issue of the Offshore Conversion Shares. "

The effect of such ratification is to restore a company's maximum discretionary power to issue further securities up to 15% of the issued capital of the company without requiring shareholder approval.

Approval of Anti-Dilution Provisions

Overview of Anti-Dilution Provisions

The anti-dilution provisions (the “**Anti-Dilution Provisions**”) may affect the conversion price of the U.S. Notes and Offshore Notes (collectively, the “**Offered Notes**”) under the following 4 scenarios in 2 categories:

1. 80% of Conversion Price

- (A) if within 24 months of the issue of the Offered Notes, common shares are issued at a price less than 80% of the conversion price,
- (B) if within 24 months of the issue of the Notes securities convertible or exchangeable for common shares or rights, warrants or options to purchase common shares or securities convertible or exchangeable for common shares, (collectively, “**Common Share Equivalents**”) pursuant to which the effective consideration for common shares issued thereunder is less than 80% of the conversion price

2. Less Than Market Price (20 Day VWAP)

- (C) if Common Share Equivalents are issued pursuant to which the effective consideration for common shares issued thereunder is less than the 20 day value weighted average price (“**VWAP**”) of the common shares on the TSX.
- (D) if common shares are issued at a price less than the 20 day VWAP on the TSX.

Details and Examples of Anti-Dilution Provisions

1. (A) 80% of Conversion Price – Common Shares

In the event the Company shall, at any time prior to the twenty-four (24) month anniversary of the issuance of the Offered Notes, issue or sell any additional Common Shares (other than pursuant to (a) any of the other Offered Notes (as hereinafter defined) or Offered Securities (as hereinafter defined) or (b) any Common Share Equivalents (as hereinafter defined) that have been granted or issued prior to the issuance date (“**Additional Common Shares**”), at a price per share that is less than eighty percent (80%) of the then applicable Conversion Price, then upon each such issuance or sale the Conversion Price shall be adjusted to that price (rounded to the nearest cent) determined by multiplying the Conversion Price in effect immediately prior to such issuance or sale by a fraction:

- (i) the numerator of which shall be equal to the sum of (x) the number of Common Shares outstanding immediately prior to the issuance or sale of such Additional Common Shares plus (y) the number of Common Shares (rounded to the nearest whole share) that the Aggregate Consideration (as hereinafter defined) for the total number of such Additional Common Shares so issued or sold would purchase at a price per share equal to the Conversion Price in effect immediately prior to such issuance or sale, and
- (ii) the denominator of which shall be equal to the number of Common Shares outstanding immediately after the issuance or sale of such Additional Common Shares.

Example 1

For example, assuming a conversion price of \$0.50 per share and that an issuer has 400,000,000 common shares issued and outstanding prior to the issuance of additional common shares and that such issuer will issue 100,000,000 common shares at a price of \$0.05 per share for an aggregate consideration of \$5,000,000 where the conversion price ratio, pursuant to the above calculation, is:

$$\begin{array}{lclclcl} \text{Numerator:} & x & = & 400,000,000 & & \\ & y & = & \$5,000,000 / \$0.50 & = & 10,000,000 \\ & x + y & = & 400,000,000 + 10,000,000 & = & 410,000,000 \\ \text{Denominator} & & = & 400,000,000 + 100,000,000 & = & 500,000,000 \\ \text{Conversion Price Ratio} & & = & 410,000,000 / 500,000,000 & = & 0.82 \end{array}$$

Accordingly, the new conversion price is \$0.41, being the product of the old conversion price of \$0.50 times the conversion ratio of 0.82.

Example 2

For example, assuming a conversion price of \$0.50 per share and that an issuer has 400,000,000 common shares issued and outstanding prior to the issuance of additional common shares and that such issuer will issue 12,500,000 common shares at a price of \$0.40 per share for an aggregate consideration of \$5,000,000 where the conversion price ratio, pursuant to the above calculation, is:

$$\begin{array}{lclclcl} \text{Numerator:} & x & = & 400,000,000 & & \\ & y & = & \$5,000,000 / \$0.50 & = & 10,000,000 \\ & x + y & = & 400,000,000 + 10,000,000 & = & 410,000,000 \\ \text{Denominator} & & = & 400,000,000 + 12,500,000 & = & 412,500,000 \\ \text{Conversion Price Ratio} & & = & 410,000,000 / 412,500,000 & = & 0.99 \end{array}$$

Accordingly, the new conversion price is \$0.50, being the product of the old conversion price of \$0.50 times the conversion ratio of 0.99, rounded to the nearest whole cent.

Definitions

The “**Aggregate Consideration**” for (a) any Additional Common Share that is issued or sold upon the exercise, exchange or conversion of any Common Share Equivalent shall equal the sum of (i) (A) the gross proceeds or other consideration payable to the Company in consideration for the grant or issuance of such Common Share Equivalent (or any Convertible Securities that were exercised or exchanged for, or converted into, such Common Share Equivalents) *divided by* (ii) the aggregate number of Common Shares that are issuable upon the direct or indirect exercise, exchange or conversion of such Common Share Equivalents *plus* (B) such additional amount (if any) as is payable to the Company in connection with the issuance or sale of such Additional Common Share or (b) any Additional Common Share that is issued or sold other than upon the exercise, exchange or conversion of any Common Share Equivalent shall equal the gross proceeds or other consideration payable to the Company in consideration for the grant or issuance of such Additional Common Shares.

As used herein, “**Offered Notes**” means, collectively, the U.S. Notes and the Offshore Notes, and “**Offered Securities**” means, collectively, the Offered Notes, the U.S. Vested Warrants, the Offshore Vested Warrants, the

U.S. Vesting Warrants, the Offshore Vesting Warrants, the U.S. Conversion Shares, the Offshore Conversion Shares, the U.S. Warrant Shares, the Offshore Warrant Shares, the Placement Agent's U.S. Warrants, the Placement Agent's Offshore Warrants, the Placement Agent's U.S. Warrant Shares and the Placement Agent's Offshore Warrant Shares.

Anti-Dilution Not Applicable in Certain Circumstances

The Anti-Dilution Adjustments to the Conversion Price of the Offered Notes will not apply where Additional Common Shares have already been issued pursuant to other anti-dilution adjustments provided for in the Offered Notes or there have already been adjustments the issuance or sale of any Additional Common Shares that are issued or sold pursuant to the exercise, exchange or conversion of any Common Share Equivalents if any such adjustment shall previously have been made upon the issuance or sale of such Common Share Equivalents pursuant to any other anti-dilution adjustments in number of Common Shares issuable upon the conversion of the Offered Notes (the "**Other Anti-Dilution Adjustments**") (ii) at any time after the issuance date of the Offered Notes and prior to the twenty-four (24) month anniversary of the initial closing date, issue or sell any securities (other than the Offered Notes and the other Offered Securities) that are convertible into or exchangeable for, directly or indirectly, Common Shares ("**Convertible Securities**"), or (b) any Common Share Equivalents shall be issued or sold.

1. (B) 80% of Conversion Price – Common Share Equivalents

If the Aggregate Consideration for which any Additional Common Share may be issuable pursuant to any such Common Share Equivalent shall be less than eighty percent (80%) of the applicable Conversion Price then in effect, or if, after any such issuance of Common Share Equivalents, the Aggregate Consideration for which any Additional Common Share may be issuable thereafter is amended or adjusted, and such Aggregate Consideration as so amended shall be less than eighty percent (80%) of the applicable Conversion Price in effect at the time of such amendment or adjustment, then the applicable Conversion Price upon each such issuance or amendment shall be adjusted as provided with respect to the issue of common shares described above.

Refer to the detailed disclosure of the anti-dilution provision and examples thereof set out above under the caption "1.A 80% of Conversion Price – Common Shares".

No adjustment shall be made to the Conversion Price upon the issuance of Common Shares pursuant to the exercise, conversion or exchange of any Convertible Security or Common Share Equivalent where an adjustment to the Conversion Price was made as a result of the issuance or purchase of such Convertible Security or Common Share Equivalent.

2. (C) Less Than 20 Day VWAP – Common Share Equivalents

In the event the Company shall, at any time after the twenty-four (24) month anniversary of the initial Closing Date, issue or sell any Common Share Equivalents that, upon the direct or indirect exercise, exchange or conversion thereof, would provide for the issuance or sale of Common Shares for Aggregate Consideration, on a per-share basis, that is less than the Prevailing Market Price of a Common Share (as hereinafter defined) on the date of the issuance or sale of such Common Share Equivalents, then upon each such issuance or sale the Conversion Price shall be adjusted pursuant to the following formula:

$$CP \text{ (New)} = CP \text{ (Old)} \times [A + (B/C)] \div (A + D)$$

where:

CP (New) = the Conversion Price immediately following such issuance or sale

CP (Old) = the Conversion Price immediately before such issuance or sale

A = the total number of Common Shares outstanding on the date of issuance or sale of such Common Share Equivalents

B = the Aggregate Consideration payable to the Company assuming the full exercise, exchange or conversion of all such Common Share Equivalents

C = the Prevailing Market Price of a Common Share on the date of such issuance or sale

D = the total number of additional of Common Shares issuable upon the full exercise, exchange or conversion of all such Common Share Equivalents

Example 1

For example, assuming a conversion price of \$0.50 per share and that an issuer has 400,000,000 common shares issued and outstanding prior to the issuance of additional common shares and that such issuer will issue 100,000,000 convertible notes at a conversion price of \$0.05 per share for an aggregate consideration of \$5,000,000 where the prevailing market price of a common share is \$0.07 and the conversion price ratio, pursuant to the above calculation, is:

Numerator:	x	=	400,000,000		
	y	=	\$5,000,000 / \$0.50	=	10,000,000
	x + y	=	400,000,000 + 10,000,000	=	410,000,000
Denominator		=	400,000,000 + 100,000,000	=	500,000,000
Conversion Price Ratio		=	410,000,000 / 500,000,000	=	0.82

Accordingly, the new conversion price is \$0.41, being the product of the old conversion price of \$0.50 times the conversion ratio of 0.82.

Example 2

For example, assuming a conversion price of \$0.50 per share and that an issuer has 400,000,000 common shares issued and outstanding prior to the issuance of additional common shares and that such issuer will issue 12,500,000 convertible notes at a conversion price of \$0.40 per share for an aggregate consideration of \$5,000,000 where the prevailing market price of a common share is \$0.45 and the conversion price ratio, pursuant to the above calculation, is:

Numerator:	x	=	400,000,000		
	y	=	\$5,000,000 / \$0.50	=	10,000,000
	x + y	=	400,000,000 + 10,000,000	=	410,000,000
Denominator		=	400,000,000 + 12,500,000	=	412,500,000
Conversion Price Ratio		=	410,000,000 / 412,500,000	=	0.99

Accordingly, the new conversion price is \$0.50, being the product of the old conversion price of \$0.50 times the conversion ratio of 0.99.

2. (D) Less Than 20 Day VWAP – Common Shares

In the event (I) the Company shall hereafter issue or sell any Common Shares (other than on account of or in connection with any direct or indirect exercise, exchange or conversion of any Common Share Equivalents) at a per-share price that is less than the Prevailing Market Price of a Common Share on the date of such issuance or sale and (II) the Company has been required pursuant to any rules of the TSX to obtain approval of such issuance or sale as a consequence of such issuance or sale being at a per-share price less than the Prevailing Market Price of a Common Share on the date of such issuance or sale, then upon each such issuance or sale the Conversion Price shall be adjusted pursuant to the following formula:

$$CP (\text{New}) = CP (\text{Old}) \times [A + (B/C)] \div (A + D)$$

where:

CP (New) = the Conversion Price immediately following such issuance or sale

CP (Old) = the Conversion Price immediately before such issuance or sale

A = the total number of Common Shares outstanding on the date of issuance or sale of such Common Shares

B = the Aggregate Consideration payable to the Company for all of such Common Shares that are so issued or sold

C = the Prevailing Market Price of a Common Share on the date of such issuance or sale

D = the total number of Common Shares so issued or sold

Example 1

For example, assuming a conversion price of \$0.50 per share and that an issuer has 400,000,000 common shares issued and outstanding prior to the issuance of additional common shares and that such issuer will issue 100,000,000 common shares at a price of \$0.05 per share for an aggregate consideration of \$5,000,000 where the prevailing market price of a common share is \$0.10 and the conversion price ratio, pursuant to the above calculation, is:

Numerator:	x	=	400,000,000		
	y	=	\$5,000,000 / \$0.50	=	10,000,000
	x + y	=	400,000,000 + 10,000,000	=	410,000,000
Denominator		=	400,000,000 + 100,000,000	=	500,000,000
Conversion Price Ratio		=	410,000,000 / 500,000,000	=	0.82

Accordingly, the new conversion price is \$0.41, being the product of the old conversion price of \$0.50 times the conversion ratio of 0.82.

Example 2

For example, assuming a conversion price of \$0.50 per share and that an issuer has 400,000,000 common shares issued and outstanding prior to the issuance of additional common shares and that such issuer will issue 20,000,000

common shares at a price of \$0.25 per share for an aggregate consideration of \$5,000,000 where the prevailing market price of a common share is \$0.45 and the conversion price ratio, pursuant to the above calculation, is:

Numerator:	x	=	400,000,000		
	y	=	\$5,000,000 / \$0.50	=	10,000,000
	x + y	=	400,000,000 + 10,000,000	=	410,000,000
Denominator		=	400,000,000 + 20,000,000	=	420,000,000
Conversion Price Ratio		=	410,000,000 / 420,000,000	=	0.98

Accordingly, the new conversion price is \$0.49, being the product of the old conversion price of \$0.50 times the conversion ratio of 0.8.

At the Meeting, the Shareholders will be asked to pass on ordinary resolution approving the Anti-Dilution Provisions, such resolution to be substantially in the following form:

 - (a) within 24 months of the issue of the Offered Notes:
 - (i) common shares of the Company are issued at a price of less than 80% of the conversion price; or
 - (ii) securities convertible or exchangeable for common shares or rights, warrants or options to purchase common shares or securities convertible or exchangeable for common shares, (collectively, “**Common Share Equivalents**”) pursuant to which the effective consideration for common shares issued thereunder is less than 80% of the conversion price; or
 - (d) Common Share Equivalents are issued pursuant to which the effective consideration for common shares issued thereunder is less than the 20 day value weighted average price (“**VWAP**”) of the common shares on the TSX; or
 - (e) common shares are issued at a price less than the 20 day VWAP on the TSX,

whereby the new conversion price may be lower than the market price at the time of the issuance of the U.S. Units and the Offshore Units less the maximum allowable discount provided in the TSX Company Manual.

For the purposes of the above, the Company will disregard any votes cast on the foregoing resolution by any person who may participate in the proposed issue, and any person who might obtain a benefit, except a benefit solely in the capacity of a holder of ordinary securities, if Resolution 4.3 is passed, and any person associated with those persons. However, the Company need not disregard a vote if the vote is cast by a person as proxy for a person who is entitled to vote, in accordance with the directions on the proxy form or the vote is cast by the person chairing the meeting as proxy for a person who is entitled to vote, in accordance with a direction on the proxy form to vote as the proxy decides.

Ratification of Securities Issued in March Private Placement

On 22 March 2011, the Company announced that it had entered into a mandate with Patersons Securities Limited (“**Patersons**”), a full service stock broking firm in Australia, pursuant to which Patersons agreed to act as lead manager for a placement of up to 42,000,000 common shares in the form of CHESS Depository Interests (“**CDIs**”) in the company (“**Mandate**”). It was agreed under the Mandate that the CDIs would be issued to sophisticated and institutional investors of Patersons under the Company’s existing 15% placement capacity under ASX Listing Rule 7.1.

On 28 March 2011, the Company announced that it had entered into a separate arrangement for the issue of convertible notes in the Company, and accordingly, would not be raising the full amount under the Mandate. Under the Mandate 14,000,000 CDIs were issued at an issue price of AUD\$0.40 raising AUD\$5,600,000. The Company paid Patersons a capital raising fee of 5%.

ASX Listing Rule 7.4 permits the ratification of previous issues of securities made without prior shareholder approval provided the issue did not breach the 15% threshold under ASX Listing Rule 7.1. The effect of such ratification is to restore a company’s maximum discretionary power to issue further securities up to 15% of the issued capital of the company without requiring further shareholder approval.

The Directors are seeking ratification under ASX Listing Rule 7.4 for the issue of 14,000,000 common shares in the Company to sophisticated and institutional clients of Patersons in order to restore the right of the Company to issue further securities within the 15% limit during the next 12 months.

The following information is provided to Shareholders for the purposes of ASX Listing Rule 7.5:

- (a) 14,000,000 common shares in the form of CDIs were issued and allotted;
- (b) the CDIs were issued at an issue price of AUD\$0.40 each;
- (c) the shares underlying the CDIs issued rank equally in all respects with the Company’s existing issued common shares. Further information on CDIs generally is provided on page 3 of this Management Information Circular;
- (d) the CDIs were issued to sophisticated and institutional clients of Patersons Securities Limited, none of whom are related to the Company;
- (e) funds raised from the issue of the CDIs were and will be used to progress the Company’s exploration program and for general working capital.

If the consultant or advisor has been retained to perform any other work for the issuer, state that fact and briefly describe the nature of the work.	(c) The Compensation Committee's primary responsibility is to make recommendations for approval by the Board regarding remuneration of directors and executive officers. The Compensation Committee meets as required but at least twice per year to review and set remuneration. (d) N/A

SCHEDULE “B”

OLYMPUS PACIFIC MINERALS INC. (THE “COMPANY”)

BOARD MANDATE

The Board of Directors (the “**Board**”) of Olympus Pacific Minerals Inc. (the “**Company**”) shall have the oversight responsibility, authority and specific duties as described below.

Under the Canada Business Corporations Act, the directors of the Company are required to manage, or supervise the management of, the Company’s business and affairs, and in doing so to act honestly and in good faith with a view to the best interests of the Company. In addition, each director must exercise the care, diligence and skill that a reasonably prudent person would exercise in comparable circumstances.

The Board is responsible for supervising the conduct of the Company’s affairs and the management of its business. This includes setting long term goals and objectives for the Company, formulating the plans and strategies necessary to achieve those objectives and supervising senior management in their implementation. Although the Board delegates the responsibility for managing the day to day affairs of the Company to senior management personnel, the Board retains a supervisory role in respect of, and ultimate responsibility for, all matters relating to the Company and its business.

The Board needs to be satisfied that the Company’s senior management will manage the affairs of the Company in the best interest of the Shareholders, and that the arrangements made for the management of the Company’s business and affairs are consistent with the Board’s duties described above. The Board is responsible for protecting Shareholder interests and ensuring that the interests of the Shareholders and of management are aligned. The obligations of the Board must be performed continuously, and not merely from time to time, and in times of crisis or emergency the Board may have to assume a more direct role in managing the affairs of the Company.

In discharging this responsibility, the Board oversees and monitors significant corporate plans and strategic initiatives. The Board’s strategic planning process includes annual and quarterly budget reviews and approvals, and discussions with management relating to strategic and budgetary issues. At least one meeting per year is to be devoted substantially to a review of strategic plans proposed by management.

The Board reviews the principal risks inherent in the Company’s business, including financial risks, through periodic reports from management of such risks. This review takes place in conjunction with the Board’s review of operations and risk issues at each Board meeting, at which time the Board assesses the systems established to manage those risks. Directly and through the Audit Committee, the Board also assesses the integrity of the internal financial control and management information systems.

In addition to those matters that must, by law, be approved by the Board, the Board is required to approve annual operating and capital budgets, any material dispositions, acquisitions and investments outside of the ordinary course of business or not provided for in the approved budgets, long-term strategy, organizational development plans and the appointment of senior executive officers. Management is authorized to act, without Board approval, on all ordinary course matters relating to the Company’s business.

The Board also expects management to provide the directors on a timely basis with information concerning the business and affairs of the Company, including financial and operating information and information concerning industry developments as they occur, all with a view to enabling the Board to discharge its stewardship obligations effectively. The Board expects management to efficiently implement its strategic plans for the Company, to keep the Board fully apprised of its progress in doing so and to be fully accountable to the Board in respect to all matters for which it has been assigned responsibility.

The Board has instructed management to maintain procedures to monitor and promptly address Shareholder concerns and has directed and will continue to direct management to apprise the Board of any major concerns expressed by Shareholders.

Each Committee of the Board is empowered to engage external advisors as it sees fit. Any individual director is entitled to engage an outsider advisor at the expense of the Company provided such director has obtained the approval of the Corporate Governance and Nominating Committee to do so.

The roles of each of the Chairman and the Chief Executive Officer will be as set forth in position statements as may be established by the Board from time to time.

This Mandate will be reviewed periodically by the Board of the Company and supplemented as required from time to time.
