COMPANY ANNOUNCEMENT 25th November 2011

ACT PROJECTS PROVIDE BOOST FOR PROMADIS

Prophecy International Holdings group company Promadis Pty Ltd is very pleased to announce two major projects awarded by the Australian Capital Territory (ACT).

The Births Deaths and Marriages Registry of (ACT) has signed for a major upgrade of its Promadis-supplied Registry software system.

A Promadis user for over 10 years, the Registry is part of the ACT's Office of Regulatory Services. This latest IT enhancement provides increased agility to the system moving forward. With the revised database and enhanced user functionality, the Office of Regulatory Services is able to add additional features as and when they are required.

"It is inevitable that, over time, relevant legislation will continue to change, often with minimal notice. And it is vital that the agency is able to respond effectively and efficiently", says Promadis CEO Darren Shaw.

"The software is also pivotal in ensuring the accuracy and reliability of all data as well as guaranteeing its safety and integrity."

"With this latest upgrade, the ACT will maintain its position as a leading registry in Australia" Mr Shaw adds.

The Promadis Registry software is also used by South Australia, the Northern Territory and the country of Nauru. There have been an increasing number of enquiries from our region and it is expected that our solution will expand further into overseas markets in the next 12 months.

...../2

The Australian Capital Territory's Office of Regulatory Services (ORS) has also commissioned Promadis to develop and supply a specialist Workplace Checking software module.

The new system is to support recently enacted legislation that is designed to help screen those people working in areas with children or vulnerable people.

The ORS charter includes responsibility for regulatory and support services that aim to protect the public interest in a wide range of key areas such as worker safety, driver and vehicle licensing, identity security, title guarantee, fair trading and consumer protection.

It also regulates many industries, occupations and activities that cover a wide range of businesses, single traders and employees in the ACT.

The new contracts with the ACT are worth over \$500k and represent a major endorsement of the Promadis product set and capability.

Ed Reynolds
Chairman
