Steamships Trading Company Limited and Subsidiary Companies

## 1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The Company is a company limited by shares and is incorporated and domiciled in Papua New Guinea.

These group consolidated financial statements were authorised for issue by the Board of Directors on 31 March 2011.

The Board of Directors have the power to amend the financial statements after its issue.

The financial statements have been prepared in accordance with International Financial Reporting Standards ("IFRS").

#### Changes in accounting policy and disclosures

New and amended standards adopted by the Group

The following new standards and amendments to standards are mandatory for the first time for the financial year beginning 1 January 2010.

IFRS 3 (revised), 'Business combinations. The revised standard continues to apply the acquisition method to business combinations but with some significant changes compared with IFRS 3. For example, all payments to purchase a business are recorded at fair value at the acquisition date, with contingent payments classified as debt subsequently remeasured through the statement of comprehensive income. There is a choice on an acquisition-by-acquisition basis to measure the non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. All acquisition-related costs are expensed.

IAS 27 (revised) requires the effects of all transactions with non-controlling interests to be recorded in equity if there is

no change in control and these transactions will no longer result in goodwill or gains and losses. The standard also specifies the accounting when control is lost. Any remaining interest in the entity is re-measured to fair value, and a gain or loss is recognised in profit or loss.

IAS 1 (amendment), 'Presentation of financial statements'. The amendment clarifies that the potential settlement of a liability by the issue of equity is not relevant to its classification as current or non current. By amending the definition of current liability, the amendment permits a liability to be classified as non-current (provided that the entity has an unconditional right to defer settlement by transfer of cash or other assets for at least 12 months after the accounting period) notwithstanding the fact that the entity could be required by the counterparty to settle in shares at any time.

IFRS 5 (amendment), 'Measurement of non-current assets (or disposal groups) classified as held-for-sale'. The amendment is part of the IASB's annual improvements project published in April 2009. The amendment provides clarification that IFRS 5 specifies the disclosures required in respect of non-current assets (or disposal groups) classified as held for sale or discontinued operations. It also clarifies that the general requirements of IAS 1 still apply, particularly paragraph 15 (to achieve a fair presentation) and paragraph 125 (sources of estimation uncertainty) of IAS 1.

The following standards and amendments to existing standards have been published and are mandatory for the group's accounting periods beginning on or after 1 January 2011 or later periods, but the group has not early adopted them.

- Improvements to IFRSs 2010 effective 1 July 2010
- IAS 24 (revised), 'Related party disclosures' effective 1 January 2011
- Amendments to IFRS 7: Disclosures Transfers of Financial Assets and consequential amendment to IFRS 1: 'First time adoption of IFRS' - effective 1 July 2011

## Steamships Trading Company Limited and Subsidiary Companies

- Revised IFRS 9, 'Financial Instruments' effective 1 January 2013
- Amendment to IAS 12, 'Deferred tax Recovery of underlying assets' - effective 1 January 2012

The Company has conducted investigations and does not consider that there are any measurement or recognition issues arising from the release of these new pronouncements that will have a significant impact on the reported financial position or financial performance of the company.

#### (a) Basis of preparation

The accounts have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates, refer to note 1(y). It also requires management to exercise its judgement in the process of applying the Company's accounting policies.

#### (b) Principles of consolidation

The consolidated accounts incorporate the assets and liabilities of all companies controlled by the Group as at the end of the reporting period and the results of all controlled companies for the year then ended. All inter-group transactions and balances have been eliminated. Non-controlling interests in controlled companies are shown separately in the consolidated statement of financial position and statement of comprehensive income. Interests in joint ventures and associates in which the Group holds 20%-50% or more of the issued share capital, and hold significant influence are accounted for under the equity method. Interests in subsidiaries, joint ventures, and associates are carried at cost by the parent entity.

#### (c) Business combinations

The acquisition method of accounting is used to account for all business combinations, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the group. The consideration transferred also includes the fair value of any asset or liability resulting from a contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the group's share of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

#### (d) Property, plant and equipment

All property, plant and equipment (including investment properties) are initially recorded at cost. Depreciation is calculated on the straight-line method to write off the cost of each asset to their residual values over their estimated useful life as follows:

Properties	0 - 10%
Ships	5 - 10%
Plant and fittings	10 - 33%
Motor vehicles	20 - 33%

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount. Gains and losses on disposal of property, plant and equipment are determined by reference to their carrying amount and are taken into account in determining operating profit.

# Steamships Trading Company Limited and Subsidiary Companies

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are charged to the statements of comprehensive income during the financial period in which they are incurred.

#### (e) Inventories

Inventories are valued at the lower of cost or net realisable value. In general, cost is determined on the weighted average basis and, where appropriate, includes a proportion of variable overhead expenditure. Net realisable value is the estimated selling price in the ordinary course of business, less applicable variable selling costs.

#### (f) Income tax

The income tax expense or revenue for the period is the tax payable on the current period's taxable income based on the notional income tax rate adjusted by changes in deferred tax assets and liabilities attributable to temporary differences between the tax bases of assets and liabilities and their carrying amounts in the financial statements, and to unused tax losses.

Deferred income tax is provided in full, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Currently enacted tax rates are used in the determination of deferred income tax. Deferred tax assets are recognised to the extent that it is probable that the future taxable profit will be available, against which the temporary differences can be utilised.

#### (g) Provisions

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is probable that an outflow of resource embodying economic benefits will be required to settle the obligation; and a reliable estimate of the amount of the obligation can be made.

A liability for annual leave is recognised and measured at the amount of unpaid leave at amounts expected to be paid to settle the present entitlements. A liability for long service leave is recognised taking into consideration expected future wage and salary levels, experience of employee departures and periods of service, discounted to present values.

A provision for estimated ship dry docking costs is only recognised where the Group has a contractual obligation under a long-term charter agreement to a third party. Dry docking costs relating to ships not under third party long term charter agreements are only recognised as incurred, and are capitalised to the extent that the previously assessed economic benefits associated with the asset are restored.

#### (h) Foreign currency

The Company's functional and presentation currency is the Papua New Guinea Kina. Transactions in foreign currencies have been translated into the functional currency at rates ruling at the date of the transaction. Amounts payable to and by the Group in foreign currencies have been translated to the functional currency at rates of exchange ruling at the year end. Gains and losses arising from movements in foreign exchange rates are recognised in the Statement of Comprehensive Income when they arise.

#### (i) Goodwill

Goodwill represents the excess of the cost of an acquisition over the fair value of the Group's share of the net identifiable assets of the acquired business at the date of acquisition.

Goodwill is capitalised and assessed for impairment annually or more frequently if events or changes in circumstances indicate that it might be impaired and is carried at cost less impairment losses.

Gains and losses on the disposal of an entity include the carrying amount of goodwill relating to the entity sold. Goodwill is allocated to cash-generating units for the purpose of impairment testing.

## Steamships Trading Company Limited and Subsidiary Companies

#### (j) Cash and cash equivalents

For the purpose of the Statement of Cash Flows, cash includes deposits at call and Treasury bills with a maturity less than 90 days, net of outstanding bank overdrafts.

#### (k) Revenue recognition

The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for each of the group's activities as described below. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement. Revenue is recognised for the major business activities as follows:

**Sale of goods** - Revenue from the sale of goods is recognised when a Group entity sells a product to the customer.

**Services** - Service revenue is recognised when the service has been rendered.

**Interest income** - Interest income is recognised using the effective interest method.

**Dividend income** - Dividends are recognised as revenue when the right to receive payment is established.

**Consulting** - Sales of consulting services are recognised in the accounting period in which the services are rendered. For fixed-price contracts, revenue is recognised under the percentage of completion method.

#### (I) Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for any uncollectable debts. A provision for doubtful receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of receivables.

#### (m) Borrowings

Borrowings are recognised initially at fair value, net of any transaction costs incurred, and are subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the end of reporting period.

#### (n) Changes in accounting policies and comparatives

Where necessary, comparative figures have been adjusted to conform with changes in presentation and accounting policies in the current year.

#### (o) Impairment of assets

Assets that have an indefinite useful life are not subject to amortisation and are tested annually for impairment. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying value exceeds its fair value less costs to sell. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flow (cash generating units).

#### (p) Borrowing cost

Borrowing cost incurred for the construction of any qualifying asset are capitalised during the period of time that is required to complete and prepare the asset for its intended use or sale. Other borrowing costs are expensed.

The capitalisation rate used to determine the amount of borrowing costs to be capitalised is the weighted average interest rate applicable to the entity's outstanding borrowings during the year, in this case 7.25% (2009 - 8.2%).

#### (q) Segment reporting

The Group has adopted IFRS 8 Operating Segments" from 1 January 2010. IFRS 8 replaces IAS 14 Segment Reporting.

## Steamships Trading Company Limited and Subsidiary Companies

The new standard requires a 'management approach', under which segment information is presented on the same basis as that used for internal reporting purposes. This has resulted in a decrease in the number of reportable segments presented. In addition, the segments are reported in a manner that is consistent with the internal reporting provided to the chief operating decision maker.

#### (r) Dividends

Provision is made for the amount of any dividend declared on or before the end of the financial year but not distributed at balance date. The Group creates a separate category within equity to recognise amounts set aside for payment of dividends that are declared post-year end but before the issue of the Annual Report.

#### (s) Earnings per share

Basic earning per share is calculated by dividing the profit attributable to equity holders of the Group, by the weighted average number of ordinary shares outstanding during the financial year. There are no potential ordinary shares on issue and hence the diluted earning per share is equal to the basic earnings per share.

# (t) Critical judgments in applying the entity's accounting policies

Judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

#### (u) Trade and other payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and are usually paid within 30 days of recognition.

#### (v) Goods and services tax (GST)

Revenues, expenses and assets are recognised net of the

amount of associated GST. Receivables and payables are stated inclusive of GST. The amount of GST recoverable from, or payable to, the Taxation authority is included with other receivables or payables in the balance sheet.

#### (w) Financial assets

#### Classification

The Group classifies its financial assets in the following categories: at fair value through profit or loss and loans and receivables. The Group does not hold any held to maturity investments or available for sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition.

## (i) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets held for trading. A financial asset is classified in this category if acquired principally for the purpose of selling in the short-term. Derivatives are also categorised as held for trading unless they are designated as hedges. Assets in this category are classified as current assets.

#### (ii) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. The Group's loans and receivables comprise 'trade and other receivables' and cash and cash equivalents in the balance sheet.

#### **Recognition and measurement**

Regular purchases and sales of financial assets are recognised on the trade date - the date on which the Group commits to purchase or sell the asset.

Financial assets carried at fair value through profit or loss are initially recognised at fair value, and transaction costs are expensed in the income statement. Financial assets are derecognised when the rights to receive cash flows from

## Steamships Trading Company Limited and Subsidiary Companies

the investments have expired or have been transferred and the Group has transferred substantially all risks and rewards of ownership. Loans and receivables are carried at amortised cost using the effective interest method.

Gains or losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the income statement within 'other (losses)/gains - net' in the period in which they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the income statement as part of other income when the Group's right to receive payments is established.

The Group assesses at each balance sheet date whether there is objective evidence that a financial asset or a group of financial assets is impaired. Impairment testing of trade receivables is described in note 1(l).

#### (x) Rounding of amounts

Amounts in the financial statements have been rounded off to the nearest thousand kina.

#### (y) Critical accounting estimates and assumptions

The Group makes estimates and assumptions concerning the future. The resulting accounting estimates will, by definition, seldom equal the related actual results. The estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

#### (i) Estimated impairment of goodwill

The Group tests annually whether goodwill has suffered any impairment. The recoverable amounts of cash-generating units have been determined based on value-in-use calculations.

#### (ii) Estimated fair values of investments

The Group carries an indirect investment in

Bemobile Ltd at fair value with changes in the fair values recognised in profit or loss. At the end of each reporting period, a future maintainable earnings calculation is performed to determine the appropriate fair value of the investment.

#### (iii) Provision for Dry Docking

For vessels on long term charter contracts, the cost of future dry docking is provided. The cost of dry docking is not accurately known until the vessels are surveyed and assessed at the commencement of docking. Management have made estimates based on the dry docking interval (ie Special or Interim), repairs identified at balance, its age, and docking history. Docking intervals are assumed to be 30 month periods.

Docking costs are often incurred in either AUD, USD or SGD currencies. The costings are updated monthly for the foreign exchange rate.

#### 2. FINANCIAL RISK MANAGEMENT

The Group's activities expose it to a variety of financial risks including market risk (including currency, and interest rate risk), credit risk, liquidity risk and capital risk. The Group's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the financial performance of the Group. Risk management is carried out under policies approved by the Board of Directors.

#### (a) Market risk

#### (i) Foreign exchange risk

The Group engages in international purchase transactions and is exposed to foreign exchange risk arising from various currency exposures, primarily with respect to the Australian dollar. Foreign exchange risk arises from recognised assets and liabilities.

The Group's foreign currency purchases do not represent a significant proportion of the Group's costs and as such exposure to foreign currency risk is minimal. It is not the Group's policy to hedge foreign currency risk. As the foreign currency exposure is minimal no sensitivity analysis is provided.

# Steamships Trading Company Limited and Subsidiary Companies

#### (ii) Price risk

The Group is not significantly exposed to equity securities or commodities price risk.

#### (iii) Cash flow interest rate risk

The Group's interest rate risk arises from long-term borrowings. Borrowings issued at variable rates expose the Group to cash flow and fair value interest rate risk. Borrowings issued at fixed rates expose the Group to fair value interest rate risk. Long term borrowings are at a fixed rate of interest. It is not the Group's policy to hedge cash flow and interest rate risk.

At 31 December 2010, if interest rates on PNG kinadenominated borrowings had been 1.0% higher/lower with all other variables held constant, post-tax profit for the year would have been five hundred and six thousand kina (2009: three hundred and forty thousand) lower/higher, mainly as a result of higher/lower interest expense on floating rate borrowings.

#### (b) Credit risk

The Group has no significant concentration of credit risk and it is not the Group's policy to hedge credit risk. The Group has policies in place to ensure that sales of products and services are made to customers with an appropriate credit history and has policies that limit the amount of credit exposure to any one customer. No credit limits were exceeded during the reporting period and management does not expect any losses from non-performance by counterparties.

#### (c) Liquidity risk

Prudent liquidity risk management implies maintaining sufficient cash and the availability of funding through an adequate amount of committed credit facilities. The Group manages liquidity risk by maintaining sufficient bank balances to fund its operations and the availability of funding through committed credit facilities. Management monitors rolling forecasts of the Group's liquidity reserve on the basis of expected cash flows.

Undrawn finance facilities as of 31 December 2010 is as follows:

	2010	2009
	K'000	K'000
Undrawn Facilities	182,944	163,871

The table below analyses the Group's financial liabilities which will be settled on a net basis into relevant maturity groupings based on the remaining period at the balance sheet date to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows.

	Less than 1year	Between 1 & 2 years	Between 2 & 5 years	Over 5years
	K'000	K'000	K'000	K'000
At 31 December 201	0			
Borrowings	(75,212)	(29,595)	(266,895) (	111,389)
Trade & other payables	(125,111)	-	-	-
At 31 December 2009				
Borrowings	(34,050)	-	(243,168)	-
Trade & other payables	(94,792)	-	-	-

The Group does not hold derivative financial instruments.

#### (d) Capital risk management

The Group's objectives when managing capital are to safeguard the Group's ability to continue as a going concern in order to provide returns to shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital.

In order to maintain or adjust the capital structure, the Group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

## Steamships Trading Company Limited and Subsidiary Companies

The Group monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total equity. Net debt is calculated as external borrowings less cash and cash equivalents net of bank overdrafts. Total capital is calculated as "equity" as shown in the balance sheet plus net debt.

The gearing ratios at each balance date were as follows:

	2010 K'000	2009 K'000
Total external borrowing	376,993	277,218
Less: cash & cash equivalents	3,644	2,690
Net debt	373,349	274,528
Total equity	452,357	378,083
Issued capital	24,200	24,200
Gearing ratio	83%	73%

The higher gearing ratio in 2010 resulted primarily from additional debt to fund the capital works being undertaken.

#### (e) Fair value estimation

IFRS 7 "Financial Instruments: Disclosures" requires disclosure of fair value measurements by level of the following fair value measurement hierarchy:

Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1).

Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (that is, as prices) or indirectly (that is, derived from prices) (level 2).

Inputs for the asset or liability that are not based on observable market data (that is, unobservable inputs) (level 3).

The following table presents the Group's assets and liabilities that are measured at fair value at 31 December 2010.

	Level 1 K'000	Level 2 K'000	Level 3 K'000
Assets			
Financial Assets at			
Fair Value through			
profit & loss:	-	-	52,583
Total Assets:	-	-	52,583

#### 5. Segmental reporting

#### (a) Description of segments

The Managing Director considers the business from both a product and a geographic perspective and has identified four reportable segments. A brief description of each segment is outlined below;

- Commercial consists of the retail arm of the group and is involved in the manufacture and distribution of food products
   and general IT retail sales.
- Hotels and Property- consists of the hotels owned and operated by the Company and also its property leasing division.
   The assets are stated at book value.
- Logistics- consists of shipping and land based freight transport divisons.
- Finance and Investment consists of the head office administration function and internal property development projects prior to the transfer to the hotel and property segment.

#### (b) Segment information

The segment information provided to the Managing Director for the reportable segments for the year ended 31 December 2010 is as follows:

	Commercial Division	Hotels & Property	Logistics	Finance & Investment	Total
	K'000	K'000	K'000	K'000	K'000
2010					
External Revenue	227,426	175,155	390,879	-	793,460

Included in the 'Property' classification at 31 December 2010 are buildings under construction of K211.3M (2009: K96.1M). The cost of additions in 2010 includes capitalised borrowing costs of K7.9M (2009: K4.3) in relation to qualifying assets.

#### **Steamships Trading Company Limited and Subsidiary Companies**

#### 8. Property, Plant & Equipment (continued)

Properties include commercial properties occupied by Group businesses together with commercial and residential investment property which are available for external lease. An analysis of the carrying amount and estimated range of fair values for each category of property is shown below. Fair values have been estimated internally, based on market evidence of property values, supported by independent professional valuations as at December 2010 for a selected sample of representative properties.

Included in Properties are the following:

included in Properties are the following.	NBV	Valuatio	tion Range	
		Lower	Higher	
	K'000	K'000	K'000	
Commercial Internal	30,799	96,472	111,613	
Commercial External	385,875	972,647	1,120,769	
Residential	33,814	193,205	214,670	
Total	450,488	1,262,324	1,447,052	

The independent valuer utilised certain historical facts and relevant market data available up to the date of valuation in reaching their opinion to the valuation of the properties.

Additions	-	9,605	-	-
Impairment	-	-	-	-
Closing net book amount	17,183	17,183	-	-

#### Impairment tests for goodwill

Goodwill is allocated to the Group's cash-generating units (CGUs) identified according to operating segment. The goodwill balance of K17.2M (2009: K17.2M) is attributable to Datec (K 9.1m), Consort (K 0.5m) and the Manufacturing division (K 7.5m). The recoverable amount of a CGU is determined based on value-in-use calculations. These calculations use pre-tax cash flow projections based on financial budgets approved by management covering a five-year period. Growth beyond year five for the purpose of the impairment testing is set at 0%. A pre-tax discount rate of 12.8% has been used and reflects specific risks relating to the operating segment. No goodwill is considered to be impaired as at 31 December 2010.

#### 11. Inventories

External loans	-	1,844	-	-
	177,548	117,528	1,562	1,327

#### (i) Impaired trade receivables

As at 31 December 2010, trade receivables of K3.6 million (2009: K2.9 million) relating to trade debtors were considered impaired and were provided for by management. The ageing of these receivables is as follows:

3 to 6 months	1,511	1,121	-	-
Over 6 months	2,071	1,740	-	-
	3,582	2,861	-	-
Movement in the provision for impairment of trac Opening balance	le receivables is as follows: <b>2,861</b>	3,048	-	_
Provision for receivables impaired		,		
riovision for receivables in parleu	721	(187)	-	-

The creating and releasing of provision for impaired receivables is included in administration costs in the income statement. Amounts charged to the allowance account are generally written off when there is no expectation of recovering additional cash.

#### (ii) Past due but not impaired

As at 31 December 2010, trade receivables of K7.1 million (2009: K4.2 million) were past due but not impaired. These relate to a number of independent customers for whom there is no recent history of default. The ageing analysis of these trade receivables are as follows:

3 to 6 months	7,062	4,207	-	-
Over 6 months	-	-	-	-
	7,062	4,207	-	-

The other classes within trade and other receivables do not contain impaired assets. The maximum exposure to credit risk at the reporting date is the fair value of each class of receivable mentioned above. The Group does not hold any collateral as security.

#### (b) Financial asset held at fair value through the profit and loss

Opening balance	48,822	40,614	-	-
Additional investment	11,827	8,208	-	-
Fair value loss recorded in the profit and loss	(8,066)	-	-	-
Closing Balance	52,583	48,822	-	-

The financial asset is a convertible note in GEMS PNG Limited, which holds an investment in Bemobile Ltd.

#### Steamships Trading Company Limited and Subsidiary Companies

#### 13. Provisions for other liabilities and charges

	Employee	Dry Dock	Other	2010	2009

#### 17. Retirement benefit plans

The total cost of retirement benefits of the Group in 2010 was K7,380,000 (2009: K5,229,000). The Group participates in the National Superannuation Fund of Papua New Guinea, a multi-employer defined contribution fund, on behalf of all citizen employees with minimum employer and employee contribution rates established by legislation. The Group also contributes to a defined contribution superannuation plan on behalf of senior management. The defined contribution superannuation plan was established in 2002.

The Holding Company does not employ staff directly; consequently there was no charge during the year

#### **Steamships Trading Company Limited and Subsidiary Companies**

#### 18. Contingent assets and liabilities

#### **Contingent Liabilities**

There were contingent liabilities at the Balance Sheet date as follows:

- (a) The Holding Company has given a secured guarantee in respect of the bank overdrafts of certain subsidiaries.
- (b) The Holding Company has given letters of continuing financial support in respect of certain subsidiaries, associates and joint ventures.

No losses are anticipated in respect of these guarantees.

#### 19. Subsidiary companies

The consolidated financial statements incorporate the assets, liabilities and results of the following subsidiaries in accordance with the accounting policy described in Note 1 (b):

Name of Entity	Country of Incorporation	Class of Shares	Equity Holdings* 2010	Equity Holdings* 2009

#### **21. Business Combinations**

There were no business combination in 2010.

#### 2009

#### (a) Summary of acquisitions

On 27th April 2009, the Group concluded a share purchase transaction that saw the Company attain 100% control of the share capital of Datec (PNG) Limited (previously 50%). On the 16th of November 2009, the Group increased its shareholding in Consort Express Lines Limited to 51% (previously 33%). The total purchase price of K23,975,000 was settled in cash on acquisition.

Datec contributed revenues of K54,873,292 and net profit of K6,288,440 to the Group for the period 1 May 2009 to 31 December 2009. Consort attributed revenues of K3,324,678 and profit of K234,354 to the Group for the period 1 December 2009 to 31 December 2009. If both acquisitions had occurred on 1 January 2009, consolidated revenue and profit would have been K86,445,661 and K8,005,118 for Datec and K63,556,251 and K9,469,066 for Consort before minority interests respectively.

| Steamships Trading Company Limited | Annual Report 2010 |

#### **Steamships Trading Company Limited and Subsidiary Companies**

#### 21. Business Combinations (continued)

#### (c) Assets and liabilities acquired (continued)

The goodwill of Datec is attributable to the customer base and business presence the company maintains in its market as well as the service agreements the company fulfills on an ongoing basis.

The goodwill of Consort is attributable to the customer base, the asset base and the strategic complement to the Steamships shipping and transport business in Papua New Guinea.

The fair value of the assets and liabilities acquired are based on the carrying values at the time of acquisition.

#### 22. Subsequent events

On 24 February 2011 the Directors declared a final dividend of 50 toea per share to be payable immediately after the Annual General Meeting on 24 May 2011. The gross dividend of K15.5M has been recognised as a separate component of equity at 31 December 2010.

# Independent Auditor's Report to the Shareholders of Steamships Trading Company Limited

#### **Report on the financial statements**

We have audited the accompanying financial statements of Steamships Trading Company Limited (the company), which comprise the statement of financial position as at 31 December 2010, the statement of comprehensive income, statement of changes in equity and statement of cash flow for the year ended on that date, a summary of significant accounting policies, and other explanatory notes for both Steamships Trading Company Limited and the Steamships Group (the consolidated entity). The consolidated entity comprises the company and the entities it controlled at the end or from time to time during the financial year.

#### Directors' responsibility for the financial statements

The directors of the company are responsible for the preparation and fair presentation of the financial statements in accordance with Generally Accepted Accounting Practice in Papua New Guinea and the Companies Act 1997 and for such internal control as the directors determine is necessary to enable the preparation of the financial statements that is free from material misstatement, whether due to fraud or error.

#### Auditor's responsibility

Our responsibility is to express an opinion on the financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. These Auditing Standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

Our procedures include reading the other information in the Annual Report to determine whether it contains any material inconsistencies with the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Auditor's opinion**

In our opinion the financial statements of Steamships Trading Company Limited is in accordance with the Companies Act 1997, including giving a true and fair view of the company's and consolidated entity's financial position as at 31 December 2010 and of their performance for the year ended on that date; and complying with International Financial Reporting Standards and other generally accepted accounting practice in Papua New Guinea.

#### Report on other legal and regulatory requirements

The Papua New Guinea Companies Act 1997 requires that in carrying out our audit we consider and report to you on the following matters. We confirm that:

- 1. in our opinion proper accounting records have been kept by the company, so far as appears from our examination of those records;
- 2. we have obtained all the information and explanations we have required; and
- 3. in conducting our audit we followed applicable independence requirements of Certified Practising Accountants Papua New Guinea.

#### **Other matters**

This report, including the opinion, has been prepared for and only for the company's shareholders as a body in accordance with the PNG Companies Act 1997 and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

## DIRECTORS' REPORT

#### **Steamships Trading Company Limited and Subsidiary Companies**

The Directors submit their Annual Report for the year ended 31 December 2010 for the Company and its subsidiaries.

#### **Principal Activities and Review of Operations**

Full details of the Group's activities are given in the Directors' Review on pages 6 to 11. The Group continues to operate in the segments of Commercial, Hotels and Property and Logistics.

The Directors believe that there will be no significant changes in the Group's activities for the foreseeable future.

#### **Changes in Accounting Policies**

There have been no significant changes to accounting policies in the year.

#### Result

The Group operating profit for the year attributable to shareholders was K116,445,000 (2009: K96,560,000)

#### Dividend

The Directors advise that a final dividend of 50 toea per share will be paid immediately after the Annual General Meeting on 24th May 2011. The exchange rate Kina to Australian Dollar applying on 10th May 2011 will be used to calculate the dividends to shareholders resident outside Papua New Guinea.

#### **Rounding Off**

Amounts in the Directors' Report and accounts have been rounded off to the nearest thousand kina.

## **DIRECTORS' REPORT**

#### Steamships Trading Company Limited and Subsidiary Companies

## APPLICABLE LEGISLATION

The Company is incorporated in Papua New Guinea and is not generally subject to Australian Corporations Law including, in particular, Chapter 6 of the Australian Corporations Law dealing with the acquisition of shares (including substantial shareholdings and take-overs). The Company is subject to the requirements of the Papua New Guinea Companies Act 1997, Securities Act 1997 and the Takeovers Code. The Companies Act and the Securities Act regulate the issue and buy-back of shares and contain provisions as to the trading in securities, provisions as to financial benefits to related parties, substantial shareholders provisions, remedies in cases of oppression or injustice and actions by, and access to, records by shareholders.

The Takeovers Code regulates offers where a person already holds more than 20% of the voting rights in a company or where a person becomes the holder of more than 20% of the voting rights in a manner permitted by the Code.

A code offer, which can either be a full offer or a partial offer, must be extended to all holders of voting securities in the Company. The Code also contains compulsory purchase and sale provisions if more than 90% of the shares are acquired under an offer.
