The Manager  
Company Announcements Office  
ASX Ltd  
Level 4, 20 Bridge Street  
Sydney, NSW 2000

Dear Sir /Madam

### **TZ SMARt Device Systems selected for Coles Click & Collect Lockers**

TZ Limited (the "**Company**") is pleased to announce that its wholly owned subsidiary, TZI Australia Pty Limited ("**TZIA**"), will supply Coles Online with a customised SMARt Device system solution and TZ Courier™ application software for integration with Click & Collect refrigerated lockers as part of an expanded trial deployment across New South Wales, Queensland and Victoria early in early 2012.

Coles is a leading national food, liquor and convenience retailer in Australia who employs more than 102,000 team members across well-known brands including Coles and Bi-Lo supermarkets, Coles Express, 1st Choice Liquor Superstore, Liquorland, Vintage Cellars and Spirit Hotels.

Coles Online had been trialing its Click & Collect offering at the Coles Express in Windsor near Melbourne in early 2011. Two refrigerated locker units were installed at the busy service centre on Dandenong Road, a primary commuter route home from the inner city to the eastern suburbs. Since deployment, the lockers have proven to be extremely popular with Coles Online customers enabling them to order online in the morning and to drop by the Coles Express directly on the journey home from work to collect their grocery items.

With success of the initial trial, the new deployments will incorporate a sophisticated TZ electronic solution which will also interface with Coles Online database and infrastructure. The TZ solution will replace the original heavy duty, industrial pad-locks that were used to lock the fridge doors and will stream-line work flow practices, improve customer utility and provide full audit trail capability of pick-up and locker loading activities.

"Coles Online has taken online grocery shopping convenience to a new level in Australia. We're extremely pleased to be working with the Coles Online team to implement our technology solution and look forward to supporting the wider based release of refrigerated lockers at Coles Express outlets." said John Wilson, Executive Director of TZL.

**ENDS**
