INCORRECT MEDIA/UNAUTHORISED POSTING

The Company has become aware of an internet chat room posting on Hotcopper which it would like to clarify. The posting purports to represent assay results from the Company's KM Copper Porphyry Project in the South Gobi Region of Mongolia.

The Company confirms that the announcement is incorrect. The Company has not authorised or approved the information contained in the posting (which purports to be an ASX announcement dated 26 August 2011).

On becoming aware of the posting, the Company immediately requested a trading halt in its securities and had the posting removed by the site moderators. The Company understands the matter is now with the regulators.

The Company believes confirmation that the posting is incorrect and unauthorised to be material. The Company is and remains in compliance with its continuous disclosure obligations.

The Company expects to release a drilling update prior to market opening on Tuesday 30 August 2011. The Company will remain in trading halt until then.

Yours faithfully
