Company Secretary

## **About WHL Energy Limited**

ASX-listed WHL Energy Ltd (ASX: WHN) is an oil and gas exploration company.

The Company's "flagship" project is its very large offshore Seychelles oil and gas exploration interests. This 21,426.3km<sup>2</sup> exploration holding is considered prospective for potentially very large hydrocarbon targets, and WHL Energy is currently undertaking further work to gain a higher understanding of that potential as it progresses the Seychelles oil and gas assets towards farm-out and drilling.

Independent studies have confirmed the potential of 15 leads across 4 different plays in WHL Energy's Seychelles exploration holdings and estimated that these leads typically have the potential to contain mean Prospective Resources of several hundred of million barrels.
