#### **About BigAir Group Limited**

BigAir owns and operates Australia's largest metropolitan fixed wireless broadband network. The Australian business market comprises nearly one million businesses and BigAir's network provides near blanket coverage across its seven largest cities Sydney, Melbourne, Brisbane, Perth, Adelaide, Newcastle and the Gold Coast. BigAir sells broadband and data services primarily through its channel partners who include ISPs, Carriers, and other IT service companies who have existing relationships with business customers in order to deliver BigAir's high speed, cost effective fixed wireless broadband solutions. BigAir's competitive advantage includes its state-of-the-art business-grade fixed wireless network which allows it to install business-grade symmetric broadband services at speeds up to 1000Mbps and distances up to 30km from its base stations with installation taking just a few hours. Most of BigAir's competitor's rely on access to Telstra's copper network which can take weeks to install a service and does not deliver fast symmetric speeds.
