CHAIRMAN'S REPORT

Dear Shareholders,

In my first year as Non-Executive Chairman of Anteo Diagnostics Limited, I have been very encouraged by the company's progress at both an operational and corporate level.

Mix&Go™ is clearly a unique technology that helps in the development of a range of clinical tests and assists in enabling the early detection of disease. This technology also has wide appeal in a large number of healthcare markets, in particular, *in vitro* diagnostics (IVD), research, point of care diagnostics and immunoprecipitation to name a few.

Anteo has made significant progress this year. In March, the company entered into another commercial agreement with a leading US based healthcare company, eBioscience. The eBioscience licensing agreement follows Anteo's existing commercial agreements with Bangs Laboratories ('Bangs') and Merck Chimie SAS ('Merck'), which provides real credibility to the company.

Crucially, Anteo has also made some solid progress in the protection of its intellectual property through the granting of a number of important patents in the US, Japan, Europe and Australia.

Anteo continues to be well funded to meet our objectives. The company has over $4.8 million in cash, and based on current expenditure and not including our future revenue, at this time the company is funded through to the end of March 2014. Given the uncertainty in global markets, the company has made a concerted effort to manage its cost base effectively while at the same time pursuing all growth opportunities.

The Board continues to review Anteo's corporate strategy in order to maximise value for shareholders. The company retains the large IVD companies as its "Core Market" for commercialisation. We have engaged with selected "Expanded Markets" such as smaller IVD companies; Point of Care (POC)/biosensor companies and the R&D market to provide risk mitigation by a portfolio approach to deal making. This approach allows us to leverage the capabilities and skills developed for the Core Market whilst simultaneously giving the organisation the opportunity to add new skill sets and capabilities that will enable it to move into new markets in the future.

I would like to thank Geoff and our very dedicated team for their efforts in the past year. The Board has full confidence in where the leadership team is taking the company, and we look forward to another year of progress.

I would also like to thank our shareholders for their continued support in what has been a year of significant progress in very challenging markets. Anteo is in excellent shape and the Board has sound reasons for continued optimism.

Mr. Mark Bouris
Non-Executive Chairman
27th August 2012

CEO'S REPORT

Dear Shareholders,

Financial Year 2012 has been a year of continued progress for Anteo Diagnostics Limited and we firmly believe we have the team in place, both on a corporate and technical level, and the right technology in the right markets, to build on the company's growth.

The company achieved some significant milestones during the year that position the company well for the future.

STRONG FINANCIAL POSITION

Anteo is well placed financially with a cash balance of $4.8 million. At the time of reporting based on our current burn rate, excluding any future Mix&Go™ revenues, execution of Anteo's business strategy is funded through to March 2014.

PRODUCT DEVELOPMENT

Anteo's strategy with regards to its Core Markets remains unchanged. Activities in its Expanded Markets are expected to yield synergies in the following areas:

- Expanding company capabilities with Mix&Go™ on beads to other surfaces such as plates, microarrays and biosensors expands use of the technology to meet the needs of the research market, veterinary applications, separations and as a tool in markets such as antibody manufacturing.
- Development of sample test kits allows a larger number of scientists in large companies to test Mix&Go™ personally. Some of Anteo's strongest champions are scientists who have experienced the benefits of Mix&Go™ directly.
- Broadening our experience to include antigen down assays and competitive immunoassays as well as our existing sandwich immunoassays.

MIX&GO™ COMMERCIAL AGREEMENTS

Whilst we were pleased with the signing of a licensing agreement with eBioscience in March, we expect our level of commercial activity to increase in FY2013.

It takes time for major global IVD companies to change manufacturing processes as they are risk averse, and they dedicate significant amounts of time to assess new technology and undertake due diligence prior to accepting any new product such as Mix&Go™. It can be assumed when potential parties take up the Mix&Go™ technology, they do so with intent to migrate its use across their entire range of assays rather than a single assay. This obviously increases the importance of the decision for these companies, and as a result, their time to make a commercial decision. However, when success comes, as seen with the recent eBioscience agreement, it will be commensurately more rewarding for Anteo.

The eBioscience licensing agreement, signed on 13 March 2012, was significant for Anteo as the deal represented a transition up the value chain from bead manufacturers to test manufacturers, in accordance with the company's business strategy. eBioscience operates in over 70 countries and is a recognised leader in Life Sciences reagents.

On 26 June, eBioscience was acquired by genetic products maker, Affymetrix Inc (NASDAQ:AFFX). The deal was completed for $315m in cash and is expected to significantly boost Affymetrix's foothold in the fast-growing immunology, oncology and translational medicine markets. Affymetrix also stated its aim to invest in research and development to develop new products using eBioscience's technology.

For Anteo, this means that our Mix&Go™ technology has the exposure to a leading provider of microarray-based products and services who are investing to increase their product range. There is recognition that there are numerous other applications for Mix&Go™ both within their existing product range and with the new products that are under development. Anteo is committed to providing assistance where possible to ensure incorporation of Mix&Go™ into these products at the earliest possible opportunity.

INTELLECTUAL PROPERTY

Patenting, for Anteo, is critically important as it protects the company's intellectual property for Mix&Go™ technology, as well as the methods for generating alternative versions of Mix&Go™. As Anteo continues to advance negotiations for new licensing agreements, protecting the technology's value in large and strategically important markets is paramount.

Anteo was very active in its patent program over the past financial year with some key achievements' for the period:

- European Patent for 'Generation of Surface Coating Diversity' granted (September 2011)
- Japanese Patent for 'Use of Metal Complexes ' granted (December 2011)
- Australian Patent for 'Use of Metal Complexes ' granted (March 2012)
- US Patent for 'Use of Metal Complexes ' granted (May 2012)

COMPLIANCE WORK

Anteo continues to place significant emphasis on compliance in the areas of workplace health and safety, risk mitigation and corporate governance.

Zero harm to all employees, contractors and visitors remains a key imperative of the company, and Anteo is extremely pleased to report that no incidents occurred during the year.

Anteo has adopted a risk mitigation program that has led to the further development of our risk register that identifies potential risks to our business and the controls that have been put in place to address those risks. The register is reviewed on a quarterly basis and actions taken to mitigate against risk are monitored and measured.

A review of the company's corporate governance framework has been performed in light of best practice recommendations released by the Australian Securities Exchange Corporate Governance Council in January 2011. The Anteo Board of Directors utilises a set of corporate governance practices and a code of conduct appropriate for the company.

OUTLOOK

I would like to acknowledge the continued support of all shareholders over the past year. Anteo continues to work to create value by expanding our business through commercial development with our Mix&Go™ technology in numerous and large healthcare markets worldwide.

I would also like to thank the Board and all our dedicated staff for their hard work and commitment during the year.

As we look forward to the next year and beyond, I am deeply encouraged by our strong financial platform and our experienced Board and management team. I remain extremely excited by the potential for the Mix&Go™ technology and the growing pipeline of licensing opportunities in strategic markets.

Geoff Cumming
Chief Executive Officer
27th August 2012

CORPORATE GOVERNANCE

The Board of Anteo Diagnostics Limited aims for best practice in the area of corporate governance and supports the governance practices contained in the ASX Corporate Governance Council's ("ASX CGC") Corporate Governance Principles and Recommendations (2nd edition).

The statement below indicates the degree of conformance to the ASX CGC recommendations as at the date of this report.

Structure of the Board

Directors at the date of this annual report and their skills, experience and expertise relevant to the position they hold are on page 13 in the Directors' Report.

The Board of Directors should comprise a majority of Independent Directors. When determining whether a Non-Executive Director is independent the Director must not fail any of the following:

- Less than 5% of Company shares are held by the Director and any entity or individual directly or indirectly associated with the Director.
- Has not held an executive position within the Company within the last three years.
- Has not held a position as a principal in any firm providing material professional advice to the Company within the last three years.
- Has no material contractual relationship with the Company or Group other than being a Director.

Anteo Diagnostic's Board consists of two non-independent and two independent directors. The Company believes that although it does not meet the technical requirements of the ASX CGC in relation to the majority of the Board being independent, in practical terms it considers the structure of the Board to be appropriate for the Company in its present form.

The ASX CGC recommendations require the materiality threshold that was used to determine whether a Director is independent to be disclosed. Notwithstanding there are no contracts outside those disclosed in the Annual Report, a level of materiality of 5% of the Independent Directors' annual income has been set for any non-remuneration based consulting or other financial arrangements.

The ASX Corporate Governance Principles recommend that the Chairperson should be an independent director. The Chairman of Anteo Diagnostics is an independent director.

Directors may access or request such information as they consider necessary to diligently fulfil their responsibilities. Independent professional advice may be sought on Company related matters, at the Company's expense, subject to prior approval by the Chairman.

Directors are required to comply with their legal, statutory and other duties and obligations when acting in their capacity as Directors of the economic entity, including acting in good faith and with due diligence and care. Directors are required to avoid conflict of interests with the companies within the economic entity. Any actual or potential conflict of interest is required to be disclosed immediately to the Board and those conflicted parties do not take part in the decision making processes regarding the conflict of interest.

The Board annually revisits its objectives and duties and evaluates the effectiveness of its performance taking these into account. A formal evaluation was undertaken during the year. Remuneration of Directors, including retirement benefits (superannuation) and entitlements under equity-based remuneration schemes are set out in the Directors' Report under "Remuneration Report".

The Directors annually review the Company's requirements for skills and experience within the board of Directors, and consider the skills and experience of existing Directors. Should any skill gaps be evident, the Nomination & Remuneration Committee will make recommendations to the Board taking into account:

- The size of the Board will be limited to encourage efficient decision making.
- The selection process will be formal and transparent.

- When a new Director is required, the current Directors (with the assistance of external advisors if necessary) will identify potential candidates who have the following attributes:
  - are able to contribute to the ongoing effectiveness of the board
  - are able to exercise sound business judgment
  - are able to think strategically
  - have demonstrated leadership ability
  - have high levels of professional skill
  - have appropriate personal skills.
- Nominees' competencies and qualifications.
- A talented and diverse workforce is a key competitive advantage and Anteo is committed to seeking out and retaining the finest human talent to ensure top business growth and performance.

Performance evaluation of executive Directors and executives was carried out during the reporting period and was in accordance with the process disclosed.

The matters reserved for the Board and those delegated to senior executives described in the Board Charter and Company Governance Policies are publically available on the Company's website at www.anteodx.com.

Ethical standards and corporate code of conduct

The Board has adopted a corporate code of conduct to ensure that each of its members and all employees are aware of the requirement to adhere to best principles of ethical standards which encompass:

- The management of conflicts of interest to ensure that Directors and executives act in the best interests of all stakeholders in the business.
- Compliance with all laws and regulatory requirements.
- Adoption of acceptable standards of custodianship and use of Company assets.
- Ensuring that all Company information remains confidential except where disclosure is either authorised by the Board or legally mandated.
- Enforcement of accountabilities and the fostering of an environment in which all officers and employees can identify and bring to the attention of Directors any unlawful or unethical behaviour.

A full copy of the Company's Code of Conduct is publically available on the Company's website at www.anteodx.com.

The Board has adopted a Diversity Policy which is publically available on the Company's website at www.anteodx.com.

Anteo Diagnostics recognises its talented and diverse workforce as a key competitive advantage. Our business success is a reflection of the quality and skill of our people. Our diversity policy encompasses differences in ethnicity, gender, language, age, sexual orientation, religion, socio-economic status, physical and mental ability, thinking styles, experience, and education and our policy encompasses both recruitment and management of human resources on the basis of diversity.

Anteo Diagnostics is committed to seeking out and retaining the finest human talent to ensure top business growth and performance and to employing the best people to do the best job possible at all levels within the Company.

Anteo Diagnostics' workforce is diverse across many dimensions.

Ethnic Diversity

Total	Australian	European	Asian	Americas
15	4	3	6	2

Gender Diversity	Male	Female
Total Staff	7	8
Senior Executives/Directors	4	-
Non-Executives Directors	1	1

Languages Spoken: English, Portuguese, Cantonese, Malay, Japanese, Latvian, Russian, German, Dutch

Education Diversity

Total	PhD	Masters	Bachelor	Other Qualifications
15	5	-	8	1

Anteo is committed to maintaining diversity within its workforce at all levels, and to this end sets a minimum target of 15% of women in board and senior executive positions to encourage gender diversity. Such targets are important but the overriding factor will be the employment of the best person for the role.

Audit & Risk Committee

The Company has a formally constituted Audit & Risk Committee comprising two Directors. The Audit & Risk Committee must meet at least twice each reporting year. Other Directors and executives may be invited to attend meetings at the discretion of the Chairman of the Committee.

The composition of the Audit & Risk Committee and its conformance to ASX CGC Principle 4 is as below:

Rec.No	Description	Conform	Comments
4.1	The Board should establish an Audit Committee	Yes	2 Audit & Risk Committee meetings were held during the financial year
4.2	Audit committee should comprise:		Mrs Sandra Andersen - Independent - Attended all 2 meetings
	Only Non-Executive Directors	No	Mr Richard Martin - Executive Director - Attended all 2 meetings Mr Martin as CFO undertakes the preparation of monthly management accounts and statutory reporting. Given the nature of his role the Board considers Mr Martin is an appropriate member.
	A majority of Independent Directors	No	Given the background and financial acumen of the committee members, it is the Board's view that these two Directors should form the Audit & Risk Committee.
	An independent chairperson, who is not chairperson of the Board	Yes	
	At least three members	No	The Audit & Risk Committee has only two members. It is the Board's view that two members are adequate to perform the duties required by the Audit & Risk Committee.

Rec.No	Description	Conform	Comments
4.3	Audit Committee to have formal charter	Yes	The Audit & Risk Committee Terms of Reference is available on the Company website at www.anteodx.com.

The Company requests the external auditor to attend the Annual General Meeting and to be available to answer shareholder questions about the conduct of the audit and preparation and content of the auditor's report. The Audit & Risk Committee annually revisits its objectives and duties and evaluates the effectiveness of its performance taking these into account.

The Audit & Risk Committee is responsible for the selection and recommendation of the Company's external auditor. The Audit & Risk Committee has recommended the external audit service be put out to tender on a triennial basis.

A full copy of the Audit & Risk Committee Terms of Reference is made publically available on the Company website at www.anteodx.com.

Continuous Disclosure

The Company's shares are traded on the ASX and the Company is subject to the ASX Listing Rules.

The responsibility for ensuring that the continuous disclosure requirements of ASX Listing Rule 3.1 are complied with is vested in the Board and the Company Secretary.

All meetings of the Board incorporate a standing agenda item advising the Directors of any disclosure that is required prior to the next scheduled meeting. Confirmation is provided of the release of any items since the previous meeting.

In addition the Directors are asked to consider whether they have become aware of information concerning the Company that could reasonably be expected to have an impact on the price or value of the Company's securities.

This includes new information that has arisen or, if necessary, amendments to information previously disclosed to the market.

The responsibility for deciding what information is disclosed to the market rests with the Chairman of the Board. Where appropriate all disclosure articles are approved by the Board of Directors prior to release to the market.

All Directors and executives have been made aware of their obligations to ensure that the Company complies at all times with the ASX Listing Rules.

A full copy of the Company's continuous disclosure policy is made publically available on the Company's website, www.anteodx.com.

Business Risk Management

The Board has adopted a formal risk management policy.

The identification and management of risk inherent to the operation of the economic entity is managed by the Directors on a day-to-day basis. Where necessary individual Directors do, through the forum of regular Board meetings, bring matters before the Board collectively who will review, evaluate and deal with any matters arising in a manner that serves the best interests of the Company and its shareholders. This is in addition to the role of the Audit and Risk Committee which ensures the Company maintains effective risk management and internal control systems.

The identification and effective management of risks is critical in achieving the Company's corporate goals. The Company focuses on effective management of the following material risks:

- business risks.
- operating risks.
- financial risks.
- organisational risks.
- corporate risks.
- occupational health and safety risks.

Anteo Diagnostics Limited believes that risk should be managed on a continuous basis and optimises its ability to achieve business objectives by maintaining a system that assists appropriate management and provides early warning of risks.

The Company identifies, assesses, monitors and manages risk throughout the organisation in accordance with the Company's Risk Management Policy which is made publically available on the Company's website, www.anteodx.com.

The Board has required management to design and implement a risk management and internal control system to manage the entity's material business risk and continually receives reports from the executive team as to the effectiveness of the Company's management of its material business risks. The Board has received assurance from the Chief Executive Officer and Finance Director that the declaration on page 51 of the annual report provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to financial reporting risks.

Shareholder Communication

The Company communicates with shareholders through the following media:

- All announcements that may affect the price of the Company's securities are released to the market through the ASX.
- Following this all announcements are placed onto the Company's website: www.anteodx.com.
- Any press releases are also placed on the Company's website www.anteodx.com.
- It is Company policy that updates are made available to all shareholders at regular intervals.
- It is Company policy to encourage shareholder attendance at the annual general meeting.

A full copy of the Company's policy on shareholder communication is made publically available on the Company's website, www.anteodx.com.

Trading in Company Shares

The Company's policy regarding Directors, officers and employees trading in its securities, is set by the Board of Directors. The policy restricts Directors, officers and employees from acting on material information until it has been released to the market.

The period in which Directors, officers and employees can deal in the Company's securities provided the market is fully informed, is not later than 30 days, after the release of each quarterly cash flow report, the yearly or half yearly profit announcement to the ASX, any disclosure document offering securities in the Company, and after the Annual General Meeting of the Company.

Outside this period, in the current environment by which companies are required to maintain a continuously informed market, Directors, officers or employees may buy or sell subject to specific approval by the Chairman or by the Board.

A full copy of the of the Company's policy for trading in the Company's shares is publically available on the Company website, www.anteodx.com.

Nomination & Remuneration Committee

The Company's Constitution contains specific provisions for the remuneration of Non-Executive Directors. There has been no change to these specific provisions since the incorporation of the Company.

The Board has a formally constituted a Nomination & Remuneration Committee comprising two Directors. The Nomination & Remuneration Committee meets as required during the year. Other Directors and executives may be invited to attend meetings at the discretion of the Chairman of the Committee. The composition of the Nomination & Remuneration Committee and its conformance to ASX CGC Principles 2.4 and 8.1 is as below:

Rec.No	Description	Conform	Comments
2.4 & 8.1	Remuneration Committee should comprise:		
	A minimum of three members	No	The Nomination & Remuneration committee only has two members. It is the Board's view that two members are adequate to perform the duties required by the Nomination & Remuneration Committee.
	A majority of independent Directors	No	Mr Mark Bouris - Independent - Attended 3 of 3 meetings Mr Richard Martin - Executive - Attended 3 of 3 meetings
	A chairperson who is an independent Director	Yes	Mr Mark Bouris

The Nomination & Remuneration Committee has approved a long-term incentive component for the executive and senior management remuneration packages (equity based). The policy includes the prohibition on recipients entering into transactions in associated products which limit the economic risk of participating in unvested entitlements under an equity based remuneration scheme.

The Director's attendance at meetings of the committee is contained on page 21 of the Annual Report.

The Committee annually revisits its objectives and duties and evaluates the effectiveness of its performance taking these into account. Informal evaluations were undertaken during the year, however, a formal evaluation was not undertaken due to changes in the board composition. A formal evaluation will be undertaken this year. A description of the policy for the nomination and appointment of directors and a copy of the Nomination & Remuneration Committee Charter is publically available on the Company's website, www.anteodx.com.

Remuneration Policies

The Company's policy for remuneration and performance evaluation of Directors and executives has been stated in the Directors' Report under "Remuneration Report".

There are no schemes for retirement benefits, other than superannuation, for any Director.

Other Information

The Company's corporate governance practices and policies are publicly available at the Company's registered office. These policies have also been posted on the Company's website (www.anteodx.com).

Your Directors present their report on the Company and its controlled entity for the financial year ended 30 June 2012.

DIRECTORS

Persons holding the position of Directors at any time during or since the end of the year are:

Mr Mark Bouris Appointed 1 August 2011
Dr Geoffrey Cumming
Mr Richard Martin
Mrs Sandra Andersen

Directors have been in office since the start of the financial year to the date of this report unless otherwise stated.

The Directors of the Company at the date of this report are set out below, together with details of their qualifications, experience and interests in the Company.

Mr Mark Bouris BCom(UNSW), MCom(UNSW), Hon DBus(UNSW), Hon DLitt(UWS), F.S.A. — **Chairman**

Mark Bouris is one of Australia's most well respected businessmen, with a career that spans three decades in the financial services industry. He is the Co-founder and Chairman of Yellow Brick Road Limited and Chairman of TZ Limited. Mark is the author of 'Wealth Wizard' and 'The Yellow Brick Road to Your Financial Security', and he writes a number of financial columns for some of Australia's most recognised publications. He's a board member of the Sydney Roosters, an adjunct professor at the University of NSW. Previous directorships include Executive Chairman Wizard Home Loans, trustee of the Powerhouse Museum NSW and Chair of the Federal Government's expert group on consumer protection in electronic commerce.

Mr Bouris was appointed to the Board in August 2011.

Responsibilities: Chairperson of Nomination & Remuneration Committee.

Director's Interests: 5,000,000 (exercise price of 12 cents, expiry date of 24/10/2015, all are vested)

Dr Geoffrey Cumming B.App.Sc, B.Sc.(Hons.), MBA, PhD, MAICD — **Chief Executive Officer - Executive Director**

Dr Cumming has over 20 years experience in the healthcare and biotechnology market. Geoff's roles have progressed from pure research to sales and marketing roles through to Managing Director level and Board seats. Previously Managing Director of Roche Diagnostic Systems – Oceania Regional Centre, where he transformed a loss making business to one achieving over 30% compound annual growth over a four year period and the highest profitability levels in Roche's global organisation. Geoff was also Managing Director and CEO of an Australian based biotechnology company commercialising a range of products in cancer diagnosis and treatment. During his tenure he was responsible for taking research from Sydney University through to product registration. This involved capital raising, managing Intellectual Property, investor relations and forging links with relevant international partners.

Dr Cumming has been a Director of Anteo since April 2009 and is a Non-Executive Director of ASX listed Medical Australia Limited.

Responsibilities: Chief Executive Officer of the Company

Director's Interests: 8,500,000 ordinary fully paid shares
13,000,000 options (exercise price of 7 cents, expiry date of 8/11/2014; 6,500,000 of these options are vested and the remainder vest on an annual basis upon the condition that the movement of share price of the Company is positive and in the top 50% of the healthcare sector).

Mr Richard Martin BBus **Executive Director**

Mr Martin holds a Bachelor of Business. He practised as a Chartered Accountant for 16 years, 11 as a partner in a medium sized Sydney practice. He has considerable experience both inside and advising corporate entities, his work has included complex business structuring and financing, the establishment of international hotels from conception, the public listing of resource companies, the management of foreign currency loan portfolios, establishing and operating start up technology companies and the negotiation and implementation on the purchase and sale of enterprises.

He has been a Director of Anteo since September 2005.

Responsibilities: Chief Financial Officer; Member of the Audit & Risk Committee and Nomination & Remuneration Committee.

Director's Interests: 3,000,000 options (1,400,000 exercise price of 7 cents, expiry date of 8/11/2014; 1,600,000 exercise price of 12 cents, expiry date of 24/10/2015. 2,300,000 of these options are vested and the remainder vest on an annual basis upon the condition that the movement of share price of the Company is positive and in the top 50% of the healthcare sector).

Mrs Sandra (Sam) Andersen
LLB, CPA, FFinsia, FAICD **Non-Executive Director**

Sandra (Sam) Andersen is a Certified Practicing Accountant, and holds a Bachelor of Laws. She is a Fellow of Finsia and the Australian Institute of Company Directors.

Sam is a Director and Chair of the Audit and Risk Committee for Victorian Rail Track, and Director and Chair of the Audit Committee for Grain Growers Limited.

She began her career with a law degree and subsequently held senior executive positions with ANZ Bank, Commonwealth Bank of Australia and National Australia Bank. Following a career change from banking and finance into the information technology and health industry sectors, Ms Andersen was the Chief Financial Officer at Lumacom Ltd and Chief Operating and Financial Officer of Multi-Emedia.com Ltd. She led the initial public offering for, and became the Managing Director of, Eyecare Partners Limited, a company which trebled in size in its first 2 years of operation. Her previous directorships include Eyecare Partners Ltd and Rural Finance Corporation Limited.

Responsibilities: Chairman of the Audit & Risk Committee.

Director's Interests: 3,000,000 (exercise price of 12 cents, expiry date of 24/10/2015, all are vested)

COMPANY SECRETARY

The position of Company Secretary has been held by Mr Shane Hartwig since 24 May 2010. Mr Hartwig's experience is set out below.

Mr Hartwig is a Certified Practising Accountant and Chartered Company Secretary and holds a Bachelor of Business degree, majoring in Accounting and Taxation from Curtin University of Technology in Western Australia.

Mr Hartwig is involved in the areas of IPOs, capital raisings, prospectus and information memorandum preparation and project management, company assessments and due diligence reviews, mergers and acquisitions and providing general corporate advice and is currently Company Secretary of ASX listed Forge Resources; and a Non Executive Director/Company Secretary of ASX listed Exalt Resources Limited. Mr Hartwig has over 20 years experience in the finance industry both nationally and internationally with exposure in both the debt and equity capital markets.

PRINCIPAL ACTIVITIES

The principal activities of the Company in the course of the year were the development and commercialisation of specialised surfaces used in life sciences, and the research & development of surfaces for specific binding of proteins ("abiotics"). The Company is applying capability in surfaces and binding of proteins to the development of invitro diagnostic tests.

There were no significant changes in the nature of the Company's principal activities during or after the end of the financial year.

CONSOLIDATED OPERATING RESULT

The net consolidated operating loss of the economic entity for the financial year, after providing for income tax, amounted to $2,380,199 compared with a loss for the 2011 year of $2,222,462.

As at 30 June 2012, the Company maintained cash reserves of $4,883,174 (2011: $6,863,593) which will be used in the further development and commercialisation of Anteo Diagnostics Limited's proprietary technology.

DIVIDENDS PAID OR RECOMMENDED

No dividend has been paid during the year and the Directors do not recommend payment of a dividend.

REVIEW OF OPERATIONS

The review of operations is set out in the Chairman's Letter and CEO Report above.

AFTER BALANCE DATE EVENTS

There are no after balance date events that the Directors believe should be reported to shareholders.

FUTURE DEVELOPMENTS

Going forward the Company will focus on progressing its business strategy in the diagnostic market place.

ENVIRONMENTAL ISSUES

Anteo is licensed under the Queensland Health (Drugs and Poisons) Regulations 1996 for the use and storage of chemicals for research use. Anteo complies with all Workplace, Health and Safety requirements.

REMUNERATION REPORT (AUDITED)

This report details the nature and amount of remuneration for each Director and relevant Executives of Anteo Diagnostics Limited.

Remuneration Policy

The Board's policy for determining the nature and amount of remuneration for Non-executive Directors and Executive Directors and Senior Executives (collectively Executives) of the economic entity is as follows:

Directors and Executives receive a superannuation guarantee contribution required by the Government, which is currently 9%, and do not receive any other retirement benefits.

All remuneration paid to Directors and Executives is valued at the cost to the Company and expensed. Shares (if any) attained by Directors and Executives are valued as the difference between the market price of those shares and the amount paid by the Director or Executive. Options are valued using methodologies set out in Notes 1(r) and 5 of the Financial Statements. The Company's policies prohibit Directors and Executives entering into transactions in associated products which limit the economic risk in relation to securities and this policy is enforced.

Executive Directors and Executives (Executives)

The remuneration policy of Anteo Diagnostics Limited currently consists of a base remuneration and in some cases the consideration of a short term cash incentive, and a long term incentive through the issue of options at the Board's discretion. The Board believes the policy is appropriate as it repositions itself in the market, aligning Executive objectives with shareholder and business objectives.

The remuneration policy, setting the terms and conditions for the Executives was developed by the Nomination & Remuneration Committee, and approved by resolution of the Board. All eligible Executives receive a base salary and superannuation with options issued at the discretion of the Board. The Board of Directors, excluding Executive Directors, review Executive packages annually by reference to the economic entity's performance, Executive performance and comparable information from industry sectors and other listed companies in similar industries. Executive performance is evaluated based on achievement of Business Plan and objectives set by the Board. Performance evaluation of Executives was carried out during the reporting period, in accordance with the remuneration policy.

Non-Executive Directors

The Board policy is to remunerate Non-Executive Directors at market rates for comparable companies for time, commitment and responsibilities. The Nomination & Remuneration Committee determines payments to the Non-Executive Directors and reviews their remuneration annually, based on market practice, duties and accountability. Independent external advice is sought when required. Any changes to the maximum aggregate amount of fees that can be paid to Non-Executive Directors is subject to approval by shareholders at the Annual General Meeting. Fees for Non-Executive Directors are not linked to performance of the economic entity. However to align Directors' interests with shareholder interests, the Directors are encouraged to hold shares in the Company and are able to participate in the employee share option plan. Non-Executive Directors receive a superannuation guarantee contribution required by the Government, which is currently 9%, and do not receive any other retirement benefits.

Performance Based Remuneration

As part of each Executive's remuneration package there is a performance based component, consisting of key performance indicators ("KPIs") which can affect the vesting of options that have been granted. The intention of this programme is to facilitate goal congruence between Executives with that of the business and shareholders. The KPIs are set with a certain level of consultation with Non-executive Directors and Executives to ensure "buy-in". The measures are particularly tailored to the areas each Executive is involved in and has a level of control over. The KPI's target areas the Board believes hold greater potential for group expansion and profit.

Company Performance, Shareholder Wealth and Directors' and Executives' Remuneration

During the financial year Mr Mark Bouris was issued 5 million options, Mrs Sandra Andersen 3 million options, and Mr Richard Martin 1.6 million options pursuant to shareholder resolution. These options form part of the Long Term Incentive component of their remuneration packages. All these options are vested. These options have an exercise price of $0.12 an expiry date of 24th October 2015.

The Company's employees and consultants were issued a total of 4 million options forming the Long Term Incentive component of their remuneration packages. These options have an exercise price of $0.12 and an expiry date of 24th October 2014.

As stated above, the Board reviews staff incentives annually, incorporating bonus and share option elements. In the previous five years there have been two methods applied to achieve goal congruence between shareholders and executives, the first being a performance based bonus based on KPIs, the second being the issue of options to encourage the alignment of personal and shareholder interests. Current KPIs are based upon success in key business outcomes, improvement in share price and holistic companywide performance criteria, including human resources, Workplace, Health & Safety and technical outcomes.

Details of Directors' Remuneration for the Year Ended 30 June 2012

Performance Remuneration as a Proportion of Total Remuneration

During the year Dr Geoff Cumming was paid a bonus of $36,697 plus superannuation of $3,303. This payment was made in accordance with his employment contract following satisfaction of the KPIs adopted by the Board. The bonus represented 9.2% of Dr Cumming's remuneration for the year. During the year Dr Maeji was paid a bonus of $20,000 in respect of undertakings outside normal hours.

Options held by Directors amounting to $182,438 vested during the year, of which $167,670 were issued in accordance with shareholder resolutions during the reporting period.

All Executive options were issued with performance based vesting conditions, except for Shane Hartwig. The options vest annually over a 3 year period. 9,600,000 options were issued to Directors during the year, these options had no vesting conditions.

Employment contracts of Directors and senior executives

The executives of the Company are employed on open-ended employment contracts that provide for termination by either party with notice. For Geoff Cumming and Joe Maeji, the notice period is 3 months and for Nevin Abernethy the notice period is one month. There are no special termination provisions.

There are no terms in any of the above agreements that provide for changes to remuneration for future periods. The Nomination & Remuneration Committee may review these arrangements annually or as required.

This is the end of the Remuneration Report

MEETINGS OF DIRECTORS

During the financial year, 7 meetings of Directors, 2 meetings of the Audit & Risk Committee and 3 meetings of the Nomination & Remuneration Committee were held. Attendances were as follows:

	Directors' Meetings		Audit & Risk Committee		Remuneration & Nomination Committee	
Director	Number eligible to attend	Number Attended	Number eligible to attend	Number Attended	Number eligible to attend	Number Attended
M Bouris	6	6			3	3
R Martin	7	7	2	2	3	3
G Cumming	7	7				
S Andersen	7	7	2	2		

INDEMNIFYING OFFICERS OR AUDITOR

The Company's Constitution provides that the Company will indemnify officers of the Company against liabilities for costs and expenses incurred by them in defending any legal proceedings arising out of their conduct while acting in the capacity of Director or officer of the Company other than conduct involving a wilful breach of duty in relation to the Company.

The Company has paid premiums to insure the Directors and officers against such liabilities that may arise. The amount of the premium for the period was $25,544.

SHARE OPTIONS

At the date of this report, the un-issued ordinary shares of Anteo Diagnostics Limited under option are as follows:

Grant Date	Date of Expiry	Exercise Price (Post consolidation value)	Number under Option (Post consolidation number)
30 September 2005	31 October 2012	$0.651	4,800
30 September 2005	1 September 2013	$0.156	76,786
30 September 2005	18 December 2013	$0.156	3,656,206
30 September 2005	24 May 2014	$0.156	71,643
30 September 2005	1 October 2014	$0.156	71,987
30 September 2005	20 December 2014	$0.156	3,087,902
30 September 2005	20 January 2015	$0.156	105,865
30 September 2005	20 February 2015	$0.156	58,166
31 July 2008	31 July 2013	$0.081	72,329
17 September 2009	30 September 2012	$0.020	5,175,000

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Preparation

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards and other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001. Compliance with Australian Accounting Standards ensures that the financial statements and notes also comply with the International Financial Reporting Standards.

Anteo Diagnostics Limited is a listed public company, incorporated and domiciled in Australia.

The accounting policies set out below have been applied in preparing the financial statements for the year ended 30 June 2012. The financial report has been prepared on an accruals basis, except for cash flow information.

Going Concern

The financial statements have been prepared on the going concern basis.

The Board is continually assessing the capital needs of the Company's business and addressing the alternatives available to fund the operational requirements of the Company. As at the 30^{th} June 2012 the Company had $4,883,174 in cash reserves. The Board believes that based upon current spending forecasts there is adequate funding to provide for the Company's requirements to complete its strategic plan and in any case beyond 12 months of operation.

Significant accounting policies

The following significant accounting policies have been adopted in the preparation and presentation of the financial report:

(a) Cash and cash equivalents

Cash and cash equivalents comprise cash on hand, cash in banks and investments with original maturities of three months or less.

(b) Comparatives

When required by accounting standards or accounting policy, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

(c) Employee benefits

Provision is made for benefits accruing to employees in respect of wages and salaries, annual leave, long service leave, and sick leave when it is probable that settlement will be required and they are capable of being measured reliably.

Provisions made in respect of employee benefits expected to be settled within 12 months are measured at their nominal values using the remuneration rate expected to apply at the time of settlement.

Provisions made in respect of employee benefits which are not expected to be settled within 12 months, are measured as the present value of the estimated future cash outflows to be made by the consolidated entity in respect of the services provided by employees up to reporting date.

Contributions to defined contribution superannuation plans are expensed when incurred.

(d) Financial assets

Financial investments are initially measured at cost on trade date, which includes transaction costs, when the related contractual rights or obligations exist. Subsequent to initial recognition, these investments are assessed at each reporting date to determine whether there is any evidence that an investment is impaired. Any such impairment is reported in the Statement of Comprehensive Income.

(e) Foreign currency transactions

All foreign currency transactions during the financial year are brought to account using the exchange rate in effect at the date of the transaction. Foreign currency monetary items at reporting date are translated at the exchange rate existing at reporting date. Exchange differences are recognised in profit or loss in the period in which they arise.

(f) Goods and services tax

Revenues, expenses, assets and liabilities are recognised net of the amount of goods and services tax (GST), except:

i. where the amount of GST incurred is not recoverable from the taxation authority, it is recognised as part of the cost of acquisition of an asset or as part of an item of expense; or

ii. for receivables and payables which are recognised inclusive of GST.

The amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables and payables.

Cash flows are included in the Statement of Cash Flows on a gross basis. The GST component of cash flows arising from investing and financing activities which is recoverable from, or payable to, the taxation authority is classified as operating cash flows.

(g) Goodwill

Pursuant to the adoption of AASB3 Business Combinations (reverse acquisitions), goodwill, representing the excess of the cost of combination to Bio-Layer Pty Limited over the fair value of the identifiable assets, liabilities and contingent liabilities acquired of Anteo Diagnostics Limited (formerly BioLayer Corporation Limited and prior to that SSH Medical Limited), was recognised as an asset and not amortised, and was tested for impairment. This impairment was recognised in profit or loss and will not be subsequently reversed.

(h) Government grants

Government grants are assistance by the government in the form of transfers or resources to the consolidated entity in return for past or future compliance with certain conditions relating to the operating activities of the entity. Government grants include government assistance where there are no conditions specifically relating to the operating activities of the consolidated entity other than the requirement to operate in certain regions or industry sectors.

Government grants relating to income are recognised as income over the periods necessary to match them with the related costs.

(i) Impairment of assets

At each reporting date, the consolidated entity reviews the carrying amounts of its tangible and intangible assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where the asset does not generate cash flows that are independent from other assets, the consolidated entity estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Goodwill is tested for impairment at each reporting date and whenever there is an indication that the asset may be impaired. An impairment of goodwill is not subsequently reversed.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. An impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the impairment loss is treated as a revaluation decrease.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but only to the extent that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognised for the asset (cash-generating unit) in prior years. A reversal of impairment loss is recognised in profit or loss immediately, unless the relevant asset is carried at fair value, in which case the reversal of the impairment is treated as a revaluation increase.

(j) Income tax

Current tax

Current tax is calculated by reference to the amount of income taxes payable or recoverable in respect of the taxable profit or tax loss for the period. It is calculated using tax rates and tax laws that have been enacted or substantively enacted by reporting date. Current tax for current and prior periods is recognised as a liability (or asset) to the extent that it is unpaid (or refundable).

Deferred tax

Deferred tax is accounted for using the comprehensive statement of financial position liability method in respect of temporary differences between the carrying amount of assets and liabilities in the financial statements and the corresponding tax base of those items.

In principle, deferred tax liabilities are recognised for all taxable temporary differences. Deferred tax assets are recognised to the extent that it is probable that sufficient taxable amounts will be available against which deductible temporary differences or unused tax losses and tax offsets can be utilized. However, deferred tax assets and liabilities are not recognised if the temporary differences giving rise to them arise from the initial recognition of assets and liabilities (other than as a result of a business combination) which affects neither taxable income nor accounting profit. Furthermore, a deferred tax liability is not recognised in relation to taxable temporary differences arising from goodwill.

Deferred tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, branches, associates and joint ventures except where the consolidated entity is able to control the reversal of the temporary differences and it is probably that the temporary differences will not reverse in the foreseeable future. Deferred tax assets arising from deductible temporary differences associated with these investments and interests are only recognised to the extent that it is probable that there will be sufficient taxable profits against which to utilize the benefits of the temporary differences and they are expected to reverse in the foreseeable future.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period(s) when the asset and liability giving rise to them are realized or settled, based on tax rates (and tax laws) that have been enacted or substantively enacted by reporting date. The measurement of deferred tax liabilities and assets reflects the tax consequences that would follow from the manner in which the consolidated entity expects, at the reporting date, to recover or settle the carrying amount of its assets and liabilities.

Deferred tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Company/consolidated entity intends to settle its current tax assets and liabilities on a net basis.

Current and deferred tax for the period

Current and deferred tax is recognised as an expense or income in the Statement of Comprehensive Income, except when it relates to items credited or debited directly to equity, in which case the deferred tax is also recognised directly in equity, or where it arises from the initial accounting for a business combination, in which case it is taken into account in the determination of goodwill.

(k) Intangible assets

Patents, trademarks and licenses

Patents, trademarks and license costs are recognised as an expense in the period in which they are incurred.

Research and development costs

Expenditure on research activities is recognised as an expense in the period in which it is incurred.

(l) Overheads

The Company allocates overheads for the operating entity to their business cost centres. This procedure has been adopted in this period to more accurately represent operating costs of the economic entity.

(m) Payables

Trade payables and other accounts payable are recognised when the economic entity becomes obliged to make future payments resulting from the purchase of goods and services.

(n) Principles of consolidation

The consolidated financial statements are prepared by combining the financial statements of all the entities that comprise the economic entity, being the Company (the parent entity) and its subsidiaries as defined in Accounting Standard AASB 127 Consolidated and Separate Financial Statements. Consistent accounting policies are employed in the preparation and presentation of the consolidated financial statements.

On acquisition, the assets, liabilities and contingent liabilities of a subsidiary are measured at their fair values at the date of acquisition. Any excess of the cost of acquisition over the fair values of the identifiable net assets acquired is recognised as goodwill. If, after assessment, the fair values of the identifiable net assets acquired exceed the cost of acquisition, the deficiency is credited to profit and loss in the period of acquisition.

The consolidated financial statements include the information and results of each subsidiary from the date on which the Company obtains control and until such time as the Company ceases to control such entity.

In preparing the consolidated financial statements, all intercompany balances and transactions, and unrealised profits arising within the economic entity are eliminated in full.

(o) Property, plant and equipment

Plant and equipment, leasehold improvements and equipment under finance lease are stated at cost less accumulated depreciation and impairment. Cost includes expenditure that is directly attributable to the acquisition of the item. In the event that settlement of all or part of the purchase consideration is deferred, cost is determined by discounting the amounts payable in the future to their present value as at the date of acquisition.

Depreciation is provided on property, plant and equipment. Depreciation is calculated on a straight line basis so as to write off the net cost or other revalued amount of each asset over its expected useful life to its estimated residual value. Leasehold improvements are depreciated over the period of the lease or estimated useful life, whichever is the shorter, using the straight line method. The estimated useful lives, residual values and depreciation method are reviewed at the end of each annual reporting period. The following estimated useful lives are used in the calculation of depreciation:

Leasehold improvements	10% - 50%
Plant and equipment	20% - 40%
Furniture and office equipment	20% - 40%
Leased plant and equipment	20%

(p) Provisions

Provisions are recognised when the consolidated entity has a present obligation, the future sacrifice of economic benefits is probable, and the amount of the provision can be measured reliably.

The amount recognised as a provision is the best estimate of the consideration required to settle the present obligation at reporting date, taking into account the risks and uncertainties surrounding the obligation. Where a provision is measured using the cashflows estimated to settle the present obligation, its carrying amount is the present value of those cashflows.

When some or all of the economic benefits required to settle a provision are expected to be recovered from a third party, the receivable is recognised as an asset if it is virtually certain that recovery will be received and the amount of the receivable can be measured reliably.

(q) Revenue recognition

<u>Sale of goods</u>

Revenue from the sale of goods is recognised when the economic entity has transferred to the buyer the significant risks and rewards of ownership of the goods.

<u>Rendering of services</u>

Revenue for a contract to provide services is recognised by reference to the stage of completion of the contract. Revenue is not recognised until each milestone has been successfully completed under the terms of the contract.

<u>Royalties and licence fees</u>

Royalty and licence fee revenue is recognised on an accrual basis in accordance with the substance of the relevant agreement.

Interest revenue

Interest revenue is recognised on a time proportionate basis that takes into account the effective yield on the financial assets.

(r) Share-based payments

Share-based payments are measured at fair value at the date of grant. Fair value for options is measured by use of the Black Scholes and Hull White valuation models.

The fair value determined as at the grant date of the share-based payments is expensed on a straight line basis over the vesting period, based on the economic entity's estimate of shares that will eventually vest.

Terms and conditions of Share-based payments are set out in the Remuneration Report.

(s) New accounting standards and interpretations

At the date of authorisation of these financial statements, certain new standards, amendments and interpretations to existing standards have been published but are not yet effective, and have not been adopted early by the Group.

Management anticipates that all of the relevant pronouncements will be adopted in the Group's accounting policies for the first period beginning after the effective date of the pronouncement. Information on new standards, amendments and interpretations that are expected to be relevant to the Group's financial statements is provided below.

Certain other new standards and interpretations have been issued but are not expected to have a material impact on the Group's financial statements.

AASB 9 Financial Instruments (effective from 1 January 2013)
The AASB aims to replace AASB 139 Financial Instruments: Recognition and Measurement in its entirety. The replacement standard (AASB 9) is being issued in phases. To date, the chapters dealing with recognition, classification, measurement and derecognition of financial assets and liabilities have been issued. These chapters are effective for annual periods beginning 1 January 2013. Further chapters dealing with impairment methodology and hedge accounting are still being developed. Management have yet to assess the impact that this amendment is likely to have on the financial statements of the Group. However, they do not expect to implement the amendments until all chapters of AASB 9 have been published and they can comprehensively assess the impact of all changes.

Consolidation Standards
A package of consolidation standards are effective for annual periods beginning or after 1 January 2013. Information on these new standards is presented below. The Group's management have yet to assess the impact of these new and revised standards on the Group's consolidated financial statements.

AASB 10 Consolidated Financial Statements (AASB 10)
AASB 10 supersedes the consolidation requirements in AASB 127 Consolidated and Separate Financial Statements (AASB 127) and Interpretation 112 Consolidation – Special Purpose Entities. It revised the definition of control together with accompanying guidance to identify an interest in a subsidiary. However, the requirements and mechanics of consolidation and the accounting for any non-controlling interests and changes in control remain the same.

AASB 11 Joint Arrangements (AASB 11)
AASB 11 supersedes AASB 131 Interests in Joint Ventures (AASB 131). It aligns more closely the accounting by the investors with their rights and obligations relating to the joint arrangement. It introduces two accounting categories (joint operations and joint ventures) whose applicability is determined based on

the substance of the joint arrangement. In addition, AASB 131's option of using proportionate consolidation for joint ventures has been eliminated. AASB 11 now requires the use of the equity accounting method for joint ventures, which is currently used for investments in associates.

AASB 12 Disclosure of Interests in Other Entities (AASB 12)
AASB 12 integrates and makes consistent the disclosure requirements for various types of investments, including unconsolidated structured entities. It introduces new disclosure requirements about the risks to which an entity is exposed from its involvement with structured entities.

Consequential amendments to AASB 127 Separate Financial Statements (AASB 127) and AASB 128 Investments in Associates and Joint Ventures (AASB 128)
AASB 127 Consolidated and Separate Financial Statements was amended to AASB 127 Separate Financial Statements which now deals only with separate financial statements. AASB 128 brings investments in joint ventures into its scope. However, AASB 128's equity accounting methodology remains unchanged.
AASB 13 Fair Value Measurement (AASB 13)
AASB 13 does not affect which items are required to be fair-valued, but clarifies the definition of fair value and provides related guidance and enhanced disclosures about fair value measurements. It is applicable for annual periods beginning on or after 1 January 2013. The Group's management have yet to assess the impact of this new standard.

AASB 2011-9 Amendments to Australian Accounting Standards Presentation of Items of Other Comprehensive Income s (AASB 101 Amendments)
The AASB 101 Amendments require an entity to group items presented in other comprehensive income into those that, in accordance with other IFRSs: (a) will not be reclassified subsequently to profit or loss and (b) will be reclassified subsequently to profit or loss when specific conditions are met. It is applicable for annual periods beginning on or after 1 July 2012. The Group's management expects this will change the current presentation of items in other comprehensive income; however, it will not affect the measurement or recognition of such items.

Amendments to AASB 119 Employee Benefits (AASB 119 Amendments)
The AASB 119 Amendments include a number of targeted improvements throughout the Standard.
The main changes relate to defined benefit plans. They:
• eliminate the 'corridor method', requiring entities to recognise all gains and losses arising in the reporting period in other comprehensive income
• streamline the presentation of changes in plan assets and liabilities
• enhance the disclosure requirements, including information about the characteristics of defined benefit plans and the risks that entities are exposed to through participation in them.

The amended version of AASB 119 is effective for financial years beginning on or after 1 January 2013. The Group's management have yet to assess the impact of this revised standard on the Group's consolidated financial statements.

AASB 2011-4 Amendments to Australian Accounting Standards to Remove Individual Key Management Personnel Disclosure Requirements (AASB 124 Amendments)
AASB 2011-4 makes amendments to AASB 124 Related Party Disclosures to remove individual key management personnel disclosure requirements, to achieve consistency with the international equivalent (which includes requirements to disclose aggregate (rather than individual) amounts of KMP compensation), and remove duplication with the Corporations Act 2011. The amendments are applicable for annual periods beginning on or after 1 July 2013. The Group's management have yet to assess the impact of these amendments.

Amendments to IAS 32 Financial Instruments: Presentation and IFRS 7 Financial Instruments: Disclosures 5
The amendments to IAS 32 add application guidance to address inconsistencies in applying IAS 32's criteria for offsetting financial assets and financial liabilities. Qualitative and quantitative disclosures have been added to IFRS 7 relating to gross and net amounts of recognised financial instruments that are (a) set off in the statement of financial position and (b) subject to enforceable master netting arrangements and similar

agreements, even if not set off in the statement of financial position. The amendments are applicable for annual periods beginning on or after 1 January 2014. The Group's management have yet to assess the impact of these amendments.

AASB Interpretation 20 Stripping Costs in the Production Phase of a Surface Mine
Clarifies that costs of removing mine waste materials (overburden) to gain access to mineral ore deposits during the production phase of a mine must be capitalised as inventories under AASB 112 Inventories if the benefits from stripping activity is realised in the form of inventory produced. Otherwise, if stripping activity provides improved access to the ore, stripping costs must be capitalised as a non-current, stripping activity asset if certain recognition criteria are met (as an addition to, or enhancement of, an existing asset). The interpretation is applicable for annual periods beginning on or after 1 January 2013. The interpretation will have no impact on the Group as it has no mining activities.

(t) Critical Accounting Estimates and Judgements

Key Estimates - Impairments

The Company assesses impairment at each reporting date by evaluating conditions specific to the group that may lead to impairment of assets. Where an impairment trigger exists, the recoverable amount of the asset is determined. Per AASB 136 value-in-use calculations performed in assessing recoverable amounts incorporate a number of key estimates.

5. DIRECTORS' AND EXECUTIVES' REMUNERATION

(a) Directors and Executives

Names and positions held of parent entity Directors and specified executives in office at any time during the financial year have been included in the Directors Report.

(b) Parent Entity Directors' Remuneration and specified Executive Remuneration

Directors and specified Executives' remuneration has been included in the Remuneration Report section of the Directors Report.

(c) Options

Directors and specified Executives' remuneration has been included in the Remuneration Report section of the Directors Report. Further information regarding value of options vested during the year is on page 18 of the Directors Report.

The fair value of options issued to Directors and Executives was determined using the Black Scholes and Hull White methods of valuation as the basis for determining value. Regard was given to the vesting terms of the options and that they are not transferable by halving the nominal calculated amount. The follow parameters were used in the calculation:

i) Expected Volatility – 69%
ii) Share price $0.07
iii) Exercise Price $0.12
iv) Risk Free Rate 3.9%
v) The option life 4 years.
vi) Employee exit rate 30%.

(d) Shares issued on exercise of remuneration options

2,875,000 shares were issued on the exercise of remuneration options during the year ended 30 June 2012 (2011: 1,050,000).

(e) Options holdings

Number of options held by or at the nomination of Parent Entity Directors (who held office during the year) as at 30th June 2012.

Fully paid ordinary shares at reporting date		**765,176,591**	762,301,591

Ordinary shares participate in dividends and the proceeds on winding up of the parent entity in proportion to the number of shares held.

At shareholders meetings each ordinary share is entitled to one vote when a poll is called, otherwise each shareholder has one vote on a show of hands.

On 22nd December 2010 the Company issued 700,000 shares at $0.02 to the holder of options exerciseable at that price.

On 30th September 2010 the Company completed the allotment of 248,959,075 shares at $0.012 to holders of options expiring on that date, (143,203,622 in 2011; 105,755,433 in 2010).

On 2nd February 2011 the Company completed the allotment of 78,845,313 shares at $0.065 to holders of options expiring on that date, (78,813,613 in 2011, 31,700 in 2010).

On 1st April 2011 the Company completed the allotment of 14,356,713 shares at $0.055 to holders of options expiring on that date, all of which were issued in 2011.

On 30th May 2011 the Company issued 350,000 shares at $0.07 to the holder of options exerciseable at that price.

On 26th March 2012 the Company issued 200,000 shares at $0.02 to the holder of options exerciseable at that price.

On 28th March 2012 the Company issued 2,500,000 shares at $0.02 to the holder of options exerciseable at that price.

On 21st June 2012 the Company issued 175,000 shares at $0.02 to the holder of options exerciseable at that price.

Capital Management

Management controls the capital of the group to ensure that the group can fund its operations and continue as a going concern.

The group's debt and capital includes ordinary share capital, options and financial liabilities, supported by financial assets.

There are no externally imposed capital requirements.

Management effectively manages the group's capital by assessing the group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels and share issues.

There have been no changes in the strategy adopted by management to control the capital of the group since the prior year.

iii. Credit Facilities. The economic entity has no unused credit facilities with Banks or other financial institutions.

16. SEGMENT REPORTING

The economic entity operates in the life sciences sector. Furthermore, although activities are conducted in a number of countries, the core business functions supporting the activities of the economic entity are located in Australia. The Company has concluded that there is only one segment at this time.

17. RELATED PARTY TRANSACTIONS

Shubrick Investments Pty Ltd

Richard Martin is a Director of Shubrick Investments Pty Ltd. During the year, Shubrick Investments Pty Ltd invoiced the Company for the following services.

a. Director's fees - $48,750 (2011: $40,996). Note these amounts are included in Directors Remuneration in the Director's Report.

b. Fees for Chief Financial Officer services - $89,250 (2011: $48,231).

Share Transactions of Directors - Directors and Director-related entities hold directly, indirectly or beneficially as at the reporting date the equity interests set out in Note 5.

18. CAPITAL AND LEASING COMMITMENTS

(a) Operating lease commitments

Non-cancellable operating leases contracted for but not capitalised in the financial report. This lease relates to the current business premises and expires in November 2012.

19. FINANCIAL INSTRUMENTS

(a) Financial Risk Management Policies

The group's financial instruments consist mainly of deposits with banks, accounts receivable and payable, loans to and from subsidiaries.

The main purpose of non-derivative financial instruments is to finance for Group operations. There are no derivatives used by the Group.

i. Treasury Risk Management

The senior management of the Group regularly analyse the financial risk exposure to evaluate treasury management strategies in the context of the most recent economic conditions and forecasts.

The management strategy seeks to assist the economic entity in meeting its financial targets, whilst minimising potential adverse effects on the financial performance.

The senior management operates under policies approved by the Board of Directors, risk management policies are approved and reviewed by the Board on a regular basis. These include credit risk policies and future cash flow requirements.

ii. Financial Risk Exposures and Management

The main risks the Group is exposed to through its financial instruments are interest rate risk, foreign currency risk, liquidity risk and credit risk.

Interest Rate Risk

There is no significant interest expense rate risk as the Group does not have any external debt. Interest income rate risk is managed by placing cash excess to short term needs on deposit with one of top four banks in Australia. For further details on interest rate risk refer to Note 19 (b) (iii).

Foreign Currency Risk

The economic entity is not exposed to significant financial risks from movements in foreign exchange rates as there are no material financial assets and liabilities denominated in foreign currencies. This is inclusive of both on and off statement of financial position financial instruments. The Group does not participate in any type of hedging transaction or derivatives.

Liquidity Risk

The Group manages liquidity risk by monitoring forecast cash flows.

Credit Risk

The maximum exposure to credit risk, excluding the value of any collateral or other security, at balance date to recognised financial assets is the carrying amount as disclosed in the statement of financial position and notes to the financial statements.

Trade debtors that are neither past due or impaired are considered to be of high credit quality. Aggregates of such amounts are as detailed in Note 9.

(b) Financial Instruments

i. Net Fair Values

For all financial assets and liabilities the net fair value approximates their carrying value. No financial assets and financial liabilities are readily traded on organised markets. The aggregate net fair values and carrying amounts of financial assets and financial liabilities are disclosed in the statement of financial position and in the notes to the financial statements.

ii. Financial Instruments composition and maturity analysis

The tables below reflect the settlement terms for financial instruments of a fixed period of maturity, as well as management’s expectations of the settlement period for all other financial instruments.

Trade and sundry payables are expected to be paid as follows:

	Note	2012 $	2011 $

iii. Sensitivity Analysis

Interest Rate Risk

The group has performed a sensitivity analysis relating to its exposure to interest rate risk at balance date. The sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

At 30 June 2012, the effect on profit and equity as a result of changes in the interest rate, with all other variables remaining constant would be as follows:

	Actual	**Increase Rate by 2%**	**Decrease Rate by 2%**
Cash held in 2011	6,863,593	6,863,593	6,863,593
Weighted average interest rate	4.75%	6.75%	2.75%

Auditor's Independence Declaration
To the Directors of Anteo Diagnostics Limited

In accordance with the requirements of section 307C of the Corporations Act 2001, as lead auditor for the audit of Anteo Diagnostics Limited for the year ended 30 June 2012, I declare that, to the best of my knowledge and belief, there have been:

a no contraventions of the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and

b no contraventions of any applicable code of professional conduct in relation to the audit.

Independent Auditor's Report
To the Members of Anteo Diagnostics Limited

Report on the financial report

We have audited the accompanying financial report of Anteo Diagnostics Limited (the "Company"), which comprises the consolidated statement of financial position as at 30 June 2012, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information and the directors' declaration of the consolidated entity comprising the Company and the entities it controlled at the year's end or from time to time during the financial year.

Directors responsibility for the financial report

The Directors of the Company are responsible for the preparation of the financial report that gives a true and fair view of the financial report in accordance with Australian Accounting Standards and the Corporations Act 2001. This responsibility includes such internal controls as the Directors determine are necessary to enable the preparation of the financial report to be free from material misstatement, whether due to fraud or error. The Directors also state, in the notes to the financial report, in accordance with Accounting Standard AASB 101 Presentation of Financial Statements, that compliance with the Australian equivalents to International Financial Reporting Standards ensures that the financial report, comprising the financial statements and notes, complies with International Financial Reporting Standards.

Auditor's responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards which require us to comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error.

In making those risk assessments, the auditor considers internal control relevant to the Company's preparation and fair presentation of the financial report in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the Corporations Act 2001.

Auditor's opinion

In our opinion:

a the financial report of Anteo Diagnostics Limited is in accordance with the Corporations Act 2001, including:

  i giving a true and fair view of the consolidated entity's financial position as at 30 June 2012 and of its performance for the year ended on that date; and

  ii complying with Australian Accounting Standards and the Corporations Regulations 2001; and

b the financial report also complies with International Financial Reporting Standards as disclosed in the notes to the financial statements.

Report on the remuneration report

We have audited the remuneration report included in pages 16 to 21 of the Directors' report for the year ended 30 June 2012. The Directors of the Company are responsible for the preparation and presentation of the remuneration report in accordance with section 300A of the Corporations Act 2001. Our responsibility is to express an opinion on the remuneration report, based on our audit conducted in accordance with Australian Auditing Standards.

GrantThornton

Auditor's opinion on the remuneration report

In our opinion, the remuneration report of Anteo Diagnostics Limited for the year ended 30 June 2012, complies with section 300A of the Corporations Act 2001.
