About Breakaway Resources Limited:

Breakaway Resources aims to become one of Australia's leading mining and exploration companies with exploration focussed at our priority Wildara and Miranda Projects (nickel) within the Leinster district of the North Eastern Goldfields of Western Australia and the Cloncurry District (copper – gold) of North West Queensland; two areas that we believe offers the most attractive opportunities for future success.

Our objectives are the discovery and development of a high-quality stand alone mineral deposit and maximisation of shareholder wealth for non-priority assets.
