Review and results of operations

The consolidated revenue and net profit for the period attributable to members represents the results of operations of Cordlife Ltd and its controlled entities for the period from 1 July 2011 to 31 December 2011. Details of controlled entities are set out in note 10 to the half-year financial statements for the period ended 31 December 2011.

On 16 June 2011, the shareholders of the Company approved a capital reduction exercise, implemented by way of distribution in specie of all the issued ordinary shares in wholly owned subsidiary, Cordlife Group Limited and its subsidiaries ("Cordlife Singapore"). The capital reduction effectively resulted in the demerger of Cordlife Singapore from the Group.

Hence, the reported loss from continuing operations after tax for the period ended 31 December 2011 and 31 December 2010 excludes the operation of Cordlife Singapore.

Consolidated revenue and other income for continuing operations for the half-year ended 31 December 2011 increased by approximately 65% to \$3,460,000 from \$2,098,000 for the half-year ended 31 December 2010.

- Revenue from cord blood banking services was \$3,197,000 for the half-year ended 31 December 2011 as compared to \$1,960,000 for the half-year ended 31 December 2010 (an increase of 63%). Increase is mainly due to higher sign-up in India and Philippines.

Cordlife Ltd

Directors' Report

- Interest and other sundry income was \$270,000 for the half-year ended 31 December 2011 as compared to \$141,000 for the half-year ended 31 December 2010 (an increase of 91%). This is largely due to increase in interest income generated from the placement of fixed deposit with favourable interest.
- Distribution and marketing expenses were \$1,075,000 for the half-year ended 31 December 2011 as compared to \$594,000 for the half-year ended 31 December 2010 (an increase of 81%). The increase is attributable to additional advertising, promotion and marketing related costs, driven by continue market expansion and developmental activities in India, Indonesia and the Philippines.
- Administration expenses were \$3,397,000 for the half-year ended 31 December 2011 as compared to \$4,646,000 for the half-year ended 31 December 2010 (a decrease of 27%).
- Borrowing costs were \$1,561,000 for the half year ended 31 December 2011 as compared to nil for the half year ended 31 December 2010 (an increase of 100%). The borrowing cost pertains to the interest expense incurred on the convertible bond issued in prior year.

Net loss attributable to members for the half-year ended 31 December 2011 was \$4,029,000, an increase of 2,270% over the net loss attributable to members of \$170,000 for the half-year ended 31 December 2010.

Information on revenue and results of the different operating segments are set out in note 11 to the half-year financial statements. Details of significant costs are set out in note 2.2.

- Cash and cash equivalents, net of bank overdrafts, as at 31 December 2011 was \$3,962,000.
- Trade and other receivables at 31 December 2011 was \$9,595,000, as compared to \$2,584,000 at 30 June 2011. This was due to increase in other receivables and deposit. This was largely due to an amount of \$5,890,000 that was placed as refundable deposit to carry out due diligence exercises on a potential investment.
- Plant and equipment at 31 December 2011 was \$542,000, as compared to \$662,000 at 30 June 2011. The decrease was due to the depreciation of fixed asset, partially offset by new acquisitions of equipment.
- In the financial year ended 30 June 2011, the Company issued a convertible bond to secure additional funding of \$7,412,000, which is intended to be applied in the continued development of the developing business. The bond agreement contains a default clause that requires the Company to maintain \$7,412,000 in its cash balances until such time as the options granted to the bondholder are exercised. On this basis, the \$7,412,000 received had been classified as restricted cash under other financial assets.

On 30 November 2011, a Deed of Amendment was executed which removed the above requirement, hence, the classification of the \$7,412,000 to the cash and cash equivalents. This explained the decrease in other financial assets.

- Trade and other payables at 31 December 2011 was \$2,833,000, as compared to \$1,808,000 at 30 June 2011. The increase is mainly due to increase in other payables. Increase in other payables was due to amount owing to Cordlife Singapore for payments made and collections received on behalf of the Company and recharges for staff claims and relevant expenses.

For further information on the activities and development of the Group, please refer to previously released market announcements of the Company during the half-year ended 31 December 2011 and until the date of this report.

Report on the Half-Year Condensed Financial Report

We have reviewed the accompanying half-year condensed financial report of Cordlife Limited (the company), which comprises the statement of financial position as at 31 December 2011, the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Directors' Responsibility for the Half-Year Condensed Financial Report

The directors of the company are responsible for the preparation of the half-year condensed financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal controls as the directors determine are necessary to enable the preparation of the half-year condensed financial report that is free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year condensed financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of Interim and other Financial Reports Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2011 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting*, the *Corporations Regulations 2001*. As the auditor of Cordlife Limited and the entities it controlled during the half-year, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year condensed financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We have given to the directors of the company a written Auditor's Independence Declaration, a copy of which is included in the Directors' Report.

Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year condensed financial report of Cordlife Limited is not in accordance with:

- a. the *Corporations Act 2001*, including giving a true and fair view of the consolidated entity's financial position as at 31 December 2011 and of its performance for the half-year ended on that date; and
- b. complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*; and

Except as disclosed below, there were no instruments (e.g. share options) excluded from the calculation of diluted earnings per share in the current period that could potentially dilute basic earnings per share in the future. In 2011, potential ordinary shares arising on the exercise of share options were excluded as they were anti-dilutive.

Total anti-dilutive options which could be dilutive in the future amounts to 21,800,000 shares at 31 December 2011 (June 2011: 21,800,000 shares).

9 Convertible bond

During the financial year ended 30 June 2011, the Company issued a convertible bond to secure additional funding of A\$ 7,412,000, which is intended to be applied in the continued development of the developing business. Under the terms of the bond, the Company granted to the bond holder options to subscribe for 21,800,000 of its shares.

These options have an exercise price of A\$ 0.40 per share and an expiry of 2 years after issue. Additionally, the bond holder is also granted an option to subscribe for Cordlife Singapore shares at no additional consideration upon the approval of the capital reduction exercise.

The bond has a redemption value of A\$ 9,802,370, a yield of 15% per annum and a maturity date of 2 years from the date of funding.

The bond agreement contains a default clause that requires the Company to maintain A\$7,412,000 in its cash balance within such time as the options granted to the bond holder are exercised. On this basis, the A\$7,412,000 received had been classified as restricted cash under other financial assets.

On 30 November 2011, a Deed of Amendment was executed which removed the above requirement, hence, the classification of the \$7,412,000 to the cash and cash equivalents. This explained the decrease in other financial assets.
