Retention of GEOS for EPM18007 and EPM18160

CWH Resources Limited (ASX:CWH) is pleased to announce that it has retained GEOS Mining Minerals Consultants to provide an assessment of two granted resources tenements, EPM18007 and EPM18160 located northeast of Mt Isa, North Queensland and to provide proposals for work programs.

GEOS Mining is a geology consultancy that specialises in the preparation of commodity resource estimations. GEOS Mining also undertakes work that includes the identification of exploration potential through reconnaissance exploration, drilling, GIS and resource estimation.

The assessment of EPM18007 and EPM18160 by GEOS is expected to take up to four weeks. Depending on the preliminary assessment by GEOS, CWH hopes to engage GEOS to assist in further exploration of the tenements.

Yours faithfully

Alistair McKeough
Company Secretary
