About Draig Resources Limited

Coal explorer Draig Resources Ltd (ASX: DRG) is developing eight highly prospective coal licences in Mongolia's Overhangay and South Gobi provinces. In late 2011, Draig acquired the coal licences through BDBL LLC, a subsidiary of Peabody-Winsway. The Company has completed a geophysical survey and commenced its 2012 exploration program, with the aim of defining a JORC-compliant resource in Q2 2012. Draig is seeking further quality coal opportunities in Mongolia and Indonesia.

In 2010, International coal veteran Mark Earley was appointed as Managing Director. Mark has over 30 years experience in the coal industry in the key areas of operations, project development, mine management and senior advisory roles. He has also been involved in green field mine developments in both Australia and Indonesia, has advised on several successful start-up projects and holds a masters degree in mining engineering. Most recently Mark held the position of Executive Director of Barlow Jonker Pty Ltd, one of the world's leading coal advisory and research firms.
