**Review of Operations**

The loss after tax for the half year ended 31 December 2011 attributed to the members of the Company was \$2,645,662. The loss for the half year ended 31 December 2011 was mainly attributable to the review and evaluation of projects of interest to the Company.

Corporate

At the beginning of the half year, the Company was listed on the ASX as a Toy and Gaming company. At the Annual General Meeting which was held on 30 November 2011, the Company received approval for a change to its activities from its shareholders to an iron ore explorer and potential producer.

As announced to the market on 4 April 2011, the Company has exercised its call option with TGP to acquire 100% of the fully paid ordinary shares in KCMH Australia from TGP. KCMH Australia holds 75% of the shares in KCM Nigeria which owns of a package of iron ore licences in Kogi State, Nigeria. The balance is held by Bedford, a non-related third party.

KCMH Australia is an Australian privately owned company which has been focussed on acquiring iron ore licences in Nigeria since 2007. KCM Nigeria owns a package of recently granted exploration licences covering iron ore deposits in Kogi State, Nigeria (Licences). These Licences contain magnetite in banded iron formation (BIF) and iron rich oolitic deposits with an exploration target of 1.6 – 2.7 billion tonnes of potential iron mineralisation grading in the range of 48% to 53% iron. The potential quantity and grade is conceptual in nature at this stage as there has been insufficient exploration to define a Mineral Resource under the JORC Code. Further, it is uncertain if further exploration will define a Mineral Resource.

Subsequent to the Put and Call Deed, the Company executed the Share Sale Agreement with Bedford for the purchase of Bedford's shares in KCM Nigeria (being 25% of the total shares on issue). Once completion occurs under the Agreements, the Company will have an effective 100% interest in the Nigerian iron ore projects owned by KCM Nigeria.

At the same Annual General Meeting the Company received approval for the following actions which were required for completion of this transaction:

1. To consolidate the number of shares and options on issue on a 1:10 basis. The Consolidation was required to ensure that the capital structure of the Company is appropriate to list the Company on the official list of ASX. This consolidation was undertaken on 15 December 2011.
2. To issue consideration shares to TGP pursuant to the Put and Call Option Deed, in consideration for the transfer by TGP to the Company of 100% of the shares in KCMH Australia. These shares were issued following completion in February 2012.

**Interim Financial Statement – 31 December 2011**  
**Directors' Report**

3. To allot and issue Bedford consideration shares in consideration for the acquisition of a 25% interest in KCM Nigeria pursuant to the terms of the Share Sale Agreement. These shares were issued following completion in February 2012.
4. To allot and issue shares pursuant to the prospectus to be issued for the purposes of compliance with Chapters 1 and 2 of the ASX Listing Rules. The prospectus was lodged on 15 December 2011 and was closed in February 2012.

Following the meeting, the Company requested a voluntary suspension on the trading of its securities pending completion of the transaction approved above. The Company is currently moving to finalise re-compliance with Chapters 1 and 2 of the ASX Listing rules as soon as possible.

*Operational*

Throughout the period the Company continued to review and evaluate the Agbaja Iron Ore Exploration Project located in Kogi State.

To test the content and quality of the iron in the mineralised zones of interest, the Company delineated an area of approximately 1600 Hectares for drilling using a drill grid spacing of 200 metres by 100 metres. In all the Company expects to drill some 700 holes which will total approximately 20,000 metres of drilling, to examine in detail this portion of the mineralised zone of interest which represents only 10% of the entire Agbaja Iron Ore Exploration Project's land area.

Drilling is by Reverse Circulation (RC) and sample material has initially been taken at half metre intervals. Sampling may, depending on JORC requirements, be extended to 1 metre intervals as drilling progresses.

The drill rig and crew arrived at the project in October and have been drill approximately 10 holes per day from that time. The drilling program closed for about three weeks in mid December with about 25% of all planned holes completed.

Drilling samples have then been delivered to ALS (Australian Laboratory Services) in Ghana for preparation, ALS then moved the prepared samples to Perth for final processing and reporting. The Company received its first batch of Assay results in January and released them at that time.

**Notes to the Financial Statements  
 for the Half-Year Ended 31 December 2011**

**Note 1. Basis of Preparation of Half-Year Financial Statements**

These general purpose financial statements for the half-year reporting period ended 31 December 2011 have been prepared in accordance with Australian Accounting Standard 134 Interim Financial Reporting and the Corporations Act 2001.

These financial statements have been prepared under the historical cost convention.

These half-year financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the entity as the full financial statements. Accordingly, these half-year financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2011 and any public announcements made by Energio Limited during the half-year reporting period in accordance with the continuous disclosure requirements of the Corporations Act 2001.

The same accounting policies and methods of computation have generally been followed in these half-year financial statements as compared with the most recent annual financial statements.

**Note 2. Segment information**

The Company has adopted AASB 8 Operating Segments from 1 July 2009 whereby segment information is presented using a 'management approach', i.e. segment information is provided on the same basis as information used for internal reporting purposes by the chief operating decision maker (Board of Directors that makes strategic decisions).

The Company engages in principle activity, being iron ore exploration and potential production, activity from which it earns revenues, and its results are analysed as a whole by the chief operating decision maker. Consequently revenue, profit and net assets for the operating segment are reflected in the statement of comprehensive income, statement of financial position and the statement of cash flows.

In comparative periods the Company held investments and operated businesses in the USA, and UK and had determined these to be the reportable segments. The Hong Kong operations were divested on 31st December 2008. The USA and UK operations were divested on 29 June 2010. The Company's principal activities are iron ore exploration and potential production.

**Segment information**

Segment information provided to the Board of Directors for the half-year ended 31 December 2011 is as follows:

	<b>Australia</b>	<b>Total Continuing Operations</b>	<b>Total</b>
<b>Half-year ended 31 December 2011</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>
Total segment revenue	-	-	-

	<b>Australia</b>	<b>Total Continuing Operations</b>	<b>Total</b>
<b>Half-year ended 31 December 2010</b>	<b>\$</b>	<b>\$</b>	<b>\$</b>

30 June 2011	4,791,699	4,791,699	4,791,699

The executive management committee monitors segment performance based on EBITDA. This measure excludes non-recurring expenditure such as restructuring costs and goodwill impairments and also excludes share-based payment expenses.

Reconciliation of EBITDA to profit before income tax is as follows:

	<b>Half-Year 2011</b>	<b>Half-Year 2010</b>
	\$	\$
Loss before income tax from continuing operations	<u><b>(2,645,662)</b></u>	<u><b>(1,444,026)</b></u>

Total asset amounts provided to the executive management committee are measured in the same way that they are measured in the financial statements. Segment assets are allocated based on the operations of the segment and the physical location of the assets.

**Note 3. Trade and Other Receivables**

At 31 December 2011 the Company had loaned funds to KCM Mining Holdings Pty Ltd on an unsecured basis with an interest rate of 5% per annum due to the Company entering into a put and call option deed with TGP in relation to the potential acquisition of KCM Mining Holdings Pty Ltd and in accordance with loan agreement entered into on 7 November 2010.

This loan has been impaired to \$nil as in prior periods.

Dear Sirs,

**DECLARATION OF INDEPENDENCE BY PHILLIP MURDOCH TO THE DIRECTORS OF ENERGIO LIMITED**

As lead auditor for the review of Energio Limited for the half-year ended 31 December 2011, I declare that to the best of my knowledge and belief, there have been:

- no contraventions of the auditor independence requirements of the *Corporations Act 2001* in relation to the review; and
- no contraventions of any applicable code of professional conduct in relation to the review.

This declaration is in respect of Energio Limited during the period.

## INDEPENDENT AUDITOR'S REVIEW REPORT TO THE MEMBERS OF ENERGIO LIMITED

### Report on the Half-Year Financial Report

We have reviewed the accompanying half-year financial report of Energio Limited, which comprises the statement of financial position as at 31 December 2011, and the statement of comprehensive income, statement of changes in equity and statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the disclosing entity.

### Directors' Responsibility for the Half-Year Financial Report

The directors of the disclosing entity are responsible for the preparation of the half-year financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the half-year financial report that is free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express a conclusion on the half-year financial report based on our review. We conducted our review in accordance with Auditing Standard on Review Engagements ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*, in order to state whether, on the basis of the procedures described, we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including: giving a true and fair view of the consolidated entity's financial position as at 31 December 2011 and its performance for the half-year ended on that date; and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*. As the auditor of Energio Limited, ASRE 2410 requires that we comply with the ethical requirements relevant to the audit of the annual financial report.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

### Independence

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Energio Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

## Conclusion

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Energio Limited is not in accordance with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the disclosing entity's financial position as at 31 December 2011 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and *Corporations Regulations 2001*.
