Further, as a result of the appointment of Mr William Moss, following the appointment of the Proposed Directors, the Board will have a majority of independent directors, as recommended by the Principles and Recommendations. References in section 4.4.1 of the Original Prospectus are amended in accordance with the above.

Mr Moss retired as Group Head and Managing Director of the Banking and Property Group within Macquarie Group in 2007, having created this global business 23 years earlier.

In recent years Mr Moss has founded and is Chairman of the FSHD Global Research Foundation. Mr Moss has also established, and is Chairman of, Moss Capital. Mr Moss recently ended his role as Co-Chair of Territory 2030, a Northern Territory Government 20 year Strategy Group.

Mr Moss regularly features in the Australian media, providing comment on the finance and banking sectors, the global economy, and the ongoing need for Australia to do more to advance the interests of the country's disabled and disadvantaged.

In 2006, Mr Moss was awarded one of Australia's highest honours, the Order of Australia (AM), for services to the banking, charity, and finance sectors.

Subject to obtaining the required Shareholder approvals at the upcoming Annual General Meeting of the Company (**Annual General Meeting**), the Company has agreed to:

- (a) pay Mr Moss annual Director's fees totalling \$150,000; and
- (b) issue Mr Moss (or his nominee) 2,000,000 options to purchase Shares (**Moss Options**).

Further, subject to obtaining the required Shareholder approval at the Annual General Meeting, Mr Moss has advised the Board that he intends to subscribe for up to 2,500,000 Shares on the same terms as the Offer under the Original Prospectus as supplemented and amended by the Supplementary Prospectus, ie at an issue price of \$0.20. Any funds raised from Mr Moss's subscription for Shares will not count towards the minimum subscription amount to be raised pursuant to the Offer.

As at the date of the Supplementary Prospectus, Mr Moss does not have any relevant interests in the securities of the Company.

The terms and conditions of the Moss Options proposed to be issued to Mr Moss (or his nominee) following obtaining the required Shareholder approval at the Annual General Meeting are as follows:

- (a) (**Entitlement**) Each Moss Option entitles the holder on exercise to be issued one Share.
- (b) (**Manner of exercise**) Provided the Moss Options have vested in accordance with paragraph (m) below, the Moss Options are to be exercised by completing an option exercise form and providing payment for the number of Shares in respect of which the Moss Options are exercised, to the registered office of the Company.
- (c) (**Exercise Price**) The exercise price of the Moss Options is \$0.20 each;

- (d) **(Expiry date)** The exercise period for the Moss Options commences when the Moss Options are issued and expires at 5.00pm AEST in relation to the Moss Options, four years from the date of issue;
- (e) **(Not transferable)** The Moss Options are not transferable.
- (f) **(Ranking)** All Shares issued upon exercise of the Moss Options will rank pari passu in all respects with the Company's then issued Shares.
- (g) **(Official Quotation)** The Company will not apply for the Official Quotation of the Moss Options. The Company will apply for Official Quotation of all Shares issued upon exercise of the Moss Options.
- (h) **(New issues)** There are no participating rights and entitlements inherent in the Moss Options and holders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Moss Options without exercising their Moss Options. However, the Company will ensure that the Moss Option holders will be allowed ten business days' notice to convert the Moss Options to Shares to participate in an entitlement issue on the same basis as Shareholders.
- (i) **(Takeover)** If any takeover bid (including by way of scheme of arrangement or otherwise) is publicly announced in respect of the Company, then the following provisions apply in relation to the takeover bid:
 - (i) the Company must promptly give written notice of the takeover bid to the Moss Option holder whereupon all Moss Options (which have not lapsed or expired), notwithstanding anything to the contrary, must be exercised at any time prior to the expiry of the later of:
 - A. 60 days after receiving such notice; and
 - B. the date that a takeover bid (which is recommended for acceptance by the Board) becomes unconditional,**("Takeover Exercise Period")** or, if applicable, within the further seven day period referred to in (iv) below.
 - (ii) The dates referred to in paragraph (i)(i)(A) and (B) above only apply where they occur before the relevant expiry date. For the avoidance of doubt, where the expiry date occurs before a date referred to in (i)(i)(A) or (B), the Moss Options must be exercised on or before the expiry date.
 - (iii) If, during the Takeover Exercise Period, the person making the takeover bid ("**bidder**") offers to grant options in the capital of the bidder ("**Replacement Options**") to the Moss Option holder (and, for the avoidance of doubt, this does not obligate the Company in any way to procure such an offer from the bidder) in consideration for the cancellation or acquisition of the Moss Options, the Moss Option holder may, in his or her discretion, accept such Replacement Options instead of exercising the Moss Options.

- (iv) If no offer of Replacement Options is made during the Takeover Exercise Period and accepted, the Moss Option holder has (other than in the case of a scheme of arrangement) a further seven days' grace after the expiry of the Takeover Exercise Period within which to exercise the Moss Options ("**Grace Period**"), whereupon unexercised Moss Options will lapse. For the avoidance of doubt, where the expiry date occurs before the end of the Grace Period, the Moss Options must be exercised on or before the expiry date. In the case of a scheme of arrangement, the Moss Options will lapse at the end of the Takeover Exercise Period.
- (v) If the takeover bid lapses or is withdrawn or closes without being recommended for acceptance by the Board, whether the bid is conditional or unconditional, then the provisions of all the paragraphs hereof will revive in respect of any unexercised Moss Options which Moss Options will remain on foot.
- (j) (**Reorganisation of capital**) In the event of any reconstruction (including consolidation, sub-division, reduction or return) of the issued capital of the Company prior to the relevant expiry date, the number of Moss Options or the exercise price, or both, shall be reconstructed in accordance with the Listing Rules.
- (k) (**Adjustment for bonus issues**) If the Company makes a bonus issue of Shares or other securities to existing Shareholders (other than an issue in lieu of, or in satisfaction of, dividends or by way of dividend reinvestment):
 - (i) the number of Shares which must be issued on the exercise of a Moss Option will be increased by the number of Shares which Mr Moss (or his nominee) would have received if he had exercised the Moss Option before the record date for the bonus issue; and
 - (ii) no change will be made to the exercise price.
- (l) (**Adjustment for pro rata issue**) If the Company makes a pro rata issue of Shares or other securities to Shareholders (other than a bonus issue or an issue in lieu of in satisfaction of dividends or by way of dividend reinvestment) the exercise price of a Moss Option will be reduced according to the following formula:

$$\text{New exercise price} = O - \frac{E [P - (S + D)]}{N + 1}$$

O = the old exercise price of the Moss Option.

E = the number of underlying Shares into which one Moss Option is exercisable.

P = average market price per Share weighted by reference to volume of the underlying Shares during the five trading days ending on the day before the ex rights date or ex entitlements date.

S = the subscription price of a Share under the pro rata issue.

D = the dividend due but not yet paid on the existing underlying Shares (except those to be issued under the pro rata issue).

N = the number of Shares with rights or entitlements that must be held to receive a right to one new share.

- (m) **(Vesting of Options)** The Moss Options vest as follows:
- (i) one third of the Moss Options are exercisable on the first anniversary of the date of Mr Moss's appointment as a Director. If the resulting number of options contains a fraction, such number shall be rounded down to the next lowest whole number;
 - (ii) one third of the Moss Options are exercisable on the second anniversary of the date of Mr Moss's appointment as a Director. If the resulting number of options contains a fraction, such number shall be rounded down to the next lowest whole number; and
 - (ii) the balance of the Moss Options are exercisable on the third anniversary of the date of Mr Moss's appointment as a Director,

provided the Moss Option holder continues to be employed or engaged by the Company. Where such engagement or employment ceases with the Company, the Moss Options (which are not vested at that point in time) will no longer vest."

10. Indonesian Projects - Update

Set out below are updates on each of the Indonesian Projects and, where the context requires, each of sections 1.7.1, 3.2, 3.3 and 10.5.4 to 10.5.7 of the Original Prospectus are to be read accordingly.

Project Sugico – As at the date of this Supplementary Prospectus, the Sugico Agreement has not been signed and the Sugico Intent Letter has expired. Subject to receiving valid Applications for \$10,000,000 pursuant to the Offer, the Company intends to demonstrate to the Sugico Sellers that Odni will have US\$1,500,000 available to be applied towards the agreed exploration program with respect to the Sugico IUPs. The Directors believe that if Odni can demonstrate this funding capability, the Sugico Sellers could be willing to finalise the negotiations of the terms of the Sugico Agreement with Odni, in particular, the timing of the payments to the Sugico Sellers. If Odni is unable to finalise negotiations in respect of the Sugico Agreement, the Company does not intend to proceed with Project Sugico. The Company will not make any payments to the Sugico Sellers unless the Sugico Agreement is finalised and executed.

Project BIG – On 15 October 2012, Odni paid to the BIG Sellers a non-refundable deposit of \$200,000, as contemplated in section 10.5.5(a) of the Original Prospectus. The Company understands that Odni and the BIG Sellers will now work towards satisfying the other conditions precedent to the BIG Agreement, including commencing exploration activities.

The Company has been advised that the BIG IUP has been removed from the ESDM's 'clean and clear' list, as announced in CNC List No 7 issued on 16 October 2012. The Company understands that the reason for this removal is that the BIG IUP (together with three other IUP issued by Bulungan district) straddles the boundary between Bulungan (the district which issued the IUP) and Berau district to its south.

The Company understands that IUP which cross district boundaries should be issued by the provincial authorities, rather than the district authorities. The Company also understands that ESDM is in talks with regional authorities as to how to resolve boundary uncertainty issues and resolution is expected by 31 December 2012. The Company intends to continue its investigations and discussions with the ESDM and will update the market in due course.

The Delayed Shares to be issued to the Odni Sellers pursuant to the Share Purchase Agreement will not be issued until the BIG IUP is reinstated on the 'clean and clear' list issued by the ESDM.

All references in the Original Prospectus to Project BIG being on the 'clean and clear' list are to be read accordingly.

Project MMBP - Odni has agreed the terms of a conditional share purchase agreement between Odni and the MMBP Sellers in relation to the purchase of the MMBP Shares (**MMBP Purchase Agreement**). The MMBP Purchase Agreement has been executed by the MMBP Sellers and the Company expects Odni to countersign this document shortly. Further details of this agreement are set out in section 13 of this Supplementary Prospectus. Once signed, the MMBP Purchase Agreement will supersede the MMBP Agreement, which provided Odni an option to purchase the MMBP Shares. The MMBP Purchase Agreement will provide Odni with the right to acquire the MMBP Shares, subject to a number of conditions. Accordingly all references in the Original Prospectus to Odni's rights to Project MMBP being obtained through the MMBP Agreement should be read accordingly.

A non-refundable deposit of US\$100,000 is payable by Odni to the MMBB Sellers by 31 October 2012. If the Company has not received valid Applications for at least the minimum subscription prior to this date, the Company intends to procure Odni to extend the due date for this payment.

Project Karin – Odni has negotiated an extension to the date by which the next installment of the purchase price under the Karin Agreement (US\$250,000) is due, to 31 October 2012. The relevant letter agreement detailing this extension has been signed by the Karin Sellers and the Company expects Odni to countersign this document shortly. If the Company has not received valid Applications for at least the minimum subscription prior to this date, the Company intends to procure Odni to extend the due date for this payment.

11. Deed of Amendment – Share Purchase Agreement

On 24 October 2012, the Company, Odni and the Odni Sellers entered into a deed of amendment (**Amendment Deed**), pursuant to which certain terms of the Share Purchase Agreement were varied. Accordingly, the summary of the Share Purchase Agreement in section 10.5.1 of the Original Prospectus is amended as follows:

- (a) (**Conditions precedent**) The following paragraph is inserted as sub-paragraph (a)(vi):
- “the Company raising at least \$5,000,000 pursuant to the Offer. Prior to the Amendment Deed, the condition precedent to the completion of the Share Purchase Agreement required the Company to raise at least \$10,000,000 pursuant to the Offer.”
- (b) (**Conditions satisfaction**) Sub-paragraph (b) is replaced with the following:

This Supplementary Prospectus is intended to be read with the Original Prospectus dated 7 September 2012 issued by Exalt Resources Limited (ACN 145 327 617)

“The conditions precedent referred to at sub-paragraphs (a)(i) (Company’s due diligence), (a)(ii) (Odni Sellers’ due diligence) and (a)(iv) (Board and Odni’s board approval) must be satisfied on or before 9 November 2012. All other conditions precedent under the Share Purchase Agreement must be satisfied on or before 14 December 2012.”

(c) **(Reimbursement)** Sub-paragraph (f) is replaced with the following:

" As part reimbursement of the expenditure incurred by Ruck Pty Ltd to date in the development of the Indonesian Projects, upon the provision of reasonable evidence of such expenditure, the Company will pay Ruck Pty Ltd on the Odni Completion Date either:

- (i) \$1.5 million if the Company has raised at least \$20 million through the Offer;
- (ii) a pro-rated amount of between \$750,000 and \$1.5 million if the Company has raised more than \$10 million, but less than \$20 million through the Offer;
- (iii) \$750,000 if the Company has raised \$10 million through the Offer;
- (iv) a pro-rated amount of between \$0 and \$750,000 if the Company has raised more than \$5 million, but less than \$10 million through the Offer; or
- (v) \$0 if the Company raises \$5 million or less through the Offer.”

(d) **(Consideration)** The following paragraph is inserted below the table at sub-paragraph (d):

“At completion of the Share Purchase Agreement, the Company will issue to the Odni Sellers all the Consideration Securities with the exception of the Delayed Shares. The Company will only issue any Delayed Shares to the Odni Sellers if:

- (i) the entire BIG IUP is listed as ‘clean and clear’ in a list issued by the ESDM after the date of this Supplementary Prospectus, or it is proven to the Company’s satisfaction, acting reasonably, that the entire BIG IUP will be listed as ‘clean and clear’ in a list issued by the ESDM after the date of this Supplementary Prospectus. If this is the case, the Odni Sellers will be entitled to be issued all Delayed Shares;
- (ii) part of the BIG IUP is listed as ‘clean and clear’ in a list issued by the ESDM after the date of this Supplementary Prospectus and that part is determined by the Company, acting reasonably, to be commercially viable, or it is proven to the Company’s satisfaction, acting reasonably, that a commercially viable part of the BIG IUP will be listed as ‘clean and clear’ in a list issued by the ESDM after the date of this Supplementary Prospectus. If this is the case, the Odni Sellers will be entitled to be issued a percentage of the Delayed Shares equivalent to the percentage of the BIG IUP which is listed as ‘clean and clear’; or
- (iii) the issue in relation to the BIG IUP not being listed as ‘clean and clear’ in the recent list issued by the ESDM is resolved in any other manner, the Odni Sellers will be entitled to be issued, a number of the Delayed Shares to be agreed by the Company and the Odni Sellers acting reasonably.

If the Company seeks Shareholder approval for the issue of Delayed Shares to any of the Odni Sellers, and the Shareholders do not approve the issue, then Odni must transfer all its legal

and beneficial rights and interests to the BIG IUP, or the BIG Company, to a nominee of the Odni Sellers within 30 days of the Shareholder meeting.

Until such time as all, or some, of the Delayed Shares are issued to the Odni Sellers, the Company has an obligation under the Share Purchase Agreement to:

- (i) seek Shareholder approval to refresh its 15% capacity under Listing Rule 7.1 at every general meeting;
- (ii) seek Shareholder approval to approve an additional 10% placement capacity under Listing Rule 7.1A at every annual general meeting; and
- (iii) with respect to any issue of equity securities (other than the Delayed Shares and Shares the Company can issue under an exemption to Listing Rule 7.1), use its reasonable endeavours to seek the approval of Shareholders under Listing Rule 7.1, unless it is not desirable or practicable to do so, as determined by the Company in its sole discretion.”

If the Company (together with its Related Bodies Corporate) has more than \$15,000,000 cash in its bank account at any stage during the term of the Corpac Services Agreement, the Base Fee will be \$40,000 per month (indexed annually by CPI), on and from the date on which the Company's cash holding exceeds that threshold."

- (c) **(Deferral Fee)** Sub-paragraph (j) (Deferral of fees) is deleted.

13. Ex Mining Services Agreement

On 24 October 2012, the Company and Ex Mining Services entered into an amendment deed, pursuant to which certain terms of the Ex Mining Services Agreement were varied. Accordingly, the summary of the Ex Mining Services Agreement in section 10.5.3 of the Original Prospectus is amended as follows:

- (b) **(Base Fee)** Sub-paragraph (f) (Fee) is replaced with the following:

(Fee) The Company will pay Ex Mining Services a monthly Fee and must reimburse Ex Mining Services for all travel, accommodation and other expenses reasonably and properly incurred by Ex Mining Services in providing the services. The monthly Fee:

- (i) if the Company raises gross proceeds of at least \$10,000,000 pursuant to the Offer, will be \$60,000.00 per month (indexed annually by CPI);
- (ii) if the Company raises gross proceeds of more than, or equal to \$8,000,000 but less than \$10,000,000 pursuant to the Offer, will be a pro-rated amount between \$48,000 and \$60,000 (indexed annually by CPI); or
- (iii) if the Company raises gross proceeds of more than, or equal to \$5,000,000 but less than \$8,000,000 pursuant to the Offer, will be:

 - (B) the Company will:
 - (I) issue 1,425,000 Shares to Ex Mining per annum (provided the Company obtains any required Shareholder approval or regulatory

approval under the Corporations Act or Listing Rules). The Shares are to be issued in two tranches, at approximately six month intervals, during each yearly period of the term of the Ex Mining Services Agreement; and

- (II) to the extent the Company does not issue any Shares for a year, the Company will pay Ex Mining an amount equal to \$0.20 multiplied by the number of Shares not issued for that year.

If the Company (together with its Related Bodies Corporate) has more than \$15,000,000 cash in its bank account at any stage during the term of the Ex Mining Services Agreement, the Fee will be \$60,000 per month (indexed annually by CPI), on and from the date on which the Company's cash holding exceeds that threshold."

- (c) **(Deferral Fee)** Sub-paragraph (g) (Deferral of fees) is deleted.

14. MMBP Purchase Agreement

The MMBP Purchase Agreement has been executed by the MMBP Sellers and the Company expects Odni to countersign this document shortly. As the MMBP Agreement will be superseded by the MMBP Purchase Agreement once it is fully executed, section 10.5.6 of the Original Prospectus is replaced with the following:

"In accordance with the MMBP Agreement which provided Odni with the option to enter into a share purchase agreement with respect to the MMBP Shares, Odni and the MMBP Sellers have agreed the terms of a share purchase agreement for the purchase of the MMBP Shares, representing 100% of the issued share capital of the MMBP Company. The MMBP Company holds exploration IUP No: IUP No: 437/K-IV/540/2010 (MMBP IUP). The material terms of the MMBP Purchase Agreement are as follows:

- (a) **(Consideration)** As consideration for the MMBP Shares, Odni will pay the MMBP Sellers an amount equivalent to US\$1.00 per metric tonne of MMBP Verified Reserve (see sub-paragraph (b)(ii) below).

A non-refundable deposit of US\$100,000 is payable by Odni by 31 October 2012. If the Company has not received valid Applications for at least the minimum subscription prior to this date, the Company intends to procure Odni to extend the due date for this payment.

The amount of this deposit will be deducted from the purchase price payable to the MMBP Sellers on completion of the MMBP Purchase Agreement.

Odni can choose to have some or all of the MMBP Shares transferred to a nominee public company on completion. If Odni nominates the Company or another public company, Odni can elect to pay 50% of purchase price in cash and 50% of the purchase price in Shares.

The purchase price shall only be paid upon satisfaction of the conditions precedent (set out below).

- (b) **(Conditions precedent)** The completion of the MMBP Purchase Agreement and the payment of the purchase price are conditional on following:
- (i) Odni completing, to its satisfaction, due diligence on the MMBP Company;
 - (ii) the establishment of the MMBP Coal being a Reserve of at least an eight million metric tonnes of coal Reserve under the JORC Code, verified by a competent person;
 - (iii) Odni paying the deposits set out in sub-paragraph (a);
 - (iv) the MMBP Sellers approving the transfer of the MMBP Shares to Odni including waiving any pre-emptive rights and rights of first refusal;
 - (v) the MMBP Sellers having received and provided to Odni spousal consents for each of the MMBP Sellers to execute the MMBP Purchase Agreement and the transactions contemplated by the MMBP Purchase Agreement;
 - (vi) the parties having obtained all necessary local, state or federal government body approvals and all other consents and approvals required for completion of the purchase of the MMBP Shares;
 - (vii) the MMBP Sellers having procured the MMBP Company to make the necessary written announcements with respect to the change of control of the MMBP Company including in an Indonesian newspaper with national circulation and to employees of the MMBP Company;
 - (viii) the MMBP IUP being validly converted into a production operation IUP (at Odni's cost) in accordance with all applicable Indonesian laws;
 - (ix) amending the MMBP Company's articles of association in a form approved by Odni to permit foreign ownership, an increase in capital and a change in the business scope to mining coal;
 - (x) the MMBP Company having obtained (at Odni's cost) any consent required from any government body for the transfer of the MMBP Shares, including to change the status of the MMBP Company to a foreign investment company;
 - (xi) the MMBP Company having complied with all obligations under the MMBP IUP and under all relevant laws;
 - (xii) the MMBP Company having submitted and applied to the Minister of Energy and Mineral Resources in Indonesia for a "clean and clear certificate";
 - (xiii) the MMBP IUP being listed on the mining register held by the Minister of Energy and Mineral Resources in Indonesia as a "clean and clear" tenement and, if required by the Minister of Energy and Mineral Resources, the MMBP IUP being converted into a production operation IUP issued by the Minister of Energy and Mineral Resources;
 - (xiv) each of the parties having executed a deed of transfer of the MMBP Shares in accordance with all applicable laws and the MMBP Company's articles of association;

- (xv) the MMBP Sellers having obtained, and provided to Odni, a letter issued by the Ministry of Forestry in Indonesia confirming that forestry permits for less than 10% of the relevant forest area in the region have been applied for as at a date which is no more than 30 days before completion of the MMBP Purchase Agreement;
- (xvi) the MMBP Company having entered into formal co-operation agreements, on terms satisfactory to Odni, with all companies which have areas of overlap with the Reserve (as contemplated by paragraph (b)(ii) above);
- (xvii) the issuance (at Odni's cost) of a borrow-use permit from the Ministry of Forestry for all exploration activities in the MMBP IUP area, as well as any relevant environmental permits, in favour of the MMBP Company within six months of the date of the MMBP Purchase Agreement and the issuance of a borrow-use permit permitting full production in the areas of the Reserve (as contemplated by paragraph (b)(ii) above) in favour of the MMBP Company;
- (xviii) the MMBP Company having appointed a drilling contractor selected by Odni, and the drilling contractor having conducted a drilling program to an extent and in a manner directed by Odni (at its discretion and cost);
- (xix) the MMBP Sellers rectifying its non-compliance with convening annual general meetings in accordance with applicable Indonesian law;
- (xx) the MMBP Sellers having delivered to Odni's lawyers the MMBP Company's complete company register of shareholders and share certificates within 30 days of signing the MMBP Purchase Agreement;
- (xxi) each of the representations and warranties of the MMBP Sellers being true, accurate and not misleading as at completion; and
- (xxii) no material changes, events or circumstances which have or may have a material adverse effect of the Company occur.

Odni has the discretion to waive any of the above conditions precedent. If the conditions precedent are not satisfied or waived on or before the date which is 270 days after the date the MMBP Agreement was signed, Odni may terminate the MMBP Purchase Agreement. Either party may terminate the MMBP Purchase Agreement if the satisfaction of any of the conditions precedent becomes impossible or impracticable to satisfy or if there has been a material breach of the MMBP Purchase Agreement.

- (c) **(Completion)** Completion of the MMBP Purchase Agreement will take place two business days after the conditions precedent outlined above are either satisfied or waived, but in any event will not be later than 270 days after the MMBP Company has obtained all necessary permits for drilling. The Directors believe that, if required, this date can be extended as it is the MMBP Seller's obligation to fulfill the conditions precedent and is in the MMBP Sellers' interest to extend the date, otherwise the MMBP Sellers will be in breach of the MMBP Purchase Agreement.

- (d) **(Exploration)** Odni will fund all costs in connection with the drilling contractor for the drilling work activities based on a drilling work program.
- (e) **(Warranties and undertakings)** The MMBP Sellers have provided Odni with limited warranties in relation to the MMBP Shares and MMBP Company. The MMBP Sellers have provided undertakings in relation to the management of the MMBP Company and the MMBP Shares, including not issuing any further securities, create any encumbrances over the MMBP Shares or encourage or accept any other offers to purchase the MMBP Shares. Each party indemnifies the other against a liability arising from a breach by that party of the MMBP Purchase Agreement.
- (f) **(Governing law)** The MMBP Purchase Agreement is governed by the laws of Indonesia.”

17. Revised Exploration Budget

Section 7 of the Independent Technical Review, which is included at section 6 of the Original Prospectus, is replaced with the following:

“Section 7. EXPLORATION BUDGET

Exalt Resources has prepared budgets to further explore the relevant assets (Sugico, BIG, MMBP and Karin) and the pipeline Prospects (Damanka and others). The stated objective of the exploration programme is to identify the coal resources and classify the coal into the JORC categories of Measured\Indicated\Inferred Resources and Proved\Probable Reserves. Budgets have been prepared for 2 cases; for a minimum subscription of \$5 million and for a maximum subscription of \$10 million. The actual budget will depend on the capital raised. The budgets were prepared to an appropriate level of detail for exploration programmes. Table 7.1 gives a summary of the budgets; the budgets themselves were issued in greater detail.

Table 7.1 – Exploration Budgets

Relevant Asset	\$5 million Min Subscription	\$10 million Max Subscription
Sugico	-	1,500,000
BIG		
- Mapping	48,000	48,000
- Geophysics	100,000	100,000
- Drilling	310,000	557,000
- Other Costs	523,900	554,440
BIG TOTAL	981,900	1,260,400

MMBP		
- Mapping	49,500	49,500
- Geophysics	100,000	100,000
- Drilling	330,000	580,000
- Other Costs	515,400	555,400
MMBP TOTAL	994,900	1,284,900
KARIN		
- Mapping	24,000	24,000
- Geophysics	70,000	70,000
- Drilling	280,000	483,000
- Other Costs	391,750	430,000
KARIN TOTAL	765,750	1,007,250
TOTAL BUDGET	\$2,742,550	\$5,052,550

The budgets do not give an indication of the proposed number of drillholes. Direct discussion with the Exalt geologist confirmed that the budget is based on metres drilled rather than holes drilled. MMC accept this as appropriate estimating methodology.

By definition, exploration does not have known outcomes. Therefore, whilst it is reasonable to set objectives such as Measured\Indicated\Inferred Resources, it is not possible to guarantee that any exploration will achieve those results. There are too many unknowns at the beginning of any exploration programme.

Furthermore, definition of JORC Reserves requires that the JORC Resources be “economically mineable”. This necessitates some level of mine/project planning and forecasting of future coal markets and coal prices. These can’t be determined by exploration alone. There are amounts included in the detailed budget for mining studies to produce JORC Statements.

Exploration is normally undertaken in stages, with increasing knowledge of the deposit at each stage. Some assets may require more exploration than others. This will only be known as the exploration proceeds. It is appropriate to also budget expenditures in stages. The Exalt budgets include what are effectively 3 exploration stages; mapping, geophysics and drilling. MMC assume these would be staged in time and that budgets would change depending on the outcomes of each stage.

Having reviewed the proposed budgets, MMC conclude the following:

- “the budgets have been prepared with an appropriate level of estimating detail;
- the budgets appear comprehensive and include all of the items normally incurred in exploration;

This Supplementary Prospectus is intended to be read with the Original Prospectus dated 7 September 2012 issued by Exalt Resources Limited (ACN 145 327 617)

- the \$5 million minimum subscription budget should result in significantly increased knowledge and understanding of the geological setting of each coal prospect;
- the \$10 million maximum subscription budget should result in still greater knowledge of each asset and should therefore increase the likelihood of identifying JORC Resources; and
- subject to successful exploration, it is reasonable to expect that the \$10 million maximum subscription budget will achieve the stated objective of quantifying JORC Resources (Measured, Indicated or Inferred) for the Relevant Assets.”

18. Risk Factors

Funding

The Company is now proposing to raise a minimum of \$5 million and a maximum of \$10 million.

The paragraph entitled ‘Funding’ in section 1.2 of the Original Prospectus is replaced with the following:

“In the event that the Company is unsuccessful in raising the revised maximum subscription of \$10 million, it is unlikely that Project Sugico will proceed under the terms outlined in the Original Prospectus. Should only the minimum amount be raised, project Sugico will not proceed and the remaining Indonesian projects will be allocated reduced exploration expenditure in accordance with the revised budget as set out in section 15 of this Supplementary Prospectus.

Should the Company wish to proceed with Project Sugico in the future, then the Company may need to raise debt or additional equity capital in order to satisfy its obligations under the Sugico Letter of Intent set out in section 10.5.4 of the Original Prospectus.”

‘Clean and clear’ title

The Company has been advised that the BIG IUP has been removed from the ESDM’s ‘clean and clear’ list, as announced in CNC List No 7 issued on 16 October 2012. The Company understands that the reason for this removal is that the BIG IUP (together with three other IUP issued by Bulungan district) straddles the boundary between Bulungan (the district which issued the IUP) and Berau district to its south.

The Company understands that IUP which cross district boundaries should be issued by the provincial authorities, rather than the district authorities. The Company also understands that ESDM is in talks with regional authorities as to how to resolve boundary uncertainty issues and resolution is expected by 31 December 2012. The Company intends to continue its investigations and discussions with the ESDM and will update the market in due course.

The paragraphs titled “‘Clean and clear’ title” in sections 1.12 and 5.1 of the Original Prospectus are replaced with the following:

“‘Clean and clear’ title

This Supplementary Prospectus is intended to be read with the Original Prospectus dated 7 September 2012 issued by Exalt Resources Limited (ACN 145 327 617)

In an effort to bring licensing into some order, the ESDM has placed a moratorium on the issuing of new licences under the Indonesian mining law and has been undertaking limited audits of all licences issued. The intention is to reveal where there are over-lapping licences. As a result of this process, ESDM issues lists and maps and statements on request, indicating that the licence involved is “clean and clear” (“**CNC**”). The IUP is thereby recognised by ESDM as legitimate, which carries an inference that the IUP has been properly issued, although this is not stated. The CNC lists are an administrative attempt to clear away confusion, and carry no legal status.

There is no definition of what “clean and clear” means, but it is understood to mean simply that there are no overlapping issues (with conflicting licences for the same product).

What “clean and clear” does not mean is that the licence holder is up to date with its obligations under the licence, that it has obtained any necessary approvals from the Ministry of Forestry, whether or not the licence holder also owns the land involved, whether or not there are land titles in place, whether there are any disputes with registered or traditional land owners, and whether there is any illegal mining activity taking place.

The Karin Project is not currently included on any CNC list nor is one of the licences constituting Project Sugico. In addition, Project BIG has recently been removed from the relevant CNC list. The Company understands that the reason for this removal is that the BIG IUP (together with three other IUP issued by Bulungan district) straddles the boundary between Bulungan (the district which issued the IUP) and Berau district to its south.

The Company understands that IUP which cross district boundaries should be issued by the provincial authorities, rather than the district authorities. The Company also understands that ESDM is in talks with regional authorities as to how to resolve boundary uncertainty issues and resolution is expected by 31 December 2012. The Company intends to continue its investigations and discussions with the ESDM and will update the market in due course.

The Company does not intend to expend a substantial amount of funds on exploring and developing an IUP until the IUP is included in a CNC list.”

19. Updates to Solicitor’s Report

Paragraph B3 on page 3 of the Solicitor’s Report in section 9 of the Original Prospectus is replaced as follows:

“That identified as the MMBP Project (located in East Kalimantan) is listed by ESDM as clean and clear.”

The following is inserted as a new paragraph B4 on page 3 of the Solicitor’s Report in section 9 of the Original Prospectus, and the existing paragraph numbers in paragraph B are adjusted accordingly:

“That identified as the BIG Project (also located in East Kalimantan) was previously shown to be clean and clear. The Company, however, has been advised that the BIG IUP has been removed from the

ESDM's 'clean and clear' list, as announced in CNC List No 7 issued on 16 October 2012. It appears that the reason for this removal is that the BIG IUP (together with three other IUP issued by Bulungan district) straddles the boundary between Bulungan (the district which issued the IUP) and Berau district to its south.

IUP which cross district boundaries should be issued by the provincial authorities, rather than the district authorities. ESDM is in talks with regional authorities as to how to resolve boundary uncertainty issues and resolution of all such matters is expected before the end of the year."

The paragraph titled "BIG IUP" on page 21 of the Solicitor's Report in section 9 of the Original Prospectus is replaced as follows:

"BIG IUP"

Exalt Interest	Exalt has agreement with Odni Pte Ltd to purchase all shares of the company. On 20 June 2012 Odni signed an agreement with shareholders of BIG to buy all their shares.

This IUP was issued on 29 April 2010 apparently in place of a pre-existing KP. It refers in its preamble to a request of the company concerning a KP for General Survey held by the company. The IUP was listed as clean and clear in ESDM's List 1 but removed by an announcement attached to List 7 issued on 16 October 2012.

A visit by us to the relevant Bupati's Office and Mines Office during the week commencing 25 June 2012, supported by letters requesting advice, revealed no concerns regarding the status of this IUP. However ESDM's announcement has changed this.

The BIG IUP has been removed from the ESDM's 'clean and clear' list, as announced in CNC List No 7 issued on 16 October 2012. It appears that the reason for this removal is that the BIG IUP (together with three other IUP issued by Bulungan district) straddles the boundary between Bulungan (the district which issued the IUP) and Berau district to its south.

IUP which cross district boundaries should be issued by the provincial authorities, rather than the district authorities. There is, however, no evidence of any deliberate wrongdoing and it appears to be a case of confusion as to where the district boundaries actually lie, which is a common occurrence. ESDM is in talks with regional authorities as to how to clear up such matters, and resolution of all such matters is expected before the end of the year.

A visit by us to the Forestry Office also during the week commencing 25 June 2012 followed by written advice dated 9 July 2012 advised that BIG should obtain the relevant permit from the Ministry of Forestry before it proceeds with exploration activities. There was no suggestion that the IUP is in any way in jeopardy. The same general advice was given as for the MMBP IUP – BIG must obtain a borrow-use permit before it begins exploration. We do not know whether exploration has commenced.

However the letter from Forestry also shows there is a forest use right apparently over the whole of the IUP area – held by the same company as that over the MMBP IUP, and presumably is the same right. The forest use right (IUPHHK Hutan Alam) covers 5,078.76 ha of natural forest, all with HPT status. The inference from the letter is that the IUP is within this area. IUPHHK Hutan Alam or *Izin Usaha Pemanfaatan Hasil Hutan Kayu Hutan Alam* means a Licence to Exploit Forest Timber Products in Natural Forest, and is granted pursuant to Government Regulation 6/2007 referred to above. Agreement with the licence holder regarding access is needed.

The district BPN office advised that there are no land titles issued in the areas concerned. A letter confirming this advice is expected to be forthcoming.”

Dear Sirs

INVESTIGATING ACCOUNTANT'S REPORT

1. Introduction

We have been engaged by Exalt Resources Limited (Company) to prepare this investigating accountant's report on Historical and Pro-forma Financial Information of the Company for inclusion in the Prospectus dated 7 September 2012, as supplemented by a Supplementary Prospectus dated on or about 24 October 2012 (Prospectus).

The Company is looking to raise capital via a public offering to raise up to \$10 million before costs.

The Historical and Pro-forma Financial Information included in the Prospectus illustrate the financial position of the Company as at 30 June 2012 and provides investors with a Pro-forma Statement of Financial Position as at 30 June 2012 adjusted to include the Pro-forma Transactions outlined in Section 8.3 of the Prospectus.

The purpose of this report is to report whether anything has come to our attention which causes us to believe that the Historical and Pro-forma Financial Information is not presented fairly in accordance with the recognition and measurement requirements of Australian Accounting Standards and other pronouncements issued by the Australian Accounting Standards Board, the accounting policies of the Company and the basis of preparation described in Sections 8.1 to 8.6 of the Prospectus.

This report does not address the rights attaching to the shares to be issued in accordance with the Supplementary Prospectus, the risks associated with the investment, nor forms the basis of an independent expert's opinion with respect to a valuation of the Company or a valuation of the share issue price.

References to the Company and other terminology used in this report have the same meaning as defined in the Glossary of the Original Prospectus.

2. Historical & Pro-forma Financial Information

We have been requested to prepare a report covering the Historical and Pro-forma Financial Information described below and disclosed in the Company's Prospectus at Section 8.1 to 8.6:

- the Historical Statement of Financial Position as at 30 June 2012;
- the Pro-forma Statement of Financial Position as at 30 June 2012;
- the Pro-forma Transactions described in Section 8.3 ; and
- the other notes to the Historical and Pro-forma Financial Information.

Together, the above is referred to as the “Historical and Pro-forma Financial Information”.

The Historical and Pro-forma Financial Information presented in the Company’s Prospectus has been derived from the audited historical financial information of the Company for the period ended 30 June 2012, adjusted as applicable to reflect the Pro-forma Transactions detailed in Section 8.3 of the Prospectus.

The financial statements of the Company for the year ended 30 June 2012 were audited by the company’s auditors. The audit opinion issued to the members of the Company relating to this financial statement was unmodified. We have reviewed this financial information in preparation of this report.

The Historical and Pro-forma Financial Information is presented in an abbreviated form in so far as it does not include all of the disclosures required by Australian Accounting Standards applicable to financial reports prepared in accordance with the *Corporations Act 2001*.

3. Scope

We have reviewed the Historical and Pro-forma Financial Information in order to report whether anything has come to our attention which causes us to believe that the Historical and Pro-forma Financial Information set out in the Prospectus, is not presented fairly in accordance with the recognition and measurement requirements of Australian Accounting Standards and other pronouncements issued by the Australian Accounting Standards Board, the accounting policies of the Company and the basis of preparation described in Section 8.5 of the Prospectus.

Our review has been conducted in accordance with Australian Auditing Standards on Review Engagements ASRE 2405 “Review of Historical Financial Information Other than a Financial Report”. We made such enquiries and performed such procedures as we, in our professional judgement, considered reasonable in the circumstances including:

- Review of the Historical financial information of the Company for the year ended 30 June 2012;
- Review procedures applied to the Historical and Pro-forma Financial Information;
- Review of work papers, accounting records and other documents;
- Review of the Pro-forma Transactions described in Section 8.3 of the Prospectus; and
- Inquiry of Directors, management and others.

These review procedures were substantially less in scope than an audit examination conducted in accordance with Australian Auditing Standards and therefore provide less assurance than an audit .We have not performed an audit and, accordingly, we do not express such an opinion on the Company’s Historical and Pro-forma Financial Information.

The review statement expressed in this report has been formed on the above basis.

4. Directors' responsibilities

The directors of the Company are responsible for the preparation and presentation of the Historical and Pro-forma Financial Information, including the determination of the pro-forma Transactions.

The directors' responsibility includes establishing and maintaining internal controls relevant to the preparation of the financial information in the Supplementary Prospectus that is free from material misstatement, whether due to fraud or error.

5. Review Statement on Historical and Pro-forma Financial Information

Based on our review, which is not an audit, nothing has come to our attention which causes us to believe that the Historical and Pro-forma Financial Information set out in Sections 8.1 to 8.6 of the Prospectus is not presented fairly in accordance with the recognition and measurement requirements of Australian Accounting Standards and other pronouncements issued by the Australian Accounting Standards Board, the accounting policies of the Company and the basis of preparation described in Section 8.5 of the Prospectus.

6. Subsequent Events

Apart from the matters dealt with in this report, and having regard to the scope of our report, to the best of our knowledge and belief no material items, transactions or events outside of the ordinary business of the Company have come to our attention which would require comment on, or adjustment to, the information referred to in our report or that would cause the information to be misleading or deceptive.

7. Independence Disclosure

BDO Audit Pty Ltd does not have any pecuniary interests that could reasonably be regarded as being capable of affecting its ability to give an unbiased opinion in relation to this matter. BDO Audit Pty Ltd has provided advisory services and will receive normal professional fees for the preparation of this report. The Directors of BDO Audit Pty Ltd do not hold nor have any interest in any Ordinary Shares of the Company or its subsidiaries.

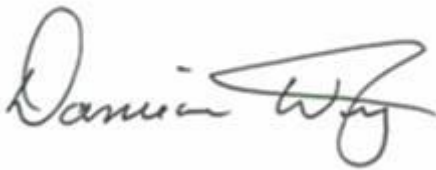

8. Consent

Consent to the inclusion of the Investigating Accountants Report in the Prospectus in the form and context in which it appears has been given. At the date of this report this consent has not been withdrawn.

Yours faithfully

BDO Audit Pty Ltd
