

30 April 2012

Quarterly Activities Report for the Period to 31 March 2012

The Board of Firestone Energy Limited (ASX/JSE: FSE) ("Firestone" or the "Company") is pleased to provide shareholders with its Quarterly Activities Report for the 3 month period ended 31 March 2012.

Highlights

- Sekoko Coal signs an MoU for a coal supply agreement with Eskom Holdings Limited;
- AUD \$2.2M Finance Facility negotiated; and
- Technical and environmental work on track.

Overview

Firestone's South African Black-owned partner, Sekoko Coal (Pty) Ltd, has signed a Memorandum of Understanding for a Coal Supply Agreement with Africa's largest power utility, Eskom Holdings Limited, to supply thermal coal from its Waterberg Coal Project in the Lephalale area, Limpopo, to Eskom power stations in the Mpumalanga Province.

Both parties have agreed that, upon compliance of the terms and conditions set out in the MoU, the parties will enter into a Coal Supply Agreement containing enabling provisions for the Firestone / Sekoko Joint Venture to supply a minimum of 10Mt of thermal coal on a Free on Rail (FOR) basis annually to Eskom's two designated power stations in the Mpumalanga area for a minimum period of thirty (30) years. The production of coal will commence in 2014 and will ramp up over a period of five (5) years to 10mt/pa.

On the 7 March 2012, the Company received an offer from the Tata Power Company Limited to invest in the Firestone and Sekoko joint venture, valuing 100% of the JV's Waterberg Coal Project at approximately AUD \$130 million. Following consideration of the offer, the Board of Firestone decided to reject the offer on the basis that it materially undervalues the inherent value that has been built up in the project to date.

About Firestone Energy

Firestone Energy Limited is an independent, Australian exploration and development company listed on the Australian Stock Exchange Ltd (ASX) and the Johannesburg Stock Exchange (JSE). Firestone Energy has entered into a Joint Venture with Sekoko Resources (Pty) Ltd through which Firestone Energy has acquired the right to 60% participation interests in the Waterberg Coal Project located in Lephalale area, Limpopo Province, South Africa.

The first stage of the project is to develop the Smitspan mine which has a substantial measured thermal coal resource and to develop the Velleegte mine which is a substantial metallurgical coal deposit.

Firestone Energy is committed to becoming a profitable independent coal and energy producer at its projects in South Africa, thereby making a substantial contribution to the social and economic development of the Lephalale area and South Africa.

Finance Facility

In March the Company secured a AUD\$2.2M short term finance facility to provide working capital to the Company for general corporate purposes.

In addition, the Company is considering further funding initiatives to finance its share of the Joint-Venture expenses in relation to completing a Definitive Feasibility Study as required in the terms and conditions of the Eskom MoU.

Corporate

In January 2012, Mr Colin McIntyre, resigned from Firestone as independent Non-Executive Director. To date the Company has not replaced this position.

Outlook

The management of the joint venture continue to work closely and are focused on unlocking the value in the Waterberg Joint Venture Project. The Company is increasingly being recognised in the marketplace and within the industry on its activities and achievements.

Notes

- 1 The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position. An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- 2 The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- 4 The definitions in, and provisions of, *AASB 1022: Accounting for Extractive Industries* and *AASB 1026: Statement of Cash Flows* apply to this report.
- 5 **Accounting Standards** ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.

+ See chapter 19 for defined terms.
