HANNANS REWARD LIMITED

20 March 2012

Dear Scandinavian Resources' Shareholders

On behalf of the Independent Directors of Hannans, I am pleased to enclose an offer to acquire all your shares in SCR.

By accepting Hannans' offer you will, subject to the terms and conditions of the offer, receive three (3) Hannans Shares for every one (1) SCR Share (**Offer**).

Hannans is currently SCR's second largest shareholder and currently owns 19.6 million shares in SCR, representing 17.11% of SCR. Hannans has continued to provide significant financial and corporate support to SCR. This support has been used by SCR to advance the Kiruna Iron Project and its other precious metals projects since early 2010.

The Independent Directors consider that a merger of Hannans and SCR is compelling, and has the potential to unlock substantial additional value and synergies for shareholders of both companies.

Since the announcement of the Offer, Hannans' has received written confirmation from Equity & Royalty Investments Ltd and Craton Capital Fund, two of SCR's largest shareholders that they intend to accept the takeover Offer from Hannans in the absence of a superior offer. Equity & Royalty Investments Ltd holds 20.0 million shares and Craton Capital Fund holds 12.2 million shares in SCR, representing 17.5% and 10.6% respectively of SCR's shares. When combined with Hannans existing 17.1% shareholding in SCR, the combined interest will increase to 45.2%.

The merger will consolidate SCR's and Hannans' strategic portfolios in Sweden, Norway and Australia under a single entity listed on ASX, creating a simpler and stronger platform to promote the company to investors and key stakeholders.

The combined group will be well financed through the next phase of exploration and resource definition with the merger consolidating the geological and technical teams that can continue to leverage off well established in-country relationships.

The merger will lead to a strengthening and simplification of the current management arrangements and should achieve cost savings by reducing corporate overheads, while SCR Shareholders who accept the Offer will maintain an exposure to SCR's assets and gain exposure to the potential upside within Hannans' exploration and investment portfolio.

I encourage you to read this important document carefully. The Offer is open for your acceptance until 5.00 pm (Perth Time) on 4 May 2012, unless extended. If you wish to accept the Offer, you should follow the instructions on the relevant Acceptance Form enclosed.

If you have any questions about the Offer, please contact Hannans on +61 8 9324 3388 or your professional financial advisor.

Yours sincerely

Mr Richard Scallan
Chairman

1. WHY YOU SHOULD ACCEPT THE OFFER

Hannans believes you should ACCEPT the Offer for the following reasons:

1

CREATION OF A SIMPLIFIED MINING COMPANY BETTER PLACED TO ENHANCE THE VALUE OF THE MERGED ENTITY'S ASSETS.

2

THE MERGED ENTITY WILL BE WELL FINANCED THROUGH THE NEXT PHASE OF EXPLORATION AND RESOURCE DEFINITION.

3

TWO OF SCR'S MAJOR SHAREHOLDERS HAVE ALREADY INDICATED THEIR INTENTION TO ACCEPT THE OFFER, IN THE ABSENCE OF A SUPERIOR OFFER.

4

YOU MAY BE ELIGIBLE FOR AUSTRALIAN CAPITAL GAINS TAX RELIEF.

The above is only a headline summary of some of the reasons why you should accept the Offer. Each of the reasons is explained below. If you wish to accept this Offer, you must return the signed Acceptance Form by 5:00 pm (Perth Time) on 4 May 2012.

Detailed reasons why you should ACCEPT the Offer

1. CREATION OF A SIMPLIFIED MINING COMPANY BETTER PLACED TO ENHANCE THE VALUE OF THE MERGED ENTITY'S ASSETS

The merger will consolidate SCR's and Hannans' strategic portfolios in Sweden, Norway and Australia under a single entity listed on ASX, creating a simpler and stronger platform to promote the company to investors and key stakeholders.

The simplification of the corporate structure, cross directorships and removal of cross-ownership issues is anticipated to provide additional synergies and resourcing efficiencies within the Merged Entity.

If the Offer is successful, SCR Shareholders will retain exposure to SCR's project portfolio, including the Kiruna Iron Project through a majority shareholding in the Merged Entity and gain exposure to the potential upside within Hannans' exploration and investment portfolio.

Post-merger SCR Shareholders will own approximately 68% and Hannans Shareholders will own approximately 32% on an undiluted basis.

2. THE MERGED ENTITY WILL BE WELL FINANCED THROUGH THE NEXT PHASE OF EXPLORATION AND RESOURCE DEFINITION

The Independent Directors consider that the combination of Hannans' and SCR's exploration expertise, technical capability and financial resources will provide the Merged Entity with improved opportunity to maximise the value of SCR's projects.

Financial Resources

SCR was seeking to secure US\$12.5 million in pre IPO funds for the Kiruna Iron Project. However, in light of challenging global equity markets and pricing uncertainty, the Hannans Independent Directors consider that the Offer is a more immediate and certain alternative for SCR Shareholders.

The Merged Entity will have a stronger financial position based on an expected pro-forma net liquid investment position of approximately \$12.2¹ million as at 19 March 2012. This excludes any cash to be received from the conversion of in the money options.

The Merged Entity's enlarged size and strengthened balance sheet should improve access to future equity funding than what either Hannans or SCR could achieve on their own. It is anticipated to also provide the Merged Entity with the flexibility to support near term project funding and accelerate exploration activities.

Significant Exploration Portfolio

The Merged Entity will have a dual exploration strategy focused on the Kiruna Iron Project in Sweden, supplemented with precious and other base metals projects located in Sweden, Norway and Australia.

Hannans' greenfields exploration portfolio includes a number of prospective projects within Western Australia targeting nickel and gold, whilst the flagship exploration project is the Forrestania nickel project.

3. TWO OF SCR'S MAJOR SHAREHOLDERS HAVE ALREADY INDICATED THEIR INTENTION TO ACCEPT THE OFFER, IN THE ABSENCE OF A SUPERIOR OFFER.

Since the announcement of the offer, Hannans' Independent Directors have been advised by two of SCR's major shareholders that they intend to accept Hannans' Offer, in the absence of a superior offer.

Equity & Royalty Investments Ltd holds 20.0 million shares and Craton Capital Fund holds 12.2 million shares in SCR, representing 17.5% and 10.6% respectively of SCR's shares. When combined with Hannans existing 17.1% shareholding in SCR, the combined interest will increase to 45.2% and therefore the prospects of another bidder emerging may be low.

4. YOU MAY BE ELIGIBLE FOR AUSTRALIAN CAPITAL GAINS TAX RELIEF

If, as a result of the Offer, Hannans becomes the holder of 80% or more of the voting shares in SCR, SCR Shareholders who would otherwise make a capital gain from the disposal of their SCR Shares pursuant to the Offer may be entitled to capital gains tax scrip-for-scrip rollover relief. Such rollover relief, if available, will allow those eligible SCR Shareholders to disregard any capital gain, in whole or in part, that would otherwise arise in respect of the disposal of their SCR Shares by way of acceptance of the Offer.

See Section 8 of this Bidder's Statement for further information in relation to the availability of capital gains tax rollover relief and taxation considerations generally.

¹ Based on SCR and Hannans' cash and bonds at 31 December 2011 of A\$1.46 million and A\$0.43 million respectively plus 4 million Atlas Iron Limited shares (ASX:AGO) at A\$3.04 being the ASX closing price for Atlas shares on 19 March 2012 less the margin loan of A\$1.86 million as at 31 January 2012. Disclosed in Hannans' unaudited "Appendix 5B – 2nd Quarter Cash flow Report for the period ended 31 December 2011" released to the ASX on 1 February 2012 and the Hannans and SCR "Financial Report for Half Year" both released to the ASX on 15 March 2012.

19.	When will you receive your consideration?	<p>If you accept the Offer, Hannans will issue you Hannans Shares as consideration for your SCR Shares on or before the earlier of:</p> <ul style="list-style-type: none"> (a) one month after you have validly accepted the Offer or the contract resulting from its acceptance becomes unconditional (whichever is later); and (b) 21 days after the end of the Offer Period, provided that the Offer has become unconditional. <p>If you accept the Offer and you are an Ineligible Foreign Shareholder, or you are an Unmarketable Parcel Shareholder, you will not be entitled to receive Hannans Shares as consideration for SCR Shares held by you pursuant to the Offer. 3.4 OVERVIEW OF HANNAN'S ACTIVITIES

This Section 3.4 contains a summary of Hannans' activities. Further information on Hannans can be obtained from Hannans' website (www.hannansreward.com).

Hannans started as a gold and base metals exploration company, with a Western Australian focus. Hannans has since successfully discovered and explored projects in Western Australia and Scandinavia. Hannans currently only holds exploration projects in Western Australia.

Hannans has developed a strategically positioned package of grass-roots exploration projects within corridors which are endowed with nickel sulphides, gold, base metals and bulk commodities.

The Company's objective is to:

- (a) realise value for its Shareholders through exploration success within these projects; and
- (b) find an economic resource through the application of rigorous, methodical and multidisciplinary exploration processes.

Hannans continues to look for opportunities to secure additional land holdings through incremental tenement applications or third party opportunities that can add to the prospectivity of its current portfolio of projects.

As mentioned in Section 3.1, Hannans also operates HIM (further information in respect of HIM is contained in Section 3.6) and CBS.

3.5 HANNANS EXPLORATION - HANNANS PROJECTS

Hannans has built up a diverse portfolio of tenements and target commodities which includes nickel, gold, base metals and iron. Hannans Projects include:

- (a) Forrestania Project (east of Hyden, Western Australia) - nickel, gold and iron;
- (b) Queen Victoria Rocks Project (south-west of Coolgardie, Western Australia) - nickel and gold;
- (c) Lake Johnston Project (west of Norseman, Western Australia) - nickel and gold; and
- (d) East Pilbara Project (east of Newman, Western Australia) - base metals and gold.

The location of the Hannans Projects is shown in Figures 1 and 2 below.

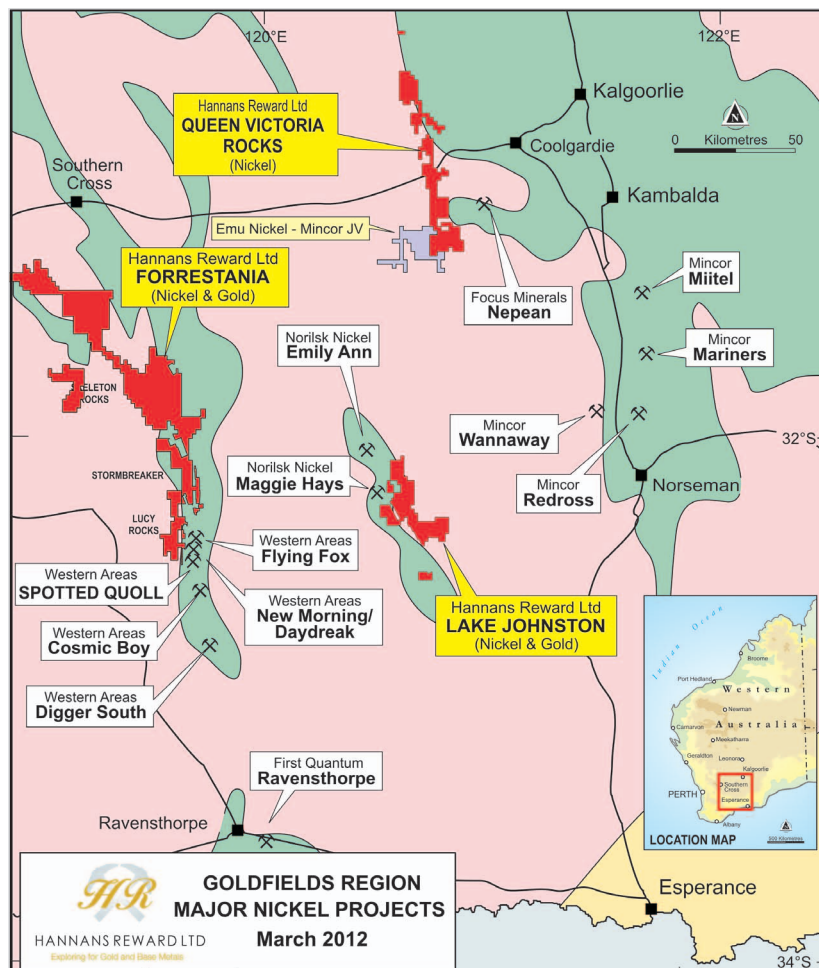

Figure 1: Southern Yilgarn tenement location diagram.

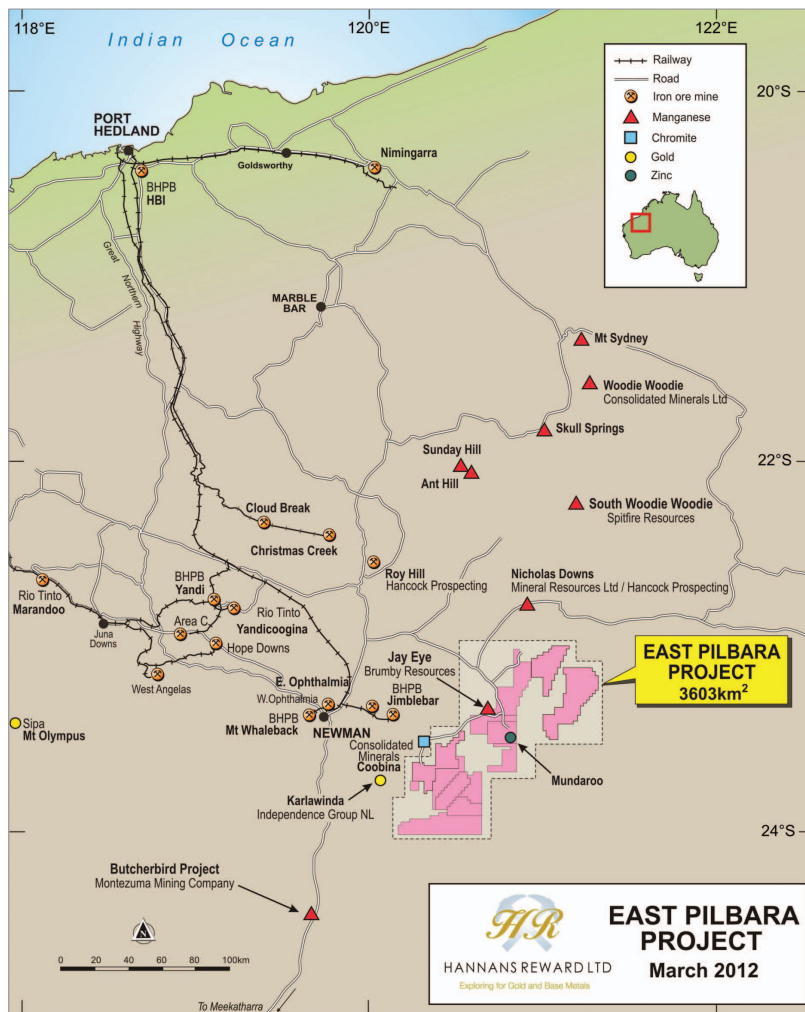

Figure 2: East Pilbara Project showing tenement locations.

(a) FORRESTANIA PROJECT - 1,155 KM²

Hannans' Forrestania Project, comprising ground in joint venture and wholly owned tenements, is located within the Forrestania nickel belt and adjoins ground owned by major mining company Western Areas NL (ASX:WSA) (refer to Figure 3 below). Over the past twelve months Hannans has continued to increase its tenement holding over the northern extension of the prospective stratigraphy in the region.

The exploration success by Western Areas NL in the region together with the limited historical exploration for nickel sulphides further north within the Hannans tenements highlights the fact that opportunity remains for the discovery of high grade nickel sulphide deposits within the Forrestania Project.

Exploration conducted by Hannans during 2011 has confirmed that the northern extensions of the Forrestania greenstone belt includes a number of ultramafic or komatiitic units which have the potential to host nickel sulphides. The exploration has primarily involved ground based geophysical surveys (fixed loop and moving loop TEM), soil sampling and reverse circulation (RC) drilling. These activities have helped to develop high quality exploration targets as well as advance the geological understanding in the area.

Skeleton Rocks Prospect

Hannans' exploration efforts at the Skeleton Rocks Prospect, in the north of the Forrestania Project, is focused on historical data collation, field reconnaissance/mapping and consolidating the geological interpretation. Geochemical sampling has recently been completed in a small portion of the eastern part of the area for gold and nickel occurrences with assay results currently being awaited.

The area has also been assessed for hematite rich iron mineralisation with two small prospects identified during 2011.

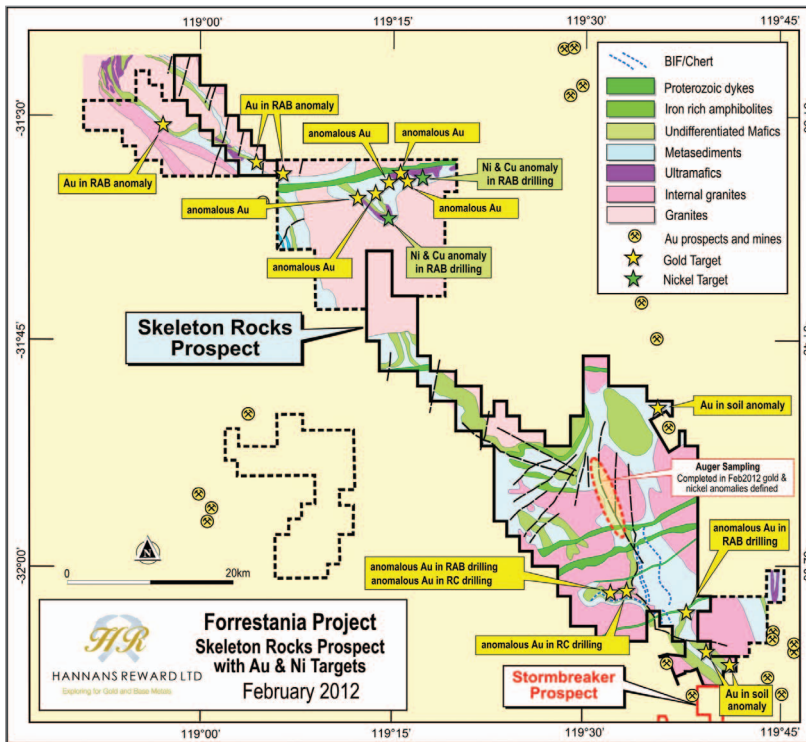

Figure 3: Forrestania Project – Skeleton Rocks Prospect .

Stormbreaker Prospect

Hannans' continued to undertake exploration drilling during 2011 at the Stormbreaker Prospect testing a number of geophysical and geochemical anomalies. This prospect includes Hannans' joint venture partners Cullen Resources Ltd (ASX:CUL) who have a free carry interest of 20% and St Barbara Ltd (ASX:SBM) who have a free carry interest of 15% on some tenements.

Since the acquisition of the Stormbreaker tenements, Hannans' has systematically explored for nickel sulphides using a combined approach of geochemistry, geophysics and geology however no significant discoveries have been made to date.

In addition to the nickel exploration work, Hannans has more recently advanced exploration for hematite rich iron mineralisation within the prospect area. One RC percussion drill hole intersected iron mineralisation while exploring for nickel sulphides. Subsequent rock chip sampling and XRF analysis of surface samples has identified a corridor of hematite rich iron material which covers a strike extent of ~5.4 kms. The prospect includes two sub parallel BIF units with hematite rich material on top of the units. The hematite rich iron horizons are programmed for drill testing later in 2012. The iron prospect at Stormbreaker is very similar in mineralisation style and geological setting to the Cazaly Resources Limited (ASX: CAZ) - Parker Range Iron project approximately 60km to the north.

Figure 4: Forrestania Project – Stormbreaker Prospect with the planned iron drilling program.

Lucy Rocks Prospect

The Lucy Rocks Prospect is located at the southern end of the Stormbreaker Prospect and to the west of the Flying Fox and Beautiful Sunday Nickel deposits owned by Western Areas NL (ASX Code: WSA) (refer to Figure 4). Exploration during 2011 comprised mapping and RC percussion drilling and has confirmed extensive BIF units within the northern part of the prospect area and to the west of the Beautiful Sunday nickel deposit.

Ongoing exploration will be directed towards these BIF units.

(b) QUEEN VICTORIA ROCKS PROJECT - 420 KM²

The Queen Victoria Rocks Project has been owned 100% by Hannans since it listed on ASX in 2003 (refer to figure 5 below). The area south-west of Coolgardie has attracted significant interest from major nickel miner Mincor Resources NL (ASX Code: MCR) through a joint venture with a junior exploration company. This ground adjoins Hannans ground.

Hannans have completed surface TEM surveys at the Benari Prospect, as well as the Spargos North, Spargos and Spargos South Prospects which have generated a number of anomalies. A number of these anomalies are coincident with geochemical nickel and copper anomalies. The surface geochemical data for the entire project has been processed and interpreted, and as a result a number of coincident nickel and copper anomalies were identified for follow up exploration activities. Soil sampling has been completed at the Horseshoe Prospect and RC percussion drilling has been completed at the Benari Prospect.

Significant effort has been put into improving the drilling database for the project as well as the geological interpretation for the Spargos Prospect area.

The Spargos Prospect exhibits a number of key criteria that are favorable indicators for nickel sulphide mineralising environments, as a result the Spargos Prospect remains a key nickel sulphide prospect within the Hannans Projects portfolio.

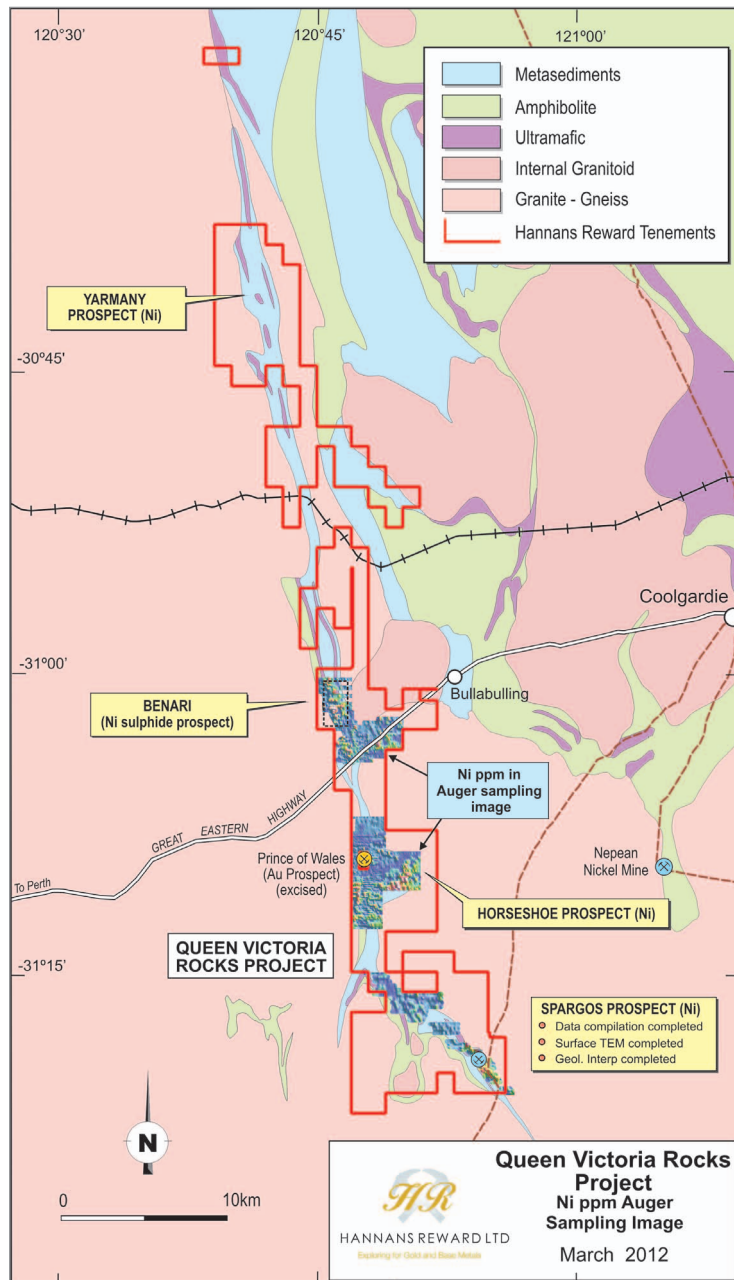

Figure 5: Queen Victoria Rocks Project – tenement and prospect locations.

(c) LAKE JOHNSTON PROJECT - 375 KM²

The Lake Johnston Project tenements are located approximately 25km south-east of Russian mining company, Norilsk Nickel's, Maggie Hays and Emily Ann nickel sulphide mines (refer to Figure 6 below).

Exploration activities and a data review completed by Hannans have identified gold in soil anomalies covering a strike extent of ~20 kms. High grade gold mineralisation has been identified in rock chip sampling at the Ernest Prospect, in Hannans' RC percussion drilling at the Ernest and Hardcore and historic RC percussion drilling at the Charles Prospect and in historic RAB drilling at the Richard Prospect.

Hannans' exploration activities for gold have been focused on additional geochemical sampling, gravity surveys, and RC percussion drilling.

Hannans will continue to undertake nickel sulphide exploration along the southern extension of the stratigraphy which is host to the Maggie Hayes and Emily Ann deposits. The corridor covers a strike extent of ~800 metres and includes a thickened portion of the high magnetic ultramafic unit which is host to the Maggie Hayes deposit to the north.

A single RC drill hole was recently completed over a nickel anomaly at the Mt. Gordon prospect, as part of an RC drilling campaign, assay results are still pending for this hole.

The Mt Gordon prospect area is considered to be a stand out target for gold mineralisation. The prospect includes a large gold anomaly generated from surface auger sampling which covers an area of ~2.5 x 0.5 kms. The anomaly is significantly larger than the geochemical anomaly associated with the Hardcore gold mineralisation. The prospect area has recently been the subject of a large RC drilling campaign, assay results are still pending for a majority of this program.

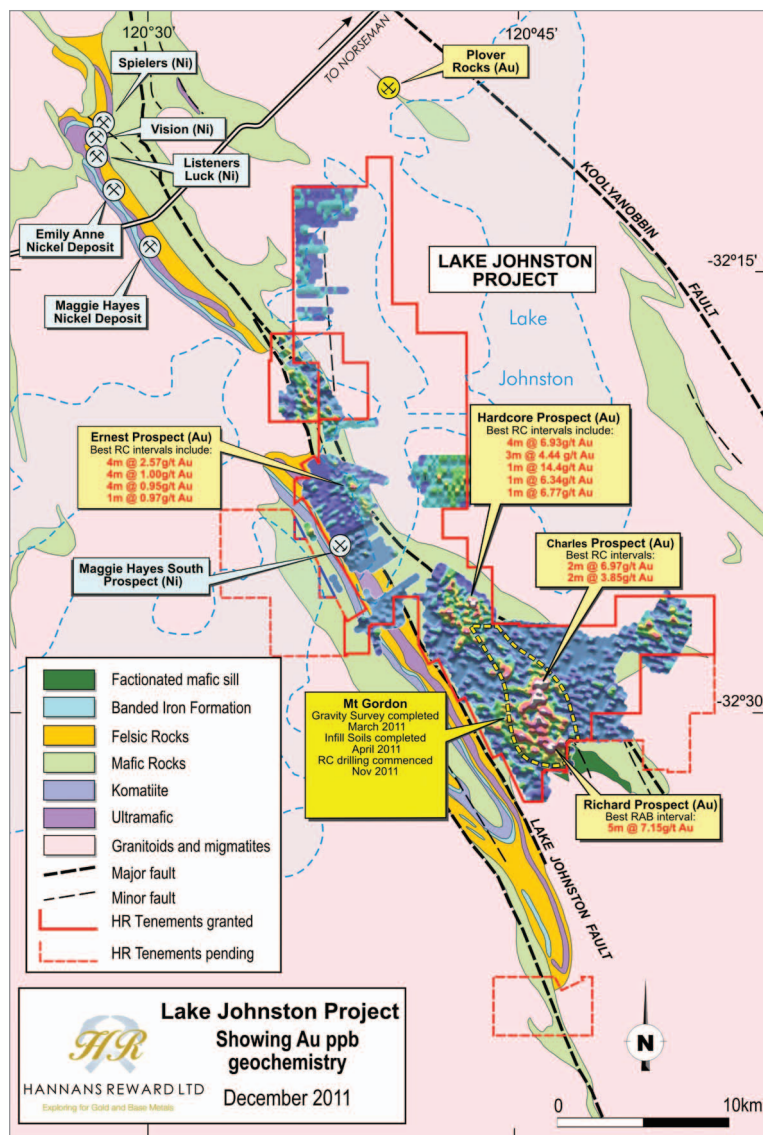

Figure 6: Lake Johnston Project – geological summary.

(d) EAST PILBARA PROJECT – 1758KM²

The East Pilbara Project boasts the largest tenement holding of all the projects in the Hannans portfolio (refer to Figure 2), covering a corridor of ground considered highly prospective for base metals, gold, manganese and iron mineralisation. Hannans holds the base metal and gold rights within the East Pilbara Project tenement package.

Exploration activities conducted over previous years have outlined a number of base metal targets within the project area which require further exploration. The most advanced of these is the Mundaroo Zinc prospect which has been the subject of shallow AC drilling that returned anomalous zinc and silver values with many of the holes ending in mineralization.

A recent review of the historical, broad spaced geochemical data covering the project area has also helped identify several new base metal anomalies across the project area, which appear to be in a very similar geological setting to the Mundaroo prospect. These newly identified anomalies and the Mundaroo prospect will be evaluated with further geochemistry and geophysical surveys in 2012.

3.6 HANNANS INVESTMENT MANAGEMENT

HIM operates by way of an Investments Committee comprising Mr William Hicks, Mr Jonathan Murray and Mr Damian Hicks. In due course, Hannans expect to appoint an independent external committee person who will be appointed to provide another perspective as part of the decision making process. HIM seeks to maximise returns through its equity portfolio, convertible loans and the provision of loans. It also has a facility to borrow funds.

(c) MANAGEMENT COMMENTARY ON HISTORICAL RESULTS

- (i) **(Revenue):** In 2009, revenue was generated from interest on bank deposits held by Hannans. In 2010 revenue is primarily attributed to the sale of iron ore rights to Warwick Resources Ltd which was subsequently acquired by Atlas Iron Ltd (**Atlas Iron**). The iron rights were sold for total consideration of \$5.25 million in a combination of cash and shares. Following the acquisition of Warwick Resources Ltd by Atlas Iron Hannans owned 8,133,334 Atlas Iron shares.

For the year ending 30 June 2011 and half year ending 31 December 2011 the primary revenue was from the gains on the sale of Atlas Iron shares. These shares were sold to fund the exploration and working capital requirements of Hannans.

- (ii) **(Expenditure):** The majority of Hannans historical expenditure relates to exploration and evaluation expenditure on the various Hannans Projects. It is Hannans policy that expenditure incurred in exploration evaluation is expensed immediately to the consolidated statement of comprehensive income and therefore no exploration and evaluation expenditure is capitalised to the statement of financial position.

- (iii) **(Assets):** In 2009, total assets comprised of cash, bonds and a loan of \$343,586 made to Scandinavian Shield Ltd (now known as Equity & Royalty Investments Ltd).

In 2010, total assets primarily consisted of the value of investments in listed entities. These investments were mainly due to the remaining shares in Atlas Iron (8,031,334 shares) received through the sale of iron rights. The cash balance was mainly due to a capital raising completed on 22 September 2009 raising \$5.5 million. Other financial assets included a Director loan for \$300,000.

For the year ending 30 June 2011 assets consisted of investments in listed entities and a convertible note for \$2.5 million issued to Kiruna Iron AB (a subsidiary of SCR). The investment was mainly due to the remaining Atlas Iron Shares (6,401,334 shares). Other financial assets included a Director loan for \$300,000

For the half year ending 31 December 2011 assets consisted of investments in listed entities and three convertible notes for a total of \$4.5 million issued to SCR and Kiruna Iron AB (a subsidiary of SCR). Excluding interest, a total of \$3.65 million of the convertible notes have been drawn down at 31 December 2011. The investment was mainly due to the remaining Atlas Iron shares (4,300,333 shares). Other financial assets included a Director loan for \$300,000

- (iv) **(Liabilities):** Total liabilities increased from \$0.34 to \$3.8 million between 30 June 2009 and 30 June 2011 which was due to the deferred tax liability with a majority of this liability attributable to the value of the shares in Atlas Iron. At 31 December 2011 total liabilities reduced due to a reduction in the deferred tax liability which is due to the sell down of Atlas Iron shares and the adjusted fair value of the remaining shares based on the share price at 31 December 2011.
- (v) **(Equity):** Total equity increased from \$1.24 million to \$25.1 million between 30 June 2009 and 30 June 2011 due to a capital raising of \$5.5 million completed on 22 September 2009 and the increase in reserves as a result of the increase in the fair value of available for sale assets. The reduction in Total Equity from \$25.1 million to \$17.9 million between 30 June 2011 and 31 December 2011 is mainly due to a decrease in reserves as a result of a decrease in the fair value of available for sale assets.

(d) FORECAST INFORMATION

Hannans' future financial performance is dependent on a range of factors, many of which are beyond Hannans' control. Accordingly, Hannans' directors have concluded that forecast financial information would be misleading to provide, as a reasonable basis does not exist for providing forecasts that would be sufficiently meaningful and reliable as required by applicable Australian law, policy and market practice.

Further information is available on Hannans' financial performance from its annual and half year reports. Copies of these reports are available from Hannans' website www.hannansreward.com.

(e) MATERIAL CHANGES IN HANNANS' FINANCIAL NET ASSET POSITION SINCE LAST PUBLISHED ACCOUNTS

After Hannans' Shareholders approved the Restructure, Errawarra Resources Ltd, an unlisted public company, was incorporated as part of the implementation of the Restructure. Hannans has subsequently undertaken an in-specie distribution of shares in Errawarra Resources Ltd to eligible Hannans Shareholders.

- (iv) Under the Restructure, Errawarra has transferred 100% of its ownership in the non-manganese and non-iron rights to Hannans and Hannans has transferred manganese and iron rights to Errawarra in respect of the Jigalong Project.
- (v) On 31 January 2012, HR Equities Pty Ltd was issued with 487,495 SCR Options exercisable at 20 cents per option on or before 15 September 2013 as a fee for the extension of the loans made to Kiruna Iron AB to 31 March 2012. On 13 March 2012, the Company extended the repayment date for the outstanding loan portfolio and the interest payment date to 15 September 2012. The total loan facility (i.e. the funds available to be drawn down by SCR) was increased by a further \$500,000.
- (vi) Since 31 December 2011, 300,000 shares in Atlas Iron have been sold on the market for a total consideration of \$929,500. Four million shares in Atlas Iron Ltd are held as security for a margin loan through Morgan Stanley Smith Barney. As at 31 January 2012 the margin loan has been drawn down to \$1.86m.
- (vii) Since 31 December 2011, 20,000 SCR Shares have been purchased at a cost of \$4,000.

6. MERGED ENTITY

6.1 APPROACH

This Section 6 provides an overview of the Company and its subsidiaries following the acquisition by the Company of all, or a portion of the SCR Shares on issue (**Merged Entity**), in the various scenarios following the Offer and the effect of the Offer on the Company and SCR.

6.2 DISCLAIMER REGARDING SCR AND THE MERGED ENTITY INFORMATION

In preparing the information relating to SCR and the Merged Entity contained in this Bidder's Statement, the Company has relied on publicly available information relating to SCR and this has not been independently verified by the Company or its Directors. Risks may exist in relation to SCR (which may affect the Merged Entity) of which the Company is unaware. If any material risks are known to the directors of SCR, they must be disclosed in the target's statement to be issued by SCR.

Accordingly, subject to any applicable laws, the Company makes no representations or warranties (express or implied) as to the accuracy and completeness of such information.

6.3 PROFILE OF THE MERGED ENTITY

If the Offer is successful, SCR Shareholders will receive three (3) Hannans Shares in exchange for every one (1) SCR Share held by a SCR Shareholder. After the Offer, if the Company is successful in obtaining effective control of SCR, all of the Company's shareholders (including SCR Shareholders who have received Hannans Shares pursuant to the Offer) will be shareholders in the Merged Entity.

6.4 EFFECT OF THE COMPLETION THE OFFER

The Company plans to hold a global portfolio of mineral exploration assets in Sweden, Norway and Australia.

The merged entity will lead to a strengthening and simplification of the current management arrangements and should achieve cost savings by reducing corporate overheads.

SCR and Hannans existing shareholders will retain their exposure to the benefits of the merged entity and the upside inherent in the combined group's portfolio of mineral assets.

6.5 EFFECT ON THE ASSETS AND OPERATIONS OF THE MERGED ENTITY

Other than as referred to elsewhere in this Bidder's Statement, the acquisition of SCR is not expected to have a material effect on the existing assets and operations of Hannans.

The merger will consolidate SCR and Hannans' strategic portfolios in Sweden, Norway and Australia under a single entity listed on ASX, creating a simpler and stronger platform to promote the Merged Entity to investors and key stakeholders.

The Merged Entity will have a stronger financial position with an unaudited pro forma net cash position of approximately \$12.2³ million (excluding any cash to be received from the conversion of in the money options) and the following portfolio of mineral assets.

Location	Project	Resource type
Sweden	Kiruna Iron	Iron, copper and gold
	Nasberg-Vatmyberget and Korpilombolo	Gold, iron and copper
	Caledonides	Lead, zinc and silver
Norway	Finnmark and Troms	Precious and base metals
Australia	Forrestania	Nickel, gold and iron
	Lake Johnston	Nickel and gold
	Queen Victoria Rocks	Nickel and gold
	East Pilbara	Gold and base metals

³ Based on SCR and Hannans' cash and bonds at 31 December 2011 of A\$1.46 million and A\$0.43 million respectively plus 4 million Atlas Iron Limited shares (ASX:AGO) at A\$3.04 being the ASX closing price for Atlas shares on 19 March 2012 less the margin loan of A\$1.86 million as at 31 January 2012. Disclosed in Hannans' unaudited "Appendix 5B – 2nd Quarter Cash flow Report for the period ended 31 December 2011" released to the ASX on 1 February 2012 and the Hannans and SCR "Financial Report for Half Year" both released to the ASX on 15 March 2012.

6.6 EFFECT OF THE OFFER ON THE COMPANY'S CAPITAL STRUCTURE

Shares	Number	Merger Ratio (%)
Hannans Shares on issue at date of Bidder's Statement	131,648,715	32
Hannans Shares to be issued under the Offer ¹	284,874,093	68
Total Hannans Shares on issue at completion of the Offer²	416,522,808	100

Notes:

- The number of Hannans Shares offered to SCR Shareholders assumes:
 - all of SCR's options existing as at 19 March 2012 are dealt with by way of private treaty arrangements (as provided for in Section 10.5 of this Bidders Statement);
 - no SCR Options are exercised after 19 March 2012; and
 - 100% acceptance of the Offer (excluding approximately 19.6 million SCR Shares currently held by Hannans) and that no other SCR Shares are otherwise issued after 19 March 2012.
- The capital structure above also assumes that scrip consideration is not used to acquire any outstanding SCR options.

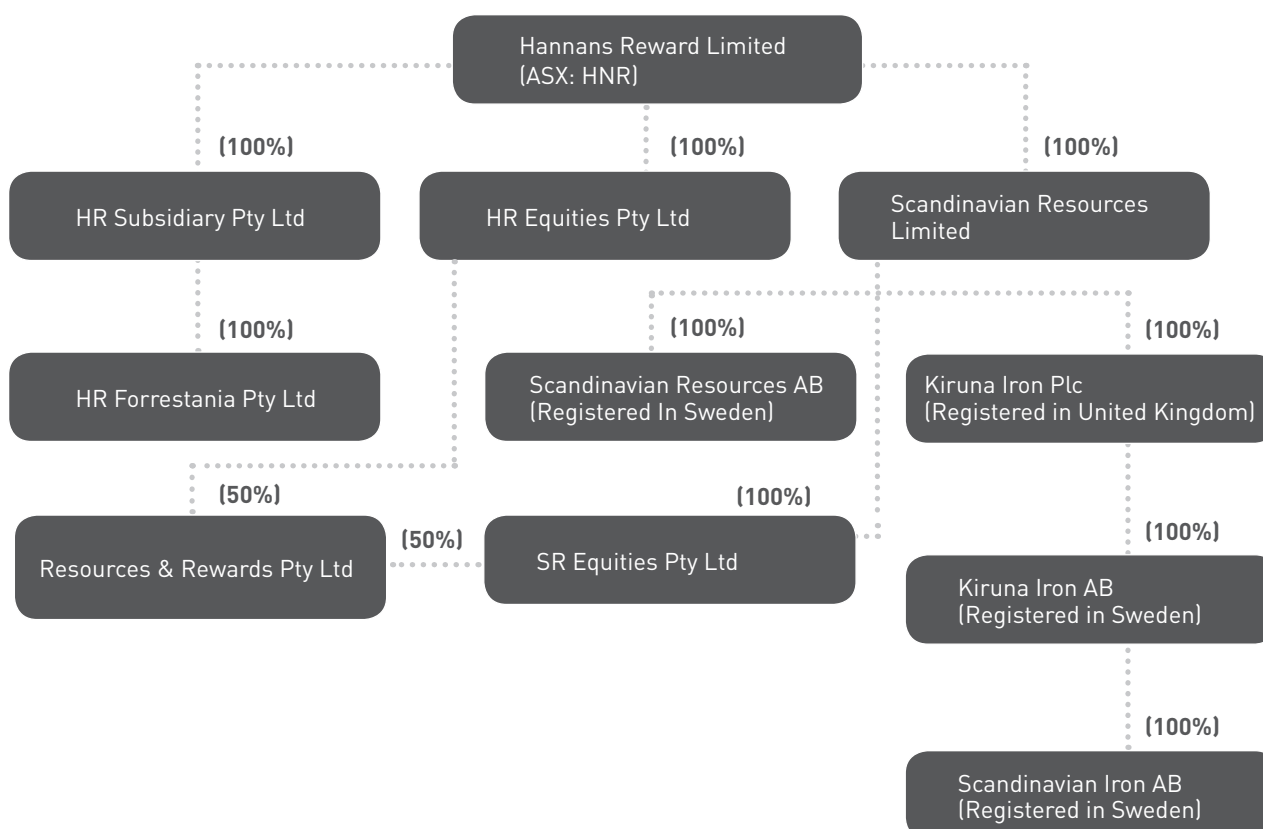

Options ¹	Number
Hannans Options currently on issue (unlisted) exercisable at \$0.80 on or before 30 June 2012	1,000,000
Hannans Options currently on issue (unlisted) exercisable at \$0.40 on or before 30 June 2012	100,000
Hannans Options currently on issue (unlisted) exercisable at \$0.80 on or before 30 June 2013	1,000,000

Total Hannans Options on issue at completion of the Offer	4,100,000

Note:

- Assumes that no Hannans options (as listed above and Section 4.1 of this Bidders Statement) are exercised after 19 March 2012.

6.7 CORPORATE STRUCTURE OF THE MERGED ENTITY

If the Offer is successful and the Company acquires all SCR Shares on issue, the corporate structure of the Merged Entity will be as shown in the diagram.

6.8 BASIS FOR PREPARATION OF THE UNAUDITED PRO FORMA CONSOLIDATED STATEMENT OF FINANCIAL POSITION

The unaudited pro forma consolidated statement of financial position has been prepared in connection with the proposed acquisition of SCR by Hannans. The unaudited pro forma consolidated statement of financial position has been prepared for illustrative purposes only and gives effect to the acquisition by Hannans pursuant to the assumptions described in Section 6.10. The unaudited pro forma consolidated statement of financial position as at 31 December 2011 gives effect to the transaction by Hannans as if it had occurred as of 31 December 2011.

The unaudited pro forma consolidated statement of financial position is not necessarily indicative of the financial position that would have been achieved if the transaction had been completed on the dates or for the periods presented, nor do they purport to project the results of operations or financial position of the consolidated entities for any future period or as of any future date. The unaudited pro forma consolidated statement of financial position does not reflect any special items such as integration costs or operating synergies that may be incurred or achieved as a result of the acquisition.

The pro forma adjustments and allocations of the purchase price for the proposed acquisition of SCR is based on a preliminary determination that the fair value of net assets acquired will be treated as goodwill on the basis SCR does not have any capitalised exploration expenditure and no material property, plant and equipment. The final purchase price allocation will be completed after the transaction is complete.

The unaudited pro forma consolidated statement of financial position has been prepared in accordance with the recognition and measurement principles of the International Financial Reporting Standards (**IFRS**).

In preparing the unaudited pro forma consolidated statement of financial position in accordance with IFRS, the following historical information was used:

- (a) the reviewed half year consolidated financial report of Hannans as of and for the year ended 31 December 2011; and
- (b) the reviewed half year consolidated financial report of SCR as of and for the year ended 31 December 2011.

In preparing the pro forma consolidated statement of financial position no alignment has been made between the accounting policies of Hannans and SCR.

The unaudited pro forma consolidated statement of financial position should be read in conjunction with the historical financial statements including the notes thereto, as listed above.

6.9 ACQUISITION OF SCR BY HANNANS

On 29 February 2012, Hannans announced a proposal to acquire all of the outstanding fully paid ordinary shares in SCR by way of an off-market takeover bid. Under the offer, accepting SCR shareholders will receive three (3) Hannans Shares for every one (1) SCR Share held, implying a value of A\$0.285 per SCR share, based on the closing price of Hannans Shares on 19 March 2012 of \$0.095 per share being the last trading day prior to the lodgement of the Bidder's Statement.

For the purpose of determining the preliminary purchase price allocation we have assumed 367,853,112 Hannans Shares valued at \$34.9 million will be issued to SCR shareholders. The number of Hannans Shares to be issued is based on the number of outstanding SCR Shares as at 19 March 2012 and the assumed conversion of \$0.20 SCR options.

Based on a Hannans share price as at 19 March 2012 of \$0.095, the assumed purchase price equates to a total consideration of \$34.9 million in Hannans Shares (367,853,112 shares). The purchase consideration for the proposed acquisition of SCR will be measured as the fair value of the Hannans Shares issued at the date of exchange. Consequently the value of the purchase consideration for accounting purpose will differ from the amount assumed in the pro forma consolidated statement of financial position due to future changes in the market price of Hannans Shares.

The difference between the fair value of the purchase consideration transferred by Hannans (as discussed in the prior paragraph) and the book value of the net assets of SCR has been treated as goodwill for pro forma purposes (for reasons described in Section 6.8).

The acquisition of SCR, if completed, will be accounted for as a business combination with Hannans as the acquirer of SCR.

6.10 EFFECT OF TRANSACTION ON THE UNAUDITED PRO FORMA STATEMENT OF FINANCIAL POSITION

The pro forma consolidated statement of financial position incorporates the following pro forma assumptions in relation to Hannans proposed acquisition of SCR:

- (a) The pro forma adjustment reflects:
 - (i) consideration of 367,853,112 million Hannans Shares valued at \$34.9 million; and
 - (ii) receipt of cash of \$5.54 million and issue of 27.7 million SCR Shares in relation to the exercise of options based on a strike price of \$0.20 per option.
- (b) The pro forma adjustment provides for the expensing of Hannans costs of the transaction totalling approximately \$0.37 million. It is assumed that share issuance costs are an immaterial amount of this total. These costs have not been tax affected.
- (c) The preliminary assessment of the acquisition of SCR gives rise to goodwill of \$30.4 million. As described in Section 6.9, the assessment is subject to change once the values of all assets and liabilities to be acquired have been finalised.
- (d) The pro forma adjustment eliminates the historical equity accounts of SCR.
- (e) The pro forma adjustment eliminates Hannans receivables for corporate services provided to SCR against trade and other payables of SCR.
- (f) The pro forma adjustment eliminates convertible notes issued to Hannans by SCR.
- (g) The pro forma adjustment eliminates the value of SCR ordinary shares and unlisted options held by Hannans.

6.11 OUTLOOK FOR THE MERGED ENTITY

This Bidder's Statement does not include any financial forecasts or projections for revenue or profit in relation to the Company, SCR or the Merged Entity.

The Company considers that the inclusion of financial forecasts would be speculative and potentially misleading given that:

- (a) the projects and prospects of the Company and SCR have not reached a stage in their exploration where a reasonable assessment of future earnings can be made;
- (b) the rate of project exploration is subject to inherent risks associated with mineral grades and quantities, mining and process equipment availability, port and rail access, the granting of production licences, extraction and logistics costs; and
- (c) the future market prices for minerals in projects held by the Company and SCR are inherently uncertain.

7 RATIONALE FOR THE OFFER AND INTENTIONS OF HANNANS

7.1 DISCLOSURE REGARDING FORWARD-LOOKING STATEMENTS

This Bidder's Statement includes forward-looking statements that have been based on the Company's current expectations and predictions about future events including the Company's intentions (which include those set out in this Section 7). These forward-looking statements are, however, subject to inherent risks, uncertainties and assumptions that could cause actual results, performance or achievements of the Company, SCR and the Merged Entity to differ materially from the expectations and predictions, expressed or implied, in such forward-looking statements. These factors include, among other things, those risks identified in this Bidder's Statement.

None of the Company, its officers, nor persons named in this Bidder's Statement with their consent or any person involved in the preparation of this Bidder's Statement makes any representation or warranty (express or implied) as to the accuracy or likelihood of any forward looking statements. You are cautioned not to place reliance on these statements in the event that the outcome is not achieved. These statements reflect views and opinions as at the date of this Bidder's Statement.

7.2 RATIONALE FOR THE OFFER

The Company believes that there are a number of key strategic and financial benefits that will arise from the successful acquisition of SCR by the Company. These include:

(a) CREATION OF A SIMPLIFIED MINING COMPANY BETTER PLACED TO ENHANCE THE VALUE OF THE MERGED ENTITY'S ASSETS

The merger will consolidate SCR's and Hannans' strategic portfolios in Sweden, Norway and Australia under a single entity listed on ASX, creating a simpler and stronger platform to promote the Merged Entity to investors and key stakeholders.

The simplification of the corporate structure, cross directorships and removal of cross-ownership issues is expected to provide additional synergies and resourcing efficiencies within the Merged Entity.

If the Offer is successful, SCR Shareholders will retain exposure to SCR's project portfolio, including the Kiruna Iron Project through a majority shareholding in the Merged Entity and gain exposure to the potential upside within Hannans' exploration and investment portfolio.

(b) THE MERGED ENTITY WILL BE WELL FINANCED THROUGH THE NEXT PHASE OF EXPLORATION AND RESOURCE DEFINITION

The Independent Directors consider that the combination of Hannans' and SCR's exploration expertise, technical capability and financial resources will provide the Merged Entity with improved opportunity to maximise the value of SCR's projects.

Financial Resources

The Merged Entity will have a stronger financial position based on an expected pro-forma net liquid investment position of approximately \$12.2⁴ million as at 19 March 2012. This excludes any cash to be received from the conversion of in the money options.

The Merged Entity's enlarged size and strengthened balance sheet should improve access to future equity funding than what either Hannans or SCR could achieve on their own. It is anticipated to also provide the Merged Entity with the flexibility to support near term project funding and accelerate exploration activities.

Significant Exploration Portfolio

The Merged Entity will have a dual exploration strategy focused on the Kiruna Iron Project in Sweden, supplemented with precious and other base metals projects located in Sweden, Norway and Australia.

Hannans' greenfields exploration portfolio includes a number of prospective projects within Western Australia targeting nickel and gold, whilst the flagship exploration project is the Forrestania nickel project.

7.3 HANNANS' INTENTIONS REGARDING SCR

(a) OVERVIEW

By way of general comment, the Company intends to maintain a focused approach to the timely exploration of the SCR Projects including the Kiruna Iron Project.

⁴ Based on SCR and Hannans' cash and bonds at 31 December 2011 of A\$1.46 million and A\$0.43 million respectively plus 4 million Atlas Iron Limited shares (ASX:AGO) at A\$3.04 being the ASX closing price for Atlas shares on 19 March 2012 less the margin loan of A\$1.86 million as at 31 January 2012. Disclosed in Hannans' unaudited "Appendix 5B – 2nd Quarter Cash flow Report for the period ended 31 December 2011" released to the ASX on 1 February 2012 and the Hannans and SCR "Financial Report for Half Year" both released to the ASX on 15 March 2012.

The Company intends to continue the business of SCR in the manner in which it is currently conducted and maintain SCR's assets and projects in good standing until it is able to complete the strategic review outlined at Section 7.4(a) below, subject to any variations that the Company considers necessary in light of its technical and operational experience and expertise and the resources of the Merged Entity.

(b) APPROACH

Sections 7.3, 7.4, 7.5 and 7.6 set out the intentions of the Company on the basis of facts and information concerning SCR which are known to the Company at the time of preparation of this Bidder's Statement. However, the Company will only reach final decisions in light of material facts and circumstances at the relevant time. Accordingly, the statements set out in Sections 7.3, 7.4, 7.5 and 7.6 are statements of current intentions only which may vary as new information becomes available or circumstances change.

7.4 INTENTIONS UPON ACQUISITION OF 90% OR MORE OF SCR

This Section 7.4 describes the Company's intentions if the Company and its Associates acquire a Relevant Interest in 90% or more of SCR Shares under the Offer, and so becomes entitled to proceed to compulsory acquisition of outstanding SCR Shares in accordance with Part 6A.1 of the Corporations Act.

(a) STRATEGIC REVIEW

Subject to what is disclosed elsewhere in Section 7.4, the Company intends to undertake a detailed review of SCR's activities, assets and liabilities to evaluate their prospects, strategic relevance, funding requirements and financial performance. This may lead to modification of some of SCR's existing projects and activities. This strategic review will provide the main platform for the Company to identify and assess the specific areas that may provide benefits to the Company and the expected costs and time frames.

(b) SCR PROJECT EXPENDITURE

The Company intends to continue with the current budgeted expenditure program in relation to the SCR Projects. In this regard, Hannans intends to use funds of the Merged Entity of approximately \$12.2⁵ million plus (see the unaudited Pro Forma Statement of Financial Position in Section 6.8 for further details), funds raised from the exercise of Hannans Options and SCR Options (if any). Further funding will be required to advance the SCR Projects and Hannans will seek to raise additional capital as appropriate. Hannans believes it has sufficient working capital to carry out these objectives in the short to medium term.

(c) COMPOSITION OF THE BOARD

The Company intends to replace some or all of the members of the Board of Directors of SCR. The Hannans nominees have not yet been identified and their identity will depend on the circumstances at the relevant time.

In addition, it is the Company's current intention, in the event that the Offer is successful, to seek to reflect in the organisation structure of the Merged Entity, SCR personnel whose skills are highly regarded and who have extensive knowledge of SCR's assets.

(d) CORPORATE MATTERS

The Company intends to:

- (i) if entitled to do so, proceed with the compulsory acquisition of any SCR Shares not acquired under the Offer and any other SCR securities on issue which it is entitled to compulsorily acquire in accordance with Part 6A.1 of the Corporations Act;
- (ii) arrange for SCR to be removed from the Official List of ASX;
- (iii) amend the constitution of SCR to reflect its status as a wholly owned subsidiary of Hannans; and
- (iv) enter into private treaty arrangements with the holders of SCR Options which have not been exercised and that have not expired or lapsed.

⁵ Based on SCR and Hannans' cash and bonds at 31 December 2011 of A\$1.46 million and A\$0.43 million respectively plus 4 million Atlas Iron Limited shares (ASX:AGO) at A\$3.04 being the ASX closing price for Atlas shares on 19 March 2012 less the margin loan of A\$1.86 million as at 31 January 2012. Disclosed in Hannans' unaudited "Appendix 5B – 2nd Quarter Cash flow Report for the period ended 31 December 2011" released to the ASX on 1 February 2012 and the Hannans and SCR "Financial Report for Half Year" both released to the ASX on 15 March 2012.

(e) CORPORATE OFFICE AND EMPLOYEES

Subject to the strategic review, the Company intends to continue to conduct the SCR business in the ordinary course. The Company will, however, consider centralising the corporate head office of SCR by incorporating those functions performed by it into the administrative structure of the Company. It is proposed that functions such as company secretarial, financial management and accounting will be centralised. It is intended that the centralised corporate office will be in Perth, Western Australia.

SCR and its subsidiaries do not have a significant number of employees, however, some of these employees may undertake functions that will be centralised in the Merged Entity. Some job losses may occur as a result, however, the incident, extent and timing of such job losses cannot be predicted in advance. The Company intends to discuss employment arrangements with the existing personnel.

(f) GENERAL BUSINESS INTEGRATION

As part of the strategic review, the Company intends to undertake a specific review of:

- (i) SCR's assets and liabilities; and
- (ii) the possible synergies and benefits between the Company and SCR. The Company intends to prepare a business integration plan and implement that plan.

(g) BALANCE SHEET DATE AND ACCOUNTING POLICY

The Company intends to conduct a review of SCR's accounting policies. It is expected that this review will result in the adoption of the Company's accounting policies.

7.5 INTENTIONS UPON GAINING CONTROL BUT LESS THAN 90% OF SCR

This Section 7.5 describes the Company's intentions if SCR becomes a controlled entity of the Company, but the Company is not entitled to proceed to compulsory acquisition in accordance with Part 6A.1 of the Corporations Act.

The Offer is conditional upon the Company acquiring a Relevant Interest in at least 90% of the SCR Shares on issue. While the Company has no current intention to waive that condition, it is open to the Company to either rely on that condition or waive it, at its discretion, in accordance with the Corporations Act. Should the Company choose to waive that condition, it may, as a result of its Offer, acquire less than 90% of SCR.

On completion of the Offer, the Company may hold a sufficient number of SCR Shares to exercise control over the management and operations of SCR, but may not be entitled to compulsorily acquire all outstanding SCR Shares. The Company's intentions in those circumstances are as follows:

(a) GENERAL

The Company will implement the intentions described in Section 7.4 above to the extent that it is economically feasible and subject to the requirements of the Corporations Act and any other applicable laws or regulations. These intentions specifically include those in respect of strategic review, corporate matters, corporate office and employees and general business integration.

(b) SCR PROJECT EXPENDITURE

The Company intends to continue with the current budgeted expenditure program in relation to the SCR Projects.

(c) COMPOSITION OF THE BOARD

The Company intends, subject to the Corporations Act and the constitution of SCR, to seek to replace some or all of the members of the board of directors of SCR. The majority would be replaced with nominees of the Company. At this time the Company has not determined which board members will be replaced.

(d) LISTING ON THE OFFICIAL LIST OF THE ASX

The Company intends to maintain SCR's listing on the Official List of the ASX, while it continues to meet its ASX listings requirements. Shareholders of SCR are alerted that in this circumstance the liquidity of SCR Shares may be materially decreased.

If Hannans does not become entitled to compulsorily acquire SCR Shares under Section 661A of the Corporations Act, it may nevertheless become entitled to exercise the general compulsory acquisition power under Part 6A.2 of the Corporations Act in the future. Hannans intends to exercise that power in respect of SCR Shares if it becomes entitled to do so.

(e) ELIMINATION OF DUPLICATION

To the extent that activities and functions, including management, presently carried out by the Company and SCR will be duplicated, such duplication will be eliminated where it is economically efficient to do so.

(f) REMAINING SCR SHAREHOLDERS

If the Company acquires less than 90% of the SCR Shares on issue, then SCR Shareholders should be aware that if they do not accept the Offer they may become a “locked-in” minority after the end of the offer period for the Offer (i.e. if the Company holds a majority of SCR Shares but is not entitled to compulsorily acquire the remaining SCR Shares).

(g) DIVIDENDS AND FUNDING

SCR does not currently pay dividends. The payment of dividends by SCR is at the discretion of the SCR Board, the majority of which will comprise the Company’s nominees. The Company has not formed an intention about retaining or varying the current dividend policy of SCR (through its nominee’s on the board of SCR), and will do so when the strategic review in Section 7.4(a) is completed.

(h) LIMITATIONS IN GIVING EFFECT TO INTENTIONS

There may be limitations to the Company’s intentions as outlined in this Section 7.5 due to the legal obligations of SCR’s directors to have regard to the best interests of SCR and its shareholders, including the rights of minority shareholders, and the requirements of the Corporations Act and other applicable laws, and ASX Listing Rules relating to transactions between related parties. The Company may require legal and financial advice before deciding what action to take in connection with the intentions outlined in this Section 7.5.

7.6 INTENTIONS IF HANNANS DOES NOT ACQUIRE EFFECTIVE CONTROL OF SCR

Hannans reserves its right to declare the Offer free from the 90% minimum acceptance Condition (or any other Condition) to the Offer. However, Hannans has not decided whether it will free the Offer from the 90% minimum acceptance Condition (or any other Condition).

This section sets out Hannans’ intentions if it were to declare the Offer free of the Conditions and the Offer closes and Hannans does not gain effective control of SCR. In that circumstance:

- (a) Hannans does not expect to be in a position to give effect to the intentions set out in Sections 7.4 or 7.5 of this Bidder’s Statement; and
- (b) Hannans would have regard to the circumstances at the time and consider the appropriate courses of action that are in the best interests of Hannans Shareholders. Such courses of action might include, but not be limited to, disposing of its shareholding in SCR, acquiring further SCR Shares as permitted by law, seeking representation on the SCR Board and exercising its voting rights as a major shareholder as it deems fit.

7.7 INTENTIONS GENERALLY

Except for the changes and intentions set out in Sections 7.3, 7.4 and 7.5, it is the present intention of the Company (based on the information presently available to it) to:

- (a) continue to hold the key assets of SCR and not to redeploy its fixed assets;
- (b) substantially continue to conduct SCR’s business in its current manner;
- (c) subject to the strategic review, not make any major changes to the business or assets of SCR and not redeploy any of the fixed assets of SCR; and
- (d) continue the employment of retained employees of SCR.

8 AUSTRALIAN TAX CONSIDERATIONS

The following summary is a general description of the Australian income tax and CGT consequences for SCR Shareholders who accept the Offer and dispose of their SCR Shares to Hannans in accordance with the Offer.

The summary is based on taxation law and practice in effect at the date of the Offer. It is not intended to be an authoritative or comprehensive analysis of the taxation laws of Australia, nor does it consider any specific facts or circumstances that may apply to particular shareholders. Further, it does not deal with the taxation consequences of disposing of SCR Shares or SCR Options which may have been issued under an employee shares scheme, which may be subject to specific tax provisions.

The Australian tax consequences for SCR Shareholders of disposing of their SCR Shares will depend on a number of factors including:

- (a) whether they are an Australian resident or non-resident for tax purposes;
- (b) whether they hold their SCR Shares on capital, revenue account or as trading stock;
- (c) when they acquired their SCR Shares;
- (d) whether they are an individual, a company or a trustee of a complying superannuation entity; and
- (e) whether scrip for scrip rollover relief is available – see Section 8.2 below.

Given the complexity of the taxation legislation, SCR Shareholders should seek independent taxation advice regarding the tax consequences of disposing of SCR Shares given the particular circumstances which apply to them.

8.1 TAXATION CONSEQUENCES FOR SCR SHAREHOLDERS

(a) SHAREHOLDERS HOLDING SCR SHARES AS TRADING STOCK

SCR Shareholders who hold their SCR Shares as trading stock (e.g., as a share trader) will be required to include the value of the consideration from the disposal of their SCR Shares in their assessable income.

(b) SHAREHOLDERS HOLDING SCR SHARES ON REVENUE ACCOUNT

The Australian tax consequences for SCR Shareholders who hold their SCR Shares on revenue account and who accept the Offer will be able to include the amount received (the market value of the Hannans Shares) over the cost of acquisition of the SCR Shares as ordinary assessable income. Where the market value of Hannans Shares is less than the cost of SCR Shares the loss may be claimed as a tax deduction.

(c) NON-RESIDENT SHAREHOLDERS HOLDING SCR SHARES AS TRADING STOCK OR ON REVENUE ACCOUNT

SCR Shareholders who are a non-resident of Australia and whose SCR Shares were acquired as trading stock or otherwise on revenue account, should seek their own professional advice. The Australian tax treatment will depend on the source of any gain and whether a double tax agreement exists between their country of residence and Australia.

(d) SCR SHAREHOLDERS HOLDING SCR SHARES ON CAPITAL ACCOUNT

In broad terms, the Australian tax consequences for SCR Shareholders who hold their SCR Shares on capital account and who accept the Offer will depend on whether or not 'scrip for scrip' capital gains tax rollover relief is available and, if available, is elected. The following discussion considers the general Australian tax consequences for SCR Shareholders where:

- (i) rollover relief is not available or is not elected; and
- (ii) rollover relief is available and is elected.

8.2 ACCEPTANCE OF THE OFFER WHERE ROLLOVER RELIEF IS AVAILABLE AND IS ELECTED

Australian-resident SCR Shareholders may be entitled to 'scrip for scrip' CGT rollover relief in respect of the consideration referable to Hannans Shares where the exchange of the shares would otherwise realise an assessable capital gain. Broadly speaking, rollover relief is available to shareholders who exchange shares in one company for shares in another company where the transaction is made pursuant to a takeover bid and provided certain qualifying conditions are satisfied.

In broad terms, these qualifying conditions include the requirement that Hannans must make an offer to all shareholders in SCR to acquire their voting shares on substantially the same terms and Hannans must become the owner of at least 80% of the voting shares in SCR as a consequence of the Offer.

If the qualifying conditions are satisfied and an SCR Shareholder elects for rollover relief to apply, the rollover relief is available.

The effect of the rollover relief is that the SCR Shareholder's total capital gain will be deferred until the Hannans Shares are disposed of.

The CGT cost base of the new Hannans Shares acquired in the exchange is determined by reasonably attributing to it the CGT cost base of the SCR Shares for which a rollover was obtained. For example, the CGT cost base for one (1) SCR Share will be apportioned to the three (3) Hannans Shares received for each SCR Share. Further, the SCR Shareholders will be taken to acquire their Hannans Shares at the time they originally acquired their SCR Shares (for the purpose of determining any entitlement to a discount on an otherwise assessable capital gain in relation to a subsequent dealing in their new Hannans Shares).

As discussed above, rollover relief will only be available if the qualifying conditions are satisfied and SCR Shareholders elect to apply for it. Further, rollover relief is not available if SCR Shareholders realise a capital loss on the disposal of their SCR Shares.

Scrip for scrip rollover relief does not apply automatically and must be elected. The election to utilise scrip for scrip rollover relief is evidenced by the manner in which the tax return for the relevant income year is prepared although it may be prudent to keep a written record of that election with your tax records.

Given the complexity of the provisions governing rollover relief and the various qualifying conditions that need to be satisfied, SCR Shareholders should seek independent taxation advice regarding their particular circumstances.

Non-resident SCR Shareholders could only obtain rollover relief in very limited circumstances. It is imperative that non-residents seek independent tax advice to confirm their Australian tax position.

8.3 ACCEPTANCE OF THE OFFER WHERE ROLLOVER RELIEF IS NOT AVAILABLE OR IS NOT ELECTED

Acceptance of the Offer is likely to involve a disposal by an SCR Shareholder of their SCR Shares for CGT purposes.

An Australian-resident SCR Shareholder may make a capital gain or capital loss, depending on whether their capital proceeds from the exchange are more than the cost base of their SCR Shares, or whether those capital proceeds are less than the cost base of those shares.

SCR Shareholders who are not resident in Australia for tax purposes will generally be subject to Australian CGT on the disposal of SCR Shares if:

- (a) together with their Associates, they directly or indirectly own at least 10% or more (by value) of the shares in SCR:
 - (i) at the time of the sale; or
 - (ii) throughout a 12 month period beginning no earlier than 24 months before the time of the sale and ending no later than the time of the sale; and
- (b) if more than 50% of the value of SCR's assets is attributable to Australian real property,

subject to the terms of any applicable double tax agreement. It is imperative that non-residents independently confirm their Australian tax position.

The capital proceeds that an SCR Shareholder will be taken to have received in respect of the disposal of their SCR Shares will generally be the market value of Hannans Shares on the date of implementation of the Offer.

The cost base of SCR Shares will generally be the cost at which they were acquired including any incidental costs of acquisition.

Where the amount of capital proceeds received by an SCR Shareholder in respect of the disposal of their SCR Shares is greater than the cost base of those SCR Shares, then the shareholder should realise a capital gain for Australian CGT purposes.

Where the amount of capital proceeds received by an SCR Shareholder in respect of the disposal of their SCR Shares is less than the reduced cost base of those SCR Shares, then the SCR Shareholder should realise a capital loss for Australian CGT purposes. Where it is expected that a capital gain will result, if an SCR Shareholder does not elect for rollover relief, or that relief is not available, then partial tax relief may be available in the form of the CGT discount.

Specifically, where SCR Shares have been held for at least 12 months before their disposal, a shareholder who is an individual, a complying superannuation entity or the trustee of a trust should be able to reduce the capital gain arising from the disposal of SCR Shares by the CGT discount (see below).

The CGT discount will be available if the relevant SCR Shares have been held for at least 12 months.

Subject to the SCR Shareholder having any capital losses or net capital losses from previous income years, where the CGT discount is available, eligible SCR Shareholders which are individuals or trustees of trusts will reduce the capital gain arising on the disposal of SCR Shares by one-half. For individuals, this reduced gain should be assessed at the shareholder's marginal tax rate. Trustees should seek specific advice regarding the tax consequences of distributions attributable to discounted capital gains.

Subject to the SCR Shareholder having any capital losses or net capital losses from previous income years, where SCR Shares are held by a complying superannuation entity and the CGT discount is available, the discount will reduce the nominal capital gain on the disposal of the shares by one-third.

The CGT discount is generally applied after taking into account any capital losses or net capital losses from previous income years. SCR Shareholders having any capital losses or net capital losses from previous income years should seek independent advice in relation to the potential availability of the CGT discount.

8.4 SCR SHAREHOLDERS WHO ARE COMPANIES WILL NOT BE ENTITLED TO THE CGT DISCOUNT

Companies are not entitled to the CGT discount. The capital gain or capital loss will be calculated with reference to the capital proceeds less the cost base or reduced cost base of the shares. Where a company realises a capital gain, it may be eligible to reduce that gain with capital losses from previous income years. We recommend that companies seek advice from their professional tax advisor in relation to the availability and deductibility of capital losses.

8.5 GST

GST should not apply to the disposal of SCR Shares under the Offer, the issue of Hannans Shares under the Offer, or any subsequent disposal of Hannans Shares.

SCR Shareholders who are registered for GST purposes may not be entitled to full input tax credits for any GST incurred on costs associated with acquiring or disposing of securities in Hannans or SCR. SCR Shareholders should seek their own tax advice in this respect.

9. RISK FACTORS

9.1 OVERVIEW

If the Offer becomes unconditional, SCR Shareholders who accept the Offer will become Hannans Shareholders. In those circumstances, SCR Shareholders will:

- (a) continue to be exposed to the risks associated to the investment in SCR as a result of their indirect interest in SCR through Hannans;
- (b) be exposed to the risks which are specific to an investment in Hannans; and
- (c) be exposed to additional risks relating to the Offer and the Merged Entity.

These risks are explained below. SCR Shareholders should read the Bidder's Statement carefully and consult their professional advisers before deciding whether to accept the Offer. By accepting the Offer, SCR Shareholders will be investing in Hannans.

The business activities of Hannans are subject to various risks that may impact on the future performance of Hannans. Some of these risks can be mitigated by the use of safeguards and appropriate systems and controls, but some are outside the control of Hannans and cannot be mitigated.

Accordingly, an investment in Hannans carries no guarantee with respect to the payment of dividends, return of capital or price at which shares will trade and should be considered speculative. The principal risk factors include, but are not limited to, the following.

9.2 RISKS RELATING TO THE OFFER

(a) ISSUE OF HANNANS SHARES AS CONSIDERATION

SCR Shareholders are being offered specific quantities of Hannans Shares as consideration under the Offer. As a result, the value of the consideration will fluctuate depending upon the market value of Hannans Shares at any given time. Accordingly, the market value of the Hannans Shares at the time you receive them may vary significantly from their market value on the date of your acceptance of the Offer.

(b) ROLLOVER RELIEF

A condition of the Offer is that the level of acceptance must result in Hannans obtaining a Relevant Interest in at least 90% of all SCR Shares.

If Hannans does not acquire a Relevant Interest in at least 80% of SCR Shares, scrip-for-scrip CGT rollover relief will not be available to SCR Shareholders.

(c) SALE OF HANNANS SHARES

Under the Offer, Hannans will issue a significant number of new Hannans Shares. Some holders of SCR Shares may not intend to continue to hold their Hannans Shares and may wish to sell them. There is a risk that this may adversely impact on the price of and demand for Hannans Shares. Unless Hannans otherwise determines after being satisfied that it is not unlawful, not unduly onerous and not unduly impracticable to make the Offer to an SCR Shareholder in the relevant jurisdiction and to issue Hannans Shares to such a SCR Shareholder on acceptance of the Offer, and that it is not unlawful for such SCR Shareholder to accept the Offer in such circumstances in the relevant jurisdiction.

(d) ACQUISITION OF LESS THAN 90% OF SCR SHARES

It is possible that Hannans could acquire a Relevant Interest of less than 90% of SCR Shares on issue under the Offer. The existence of a minority interest in SCR may have an impact on the operations of the Merged Entity, although this impact will depend upon the ultimate level of SCR ownership acquired by Hannans.

(e) MERGER INTEGRATION

If Hannans acquires a substantial interest in SCR pursuant to the Offer, integrating Hannans and SCR may create some risks, including the integration of management, information systems and work practices. Furthermore, there is no guarantee that any synergy benefits or costs savings will be achieved on time or at all.

(f) STAMP DUTY AND GOVERNMENT CHARGES

Stamp duty and other government charges may be payable by Hannans in relation to the Offer. The amount of these duties and charges may be material.

(g) FORWARD LOOKING INFORMATION

information in this Bidder's Statement constitutes forward looking information that is subject to risks and uncertainties and a number of assumptions, which may cause the actual expenditure of the Merged Entity to be different from the expectations expressed or implied in this Bidder's Statement

(h) DUE DILIGENCE

In preparing the information relating to SCR contained in this Bidder's Statement, Hannans has relied on publicly available information relating to SCR. Risks may exist in relation to SCR (which will affect the Merged Entity) of which Hannans is unaware. If any material risks are known to the directors of SCR, they must be disclosed in the target's statement to be issued by SCR.

9.3 RISKS RELATING TO THE MERGED ENTITY

This Section 9.3 sets out risks that are specific to Hannans and SCR as the Merged Entity. This Section 9.3 also sets out general and industry risks relating to Hannans and SCR as the Merged Entity.

(a) SPECIFIC RISKS RELATING TO HANNANS AND SCR AS THE MERGED ENTITY

(i) Additional Requirements for Capital

Hannans will be required to raise additional funds in the future in the event exploration costs exceed Hannans' estimates and to effectively implement its business and operations plans in the future, to take advantage of opportunities for acquisitions, joint ventures or other business opportunities, and to meet any unanticipated liabilities or expenses which Hannans may incur.

Hannans may seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for Hannans' activities and future projects may result in delay and indefinite postponement of exploration, development or production on Hannans' properties, including the SCR Projects, or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to Hannans and might involve substantial dilution to Shareholders.

Further, Hannans, in the ordinary course of its operations and developments, is required to issue financial assurances, particularly insurances and bond/bank guarantee instruments to secure statutory and environmental performance undertakings and commercial arrangements. Hannans' ability to provide such assurances is subject to external financial and credit market assessment, and its own financial position.

Loan agreements and other financing rearrangements such as debt facilities, convertible note issues and finance leases (and any related guarantee and security) that may be entered into by Hannans may contain covenants, undertakings and other provisions which, if breached, may entitle lenders to accelerate repayment of loans and there is no assurance that Hannans would be able to repay such loans in the event of an acceleration. Enforcement of any security granted by Hannans or default under a finance lease could also result in the loss of assets.

(ii) Exploration Success

The SCR Projects and Hannans Projects are at various stages of exploration, and potential investors should understand that mineral exploration and development are high-risk undertakings.

There can be no assurance that exploration of the SCR Projects and Hannans Projects, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

The future exploration activities of Hannans may be affected by a range of factors including geological conditions, limitations on activities due to seasonal weather patterns, unanticipated operational and technical difficulties, industrial and environmental accidents, native title process, changing government regulations and many other factors beyond the control of Hannans.

In the event that exploration programmes prove to be unsuccessful this could lead to a diminution in the value of the SCR Projects and Hannans Projects, a reduction in the cash reserves of Hannans and possible relinquishment of the tenements which comprise the SCR Projects and/or Hannans Projects.

The exploration costs of Hannans are based on certain assumptions with respect to the method and timing of exploration. By their nature, these estimates and assumptions are subject to significant uncertainties and, accordingly, the actual costs may materially differ from these estimates and assumptions. Accordingly, no assurance can be given that the cost estimates and the underlying assumptions will be realised in practice, which may materially and adversely affect Hannans' viability.

(iii) Development and Production Risks

The development and operation of any mine by Hannans within the SCR Projects and Hannans Projects may be affected by various factors, including failure to achieve predicted grades in exploration and mining; failure to obtain or maintain any necessary regulatory approvals, operational and technical difficulties encountered in mining; difficulties in commissioning and operating plant and equipment; mechanical failure or plant breakdown; unanticipated metallurgical problems which may affect extraction costs; adverse weather conditions; industrial and environmental accidents; industrial disputes; and unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment.

(iv) Extraterritorial Risks

SCR has interests in assets overseas and in that respect such assets are subject to risks particular to their extraterritoriality such as changes in laws, practices and policies in the relevant jurisdictions, including laws that deal with overseas investors. In particular, logistical difficulties may arise due to the assets being located overseas including the incurring of additional costs with respect to overseeing and managing the same, including costs associated with taking advice in relation to the application of local laws as well as the cost of establishing a local presence in that jurisdiction and/or infrastructure as necessary. Fluctuations in the currency of the relevant jurisdiction may also affect the dealings and operations of the Merged Entity in such jurisdiction.

Scandinavia's risk profile is slightly greater than that of Western Australia's (Scandinavia was ranked 15th in the 2009 Resource Stocks World Risk Survey), whereas Western Australia was ranked 12th). Accordingly, investors in the Merged Entity may be exposed to an increased risk compared to other mineral companies with activities in Western Australia.

Furthermore, the Merged Entity will be subject to the risks associated in operating in Sweden and Norway. Such risks could potentially include economic, social or political instability or change, hyperinflation, currency non-convertibility or instability and changes of law affecting foreign ownership, government participation, taxation, working conditions, rates of exchange, exchange control, exploration licensing, export duties, repatriation of income or return of capital, environmental protection, mine safety, labour relations as well as government control over mineral properties or government regulations that require the employment of local residents or contractors or require other benefits to be provided to local residents.

Changes to Sweden's and/or Norway's mining or investment policies and legislation or a shift in political attitude may adversely affect the Merged Entity's operations and profitability. In particular, while there are currently no restrictions on foreign ownership of mining companies in Sweden and Norway, there can be no assurance that the requirements of the various governments in respect of foreign ownership and control of mining companies will not change. It is not possible for the Merged Entity to accurately predict such developments or changes in laws or policy or to what extent any such developments or changes may have a material adverse effect on the Merged Entity's operations.

(v) Commodity Price Volatility and Exchange Rate Risks

If Hannans achieves success leading to mineral production in respect of any of the SCR Projects or Hannans Projects, the revenue it will derive through the sale of commodities exposes the potential income of Hannans to commodity price and exchange rate risks. Commodity prices fluctuate and are affected by many factors beyond the control of Hannans. Such factors include general world economic activity, world demand, supply and demand fluctuations for precious and base metals, forward selling activities, gold reserve movements at central banks, costs of production by gold and other base metals producers, inflationary expectations, interest rates and other macro-economic and political factors.

Furthermore, international prices of various commodities are denominated in United States dollars, whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States dollar, the Swedish krona, the Norwegian krone and the Australian dollar as determined in international markets.

(vi) Trading Price of Hannans Shares

Hannans' credit quality, operating results, economic and financial prospects and other factors will affect the trading price of the Hannans Shares. In addition, the price of Hannans Shares is subject to varied and often unpredictable influences on the market for equities, including, but not limited to general economic conditions including the Australian dollar, the Swedish krona, the Norwegian krone and United States dollar performance on world markets, commodity price fluctuations, fluctuations in the global market for gold and other base metals, inflation rates, foreign exchange rates and interest rates, variations in the general market for listed stocks in general or Australian mining stocks in particular, changes to government policy, legislation or regulation, industrial disputes, general operational and business risks and hedging or arbitrage trading activity that may develop involving the Hannans Shares.

In particular, the share prices for many companies have been and may in the future be highly volatile, which in many cases may reflect a diverse range of non-company specific influences such as global hostilities and tensions relating to certain unstable regions of the world, acts of terrorism and the general state of the global economy. No assurances can be made that Hannans' market performance will not be adversely affected by any such market fluctuations or factors.

(vii) Tenure and Access

Mining and exploration permits are subject to periodic renewal. There is no guarantee that current or future permits or future applications for production concessions will be approved. Permits are subject to numerous legislation conditions. The renewal of the term of a granted permit is also subject to the discretion of the relevant Mining Inspector. The imposition of new conditions or the inability to meet those conditions may adversely affect the operations, financial position and/or performance of the Company.

Furthermore, if a permit is not renewed or granted, the Merged Entity may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on that permit.

SCR's permits may also be subject to access by third parties including, but not limited to, the native Sami people. This access could potentially impact the Merged Entity's activities and/or may involve payment of compensation to parties whose existing access to the land may be affected by the Merged Entity's activities. Hannans expects to hold discussions with the Sami people in the near future regarding SCR's proposed exploration programs.

(viii) Native Title

The Hannans Projects extend over areas in which legitimate common law native title rights of indigenous Australians may exist. The ability of Hannans to gain access to its Hannans Projects and to conduct exploration, development and mining operations remains subject to native title rights and the terms of registered native title agreements.

The Directors will closely monitor the potential effect of native title claims involving Hannans Projects in which Hannans has or may have an interest.

(ix) Aboriginal Heritage

Archaeological and ethnographic surveys in the Hannans Projects have identified a number of sites of significance which have been registered with the Department of Indigenous Affairs in Western Australia. Approvals are required if these sites will be impacted by exploration or mining activities. Delays in obtaining such approvals can result in the delay to anticipated exploration programmes or mining activities.

(x) Joint Venture Risk

The Merged Entity is subject to the risk that changes in the status of any of the Merged Entity's joint ventures (including changes caused by financial failure or default by a participant in the joint venture) may adversely affect the operations and performance of the Company.

(b) GENERAL AND INDUSTRY RISKS RELATING TO HANNANS AND SCR AS THE MERGED ENTITY

(i) Mineral Resource Estimates

Mineral Resource estimates are expressions of judgement based on knowledge, experience and industry practice. Estimates which were valid when originally calculated may alter significantly when new information or techniques become available. In addition, by their very nature, resource estimates are imprecise and depend to some extent on interpretations, which may prove to be inaccurate. As further information becomes available through additional fieldwork and analysis, the estimates are likely to change. This may result in alterations to development and mining plans which may, in turn, adversely affect Hannans' operations.

(ii) Failure to Satisfy Expenditure Commitments

Interests in the Hannans Projects in Australia and SCR Projects in Sweden and Norway are governed by the respective State or country legislation and are evidenced by the granting of licences or leases. Each tenement which comprises the SCR Projects and Hannans Projects is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, Hannans could lose title to or its interest in the tenements which comprise the SCR Projects or Hannans Projects if licence conditions are not met or if insufficient funds are available to meet expenditure commitments.

(iii) Title Risk

Hannans cannot give any assurance that title to such tenements will not be challenged or impugned. The tenements which comprise the SCR Projects or Hannans Projects may be subject to prior unregistered agreements or transfers or title may be affected by undetected defects or native title claims.

(iv) Environmental and Safety Risks

The operations and proposed activities of Hannans are subject to the laws in Australia, Sweden and Norway and regulations concerning the environment. As with most exploration projects and mining operations, Hannans' activities

are expected to have an impact on the environment, particularly if advanced exploration or mine development proceeds. While Hannans does not expect, from the information available, that these factors will impact on its ability to carry out its operations, there is always the possibility that there could be an adverse impact. It is Hannans' intention to conduct its activities to the highest standard of environmental obligation, including compliance with all environmental laws.

(v) Reliance on Key Management

The responsibility of overseeing the day-to-day operations and the strategic management of Hannans depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on Hannans if one or more of these employees cease their employment.

(vi) Competition Risk

The industry in which Hannans will be involved is subject to domestic and global competition. Although Hannans will undertake all reasonable due diligence in its business decisions and operations, Hannans will have no influence or control over the activities or actions of its competitors, which activities or actions may, positively or negatively, affect the operating and financial performance of Hannans' projects and business.

(vii) Economic, Taxation and Insurance Risk

General economic conditions, movements in interest and inflation rates and currency exchange rates may have an adverse effect on Hannans' exploration, development and production activities, as well as on its ability to fund those activities.

Further, share market conditions may affect the value of Hannans' quoted securities regardless of Hannans' operating performance. Share market conditions are affected by many factors such as general economic outlook, interest rates and inflation rates, currency fluctuations, changes in investor sentiment toward particular market sectors, the demand for, and supply of, capital, and terrorism or other hostilities.

In addition, future changes in taxation law in Australia, Sweden and Norway, may affect taxation treatment of an investment in Hannans, or the holding or disposal of Hannans Shares or the way in which Hannans operates. This may impact Hannans' future tax liabilities and may affect Hannans' ability to provide returns to shareholders and/or alter the post-tax returns to shareholders.

Hannans intends to insure its operations in accordance with industry practice. However, in certain circumstances, Hannans' insurance may not be of a nature or level to provide adequate insurance cover.

(viii) Regulatory Risk

Hannans' mining operations are subject to extensive laws and regulations relating to numerous matters including resource licence consent, conditions including environmental compliance and rehabilitation, taxation, employee relations, health and worker safety, waste disposal, protection of the environment, native title and heritage matters, protection of endangered and protected species and other matters. Hannans requires permits from regulatory authorities to authorise Hannans' operations. These permits may relate to exploration, development, production and rehabilitation activities.

Obtaining necessary permits can be a time consuming process and there is a risk that the Company will not obtain these permits on acceptable terms, in a timely manner or at all. The costs and delays associated with obtaining necessary permits and complying with these permits and applicable laws and regulations could materially delay or restrict Hannans from proceeding with the development of a project or the operation or further development of a mine. Any failure to comply with applicable laws and regulations or permits, even if inadvertent, could result in material fines, penalties or other liabilities. In extreme cases, failure could result in suspension of Hannans' activities or forfeiture of one or more of the SCR Projects and/or Hannans Projects.

(ix) Force Majeure

The Hannans Projects and the SCR Projects now or in the future may be adversely affected by risks outside the control of Hannans and SCR including labour unrest, civil disorder, war, subversive activities or sabotage, extreme weather conditions, fires, floods, explosions or other catastrophes, epidemics or quarantine restrictions.

(x) Litigation Risks

Hannans and SCR are exposed to possible litigation risks including native title claims, tenure disputes, environmental claims, occupational health and safety claims and employee claims. Further, Hannans and SCR may be involved in disputes with other parties in the future which may result in litigation. Any such claim or dispute if proven, may impact adversely on Hannans' and SCR's operations, financial performance and financial position. Hannans is not currently engaged in any litigation.

Executive Services Agreement – Damian Hicks

Hannans has entered into an executive services agreement with Mr Damian Hicks to act as Managing Director of Hannans (ESA) effective on and from 21 December 2009. Under the ESA, Mr Hicks will be paid \$230,000 per annum (exclusive of superannuation), and entitled to reimbursement of work related expenses, provision of a motor vehicle and a provision for a performance based bonus as determined by the Hannans Board. Either party may terminate the ESA with three months written notice and payment by Hannans of all statutory annual and long service leave entitlements. Mr Hicks' salary was increased to \$241,500 per annum from 1 July 2010.

Deeds of indemnity, insurance and access

Hannans has entered into a deed of indemnity, insurance and access with each of its Directors. Under these deeds, our Company agrees to indemnify each officer to the extent permitted by the Corporations Act against any liability arising as a result of the officer acting as an officer of the Company. Hannans is also required to maintain insurance policies for the benefit of the relevant officer and must also allow the officers to inspect board papers in certain circumstances.

10.12 INELIGIBLE FOREIGN SHAREHOLDERS

SCR Shareholders who are Ineligible Foreign Shareholders will not be entitled to receive Hannans Shares as consideration for their SCR Shares pursuant to the Offer.

An SCR Shareholder is an Ineligible Foreign Shareholder for the purposes of the Offer if their address as shown in the register of members of SCR is in a jurisdiction other than Australia or its external territories or New Zealand. However, such a person will not be an Ineligible Foreign Shareholder if Hannans is satisfied that it is not legally or practically constrained from making the Offer to an SCR Shareholder in the relevant jurisdiction and to issue Hannans Shares to such a shareholder on acceptance of the Offer, and that it is lawful for the shareholder to accept the Offer in such circumstances in the relevant jurisdiction. Notwithstanding anything else in this Bidder's Statement, Hannans is not under any obligation to spend any money, or undertake any action, in order to satisfy itself concerning any of these matters.

The Hannans Shares which would otherwise have been issued to Ineligible Foreign Shareholders will instead be issued to the Sale Nominee who will sell these shares. The proceeds of the sale (less any transaction costs) of such shares will then be remitted to the relevant Ineligible Foreign Shareholders. See Section 1.8 of Annexure A for further details.

10.13 UNMARKETABLE PARCELS

If the total number of Hannans Shares which an SCR Shareholder is entitled to receive as consideration under the Offer is an Unmarketable Parcel, that SCR Shareholder will be an Unmarketable Parcel Shareholder and will not be entitled to receive Hannans Shares as consideration for its SCR Shares pursuant to the Offer.

The Hannans Shares which would otherwise have been issued to Unmarketable Parcel Shareholders will instead be issued to the Sale Nominee who will sell those shares. The proceeds of the sale (less any transactions costs) of such shares will then be remitted to the relevant Unmarketable Parcel Shareholders. See Section 1.9 of Annexure A for further details.

10.14 STATUS OF CONDITIONS

The conditions of the Offer are set out in Section 1.10 of Annexure A. Hannans will use all reasonable endeavours to ensure the Conditions are satisfied as soon as possible after the date of this Bidder's Statement.

As at the date of this Bidder's Statement, Hannans is not aware of any events which would result in a breach or inability to satisfy the Conditions.

Hannans will give a notice of the status of the Conditions in accordance with the Corporations Act on 27 April 2012 (subject to extension if the Offer Period is extended).
