CHAIRMAN'S STATEMENT

>

WE OPERATE IN A WORLD WHERE THE SERVICES OF TELECOMMUNICATIONS COMPANIES AND INTERNET PLAYERS ARE RAPIDLY MERGING ONTO THE MOBILE INTERNET PLATFORM.

.....

Dear Shareholders,

The SingTel Group has delivered another year of resilient financial performance while repositioning ourselves for transformation.

We operate in a world where the services of telecommunications companies and internet players are rapidly merging onto the mobile internet platform. In this digital age, consumers are increasingly turning to the mobile internet for information, entertainment and to transact, as smartphones and tablets become more prevalent.

Our industry is changing and subject to many forces. We are facing new competitors in the form of over-the-top players offering free services that ride on our networks, intensifying price competition, growing policy risks and regulatory intervention across the countries the Group operates in.

TRANSFORMATION IS AN IMPERATIVE

The Board and Management have put in place a compelling strategy and restructured the Group to capitalise on the opportunities this new digital world presents. We have valuable assets in our subscriber base, customer relationships and extensive networks, which form the foundation for us to develop new products and services. Underlying our ambition is a fundamental promise to our customers: to shape communications that will enhance their lives and empower their businesses into the future.

CHAIRMAN'S STATEMENT

Today, the fastest growing area in global telecommunications is mobile data. This gives us the opportunity to disrupt adjacent markets as well as extend our customer relationships and grow our share of their wallets. Our recent acquisition of US-based Amobee, which we will develop to become a global advertising platform, is an example of this.

We remain committed to enhancing our infrastructure to deliver the best customer experience. However, the exponential growth in mobile data requires significant investments in spectrum and network capacity. To justify continued investments, the industry needs to shift away from offering unlimited data plans and deliver sustainable returns for operators.

A COMMITTED BOARD

The Board and Management are focused on the Group's transformation. This agenda also drives the Board's talent management and succession planning efforts. We are mindful that our transformation is a journey which will require time before meaningful results can be seen.

We have devoted considerable time to understanding the new digital space and I am particularly appreciative that my fellow Directors made the time to spend a week in a structured Silicon Valley immersion programme.

The Board views strong governance as the foundation for the long-term success of the Group. We firmly believe that integrity and upholding the highest standards of corporate governance are essential to delivering the Group's strategy.

This year, we placed a higher priority on risk and established a separate Risk Committee in May. Every year, following the conclusion of our annual strategic planning exercise, we review the skill sets required to support our strategic agenda and maintain the necessary diversity in the composition of the Board. This forms the basis of Board renewal and recruitment. In addition, an independent external consultant is appointed to help evaluate the effectiveness of the Board, the Board Committees and the contribution of each Director. The Board, led by the Lead Independent Director, also assesses the effectiveness of the Chairman.

>

Our transformation is the top priority and this is the common goal that will guide the Group's 23,000 employees. Their commitment and passion will build the future for SingTel.

PEOPLE AND THE COMMUNITY

People are our key assets. Our transformation is the top priority and this is the common goal that will guide the Group's 23,000 employees. Their commitment and passion will build the future for SingTel.

In addition to financial performance, we are mindful of our commitment to our employees, the environment and the communities where we operate. Last year, we responded as a Group by making donations and providing assistance to help relief efforts following natural disasters in Thailand and the Philippines.

In conclusion, I would like to thank my fellow Directors, Management and all employees of the Group for their dedication and commitment to SingTel.

OUR THREE UNITS UNDER THE NEW ORGANISATION – GROUP CONSUMER, GROUP DIGITAL LIFE AND GROUP ICT – ARE STRUCTURED ALONG CUSTOMER SEGMENTS INSTEAD OF GEOGRAPHICAL LINES, ENABLING US TO SHARPEN OUR CUSTOMER FOCUS AND TAKE FULL ADVANTAGE OF OUR SCALE.

Q: DESCRIBE FY2012 FOR SINGTEL FROM YOUR PERSPECTIVE.

A: Let me start by saying that I am very proud of the management team and our 23,000 employees. We faced multiple challenges in FY2012 from currency fluctuations to the emergence of new disruptive competitors seeking to take a bite of our profit pie. Despite all that, the SingTel Group continued to deliver resilient financial results while enhancing our range of product and service offerings to our customers.

As one example, during the year, we rolled out 4G or Long Term Evolution (LTE) services, giving our customers in Singapore unprecedented broadband speeds. Optus extended and enhanced its 3G coverage with the commencement of a spectrum migration programme and started offering 4G connectivity in the Newcastle region of New South Wales. Be it LTE or new generation fibre services, customers today are spoilt for choice when it comes to broadband access.

We are committed to giving the best value and experience to our customers. For our enterprise customers, we expanded our portfolio of cloud-based solutions to help them reduce costs and improve productivity. For consumers, we widened our range of digital offerings to simplify their communications and enhance their lives. Our continued market leadership position reflects the success of our strongly executed strategy.

Optus celebrated a milestone – its 20th anniversary and 10th year as part of the SingTel Group. The role Optus plays in the Australian communications landscape is a significant one. Optus has long advocated for a regulatory framework that delivers a level playing field and improves competition

in the fixed-line market. This will be achieved in part by the rollout of the National Broadband Network which will transform the telecoms marketplace in Australia by creating a platform for a vibrant and competitive fixed-line sector.

In the emerging markets, our regional mobile associates recorded strong growth in customer numbers. Telkomsel crossed the 100 million customer mark. In less than two years after acquiring mobile operations in Africa, Airtel now has 50 million customers in that continent. Competition has eased in many of our markets and prices have stabilised. Our associates are also tapping into the growth opportunity in mobile data services by introducing data bundles, smartphones and investing in their networks.

Beyond the operational achievements in our various markets, we also established new priorities for ourselves with a definitive move to realign the Group's structure by customer segments as we progress into the new era. The new structure became effective on 1 April 2012.

Q: THE GROUP MADE A SIGNIFICANT CHANGE IN ITS ORGANISATION STRUCTURE. WHAT IS THE MOTIVATION BEHIND THIS?

A: Our industry is undergoing significant changes. Our competition has expanded beyond traditional telecommunications companies to also include players in the digital space, like device companies, content owners and numerous other firms with web-based service operating models (often described as "over-the-top" or "OTT" players). These companies are expanding beyond their traditional boundaries and entering each other's turf to battle for an increased share of the consumer and enterprise wallets.

With these changes, our relationship with customers is becoming less exclusive, and we run the risk of being marginalised if we do nothing. At the same time, these changes present new opportunities for us to expand our share of the customer's wallet. To succeed, we need to stay focused on leveraging our many unique strengths and sustainable advantages.

As we look at our competitive landscape, it is clear we need to engage our customers differently. Our three units under the new organisation – Group Consumer, Group Digital Life and Group ICT – are structured along customer segments instead of geographical lines, enabling us to sharpen our customer focus and take full advantage of our scale. We aspire to be a truly global business with strong local customer insights, supported by global delivery capabilities.

Q: HOW DOES THE NEW GROUP DIGITAL LIFE UNIT FIT INTO THE OVERALL STRATEGY?

A: Over the past few years, we have accumulated an interesting portfolio of digital assets. The formation of Group Digital Life will sharpen our focus in this space and raise our game against non-traditional competitors.

Our unique assets allow us to shape the future of a connected society and truly make a difference to our customers. Among other things, these assets include:

- a market of over 400 million mobile customers;
- extensive customer touch points that are hard to replicate, such as shops, online stores and billing relationships which give trusted telcos the edge against online content providers;
- information on customer preferences that will help us develop relevant and useful services; and
- access to location-based information by virtue of our network intelligence, which enables our services to be truly targeted.

The mobile advertising and marketing industry is in a nascent stage and holds significant potential for mobile operators in both the developed and emerging markets. The location data produced in the normal course of our network operations can help us, with permission from the customer, to uniquely identify customer preferences and habits. We could utilise this knowledge to raise the effectiveness of advertisers' promotions and the value of their marketing expenditure, while consumers benefit from

a better mobile experience. We are particularly excited about the potential of mobile marketing in emerging markets, where mobile phones offer advertisers the most compelling avenue to reach hundreds of millions of current and future customers.

As part of our strategy in this space, in March 2012, we announced our plan to acquire US-based Amobee, a premium provider of mobile advertising solutions to global operators, publishers and advertisers. We plan to combine Amobee's advertising expertise and platforms with our customer reach and knowledge to offer advertisers a unique proposition and effective returns on their marketing spend.

We will be making similar moves in other exciting digital spaces as we continue to enhance and leverage the assets of our core carrier business.

Q: HOW DO YOU INTEND TO ACCELERATE GROWTH FOR THE GROUP?

A: As we seek new growth avenues, our core telco business remains the critical lynchpin to our success. We will continually review the core foundations of our carrier business to anticipate industry changes rather than simply react to them.

In Group Consumer, our priority is to continue delivering strong profitability and lowering costs, while driving service as well as business model innovations to better meet customer needs. To capture scale benefits from the Group's operations in diverse geographies, we will also drive tighter integration across Singapore, Australia and with the regional mobile associates, focusing on areas such as procurement, networks and IT.

Our regional mobile associates generate a significant portion of our Group earnings. We are a long-term strategic investor and they remain a key part of our future. But we need to engage them differently. Developments in the emerging markets indicate tremendous opportunities for growth. The new organisation structure reflects

our commitment to drive stronger synergies and seize opportunities more effectively across the entire footprint of the SingTel Group.

For our enterprise customers, Group ICT will maximise economies of scale and deliver relevant end-to-end ICT solutions across different verticals globally. It will focus on innovatively bundling IT solutions with voice and data connectivity to drive down costs and simplify administration, while raising the productivity of our enterprise customers.

Q: HOW IS SINGTEL RESPONDING TO THE INCREASING GLOBAL DEMAND FOR MOBILE DATA?

A: In recent years, with the advent and adoption of smartphones and other connected devices such as tablets, as well as richer applications, mobile data usage has surged rapidly. Yet revenue for mobile data services significantly lags the growth in data usage as well as related costs.

To grow our carriage business, we must continually meet customers' network performance expectations. We remain committed to making significant investments in our networks from acquiring additional spectrum to introducing more efficient data-handling technologies, such as LTE.

To fund future network investments, it is critical for us to ensure that our revenue from data services keeps pace with the cost of provision. We, along with other carriers around the world, are actively seeking new pricing models to achieve this objective without causing unnecessary pain to customers.

In Singapore, we are taking steps to shape customers' behaviour. By delivering the right outcomes to customers with tiered and quality-of-service oriented price plans, we can maximise our chances of achieving returns and sustain ongoing investments in our network. Through

initiatives by Group Digital Life, we will also create interesting bundles of traditional and new services to better satisfy our customers.

Q: WHAT ARE THE CHANGES SINGTEL IS MAKING TO SUCCEED IN THE NEW DIGITAL AGE?

A: Embracing a culture that allows innovation to flourish is important. This will require a shift in our collective mindset – away from failure aversion to one of constant experimentation. We need to learn from past failures and be prepared to reiterate a bold idea if we believe it will eventually bear fruit. Even when we do not succeed, we expect a “fail fast and fail cheap” mentality to produce valuable learnings that can form the basis of long-term advantage against competition.

Nurturing a more global mindset among our staff and bringing out their entrepreneurial spirit will also be important for the Group. As some forms of our competition are global in scope and scale, we believe that some of our services can only be effective if they are competitive on a global scale.

Thus it is important to possess strong local and global perspectives to be able to identify and capture possibilities both at home and in new geographies.

Our corporate discipline is strong and our innovation culture is evolving. We actively encourage innovation within the organisation. For us, innovation is not just about technology. It also involves breaking new ground in our business models and processes.

To complement our existing talents, we are also hiring people from other industries to introduce fresh insights and better execute our vision.

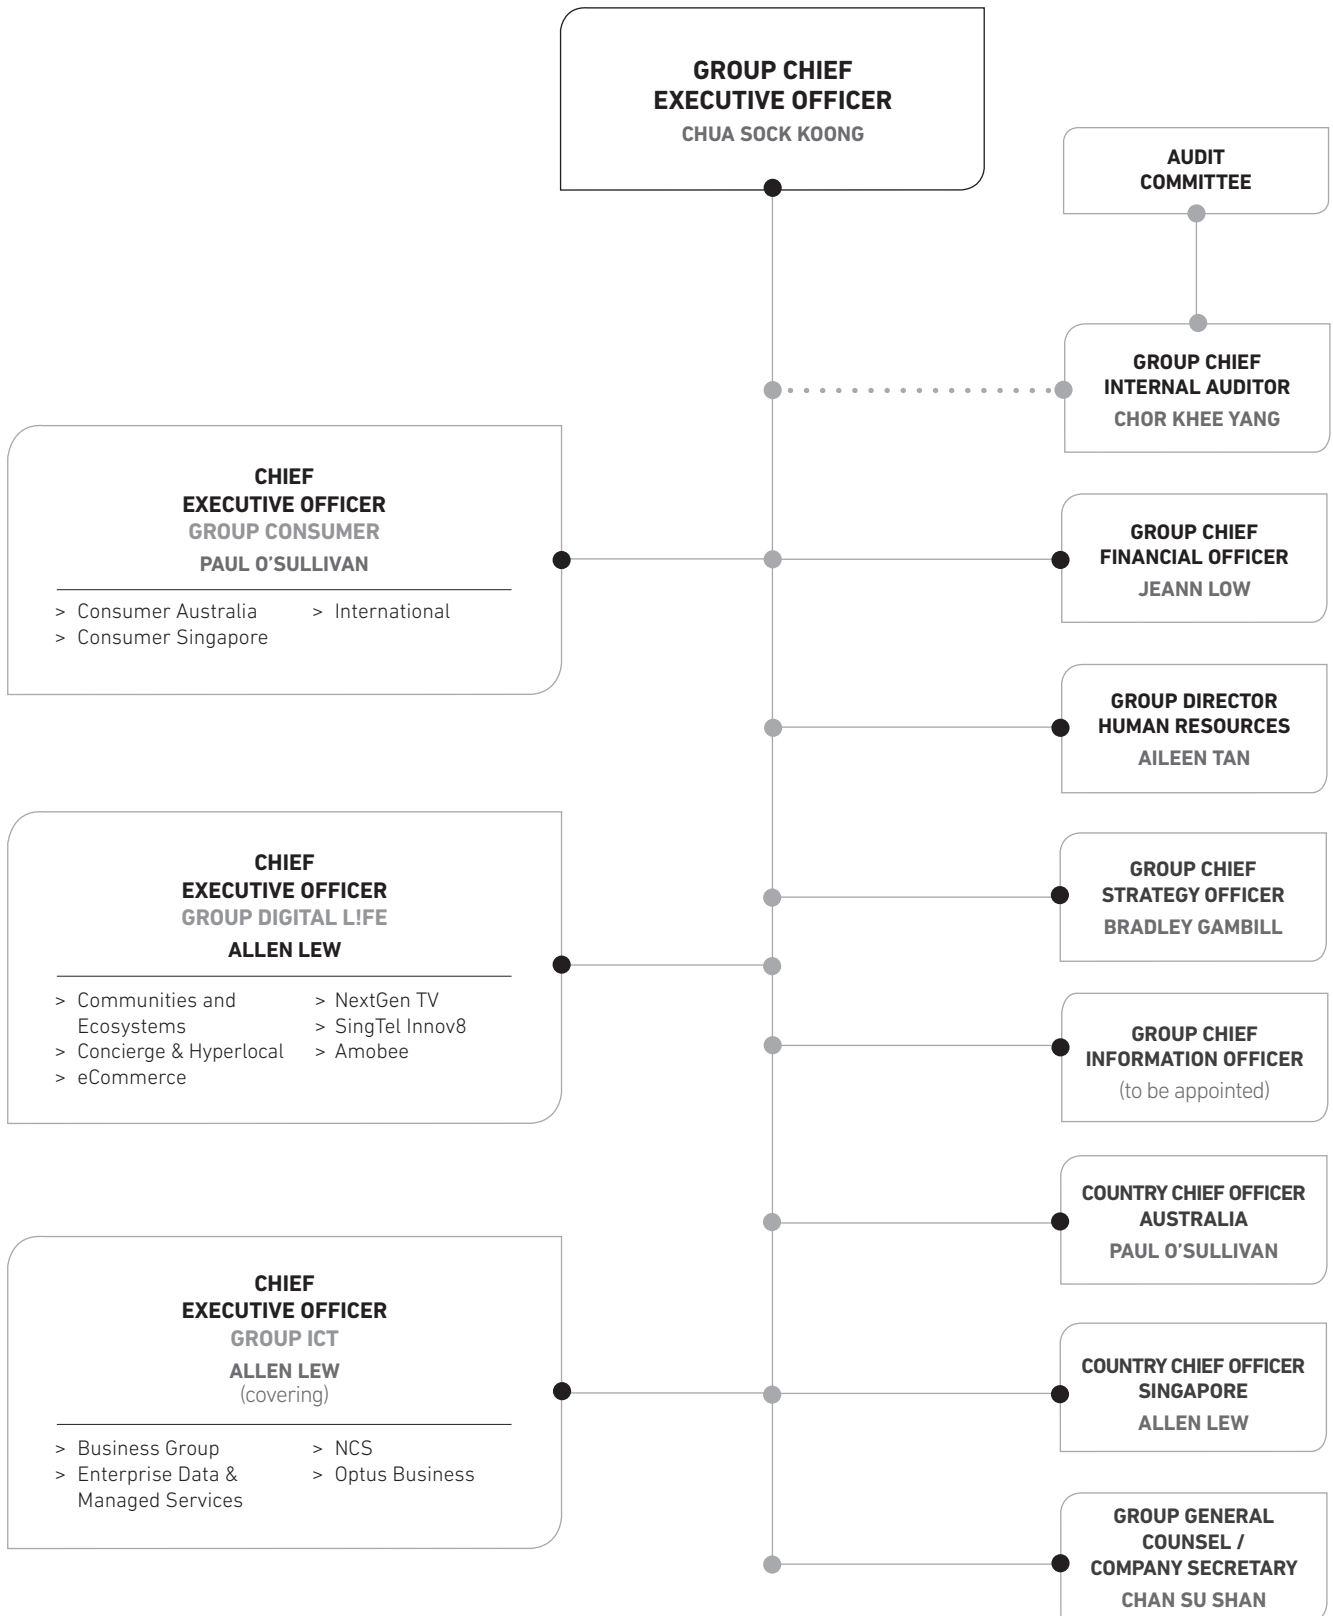

At the heart of this transformation is our commitment to put customers first. We want to lead and shape the communications landscape by making a difference in our customers’ lives and enhancing the way they live, work and play.

As an organisation, we have never backed away from new challenges. We have a history of making bold first moves, particularly during times of industry change. We have the confidence and inspiration to prevail in the face of the many challenges and exciting opportunities we see on the horizon.

Note:

(1) Chumpol NaLamlieng, Graham John Bradley AM, and Nicky Tan Ng Kuang, retired as Directors of the Company following the conclusion of the Annual General Meeting on 29 July 2011.

No options were granted to the Directors during the financial year ended 31 March 2012.

No option has been granted to controlling shareholders of the Company or their associates, and there are no participants who have received five per cent or more of the total number of options available under the 1999 Scheme.

The 1999 Scheme was suspended with the implementation of the SingTel Executives' Performance Share Plan ("**Share Plan 2003**") following a review of the remuneration policy across the Group in 2003. Hence, no option has been granted since then. The existing options granted will continue to vest according to the terms and conditions of the 1999 Scheme and the respective grants.

From the commencement of the 1999 Scheme to 31 March 2012, options in respect of an aggregate of 273,767,350 ordinary shares in the Company have been granted to Directors and employees of the Company and its subsidiaries.

6.2 Performance Shares

Following the review of the remuneration policy across the Group, SingTel implemented the Share Plan 2003 in June 2003 and granted awards to selected employees of the Group under this plan. This plan only allows the purchase and delivery of existing SingTel shares to participants upon the vesting of the awards.

The Share Plan 2004 was implemented with the approval of shareholders at the Extraordinary General Meeting held on 29 August 2003. This plan gives the flexibility to either allot and issue and deliver new SingTel shares or purchase and deliver existing SingTel shares upon the vesting of awards.

SUMMARY FINANCIAL STATEMENT

For the financial year ended 31 March 2012

6.2 Performance Shares (Cont'd)

Participants will receive fully paid SingTel shares free of charge, the equivalent in cash, or combinations thereof, provided that certain prescribed performance targets are met within a prescribed performance period. The performance period for the awards granted is three years. The number of SingTel shares to be allocated to each participant or category of participants will be determined at the end of the performance period based on the level of attainment of the performance targets.

From the commencement of the performance share plans to 31 March 2012, awards comprising an aggregate of 38,548,775 shares and 216,395,115 shares have been granted under the Share Plan 2003 and Share Plan 2004 respectively.

Performance share awards granted, vested and cancelled during the financial year, and share awards outstanding at the end of the financial year, were as follows -

During the financial year, awards in respect of an aggregate of 1,636,049 shares granted under the Share Plan 2004 were vested. The awards under Share Plan 2004 were satisfied in part by the delivery of existing shares purchased from the market and in part by the payment of cash in lieu of delivery of shares, as permitted under the Share Plan 2004.

As at 31 March 2012, no participant has been granted options under the 1999 Scheme and/or received shares pursuant to the vesting of awards granted under the Share Plan 2004 which, in aggregate, represents five per cent or more of the aggregate of -

- (i) the total number of new shares available under the Share Plan 2004 and the 1999 Scheme collectively; and
- (ii) the total number of existing shares purchased for delivery of awards released under the Share Plan 2004.

INDEPENDENT AUDITORS' REPORT

To the Members of Singapore Telecommunications Limited

For the financial year ended 31 March 2012

The accompanying Summary Financial Statement of Singapore Telecommunications Limited (the "Company") and its subsidiaries (the "Group"), which comprise the summary statements of financial position of the Group and the Company as at 31 March 2012, and the summary income statement and summary statement of comprehensive income of the Group for the year then ended, and related notes, are derived from the audited financial statements of the Group for the year ended 31 March 2012. We expressed an unmodified audit opinion on those financial statements in our report dated 9 May 2012.

The summary financial statements do not contain all the disclosures required by Singapore Financial Reporting Standards. Reading the summary financial statements, therefore, is not a substitute for reading the audited financial statements of the Group.

MANAGEMENT'S RESPONSIBILITY FOR THE SUMMARY FINANCIAL STATEMENTS

Management is responsible for the preparation of a summary of the audited financial statements in accordance with Section 203A of the Singapore Companies Act, Chapter 50 (the "Act"). In preparing the summary financial statements, Section 203A of the Act requires that the summary financial statements be derived from the annual financial statements and the Directors' report for the year ended 31 March 2012, be in such form and contain such information as may be specified by regulations made thereunder applicable to summary financial statements.

AUDITORS' RESPONSIBILITY

Our responsibility is to express an opinion on the summary financial statements based on our procedures, which were conducted in accordance with Singapore Standard on Auditing 810, "Engagements to Report on Summary Financial Statements".

OPINION

In our opinion, the summary financial statements are consistent, in all material respects, with the audited financial statements and the Directors' report of the Group for the year ended 31 March 2012 from which they are derived and comply with the requirements of Section 203A of the Act and the regulations made thereunder applicable to summary financial statements.

SELECTED NOTES TO THE SUMMARY FINANCIAL STATEMENT

For the financial year ended 31 March 2012

1. BASIS OF PREPARATION

The accounting policies have been consistently applied by the Group, and are consistent with those used in the previous financial year. The adoption of the new or revised Financial Reporting Standards ("FRS") and Interpretations to FRS which are mandatory from 1 April 2011 has no significant impact on the financial statements of the Group or the Company in the current financial year.

2. KEY MANAGEMENT PERSONNEL COMPENSATION

	4,111.4	2,356.6	4,114.0	2,357.8

During the financial year, a final one-tier tax exempt ordinary dividend of 9.0 cents per share and a special one-tier exempt dividend of 10.0 cents per share were paid in respect of the previous financial year ended 31 March 2011, and an interim one-tier tax exempt ordinary dividend of 6.8 cents per share was paid in respect of the current financial year ended 31 March 2012.

The amount paid by the Group differed from that paid by the Company due to dividends on performance shares held by the Trust that were eliminated on consolidation of the Trust.

The Directors have proposed a final one-tier tax exempt ordinary dividend of 9.0 cents per share, totalling approximately S\$1.43 billion in respect of the current financial year ended 31 March 2012 for approval at the forthcoming Annual General Meeting.

These financial statements do not reflect the final dividend payable of approximately S\$1.43 billion, which will be accounted for in the shareholders' equity as an appropriation of 'Retained Earnings' in the next financial year ending 31 March 2013.

		332,632	15,943,576,949	100.00

Number of holders holding less than a marketable parcel 238,620

Notes:

⁽¹⁾ This table is compiled on the basis that each holding of CUFS is a separate holding and, accordingly, the holding of shares by CHESS Depository Nominees Pty Limited is ignored.

⁽²⁾ Based on information available to the Company as at 31 May 2012, approximately 45% of the issued ordinary shares of the Company is held by the public and, therefore, Rule 723 of the Listing Manual issued by the Singapore Exchange Securities Trading Limited is complied with. The percentage of issued ordinary shares held by the public is calculated based on the number of issued ordinary shares of the Company as at 31 May 2012, excluding 1,079,620 ordinary shares held as treasury shares as at that date.

⁽³⁾ A marketable parcel is defined in the ASX Listing Rules as a parcel of securities of not less than \$500 in Australian dollars, based on the closing price of the securities on the ASX.

⁽⁴⁾ As at 31 May 2012, the number of ordinary shares held in treasury is 1,079,620, and the percentage of such holding against the total number of issued ordinary shares (excluding ordinary shares held as treasury shares) is 0.01%.

SHARE PURCHASE MANDATE

At the Extraordinary General Meeting of the Company held on 29 July 2011 (**2011 EGM**), the shareholders approved the renewal of a mandate to enable the Company to purchase or otherwise acquire not more than 10 per cent of the issued ordinary share capital of the Company as at the date of the 2011 EGM. As at 31 May 2012, there is no current on-market buy-back of shares pursuant to the mandate.
