

ASX ANNOUNCEMENT

07 March 2012

Update - Scheme of Arrangement with Phillips River Mining Limited

Silver Lake Resources Ltd ("Silver Lake") is pleased to provide an update on the Scheme of Arrangement ("Scheme") with Phillips River Mining Ltd (ASX PRH: "Phillips River") as announced to the ASX on 25 January 2012.

The Directors of Silver Lake advise that the due diligence condition precedent contained in the Merger Implementation Agreement entered into with PRH has been extended from 4 March 2012 to 11 March 2012.

About Silver Lake Resources Ltd:

Silver Lake is an ASX 200 gold producing and exploration company with a resource base of 3.3 million oz in highly prospective regions including the Mount Monger goldfield and the Murchison. Silver Lake's strategy is to develop large production centres at Mount Monger and at the Murchison with multiple mines at each centre.

Silver Lake's Mount Monger Operation contains the Daisy Milano, Daisy East, Rosemary & Haoma underground mines and the Wombola Dam open pit mine located 50 km south east of Kalgoorlie.

Mount Monger has additional multi mine potential underpinned by emerging open pit production from the Wombola Pit and Magic deposits.

Gold ore from Mount Monger is transported to Silver Lake's Lakewood Gold Processing Facility located 5 km south east of Kalgoorlie and 45 km from the Daisy Milano mine. This facility has been expanded to 700,000 tonnes per annum and is currently being expanded to 1 million tonnes per annum by September 2012 quarter.

In the Murchison, Silver Lake is developing a second mining operation with multiple mines feeding a central processing facility. A 1.2 million tonne per annum mill has been acquired for this project and production is expected to commence in the March 2013 quarter.

At the Eelya Complex, part of the Murchison project, a high grade copper discovery has been made at Hollandaire. The Hollandaire deposit contains copper, gold, silver & zinc with grades up to 45% Cu, 5.5 g/t Au and 256 g/t Ag.

Silver Lake has entered into an agreement with Phillips River Mining Ltd (ASX PRH: "Phillips River") to merge the Phillips River's assets into Silver Lake by a Scheme of Arrangement ("Scheme"). The assets contain 1 million oz Au, 10 million oz Ag and 95,000 tonnes of Cu. The scheme is expected to be completed in the June 2012 quarter.

Silver Lake's exploration programme is targeting 10 million oz Au in resource over time.

Competent Person's Statement

The information in this report that relates to Exploration Results and Mineral Resources is based on information compiled by Mr Christopher Banasik who is a Member of the Australasian Institute of Mining and Metallurgy. Mr Banasik is a full time employee of Silver Lake Resources Ltd, and has sufficient experience which is relevant to the style of mineralisation under consideration to qualify as a Competent Person as defined in the 2004 edition of the JORC Code. Mr Banasik has given his consent to the inclusion in the report of the matters based on the information in the form and context in which it appears.

Information that relates to exploration and production targets refers to targets that are conceptual in nature, where there has been insufficient exploration to define a Mineral Resource and it is uncertain if further exploration will result in the determination of a Mineral Resource.

The information on exploration targets are based on a conceptual range of targets as follows:

<i>Tonnage range:</i>	<i>50 million to 100 million tonnes</i>
<i>Grade range:</i>	<i>3 g/t Au to 8 g/t Au</i>
<i>Ounces:</i>	<i>5 million to 10 million</i>

Deposit	Measured Resources			Indicated Resources			Inferred Resources			Total Resources		
	Ore t '000s	Grade g/t Au	Total Oz Au '000s	Ore t '000s	Grade g/t Au	Total Oz Au '000s	Ore t '000s	Grade g/t Au	Total Oz Au '000s	Ore t '000s	Grade g/t Au	Total Oz Au '000s

Table 1: June 2011 Resource

Rounding may give rise to unit discrepancies in this table

Notes to table 1:

Murchison open pit resources include mineralisation down to 100 metres depth below the surface.

Murchison underground resources include mineralisation below 100 metres depth from the surface.
