MARSDEN 1 UPDATE

Strike Energy Limited advises that drilling operations at the Marsden 1 unconventional evaluation well in PEL 95 (Strike 50%) are expected to resume next week following construction of a new access road to the well site. Marsden 1 is currently at a depth of 1,908 metres and will test the Toolachee, REM group and Patchawarra formations upon resumption of drilling operations.

We will provide further updates as drilling progresses.

Yours faithfully

A handwritten signature in black ink, appearing to read "DW", with a long horizontal line extending to the right.

DAVID WRENCH
Managing Director
