2012 Revenue and Partnering with Solar installers.

Mr Stone Wang announces that the AFT Corporation Ltd consolidated group total revenue for the 12 months to 31 December 2012 was \$6.2 million.

While this is down from the original 2012 budget of \$10 million, the revenue has been achieved in an environment of falling prices and reduction of government support for the solar industry.

As part of the company's plan to rebuild revenues in the solar market the company has entered into agreements with two regional based solar installers in NSW who will partner with AFT Corporation Ltd's subsidiary Artemis Building Systems Pty Ltd to provide commercial solar installations that can be lease financed.

Further, the company plans to partner with a further eight solar installers across Australia in 2013.
