QUARTERLY ACTIVITIES REPORT FOR THE PERIOD ENDED 30 JUNE 2013

HIGHLIGHTS

South Africa

- Ongoing discussions regarding approval of exploration right.
- Discussions continue with Farm-out pending award of the right.

South Africa (90%)

During the quarter Bundu (90% owned by Challenger Energy Limited) continued to support the ongoing assessment of its application for an exploration right located around Cranemere in the Southern Karoo Basin. Challenger continues to observe a broadly supportive sentiment in the media and an increased in interest in the shale industry in South Africa. The company continues to progress discussions on a potential farm-in with interested parties within this more favourable environment.

Background

As previously noted, Chevron Business Development South Africa Limited (Chevron) has announced an Agreement with Falcon Oil and Gas Ltd to jointly co-operate on unconventional gas opportunities in the Karoo Basin, with the result that Challenger through its 90% owned subsidiary Bundu Gas & Oil (Pty) Ltd is the only small company with interests in the basin alongside Shell and Chevron.

The Karoo Basin has become the focus of intense interest in the past few years, following the initial application to explore for shale gas in the basin by Bundu Oil & Gas Pty Ltd (acquired by CEL in April 2010) in February 2009.

Notes

- The quarterly report provides a basis for informing the market how the entity's activities have been financed for the past quarter and the effect on its cash position.

 An entity wanting to disclose additional information is encouraged to do so, in a note or notes attached to this report.
- The "Nature of interest" (items 6.1 and 6.2) includes options in respect of interests in mining tenements acquired, exercised or lapsed during the reporting period. If the entity is involved in a joint venture agreement and there are conditions precedent which will change its percentage interest in a mining tenement, it should disclose the change of percentage interest and conditions precedent in the list required for items 6.1 and 6.2.
- 3 **Issued and quoted securities:** The issue price and amount paid up is not required in items 7.1 and 7.3 for fully paid securities.
- The definitions in, and provisions of, AASB 1022: Accounting for Extractive Industries and AASB 1026: Statement of Cash Flows apply to this report.
- Accounting Standards ASX will accept, for example, the use of International Accounting Standards for foreign entities. If the standards used do not address a topic, the Australian standard on that topic (if any) must be complied with.
