Company Announcement

Berrima Colliery

Delta DSB conducts a whole of mine operation on behalf of the mine owner Boral at Berrima in the Southern Highlands region of NSW. The colliery has been in operation for over 100 years and DSB has been conducting the mining for Boral since 2009.

A decision which may affect the ongoing operation of the mine was recently handed down in the NSW Land and Environment Court. Details of this decision can be found on the NSW Land & Environment Court's website.

Following the decision, Delta SBD took legal advice in respect of its operations at the mine and as a result now advises that normal operations will be continuing at Berrima Colliery. The advice is based on the Mine's approved 2009 Subsidence Management Plan, its current Environmental Protection Licence and Continuing Use Rights under the NSW Environmental Planning and Assessment Act.

Delta SBD is working closely with Boral while Boral assesses its future course of action in respect of Berrima Colliery operations. Further information will be provided when it is available.

Yours Faithfully

Tony McFadden
Chief Financial Officer and Company Secretary
