3. IMPORTANT NOTES

This Prospectus is dated 16 October 2013 and was lodged with the ASIC on that date. The ASIC and its officers take no responsibility for the contents of this Prospectus or the merits of the investment to which this Prospectus relates.

No Options may be issued on the basis of this Prospectus later than 13 months after the date of this Prospectus.

No person is authorised to give information or to make any representation in connection with this Prospectus, which is not contained in the Prospectus. Any information or representation not so contained may not be relied on as having been authorised by the Company in connection with this Prospectus.

It is important that investors read this Prospectus in its entirety and seek professional advice where necessary. The Options the subject of this Prospectus should be considered highly speculative.

Applications for Options offered pursuant to this Prospectus can only be submitted on an original Entitlement and Acceptance Form or Shortfall Application Form.

This Prospectus is a transaction specific prospectus for an offer of continuously quoted securities (as defined in the Corporations Act) and has been prepared in accordance with section 713 of the Corporations Act. It does not contain the same level of disclosure as an initial public offering prospectus. In making representations in this Prospectus regard has been had to the fact that the Company is a disclosing entity for the purposes of the Corporations Act and certain matters may reasonably be expected to be known to investors and professional advisers whom potential investors may consult.

The Company will apply to the ASX for quotation of the Options offered under this Prospectus. If quotation is granted, the Options offered under this Prospectus will be able to be traded on the ASX. If you wish to trade the Options through that market, you will have to make arrangements for a participant in that market to sell the Options on your behalf. As the ASX does not operate in New Zealand, the way in which the market operates, the regulation of participants in that market, and the information available to you about the securities and trading may differ from securities markets that operate in New Zealand.

3.1 Risk factors

Potential investors should be aware that subscribing for Options in the Company involves a number of risks. The key risk factors of which investors should be aware are set out in section 7 of this Prospectus. These risks together with other general risks applicable to all investments in listed securities not specifically referred to, may affect the value of the Options in the future. Accordingly, an investment in the Company should be considered highly speculative. Investors should consider consulting their professional advisers before deciding whether to apply for Options pursuant to this Prospectus.

3.2 Offer is only made in Australia and New Zealand

This Offer does not constitute an offer in any place in which, or to any person to whom, it would not be lawful to make such an offer. In particular, the Offer (and any Shortfall Offer) is only being made in Australia and New Zealand.

The distribution of this Prospectus in jurisdictions outside Australia may be restricted by law and persons who come into possession of this Prospectus should seek advice on and observe any of these restrictions. Failure to comply with these restrictions may violate securities laws. Applicants who are resident in countries other than Australia should consult their professional advisers as to whether any governmental or other consents are required or whether any other formalities need to be considered and followed. In particular, this Prospectus may not be distributed in the United States or any other country except Australia and New Zealand.

The Offer to New Zealand investors is made pursuant to the New Zealand Securities Act (Overseas Companies) Exemption Notice 2013. Pursuant to this Act, the only members of the public to whom the Options are offered in New Zealand under the Offer are those who, at the time of the offer, are holders of Shares in the Company.

3.3 Forward-looking statements

This Prospectus contains forward-looking statements which are identified by words such as 'may', 'could', 'believes', 'estimates', 'targets', 'expects', or 'intends' and other similar words that involve risks and uncertainties.

These statements are based on an assessment of present economic and operating conditions, and on a number of assumptions regarding future events and actions that, as at the date of this Prospectus, are expected to take place.

Such forward-looking statements are not guarantees of future performance and involve known and unknown risks, uncertainties, assumptions and other important factors, many of which are beyond the control of our Company, the Directors and our management.

We cannot and do not give any assurance that the results, performance or achievements expressed or implied by the forward-looking statements contained in this prospectus will actually occur and investors are cautioned not to place undue reliance on these forward-looking statements.

We have no intention to update or revise forward-looking statements, or to publish prospective financial information in the future, regardless of whether new information, future events or any other factors affect the information contained in this prospectus, except where required by law.

These forward looking statements are subject to various risk factors that could cause our actual results to differ materially from the results expressed or anticipated in these statements. These risk factors are set out in section 7 of this Prospectus.

4. DETAILS OF THE OFFER

4.1 Purpose of the Offer

The \$32,000 raised before costs of the Offer will be applied to the Company's ongoing working capital requirements consistent with its strategy disclosed to date. The current intention is that the funds will contribute to costs of the issue and general working capital.

4.2 The Offer

The Offer is being made as a non-renounceable entitlement issue of one (1) listed Option for every two (2) Shares held by Shareholders registered at the Record Date at an issue price of \$0.002 per Option.

Based on the capital structure of the Company as at the date of this Prospectus, a maximum of 16,000,000 listed Options will be issued pursuant to this Offer to raise up to \$32,000 (less expenses of the Offer).

As at the date of this Prospectus the Company has no Options on issue.

All of the Options offered under this Prospectus will be issued on the terms and conditions set out in section 6.1 of this Prospectus.

All of the Shares issued upon the future exercise of the Options offered under this Prospectus will rank equally with the Shares on issue at the date of this Prospectus. Please refer to section 6.2 for further information regarding the rights and liabilities attaching to the Shares.

The intended use of funds raised is set out in Section 5.1 of this Prospectus.

4.3 Minimum subscription

There is no minimum subscription in respect of the Offer.

4.4 Acceptance

Your acceptance of the Offer must be made on the Entitlement and Acceptance Form accompanying this Prospectus. Your acceptance must not exceed your Entitlement as shown on that form. If it does, your acceptance will be deemed to be for the maximum Entitlement.

You may participate in the Offer as follows:

- (a) if you wish to accept your **full** Entitlement:
 - (i) complete the Entitlement and Acceptance Form; and
 - (ii) attach your cheque, made payable in Australian currency, for the amount indicated on the Entitlement and Acceptance Form; or
- (b) if you only wish to accept **part** of your Entitlement:
 - (i) fill in the number of Options you wish to accept in the space provided on the Entitlement and Acceptance Form; and

- (ii) attach your cheque, made payable in Australian currency, for the appropriate application monies (at \$0.02 per Option); or
- (c) if you do not wish to accept all or part of your Entitlement, you are not obliged to do anything.

4.5 Payment by cheque

All cheques must be drawn on an Australian bank made payable in Australian currency to “**Firestrike Resources Ltd**” and crossed “**Not Negotiable**”.

Your completed Entitlement and Acceptance Form and cheque must reach the Company’s share registry no later than 5.00pm WST on the Closing Date.

4.6 Underwriting

The Offer is not underwritten.

4.7 Effect on control of the Company

The Board will not issue any of the Shortfall to a third party in an amount that on exercise of the Options would result in that third party having a relevant interest in the Company of 20% or more. As such, it is not anticipated that the Offer will have a significant effect on control of the Company.

Shareholders should also note that if they do not participate in the Offer, and all of the Options are subscribed for and subsequently exercised, their holdings, upon the future issue of the Shares, could be diluted by approximately 33% (as compared to their current holdings and using the number of Shares on issue as at the date of the Prospectus).

4.8 Shortfall Offer

If you do not wish to take up any part of your Entitlement you are not required to take any action. That part of your Entitlement not taken up will form part of the Shortfall. The offer of the Shortfall is a separate offer made pursuant to this Prospectus. The issue price of any Options offered pursuant to the Shortfall Offer shall be \$0.002 being the price at which the Entitlement has been offered to Shareholders pursuant to this Prospectus. The Shortfall shall be placed at the discretion of the Directors.

4.9 ASX listing

Application for Official Quotation of the Options offered pursuant to this Prospectus will be made in accordance with the timetable set out at the commencement of this Prospectus. If ASX does not grant Official Quotation of the Options offered pursuant to this Prospectus before the expiration of 3 months after the date of issue of the Prospectus, (or such period as varied by the ASIC), the Company will not issue any Options and will repay all application monies for the Options within the time prescribed under the Corporations Act, without interest.

The fact that ASX may grant Official Quotation to the Options is not to be taken in any way as an indication of the merits of the Company or the Options now offered for subscription.

4.10 Issue of Options

Options issued pursuant to the Offer will be issued in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus.

Options issued pursuant to the Shortfall Offer will be issued on a progressive basis. Where the number of Options issued is less than the number applied for, or where no issue is made surplus application monies will be refunded without any interest to the Applicant as soon as practicable after the closing date of the Shortfall Offer.

Pending the issue of the Options or payment of refunds pursuant to this Prospectus, all application monies will be held by the Company in trust for the Applicants in a separate bank account as required by the Corporations Act. The Company, however, will be entitled to retain all interest that accrues on the bank account and each Applicant waives the right to claim interest.

Holding statements for Options issued under the Offer will be mailed in accordance with the ASX Listing Rules and timetable set out at the commencement of this Prospectus and for Shortfall Options issued under the Shortfall Offer as soon as practicable after their issue.

4.11 Overseas shareholders

This Offer does not, and is not intended to, constitute an offer in any place or jurisdiction in which, or to any person to whom, it would not be lawful to make such an offer or to issue this Prospectus.

It is not practicable for the Company to comply with the securities laws of overseas jurisdictions having regard to the number of overseas Shareholders, the number and value of Options these Shareholders would be offered and the cost of complying with regulatory requirements in each relevant jurisdiction. Accordingly, the Offer is not being extended and Options will not be issued to Shareholders with a registered address which is outside Australia or New Zealand.

The Offer is being made in New Zealand pursuant to the Securities Act (Overseas Companies) Exemption Notice 2013.

Shareholders resident in Australia or New Zealand holding Shares on behalf of persons who are resident overseas are responsible for ensuring that taking up an Entitlement under the Offer does not breach regulations in the relevant overseas jurisdiction. Return of a duly completed Entitlement and Acceptance Form will be taken by the Company to constitute a representation that there has been no breach of those regulations.

4.12 Enquiries

Any questions concerning the Offer should be directed to Paul Lloyd, Director/Company Secretary, on (08) 9476 9209.

5. USE AND EFFECT OF THE OFFER

5.1 Use of funds raised

The Offer will raise up to \$32,000 (less expenses of the Offer).

The funds raised from the Offer are planned to be used in accordance with the table set out below (assuming the Offer is fully subscribed):

Notes:

1. Refer to section 8.7 of this Prospectus for further details relating to the estimated expenses of the Offer.

The above table is a statement of current intentions as of the date of this Prospectus. As with any budget, intervening events and new circumstances have the potential to affect the manner in which the funds are ultimately applied. The Board reserves the right to alter the way funds are applied on this basis.

5.2 Effect of the Offer

The principal effect of the Offer will be to:

- (a) increase the cash reserves and issued capital by up to \$32,000 (less expenses of the Offer) immediately after completion of the Offer prior to deducting the estimated expenses of the Offer; and

6.1 Rights Attaching to Options

The Options entitle the holder to subscribe for Shares on the following terms and conditions:

- (a) Each Option gives the Optionholder the right to subscribe for one Share.
- (b) Each Option will expire at 5.00pm (WST) on 31 December 2016 (**Expiry Date**). An Option not exercised before the Expiry Date will automatically lapse on the Expiry Date.

- (l) There are no participating rights or entitlements inherent in the Options and Optionholders will not be entitled to participate in new issues of capital offered to Shareholders during the currency of the Options.

- (m) An Option does not confer the right to a change in exercise price or a change in the number of underlying securities over which the Option can be exercised.

6.2 Rights Attaching to Shares (being the underlying securities)

The following is a summary of the more significant rights attaching to Shares. This summary is not exhaustive and does not constitute a definitive statement of the rights and liabilities of Shareholders. To obtain such a statement, persons should seek independent legal advice.

Full details of the rights attaching to Shares are set out in the Constitution, a copy of which is available for inspection at the Company's registered office during normal business hours.

General meetings

Shareholders are entitled to be present in person, or by proxy, attorney or representative to attend and vote at general meetings of the Company.

Shareholders may requisition meetings in accordance with Section 249D of the Corporations Act and the Constitution.

Voting rights

Subject to any rights or restrictions for the time being attached to any class or classes of Shares, at general meetings of Shareholders or classes of Shareholders:

- (a) each Shareholder entitled to vote may vote in person or by proxy, attorney or representative;
- (b) on a show of hands, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder has one vote; and
- (c) on a poll, every person present who is a Shareholder or a proxy, attorney or representative of a Shareholder shall, in respect of each fully paid Share held by him, or in respect of which he is appointed a proxy, attorney or representative, have one vote for the Share, but in respect of partly paid Shares shall have such number of votes as bears the same proportion to the total of such Shares registered in the Shareholder's name as the amount paid (not credited) bears to the total amounts paid and payable (excluding amounts credited).

Dividend rights

Subject to the rights of any preference Shareholders and to the rights of the holders of any shares created or raised under any special arrangement as to dividend, the Directors may from time to time declare a dividend to be paid to the Shareholders entitled to the dividend which shall be payable on all Shares according to the proportion that the amount paid (not credited) is of the total amounts paid and payable (excluding amounts credited) in respect of such Shares.

The Directors may from time to time pay to the Shareholders any interim dividends as they may determine. No dividend shall carry interest as against the Company. The Directors may set aside out of the profits of the Company any amounts that they may determine as reserves, to be applied at the discretion of

the Directors, for any purpose for which the profits of the Company may be properly applied.

Subject to the ASX Listing Rules and the Corporations Act, the Company may, by resolution of the Directors, implement a dividend reinvestment plan on such terms and conditions as the Directors think fit and which provides for any dividend which the Directors may declare from time to time payable on Shares which are participating Shares in the dividend reinvestment plan, less any amount which the Company shall either pursuant to the Constitution or any law be entitled or obliged to retain, be applied by the Company to the payment of the subscription price of Shares.

Winding-up

If the Company is wound up, the liquidator may, with the authority of a special resolution of the Company, divide among the shareholders in kind the whole or any part of the property of the Company, and may for that purpose set such value as he considers fair upon any property to be so divided, and may determine how the division is to be carried out as between the Shareholders or different classes of Shareholders.

The liquidator may, with the authority of a special resolution of the Company, vest the whole or any part of any such property in trustees upon such trusts for the benefit of the contributories as the liquidator thinks fit, but so that no Shareholder is compelled to accept any Shares or other securities in respect of which there is any liability.

Shareholder liability

As the Shares to be issued (on exercise of the Options offered under the Prospectus) are fully paid shares, they are not subject to any calls for money by the Directors and will therefore not become liable for forfeiture.

Transfer of Shares

Generally, Shares are freely transferable, subject to formal requirements, the registration of the transfer not resulting in a contravention of or failure to observe the provisions of a law of Australia and the transfer not being in breach of the Corporations Act or the ASX Listing Rules.

Variation of rights

Pursuant to Section 246B of the Corporations Act, the Company may, with the sanction of a special resolution passed at a meeting of Shareholders vary or abrogate the rights attaching to Shares.

If at any time the share capital is divided into different classes of Shares, the rights attached to any class (unless otherwise provided by the terms of issue of the shares of that class), whether or not the Company is being wound up, may be varied or abrogated with the consent in writing of the holders of three-quarters of the issued shares of that class, or if authorised by a special resolution passed at a separate meeting of the holders of the shares of that class.

Alteration of Constitution

The Constitution can only be amended by a special resolution passed by at least three quarters of Shareholders present and voting at the general meeting.

7. RISK FACTORS

7.1 Introduction

The Options offered under this Prospectus are considered highly speculative. An investment in the Company is not risk free and the Directors strongly recommend potential investors to consider the risk factors described below, together with information contained elsewhere in this Prospectus and to consult their professional advisers before deciding whether to apply for Options pursuant to this Prospectus.

There are specific risks which relate directly to the Company's business. In addition, there are other general risks, many of which are largely beyond the control of the Company and the Directors. The risks identified in this section, or other risk factors, may have a material impact on the financial performance of the Company and the market price of the Shares.

The following is not intended to be an exhaustive list of the risk factors to which the Company is exposed.

7.2 Company specific

(a) Exploration Risks

To date, there has been limited exploration on the Projects and there is not presently any JORC Code compliant resources on the Tenements. Potential investors should understand that mineral exploration and development are high-risk undertakings. There can be no assurance that exploration of the Tenements, or any other tenements that may be acquired in the future, will result in the discovery of an economic ore deposit. Even if an apparently viable deposit is identified, there is no guarantee that it can be economically exploited.

(b) Joint Venture Risk

The Company is subject to the risk that changes in the status of any of the company's joint ventures (including changes caused by financial failure or default by a participant in the joint venture) may adversely affect the operations and performance of the Company.

(c) Dilution Risk

On completion of the Offer, there will be 16,000,000 Options on issue if fully subscribed. If these Options are converted into Shares there will be a further dilution to existing Shareholders of the outstanding issued Shares (depending on the amount raised under this Prospectus). However, each Option has an exercise price of \$0.04 which means that the Company will receive additional funds of \$640,000 upon exercise of the Options, if all existing options are exercised.

7.3 Industry specific

(a) Operational and technical risks

The current and future operations of the Company, including exploration, appraisal and possible production activities, may be affected by a range of factors, including:

- (i) geological conditions;
- (ii) limitations on activities due to seasonal weather patterns and cyclone activity;
- (iii) alterations to exploration programs and budgets;
- (iv) unanticipated operational and technical difficulties encountered in survey, drilling, other exploration activities and/or production activities;
- (v) electrical and mechanical failure of operating plant and equipment, industrial and environmental accidents, industrial disputes and other force majeure events;
- (vi) unavailability of aircraft or drilling equipment to undertake airborne surveys and other geological investigations;
- (vii) the supply and cost of skilled labour;
- (viii) prevention or restriction of access by reason of political unrest, outbreak of hostilities and inability to obtain consents or approvals (including clearance of work programs pursuant to the existing and any future access agreements entered into with any registered Aboriginal Land Council and the Native Title claimants); and
- (ix) while the Company currently intends to maintain insurance within ranges of coverage consistent with industry practice, no assurance can be given that the Company will be able to obtain such insurance coverage at reasonable rates (or at all), or that any coverage it obtains will be adequate and available to cover any such claims.

(b) **Status of Tenements**

The Company cannot guarantee that granted prospecting or exploration licences will be renewed beyond their current expiry date and there is a material risk that, in the event the Company is unable to renew these granted tenements beyond their current expiry date, the Company's interest in the affected projects may be relinquished.

(c) **Resource estimates**

There are not currently any JORC Code compliant resources on the Tenements. In the event a resource is delineated this would be an estimate only. Resource estimates are expressions of judgment based on knowledge, experience and industry practice. Estimates that are valid when made may change significantly when new information becomes available through drilling, sampling and similar examinations.

In addition, resource estimates are necessarily imprecise and depend to some extent on interpretations, which may prove to be inaccurate. Should the Company encounter mineralisation or formations different from those predicted, resource estimates may have to be adjusted and mining plans may have to be altered in a way which could adversely affect the Company's operations.

(d) **Commodity price volatility and foreign exchange risk**

In the event that the Company achieves exploration success leading to production, the revenue it will derive through the sale of commodities exposes the potential income of the Company to commodity price risks.

Commodity prices fluctuate and are affected by numerous factors beyond the control of the Company. These factors include world demand for minerals, forward selling by producers, and production cost levels in major metal-producing regions.

Moreover, commodity prices are also affected by macroeconomic factors such as expectations regarding inflation, interest rates and global and regional demand for, and supply of, the commodity as well as general global economic conditions. These factors may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

Furthermore, international prices of various commodities are denominated in United States Dollars whereas the income and expenditure of the Company are and will be taken into account in Australian currency, exposing the Company to the fluctuations and volatility of the rate of exchange between the United States Dollar and the Australian Dollar as determined in international markets.

(e) **Tenement title - Australia**

Interests in tenements in Western Australia are governed by legislation and are evidenced by the granting of licences. Each licence is for a specific term and carries with it annual expenditure and reporting commitments, as well as other conditions requiring compliance. Consequently, the Company could lose title to, or its interest in, the Tenements if licence conditions are not met or if insufficient funds are available to meet expenditure commitments as and when they arise.

All of the tenements in which the Company has or may acquire an interest in will be subject to applications for renewal or grant (as the case may be). The renewal or grant of the term of each Tenement is usually at the discretion of the relevant government authority. If a Tenement is not renewed or granted, the Company may suffer significant damage through loss of the opportunity to develop and discover any mineral resources on the Tenement.

(f) **Native title**

The Native Title Act recognises and protects the rights and interests in Australia of Aboriginal and Torres Strait Islander people in land and waters, according to their traditional laws and customs.

If native title rights exist over the land the subject of the Tenements, the ability of the Company to gain access to the Tenements (through obtaining consent of any relevant native title holder) or to progress from the exploration phase to the development and mining phases of operations, may be adversely affected.

Further, it is possible that an Indigenous Land Use Agreement (**ILUA**) may be registered against one or more of the Tenements in which the

Company has an interest. The terms and conditions of any such ILUA may be unfavourable for, or restrictive against, the Company.

The Company must also comply with Aboriginal heritage legislation requirements which require heritage survey work to be undertaken ahead of the commencement of mining operations.

(g) **Environmental risks**

Mining is an industry that has become subject to increasing environmental responsibility and liability. The potential for liability is an ever present risk. Future legislation and regulations governing production may impose significant environmental obligations on the Company in relation to mining. The Company intends to conduct its activities in a responsible manner which minimises its impact on the environment, and in accordance with applicable laws.

The cost and complexity of complying with the applicable environmental laws and regulations may prevent the Company from being able to develop potentially economically viable mineral deposits.

Further, the Company may require approval from the relevant authorities before it can undertake activities that are likely to impact the environment. Failure to obtain such approvals may prevent the Company from undertaking its desired activities. The Company is unable to predict the effect of additional environmental laws and regulations, which may be adopted in the future, including whether any such laws or regulations would materially increase the Company's cost of doing business or affect its operations in any area.

There can be no assurances that new environmental laws, regulations or stricter enforcement policies, once implemented, will not oblige the Company to incur significant expenses and undertake significant investments in such respect which could have a material adverse effect on the Company's business, financial condition and results of operations.

7.4 **General risks**

(a) **Economic**

General economic conditions, introduction of tax reform, new legislation, movements in interest and inflation rates and currency exchange rates may have an adverse effect on the Company's exploration, development and production activities, as well as on its ability to fund those activities.

(b) **Market conditions**

Share market conditions may affect the value of the Company's quoted securities regardless of the Company's operating performance. Share market conditions are affected by many factors such as:

- (i) general economic outlook;
- (ii) introduction of tax reform or other new legislation;
- (iii) interest rates and inflation rates;

- (iv) changes in investor sentiment toward particular market sectors;
- (v) the demand for, and supply of, capital; and
- (vi) terrorism or other hostilities.

The market price of securities can fall as well as rise and may be subject to varied and unpredictable influences on the market for equities in general and resource exploration stocks in particular. Neither the Company nor the Directors warrant the future performance of the Company or any return on an investment in the Company.

(c) **Additional requirements for capital**

The Company's ability to effectively implement its business and operations plans in the future and to meet any unanticipated liabilities or expenses which the Company may incur will depend in part on its ability to raise additional funds. The Company will need to seek to raise further funds through equity or debt financing, joint ventures, production sharing arrangements or other means. Failure to obtain sufficient financing for the Company's activities may result in delay and indefinite postponement of exploration on the Company's properties or even loss of a property interest. There can be no assurance that additional finance will be available when needed or, if available, the terms of the financing might not be favourable to the Company and might involve substantial dilution to Shareholders.

(d) **Reliance on key personnel**

The responsibility of overseeing the day-to-day operations and the strategic management of the Company depends substantially on its senior management and its key personnel. There can be no assurance given that there will be no detrimental impact on the Company if one or more of these employees cease their employment.

7.5 Speculative investment

The above list of risk factors ought not to be taken as exhaustive of the risks faced by the Company or by investors in the Company. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of the Company and the value of the Options offered under this Prospectus

Therefore, the Options that may be issued pursuant to this Prospectus carry no guarantee with respect to the payment of dividends, returns of capital or the market value of those Options.

Potential investors should consider that the investment in the Company is speculative and should consult their professional advisers before deciding whether to apply for Options pursuant to this Prospectus.

Specifically, like all listed companies, the Company is required to continuously disclose any information it has to the market which a reasonable person would expect to have a material effect on the price or the value of the Company’s securities.

This Prospectus is a “transaction specific prospectus”. In general terms a “transaction specific prospectus” is only required to contain information in relation to the effect of the issue of securities on a company and the rights attaching to the securities. It is not necessary to include general information in relation to all of the assets and liabilities, financial position, profits and losses or prospects of the issuing company.

Having taken such precautions and having made such enquiries as are reasonable, the Company believes that it has complied with the general and specific requirements of ASX as applicable from time to time throughout the 3 months before the issue of this Prospectus which required the Company to notify ASX of information about specified events or matters as they arise for the purpose of ASX making that information available to the stock market conducted by ASX.

Information that is already in the public domain has not been reported in this Prospectus other than that which is considered necessary to make this Prospectus complete.

If you have received this Prospectus as an electronic Prospectus, please ensure that you have received the entire Prospectus accompanied by the Application Forms. If you have not, please phone the Company on +61 8 9476 9209 and the Company will send you, for free, either a hard copy or a further electronic copy of the Prospectus, or both. 8.9 Financial forecasts

The Directors have considered the matters set out in ASIC Regulatory Guide 170 and believe that they do not have a reasonable basis to forecast future earnings on the basis that the operations of the Company are inherently uncertain. Accordingly, any forecast or projection information would contain such a broad range of potential outcomes and possibilities that it is not possible to prepare a reliable best estimate forecast or projection.

8.10 Clearing House Electronic Sub-Register System (CHES) and Issuer Sponsorship

The Company will not be issuing option certificates. The Company is a participant in CHES, for those investors who have, or wish to have, a sponsoring stockbroker. Electronic registers mean that the Company will not be issuing certificates to investors. Instead, investors will be provided with a statement (similar to a bank account statement) that sets out the number of Options issued to them under this Prospectus. The notice will also advise holders of their Holder Identification Number or Security Holder Reference Number and explain, for future reference, the sale and purchase procedures under CHES and issuer sponsorship.

Further monthly statements will be provided to holders if there have been any changes in their security holding in the Company during the preceding month.

8.11 Privacy Act

If you complete an application for Options, you will be providing personal information to the Company (directly or by the Company's share registry). You can access, correct and update the personal information that we hold about you. Please contact the Company or its share registry if you wish to do so at the relevant contact numbers set out in this Prospectus.

Collection, maintenance and disclosure of certain personal information is governed by legislation including the *Privacy Act 1988* (Cth) (as amended), the Corporations Act and certain rules such as the ASX Settlement Operating Rules.
