

## Retirement of John Todd

**Melbourne, 4 February 2013** - Greencap Limited (ASX: GCG) today announced the retirement of John Todd - Regional Director of South Australia and Northern Territory.

Mr John Todd, joined Greencap when the business he founded in South Australia *AEC Environmental* was purchased by Greencap in 2008. John has managed the South Australian business since that time which has grown and prospered under his direction. The Northern Territory office of *AEC Environmental*, which he established, has flourished under his direction. John has retired from the business with the sincere thanks of the Board; we wish him every enjoyment in his retirement.

Mr Duncan Whitfield who was intended to transition into the role of Regional Director – SA NT will take on a broader role across a now combined Western Region (WA, SA, NT) following the departure of the Regional Director Western Australia last Thursday. Duncan was recruited for his superb leadership skills, his business development capability and excellent project management experience. Under Duncan's leadership new structures and operating processes will be implemented in WA and across the Western Region to ensure greater client focus, to drive integration benefits and to manage costs structures down.

Group Managing Director Earl Eddings said that: "It's rare in business to see outgoing and incoming leaders working so well together to achieve a smooth transition for clients, staff and suppliers. I am especially grateful to John for his efforts in this process."

"I am confident under Duncan's leadership that we are well positioned to drive a renewal of the Western Australian business as a part of a greater Western Region business integration" he said.

We will announce more details about further management changes and our anticipated half year results very shortly.
