Chairman's Letter

Dear Galilee Shareholder,

Olympus Funds Management Pty Ltd (**Olympus**), a wholly owned subsidiary of Mercantile Investment Company Ltd (**Mercantile**), is pleased to offer you 15 cents cash for one of every two Galilee Shares you own (**Offer**).

The Olympus Directors believe the Offer represents an attractive opportunity for Galilee Shareholders to realise half of their investment in Galilee for cash and retain an exposure to any future prospects Galilee might have. You will not have to pay any brokerage to accept the Offer (you may incur brokerage fees if you choose to sell your Galilee Shares on market or if you instruct your Controlling Participant to accept the Offer on your behalf).

Details of the Offer

The Offer is 15 cents cash for up to one of every two Galilee Shares you own (in other words, we are offering to buy up to 50% of your shareholding).

The Offer Price represents a premium of 2 cents or 15% to 13 cents, the last price at which Galilee Shares traded on ASX prior to Mercantile's announcement of 21 October 2013 of the intention to make the Offer. The closing price of Galilee Shares on ASX on 22 November 2013, the last trading day before the date of this Bidder's Statement, was 13.5 cents.

It is important that you read the information in this Bidder's Statement in deciding on whether to accept our Offer and if necessary, contact a qualified investment adviser for assistance.

No Olympus conditions to the Offer

Olympus has imposed no conditions to the Offer. There is no minimum acceptance condition to the Offer.

Your Board's efforts to impose a takeover approval condition

The Corporations Act permits a company to include in its constitution a provision requiring shareholder approval to be obtained to permit a proportional takeover offer to proceed. Rule 36 of the constitution of Galilee contained such a provision. Constitutional provisions of this nature must be renewed every 3 years. Rule 36 of the Galilee constitution expired on 22 November 2013.

On 21 October 2013 Mercantile announced the intention that it or its nominee would undertake this bid. Notwithstanding this, the Galilee board determined to seek Galilee Shareholder approval to re-insert Rule 36 into the Galilee at the annual general meeting convened for 28 November 2013. The re-introduction of this Rule, if effective, would impose a shareholder approval condition on the Offer when it was clear from the Mercantile announcement that the Offer would be made without conditions.

In the explanatory memorandum accompanying the notice of the upcoming annual general meeting, your Board has stated that if Mercantile serves its offer on Galilee after approval of the proportional takeover provisions in the Galilee constitution, Rule 36 as renewed would apply to this Offer. This Bidder's

Statement will be served on Galilee while there is no current proportional takeover provision in the Galilee constitution. Olympus has done this to enable Galilee Shareholders to consider the Offer in the form initially proposed and announced – an Offer free of conditions.

Olympus considers that the appropriate course of action for the Galilee Board at this time is to withdraw Resolution 5 from the Galilee AGM.

Your Board may instead assert that Rule 36, if re-introduced at the Galilee AGM, will impose a Galilee Shareholder approval requirement for the Offer. If Rule 36 is applied to this Offer, the Offer will not proceed unless Galilee Shareholders approve the Offer by ordinary resolution at a subsequent Galilee Shareholder meeting or they fail to consider such a resolution to approve the Offer by the date 14 days before the end of the Offer Period.

Galilee Shareholders have an opportunity to remove any doubt on this issue and to send a clear message to the Galilee Board – that you want the opportunity to accept this Offer as announced over a month ago. To do so, you should vote **against** the special resolution to re-insert Rule 36 to the constitution. See Section 9.1 for details.

Rationale for the Offer

Olympus believes that Galilee has incurred operating costs and expenditure on speculative exploration ventures with little return for Galilee Shareholders. Olympus considers the best outcome for Galilee Shareholders would involve the following and if the Offer is successful would undertake a strategic review to assess the viability of the following:

- (a) a substantial reduction in Galilee's present running costs which Olympus considers are excessive;
- (b) immediately ceasing further expenditure on development of the ATP 799P tenement;
- (c) assessment of the remaining costs required to be spent by March 2014 in respect of the ATP 529P property (**AGL Project**) to establish a realisable value or, if a realisable value cannot be derived from that property, to acknowledge that it cannot be sold and write off all costs incurred on that project in the accounts of Galilee; and
- (d) returning all remaining cash funds (including any return generated from the sale of the AGL Project), to Galilee Shareholders.

We believe the Galilee Board holds a contrary view to the above and proposes that Galilee embark on speculative new exploration ventures. Olympus considers that this is not the appropriate strategic direction for Galilee.

Olympus also considers that the board is not truly representative of Galilee Shareholders. With the recent resignation of Messrs Young, Camarri and Jensen, the board of Galilee solely comprises directors nominated by a single Galilee Shareholder, Malt Energy Pty Limited. Based on the substantial shareholder notices lodged to date, Malt itself holds approximately 16% of Galilee Shares on issue.

Subject to the outcome of the Offer, Olympus will seek to reconfigure the board of Galilee to be more representative of Galilee Shareholders. Olympus also proposes to promote the cost reduction programme, asset sale and return of capital outlined above, subject to any operational, financial and legal constraints that may be subsequently identified. See Section 4 for details of Olympus's intentions with respect to Galilee.

How to accept

If you choose to accept the Offer you can either direct your Controlling Participant (normally your broker) to accept the Offer on your CHESS holding on your behalf, or complete and sign the enclosed Acceptance Form and return it in the supplied envelope so that it is received before the end of the Offer Period. An Acceptance Form will not be accepted if returned by fax or email.

The Offer is scheduled to close at 7:00pm (Sydney time) on [•].

More information

If you have any questions concerning the Offer, you may submit your query in writing to Gabriel Radzyminski, a fellow Olympus Director, by fax on 02 8084 9918 or by email to GLL@mercinv.com.au. For any additional queries we recommend you contact your broker or financial adviser.

Yours sincerely,

Ron Brierley
Chairman

How to accept the Offer

There are different ways to accept the Offer depending on how you hold your Galilee Shares.

For CHES Holdings

Instruct your stockbroker or other Controlling Participant to initiate acceptance of the Offer on your behalf in sufficient time for the Offer to be accepted before the end of the Offer Period.

Alternatively, you may complete and sign the enclosed Acceptance Form in accordance with the instructions on that form and within this Bidder's Statement and return it so it is received before the end of the Offer Period to:

Olympus – Galilee Offer
Computershare Investor Services Pty Limited
GPO Box 52
MELBOURNE VIC 3001
Australia

An Acceptance Form will not be accepted if returned by fax or email.

For Issuer Sponsored Holdings

Complete and sign the accompanying Acceptance Form in accordance with instructions on that form and within this Bidder's Statement and return it so it is received before the end of the Offer Period to:

Olympus – Galilee Offer

Australia

An Acceptance Form will not be accepted if returned by fax or email.

The Acceptance Form

The Acceptance Form which accompanies this Bidder's Statement forms part of the Offer. The requirements on the Acceptance Form must be observed in accepting the Offer for up to one out of every two of your Galilee Shares.

Partial Acceptance

You may accept the Offer for any proportion of your Galilee Shareholding up to a maximum of one out of every two Galilee Shares that you hold (ie 50%). If you wish to accept the Offer for less than one out of every two Galilee Shares, you must indicate this clearly on the Acceptance Form. If the Acceptance Form does not clearly state the proportion of your Galilee Shareholding that you wish to accept into the Offer, or the portion you specify is more than your total holding known to Olympus, Olympus will treat your acceptance as being for one out of every two of your Galilee Shareholding (ie 50%).

However, if your acceptance of the Offer results in your remaining Galilee Shareholding being less than a Marketable Parcel, you may accept the Offer for all of your Galilee Shares. See Section 9.2 for details.

Why you should Accept the Offer

1. Attractive cash offer for all Galilee Shareholders

The Offer is 15 cents cash (**Offer Price**) for up to 50% of every Galilee Shareholding in Galilee that Olympus does not already own.

The Offer Price:

- (a) represents a 2 cent or 15% premium to 13 cents, the last price at which Galilee Shares traded on ASX prior to the Announcement Date; and
- (b) represents a 1.5 cent or 11.1% premium to 13.5 cents, the last price at which Galilee Shares traded on ASX prior to the date of this Bidder's Statement.

2. The Offer provides certainty of value for up to 50% of your Galilee Shares

The Offer is an offer to acquire up to 50% of your Galilee Shares for cash. By accepting this Offer you will be paid 15 cents cash for up to one of every two Galilee Shares you own, subject only to satisfaction of the Shareholder Approval Condition (if applicable).

You will also continue to be exposed to the risks and opportunities associated with an investment in Galilee. You should refer to Section 7 for a discussion of these risks and Section 4 for a discussion of Olympus's intentions with respect to Galilee.

3. You will not incur any brokerage costs in accepting the Offer

By accepting the Offer you will not incur any brokerage charges if your Galilee Shares are registered in an issuer sponsored holding (you may incur brokerage fees if you choose to sell your Galilee Shares on-market or you instruct your Controlling Participant to accept the Offer on your behalf).

4. No minimum acceptance condition

As there is no minimum acceptance condition, Olympus will acquire any number of your Galilee Shares for which you accept – up to a maximum of 50% of your Galilee Shareholding¹.

Olympus has imposed no conditions on the Offer.

If Rule 36 is applied to this Offer, completion of the acquisition of your Galilee Shares under this Offer would be conditional on approval by Galilee Shareholders (provided Galilee Shareholders vote to approve the Offer no later than 14 days before the end of the Offer Period). If you wish to accept the Offer, you should vote **against** resolution 5 at the Galilee AGM. See Section 9.1 for details.

5. Liquidity

Galilee Shares current exhibit very low volumes of trading on ASX. As such, there may be little opportunity to dispose of your Galilee Shares in a liquid market. The Offer provides an opportunity for Galilee Shareholders to sell up to 50% of their Galilee Shares.

- 1. If your acceptance of the Offer results in your remaining Galilee Shareholding being less than a Marketable Parcel, you may accept the Offer for all of your Galilee Shares. See Section 9.2 for details

1. Main Features of the Offer

This Section sets out a summary of the main features of the Offer. It is qualified by the detailed information contained in the remainder of the Bidder's Statement.

1.1. The Offer

Mercantile announced that it or a nominee intended to make an offer to acquire up to 50% of all of the Galilee Shares it does not own on the Announcement Date. The Offer is being undertaken by way of an off-market takeover bid. Appendix A of this Bidder's Statement contains the terms of the Offer. The remainder of this Bidder's Statement contains other information known to Olympus which is relevant to your decision as to whether to accept or reject the Offer.

1.2. What is Olympus Offering for my Galilee Shares?

The Offer is a cash offer of 15 cents for one of every two Galilee Shares you own. If you hold an odd number of Galilee Shares, the number of Galilee Shares for which you may accept the Offer will be rounded up to the nearest whole number.

The Offer extends to Galilee Shares on issue on 25 November 2013.

1.3. Foreign Shareholders

This Offer is not registered in any jurisdiction outside Australia (unless an applicable foreign law treats it as registered as a result of the Bidder's Statement being lodged with ASIC). It is your sole responsibility to satisfy yourself that you are permitted by any foreign law applicable to you to accept this Offer.

1.4. Will I pay any brokerage or stamp duty if I accept any of the Offer?

You will not pay brokerage or stamp duty as a result of accepting the Offer (you may incur brokerage fees if you choose to sell you Galilee Shares on market or you instruct your Controlling Participant to accept the Offer on your behalf).

1.5. When does the Offer close?

The Offer closes at 7.00pm (Sydney time) on [•] January 2014, unless extended or withdrawn in accordance with the Corporations Act.

1.6. How do I accept the Offer?

There are different ways to accept the Offer depending on how you hold your Galilee Shares.

For CHESS Holdings

Instruct your stockbroker or other Controlling Participant to initiate acceptance of the Offer on your behalf in sufficient time for the Offer to be accepted before the end of the Offer Period.

Alternatively, you may complete and sign the enclosed Acceptance Form in accordance with the instructions on that form and within this Bidder's Statement and return it so it is received before the end of the Offer Period to:

Olympus – Galilee Offer
Computershare Investor Services Pty Limited
GPO Box 52
MELBOURNE VIC 3001
Australia

An Acceptance Form will not be accepted if returned by fax or email.

For Issuer Sponsored Holdings

Complete and sign the accompanying Acceptance Form in accordance with instructions on that form and within this Bidder's Statement and return it so it is received before the end of the Offer Period to:

Olympus – Galilee Offer
 Computershare Investor Services Pty Limited
 GPO Box 52
 MELBOURNE VIC 3001
 Australia

An Acceptance Form will not be accepted if returned by fax or email.

The Acceptance Form

The Acceptance Form which accompanies this Bidder's Statement forms part of the Offer. The requirements on the Acceptance Form must be observed in accepting the Offer for up to one out of every two of your Galilee Shares.

You may only accept the Offer for up to one out of every two (ie 50%) of your Galilee Shares, rounded up to the nearest whole number. If you wish to accept the Offer for less than one out of every two Galilee Shares, you must indicate this clearly on the Acceptance Form. If the Acceptance Form does not clearly state the proportion of your Galilee Shareholding that you wish to accept into the Offer, or the portion you specify is more than your total holding known to Olympus, Olympus will treat your acceptance as being for one out of every two of your Galilee Shareholding (ie 50%).

However, if your acceptance of the Offer results in your remaining Galilee Shareholding being less than a Marketable Parcel, you may accept the Offer for all of your Galilee Shares. See Section 9.2 for details.

1.7. If I accept the Offer, can I try to sell the remainder of my Galilee Shareholding on-market?

Yes. However, any purchaser of such Galilee Shares will not be able to accept the Offer in respect of those Galilee Shares. For instance, if you hold 100,001 Galilee Shares and you accept the Offer:

- (a) 50,001 of those Galilee Shares (i.e. 50%) will be accepted to the Offer; and
- (b) you will be able to sell (whether on-market or otherwise) the remaining 50,000 Galilee Shares (i.e. 50%) to which the Offer does not relate (**Remaining Shares**).

However, you should be aware that in accordance with ASX published policy (ASX Guidance Note 18: Market Codes and Trading Procedures) there will be special ASX trading arrangements with respect to these Remaining Shares. In summary these are as follows:

- (a) purchasers of Remaining Shares will not be entitled to accept the Offer and, accordingly, those shares will be traded on the ASX on an "ex-Offer" basis – a separate ASX code will be established for these ex-Offer Galilee Shares; and
- (b) there will be deferred settlement of trades in ex-Offer Galilee Shares – settlement will be deferred until after the end date of Offer Period.

However, if you do not accept this Offer in respect of any of your Galilee Shares and instead sell all your Galilee Shares, the purchaser of those Galilee Shares may accept the Offer. In this circumstance, your Galilee Shares will trade on a "cum-Offer" basis and in a normal (T+3) settlement market.

1.8. What are the Conditions of the Offer?

Olympus has imposed no conditions to the Offer. There is no minimum acceptance condition to the Offer.

The Corporations Act permits a company to include in its constitution a provision requiring shareholder approval to be obtained to permit a proportional takeover offer to proceed. Rule 36 of the constitution of Galilee contained such a provision. Constitutional provisions of this nature must be renewed every 3 years. Rule 36 of the Galilee constitution expired on 22 November 2013.

On 21 October 2013 Mercantile announced the intention that it or its nominee would undertake this bid. Notwithstanding this, the Galilee Board determined to seek Galilee Shareholder approval to re-insert Rule 36 into the Galilee at the annual general meeting convened for 28 November 2013. The re-introduction of this Rule, if effective, would impose a shareholder approval condition on the Offer when it was clear from the Mercantile announcement that the Offer would be made without conditions.

In the explanatory memorandum accompanying the notice of the upcoming annual general meeting, your Board has stated that if Mercantile serves its offer on Galilee after approval of the proportional takeover provisions in the Galilee constitution, Rule 36 as renewed would apply to this Offer. This Bidder's Statement will be served on Galilee while there is no current proportional takeover provision in the Galilee constitution. Olympus has done this to enable Galilee Shareholders to consider the Offer in the form initially proposed and announced – an Offer free of conditions.

Olympus considers that the appropriate course of action for the Galilee Board at this time is to withdraw Resolution 5 from the Galilee AGM.

Your Board may instead assert that Rule 36, if re-introduced at the Galilee AGM, will impose a Galilee Shareholder approval requirement for the Offer. If Rule 36 is applied to this Offer, the Offer will not proceed unless Galilee Shareholders approve the Offer by ordinary resolution at a subsequent Galilee Shareholder meeting or they fail to consider such a resolution to approve the Offer by the date 14 days before the end of the Offer Period.

Galilee Shareholders have an opportunity to remove any doubt on this issue and to send a clear message to the Galilee Board – that you want the opportunity to accept this Offer as announced over a month ago. To do so, you should vote **against** the special resolution to re-insert Rule 36 to the constitution.

If Rule 36 were to apply to the Offer and Galilee Shareholders did not approve the Offer;

- (a) Olympus will withdraw the Offer; and
- (b) the Offer, if not previously accepted, will automatically become incapable of acceptance; and;
- (c) any contract resulting from an acceptance of this Offer before the withdrawal will automatically become void; and
- (d) Olympus will, as soon as possible after the meeting of Galilee's Shareholders, return all documents sent to it with the acceptance of the Offer.

1.9. When will I be paid my Offer Consideration?

Olympus will provide or procure the provision of the Offer Consideration for all Offers that are accepted and not lawfully rescinded on or before the earlier of:

- (a) the date 1 month after the date you validly accept this Offer; and
- (b) the date 21 days after the Offer closes.

1.10. What happens if I do not accept?

Unless you otherwise dispose of your Galilee Shares, you will remain a Galilee Shareholder. You should consider the potential risks of remaining a Shareholder in Galilee as discussed in Section 6.

1.11. What are the tax consequences of the Offer?

Our understanding of the major tax implications for Galilee Shareholders resident for tax purposes in Australia are summarised in Section 7

Your personal financial and other circumstances will influence your taxation position. You should read Section 8 carefully and seek professional taxation advice if necessary.

1.12. Questions

If you have any enquiries about the Offer or its terms, you may submit your query in writing to Gabriel Radzynski, an Olympus Director, by fax on 02 8084 9918 or by email to Galilee@mercinv.com.au or consult your financial or other professional adviser.

2. About Olympus

2.1. Corporate

Olympus is a wholly owned subsidiary of Mercantile. Mercantile is an ASX listed investment company trading under ASX code MVT.

The Olympus Directors are Sir Ron Brierley, Mr James Chirnside and Mr Gabriel Radzynski.

Olympus was established to hold an Australian financial services licence and to provide financial services in connection with the business previously conducted by Mercantile. At the request of Olympus, ASIC cancelled the Australian financial services licence on 9 March 2012. Olympus carries on no substantive business operations and has no material assets or liabilities. Olympus has been retained as a wholly owned subsidiary of Mercantile to undertake investments from time to time.

2.2. Directors of Mercantile

The Mercantile Directors are:

- Sir Ron Brierley – Chairman;
- Mr James Chirnside – non-executive director;
- Mr Ron Langley – non-executive director;
- Mr Gabriel Radzynski – non-executive director; and
- Dr Gary Weiss – non-executive director.

2.3. Public Announcements by Mercantile

Mercantile is a disclosing entity for the purposes of Section 111AC(1) of the Corporations Act and as such, is subject to regular reporting and disclosure obligations. Broadly, these obligations require Mercantile to:

- (a) prepare and lodge with the ASX both yearly and half-yearly financial statements accompanied by a directors' statement and report and an audit or review report; and
- (b) immediately notify the ASX of any information concerning Mercantile of which it is, or becomes, aware and which a reasonable person would expect to have a material effect on the price or value of securities in Mercantile, subject to certain limited exceptions related mainly to confidential information.

Copies of documents lodged at the ASIC in relation to Mercantile may be obtained from or inspected at an office of ASIC. Copies of documents lodged with the ASX in relation to Mercantile may be obtained from the ASX website (www.asx.com.au).

2.4. Benefits for Galilee Shareholders

The key benefit for Galilee Shareholders accepting the Offer is that they will be able to realise 15 cents per Galilee Share for up to 50% of their Galilee Shareholding in cash, while still have the ability to retain at least 50% of their Galilee Shareholding.

Olympus has made a public and transparent attempt to seek to either gain control of Galilee or at least ownership of a substantial minority position, with a view to influencing the direction of the Galilee for the benefit of all Galilee Shareholders.

If Olympus can acquire a sufficient number of Galilee Shares, it intends to undertake a strategic review to assess the viability of the following:

- substantially reducing Galilee's present running costs (which Olympus considers excessive);
- immediately ceasing further expenditure on ATP 799P;
- in respect of ATP529P (AGL Project), making a precise assessment of the remaining costs required to March 2014 to establish a realisable value or a write-off, as the case may be;
- convening an extraordinary general meeting to approve the return of remaining cash funds to Galilee Shareholders, and
- if value can be obtained for the AGL Project, returning further funds to Galilee Shareholders.

If, following that review, the proposed steps outlined above are viable, Olympus will seek to implement these steps either directly or through its nominees to the Galilee Board. See Section 4 for details.

The Offer by Olympus to acquire up to 50% of each Galilee Shareholding allows all Galilee Shareholders to continue to maintain some exposure to the future prospects of Galilee.

Olympus is aware that nominees to the board of directors of Malt wishes Galilee to embark on speculative new exploration ventures. Olympus does not consider this a prudent course of action. Olympus notes that Galilee Shareholders have not been provided with details of any such proposed ventures by Malt.

4. Olympus's Intentions

4.1. General

This Section 4 sets out Olympus's intention in relation to the:

- (a) continuation of the business of Galilee;
- (b) any major changes to be made to the business of Galilee, including any redeployment of the fixed assets of Galilee; and
- (c) the future role of the Board and Galilee's management.

Olympus's intentions are based on the information known and the circumstances that exist at the date of this Bidder's Statement.

Olympus has reviewed information in the public domain concerning Galilee, its business and the general business environment in which it operates. Based on its review of that material, and on its current assessment of Galilee's operations, Olympus's intentions in relation to Galilee are summarised below. Statements set out in this Section 4 are statements of current intentions only, which may change as new information becomes available or circumstances change.

4.2. Strategic review

As Olympus does not currently have access to all material information, facts and circumstances that are necessary to assess the operational, commercial, taxation and financial implications of its current intentions, final decisions on these matters have not been made. If Olympus becomes entitled to a Galilee Shareholding sufficient to result in the appointment of Galilee Directors representing a majority of the Board, Olympus's nominees will look to conduct a review of the strategy, operations, activities and assets of Galilee in light of the information which then becomes available to it (**Review**).

The Review will:

- explore, amongst other things, where cost savings can be obtained, so that Galilee's costs are at a level consistent with that of a non-operating joint venture partner in the AGL Project;
- confirm that Galilee may immediately cease any further expenditure on ATP 799P (a tenement which is wholly owned and operated by Galilee) and any other exploration expenses or commitments to acquire any other hydrocarbon or resource development opportunities and, if this commercially feasible, develop the process to achieve this objective;
- seek to make a precise assessment of the remaining costs required to establish a realisable value for the AGL Project, or for a write-off of that project. (If any value can be established for the AGL Project, the Review will seek to identify means by which this value can be translated to cash);
- seek to determine the means by which, subject to Galilee Shareholder approval, capital can be returned to all Galilee Shareholders as equitably and as efficiently as possible.

To the extent that the financial, operational and legal circumstances of Galilee allows, Olympus will seek to undertake the actions the subject of the Review. However, final decisions will only be reached in light of all material facts and circumstances. Accordingly, the statements set out in this Section 4.2 are statements of current intention only which may change as new information becomes available or circumstances change.

4.3. Olympus's intentions upon holding at least 50.1% of Galilee Shares

This Section sets out Olympus's intentions if it were to gain effective control of Galilee.

In the event that Olympus achieves a Relevant Interest in Galilee of at least 50.1% Olympus's current intentions are as set out below.

- Olympus intends to undertake the Review.
- Olympus would also seek to nominate a majority of the Galilee Directors.
- Olympus may seek to acquire further Galilee Shares as permitted by the Corporations Act.

4.4. Olympus's intentions upon holding less than 50.1% of Galilee Shares

If Olympus does not achieve a Relevant Interest in Galilee of 50.1%, Olympus will endeavour, to the extent possible through its non-controlling holding of Galilee Shares, to give effect to the intentions set out in Section 4.5. However, Olympus considers that its ability to effect potential cost savings referred to in Section 4.4 will be significantly limited if Olympus is unable to achieve a Relevant Interest in Galilee of at least 50.1%.

4.5. Intentions generally

Except for the changes and intentions set out in this Section 4, Olympus intends, based on the information presently known to it:

- to continue the business of Galilee;
- not to make any major changes to the business of Galilee or the deployment of Galilee's assets; and
- to continue the employment of Galilee's employees.

Olympus has no current intention to requisition a general meeting of Galilee Shareholders to put forward any particular resolutions at the next general meeting of the Galilee Shareholders.

However if, as a result of the Offer, Olympus were to hold 50.1% or more of Galilee Shares it would have the Voting Power to determine whether an ordinary resolution considered at a general meeting of Galilee Shareholders is approved. Such resolutions could include, amongst other things, changes to the Board and operational matters.

4.6. Limitations on intentions

The intentions and statements of future conduct set out in this Section 4 must be read as being subject to:

- (a) the law (including the Corporations Act) including in particular the requirements of the Corporations Act in relation to conflicts of interest and "related party" transactions;
- (b) the legal obligation of the Galilee Directors at the time to act in good faith and the best interests of Galilee and for proper purposes and to have regard to the interest of all Galilee Shareholders; and
- (c) the outcome of the Review.

5. Sources of Offer Consideration

5.1. Consideration under the Offer

The total amount that Olympus would be required to pay for Galilee Shares if Olympus acquires 50% of all the Galilee Shares on issue on the date of this Bidder's Statement in which it does not have a Relevant Interest is \$11,410,535.

5.2. Sources of Olympus Funds

Olympus has received a binding letter of commitment from its ultimate parent, Mercantile, pursuant to which Mercantile has committed to loan Olympus the funds necessary to pay for all transaction costs associated with the Offer. This loan must be repaid by Olympus 1 year after the closing date of the Offer. Interest on this loan will accrue at the applicable Reserve Bank of Australia Cash rate.

Olympus has received a binding letter of commitment from Sir Ron Brierley, pursuant to which Sir Ron Brierley has committed to loan Olympus, on an unsecured basis, the funds necessary to pay the Offer Consideration. Sir Ron Brierley is presently the chairman of Mercantile and a director of Olympus and has access to sufficient funds to meet all obligations to advance funds to Olympus under this loan.

This loan must be repaid by Olympus 1 year after the closing date of the Offer. Interest on this loan will accrue at the Reserve Bank of Australia cash rate.

Together, these two commitment letters are referred to as the **Commitment Letters**.

Funds made available to Olympus under the Commitment Letters:

- are immediately available and are not subject to any conditions or limitations to drawdown; and
- are sufficient to fund the maximum available amount of consideration payable under the Offer and all associated transaction costs.

The Offer is not subject to a financing condition.

6. Risk Factors

6.1. Risk factors associated selling Galilee Shares

Galilee Shareholders who accept the Offer will receive cash as their Offer Consideration. Those who accept the Offer will no longer be exposed to the risks associated with successfully realising Galilee's investments.

6.2. Risks relating to the Offer

The following risk factors may arise as a result of the Offer and the acquisition of Galilee Shares by Olympus.

Less than 50% ownership

It is possible that Olympus will acquire relevant interests in less than 50% in the Galilee Shares as a result of the Offer. The impact on Olympus of acquiring Relevant Interests in less than 50% of the Galilee Shares will depend on the ultimate level of ownership achieved. In this regard Sections 4.3 - 4.4 show how Olympus's intentions will differ slightly depending on the level of ownership achieved by Olympus.

Galilee information

In preparing the information on Galilee included in this Bidder's Statement, Olympus has relied only on publicly available information. Olympus has not otherwise had direct access to Galilee or its independent accountant. In addition, it is possible that additional risks may exist in relation to Galilee's businesses which are unknown to Olympus.

Minority Galilee Shareholders in Galilee

If you do not accept the Offer you may, depending on the level of acceptance of the Offer, become part of a minority in Galilee. In such a case, the liquidity of Galilee Shares may be diminished.

As a minority investor, you may be exposed to the risks that Galilee pursues risky, and potentially loss-making, endeavours. Olympus has clearly and unambiguously stated its intentions with regard to Galilee, and considers these intentions to be more conservative and prudent given the history of Galilee.

The Board is comprised solely of directors nominated by 16% Galilee Shareholder, Malt, and has had the effect of handing control of Galilee to those Galilee Directors nominated by Malt, with no control premium having been paid to Galilee Shareholders.

Taxation Risks

Tax liabilities are the responsibility of each individual investor, and Olympus is not responsible either for taxation or penalties incurred by Galilee Shareholders. Galilee Shareholders should consult their own taxation advisers to ascertain the tax implications of their investment.

Taxation Considerations

The effects of taxation can be complex and may change over time. A summary of the current Australian income tax implications associated with acceptance of the Offer is outlined in Section 8. However, this summary is general in nature and, as the circumstances for each Galilee Shareholder may vary. Galilee Shareholders should seek professional taxation advice in relation to their own position.

This list is not exhaustive and Galilee Shareholders should read this Bidder's Statement in full. If Galilee Shareholders require further information on these risks, they should seek professional advice.

6.3. Specific Risks relating to retaining Galilee Shares

Irrespective of the outcome of the Offer, Galilee Shareholders will retain exposure to the risks associated with Galilee's business.

The business activities of Galilee are subject to risks. Some of the specific risks can be mitigated through the use of safeguards and contingency plans. However many risks are outside the control of Galilee and the Galilee Directors and cannot be mitigated. The occurrence of any of the risk factors set out in this Section 6 may have an adverse impact on the financial performance of Galilee and the value of Galilee Shares.

Investors should appreciate that owning Galilee Shares involves various risks which can be broadly categorised into general investment risks and specific business risks.

An outline of some of the specific business risks facing Galilee are as set out below:

Exploration, Development, Mining and Processing Risks

The business of mineral exploration, project development and mining and processing by its nature contains elements of inherent risk. Ultimate and continuous success of these activities is dependent on many factors such as:

- the discovery and/or acquisition of economically recoverable ore reserves;
- the metallurgical characteristics of mineral deposits being explored and developed by Galilee may be such as to prevent commercial exploitation;
- successful conclusions to bankable feasibility studies;
- access to adequate capital for project development;
- design and construction of efficient mining and processing facilities within capital expenditure budgets;
- securing and maintaining title to tenements and compliance with the terms of those tenements;
- obtaining consents and approvals necessary for the conduct of exploration and mining; and
- access to competent operational management and prudent financial administration, including the availability and reliability of appropriately skilled and experienced employees, contractors and consultants.

Government regulation

Mining is an industry which has become subject to increasing legislative regulation including but not limited to environmental responsibility and liability. The potential for liability is an ever present risk. The use and disposal of chemicals in the mining industry is under constant legislative scrutiny and regulation. The introduction of new laws and regulations or changes to underlying policy may adversely impact on the operations of Galilee.

Changes to government regulations, policy and royalty regimes may have an adverse impact upon the development options available to Galilee at its projects.

Native Title and Aboriginal Heritage

The Native Title Act 1993 (Cth) recognises certain rights of indigenous Australians over land and water where those rights have not been extinguished. These rights, where they exist, may impact on the ability of Galilee to carry out exploration or obtain mining tenements. In applying for certain mining tenements, Galilee must observe the provisions of the native title legislation (where applicable) and Aboriginal heritage legislation which protects Aboriginal sites.

Operating Risks

The current and future operations of Galilee, including exploration, appraisal and possible production activities may be affected by a range of factors, including:

- geological conditions;
- limitations on activities due to seasonal weather patterns, flood and cyclone activity;
- alterations to joint venture programs and budgets;
- unanticipated operational and technical difficulties encountered in geophysical surveys, drilling and
- production activities;
- mechanical failure of operating plant and equipment;
- adverse weather conditions, industrial and environmental accidents, acts of terrorism or political or civil unrest and other force majeure events;
- occupational health and safety in a potentially dangerous workplace;
- industrial action, disputation or disruptions;
- unavailability of aircraft or drilling equipment to undertake airborne electromagnetic and other geological and geophysical investigations; shortages or unavailability of manpower or appropriately skilled manpower;
- unexpected shortages or increases in the costs of consumables, spare parts, plant and equipment; and
- inability to obtain consents or approvals.

Commodity Prices

Commodity prices fluctuate and are affected by numerous factors beyond the control of Galilee. These factors include world-wide and regional supply and demand for the specific commodity, commodity trading on the futures markets, general world economic conditions and the outlook for interest rates, inflation and other economic factors on both a regional and global basis. These factors may have a positive or negative effect on Galilee's exploration, project development and production plans and activities, together with the ability to fund those plans and activities.

6.4. General Risks relating to retaining Galilee Shares

Galilee Shareholders should be aware that retaining Galilee Shares involves various risks. There are general risks associated with owning securities in publicly listed companies. The price of securities can go down as well as up due to factors outside the control of Galilee. These factors include Australian and worldwide economic and political stability, natural disaster, performance of the Australian stock market as a whole, and the Australian interest rates, foreign exchange, taxation and labour relations environments.

These are risks of investment which are considered beyond the control of Galilee.

Possible Volatility of Galilee Share Price

The stock market has from time to time experienced significant price and volume fluctuations, which may be unrelated to the operating performance of particular companies. The market price of Galilee Shares may be volatile and may go down as well as up. Factors that may have a significant impact on the market price and marketability of Galilee Shares include announcements as to government

regulation, variation in interest rates, the activities of any competitors, economic and other external factors, as well as fluctuations in Galilee's operating results.

Regulation and Publicity

Changes to the regulatory environment for the mining industry and/or any publicity may have an impact on Galilee which may materially affect an investment.

Macro Economic Risks

The general state of the Australian and international economies as well as changes in taxation, monetary policy, interest rates, statutory requirements and currency exchange rates may influence the financial performance of Galilee, and may affect the value of Galilee Shares.

Regulatory Changes

Changes to the regulatory environment, including the Corporations Act and ASIC policy and their commercial application may have a material adverse effect on a Galilee Shareholder's investment in Galilee Shares or otherwise have a material adverse effect on Galilee's business and financial position.

6.5. Note on Risk Factors

The above list of general and specific risk factors should not be taken as exhaustive of the risks faced by Galilee or by Galilee Shareholders. The above factors, and others not specifically referred to above, may in the future materially affect the financial performance of Galilee and the value of the Galilee Shares.

7. Taxation Implications

7.1. Introduction

The following is a broad outline of the principal Australian income tax consequences for Australian resident individual and company Galilee Shareholders associated with acceptance of the Offer. This outline is not exhaustive of all possible income tax considerations that could apply to particular Galilee Shareholders. There are a number of limitations to the outline including that:

- (a) it applies only to Australian resident individual and company taxpayers. It does not cover the tax treatment for any other classes of taxpayers including individuals who are non-residents of Australia for tax purposes, insurance organisations, superannuation funds, trusts or employees of Galilee who acquired their Galilee Shares in respect of their employment;
- (b) it applies only where Galilee Shareholders hold their Galilee Shares on capital account. It does not apply where the Galilee Shares are held on revenue account (e.g. Shares held by Galilee Shareholders who trade in Securities or hold Galilee Share as trading stock); and
- (c) it is based on Australian tax law in effect at the date of this Bidder's Statement. It does not consider or anticipate any changes in the law (including changes to legislation, judicial authority or administrative practice).

Olympus and its advisers do not accept any liability or responsibility in respect of any statement concerning the taxation consequences of the Offer or in respect of the taxation consequences themselves. All Galilee Shareholders, and particularly those Galilee Shareholders whose situation is not addressed in this outline as noted above, should consult their own independent professional tax advisers regarding the tax consequences of disposing of Galilee Shares.

7.2. Acceptance of the Offer and disposal of Galilee Shares

The disposal of Galilee Shares by an Galilee Shareholder pursuant to the Offer constitutes a Capital Gains Tax (**CGT**) event for Australian income tax purposes.

Galilee Shareholders may realise a capital gain or a capital loss in respect of the disposal of their Galilee Shares.

In certain circumstances, Galilee Shareholders may be eligible to apply the CGT discount to reduce their assessable capital gain (the eligibility requirements for the CGT discount are discussed in the following paragraphs). The relevant rate of the CGT discount is 50% for individuals, and 33 1/3% for complying superannuation funds.

Any capital gain realised in respect of the disposal of the Galilee Shares should be included in the Galilee Shareholder's assessable income in the tax year in which the Offer is accepted (unless the resulting capital gains are completely offset against other capital losses of the Galilee Shareholder). Capital losses may be applied against any other capital gains derived by the Galilee Shareholder in the same year. Any unapplied capital losses may be carried forward to be applied against future capital gains.

The availability of indexation or a CGT discount in calculating the amount of the capital gains included in assessable income depends on the date of acquisition of the Galilee Shares whether the Shareholders are companies or individuals and the choice made by these Galilee Shareholders.

If Galilee Shares are held by an individual and:

- they were acquired after 11.45am on 21 September 1999; and
- have been held for more than 12 months before the date on which the Galilee Shareholder accepted the Offer,

then the CGT discount referred to above should generally be available.

There is no entitlement to indexation of the cost base for the Galilee Shareholder in these circumstances.

It should be noted that the CGT discount is not available where Galilee Shares are held by a company.

All Galilee Shareholders should obtain their own independent professional taxation advice.

On 19 November 2013 Siblow Pty Limited, an entity associated with Sir Ron Brierley, a director of Olympus, granted an option to Mercantile to acquire 3,500,000 Galilee Shares in which Siblow Pty Limited has a relevant interest. The option may be exercised at any time up to 30 June 2014. The exercise price for the option is 12 cents per Galilee Share.

9. Additional Information

9.1. No Defeating Condition and the Shareholder Approval Requirement

This Offer is not subject to any defeating conditions. There is no minimum acceptance condition to the Offer.

The Corporations Act permits a company to include in its constitution a provision requiring shareholder approval to be obtained to permit a proportional takeover offer to proceed. Rule 36 of the constitution of Galilee contained such a provision. Constitutional provisions of this nature must be renewed every 3 years. Rule 36 of the Galilee constitution expired on 22 November 2013.

On 21 October 2013 Mercantile announced the intention that it or its nominee would undertake this bid. Notwithstanding this, the Galilee board determined to seek Galilee Shareholder approval to re-insert Rule 36 into the Galilee at the annual general meeting convened for 28 November 2013. The re-introduction of this Rule, if effective, would impose a shareholder approval condition on the Offer when it was clear from the Mercantile announcement that the Offer would be made without conditions.

In the explanatory memorandum accompanying the notice of the upcoming annual general meeting, your Board has stated that if Mercantile serves its offer on Galilee after approval of the proportional takeover provisions in the Galilee constitution, Rule 36 as renewed would apply to this Offer. This Bidder's Statement will be served on Galilee while there is no current proportional takeover provision in the Galilee constitution. Olympus has done this to enable Galilee Shareholders to consider the Offer in the form initially proposed and announced – an Offer free of conditions.

Your Board may assert that Rule 36, if re-introduced at the Galilee AGM, will impose a Galilee Shareholder approval requirement for the Offer. If Rule 36 applies to this Offer, the Offer will not proceed unless Galilee Shareholders approve the Offer by ordinary resolution at a subsequent Galilee Shareholder meeting or they fail to consider such a resolution to approve the Offer by the date 14 days before the end of the Offer Period.

Galilee Shareholders have an opportunity to remove any doubt on this issue and to send a clear message to the Galilee Board – that you want the opportunity to accept this Offer as announced over a month ago. To do so, you should vote against the special resolution to re-insert Rule 36. If Rule 36 were to apply to the Offer and Galilee Shareholders did not approve the Offer:

- (a) Olympus will withdraw the Offer; and
- (b) the Offer, if not previously accepted, will automatically become incapable of acceptance; and;
- (c) any contract resulting from an acceptance of this Offer before the withdrawal will automatically become void; and
- (d) Olympus will, as soon as possible after the meeting of Galilee's Shareholders, return all documents sent to it with the acceptance of the Offer.

9.2. Unmarketable Parcels

If the effect of accepting this Offer leaves you with a shareholding in Galilee that would be less than a Marketable Parcel, the Offer will be deemed to have been made in respect of (and you will receive consideration for) all of your Galilee Shares. For these purposes, a **Marketable Parcel** is a parcel of Galilee Shares with a value of less than \$500. This will be calculated on the basis of the last price at which Galilee Shares have traded on a "cum-Offer" basis on the trading day immediately prior to the date of acceptance of the Offer by the Galilee Shareholder.

By way of example, if a Galilee Shareholder had 6,500 Galilee Shares and the last price at which Galilee Shares traded on ASX on the trading day prior to acceptance of this Offer was 15 cents, that Shareholder could accept the Offer in respect of all 6,500 Shares. If the Galilee Shareholder had accepted the Offer in respect of one half of the Galilee Shareholding, the residual shareholding in Galilee would have a value of \$487.50, below the \$500 threshold for retaining a Marketable Parcel.

However, if Olympus is of the opinion that any Galilee Shareholder has attempted to split or otherwise manipulate their shareholding in Galilee in order to benefit from this provision, Olympus may give notice to that Galilee Shareholder (and other persons whom Olympus deems to have participated in the split or manipulation) to the effect that, for the purposes of this Offer:

- (a) that Galilee Shareholder shall be deemed to hold all Galilee Shares registered in its name and the names of all other persons set out in that notice (**Specified Persons**);
- (b) each Specified Person shall be deemed as holding no Galilee Shares; and
- (c) any acceptance of the Offer made by that Galilee Shareholder or any Specified Person shall be deemed as an acceptance of this Offer in respect of one out of every two of the total number of Galilee Shares registered in the name of that Galilee Shareholder and the Specified Persons.

9.3. Date for determining holders of Galilee Shares

For the purposes of section 633 of the Corporations Act, the date for determining the people to whom information is to be sent under items 6 and 12 of section 633(1) is 25 November 2013.

9.4. ASIC modifications and exemptions

ASIC has published various other class order instruments providing for modifications and exemptions that apply generally.

Olympus has relied, under Class Order 13/521 "Takeover bids" by ASIC, on the modifications to:

- (a) Section 618(2) of the Corporations Act, by paragraph 4(b) of the Class Order. This paragraph is concerned with preventing artificial share splitting in proportional bids including situations where trustees and nominees are involved. It is also concerned with removing uncertainty related to the meaning of "marketable parcel"; and
- (b) Section 624(2) of the Corporations Act, by paragraphs 4(f) and (g) of the Class Order. These paragraphs are concerned with clarifying the timing issues related to the closing time for offer periods that are automatically extended under the Corporations Act.

Olympus will make available a copy of the documents containing these statements (or relevant extracts from these documents), free of charge to Galilee Shareholders who request them before the end of the Offer Period. To obtain a copy of these documents (or the relevant extracts) Galilee Shareholders should contact Mr Gabriel Radzynski on (02) 8014 1188 between 9am and 5pm (Sydney time) Monday to Friday.

9.5. Consents

Watson Mangioni Lawyers Pty Limited has given and before lodgement of this Bidder's Statement has not withdrawn its written consent to be named as legal adviser to the Offer in the form and context in which it is named.

Computershare Investor Services Pty Limited has given and before lodgement of this Bidder's Statement has not withdrawn its written consent to be named as registrar for the Offer in the form and context in which it is named.

Each of Watson Mangioni Lawyers Pty Limited and Computershare Investor Services Pty Limited:

- (b) does not make, or purport to make, any statement in this Bidder's Statement other than as specified in this Section; and

- (c) to the maximum extent permitted by law, expressly disclaims all liability in respect of, makes no representation regarding and takes no responsibility for, any part of this Bidder's Statement other than the reference to its name and the statements (if any) included in this Bidder's Statement with the consent of that party as specified in this Section.

In addition, this Bidder's Statement includes statements which are made in, or based on statements made in documents lodged with ASIC or given to ASX. Pursuant to ASIC Class Order CO 13/521, the makers of those statements are not required to consent to, and have not consented to, inclusion of those statements in this Bidder's Statement. If you would like to receive a copy of any of those documents (free of charge) please contact Mr Gabriel Radzyminski, an Olympus Director, by fax on 02 8084 9918 or by email to Galilee@mercinv.com.au.

9.6. Other material information

There is no other information material to the making of a decision by an offeree whether or not to accept an Offer (being information that is known to Olympus and has not previously been disclosed to the holders of Galilee Shares) other than as disclosed in this Bidder's Statement.

- (a) to the other person, relating to the transferred Shares; and
 - (b) to you, relating to your Galilee Shares other than the transferred Shares (if any).
