TABLE OF CONTENTS

ANNUAL REPORT

FOR THE YEAR ENDED 30 JUNE 2013

DIRECTORS' REPORT

Your Directors present their report on the Group (referred to hereafter as the "Group") consisting of Kaboko Mining Limited and the entities it controlled at the end of, or during, the year ended 30 June 2013.

DIRECTORS

The names of the directors of the Group in office at any time during or since the financial year and up to the date of this financial report are as follows. Directors were in office for the entire period unless otherwise stated.

The names of the Directors who held office during or since the end of the year are as follow:-

Mr Andrew Simpson	Non-Executive Chairman (Appointed 9 September 2013)
Mr Tokkas Van Heerden	Executive Director (Appointed 14 January 2013)
Mr Nigel Goodall	Executive Director (Appointed 9 September 2013)
Mr Malenga Machel	Non-Executive Director
Dr Paul D'Sylva	Non-Executive Director (Appointed 9 September 2013)
Ms Shannon Robinson	Non-Executive Director
Mr Leapeetswe (Papi) Molotsane	Non-Executive Director (Appointed 14 January 2013, Resigned 9 September 2013)
Mr Jason Brewer	Executive Director (Resigned 14 January 2013)

PRINCIPAL ACTIVITIES

The principal activity of the Group during the financial year was the exploration and development of high grade Manganese projects in Zambia. There were no significant changes in the nature of the activities of the Group during the financial year.

OPERATING RESULTS

The operating loss for the Group after income tax amounted to $4,196,485 (2012: $7,154,679).

The Directors have prepared the financial statements on the going concern basis as they believe that, through either the profitable sale of manganese or capital raisings, the Group will be able to raise the funds necessary to meet its current liabilities and commitments,.

DIVIDENDS

No dividends have been paid or declared since the start of the financial year by the Group.

The directors have recommended that no dividend be paid by the Group in respect of the year ended 30 June 2013.

SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS

The following significant changes in the state of affairs of the Group occurred during the financial year.

On 14 January 2013, after the completion of the Noble Group transaction, the Group announced a restructure of the Board with the appointment of two new directors, Tokkas Van Heerden and Leapeetswe (Papi) Molotsane (Noble Group Representative) and resignation of director Jason Brewer.

On 11 March 2013 the Group announced the issue of 60,000,000 ordinary fully paid shares in a placement to sophisticated investors raising $600k before costs. The 60,000,000 free attaching one for one unlisted options ($0.01 expiry 31January 2016) received shareholder approval and 56,800,000 were allotted on 28 June 2013.

On 28 June 2013 the Group received shareholder approval to convert $1m of debt by the issue 100,000,000 shares on the same terms as the March Placement.

On 4 September the Group announced the allotment of 170,440,000 new options exercisable at $0.012 on or before 31 August 2016 in accordance with the Entitlement Issue Prospectus dated 2 August 2013.

On 24 September 2013, the Group announced the completion of the option rights issue shortfall of 121,849,368 attaching new options exercisable at $0.012 on or before 31 August 2013. Funds raised from the Option Rights Issue totalled $292,415 before costs.

REVIEW OF OPERATIONS

During the financial year the Group reached a major milestone in advancing its Zambian Manganese Projects with the signing of a binding manganese ore off-take agreement and US$10m prepayment debt facility with Noble Resources International Pte ("Noble Group").

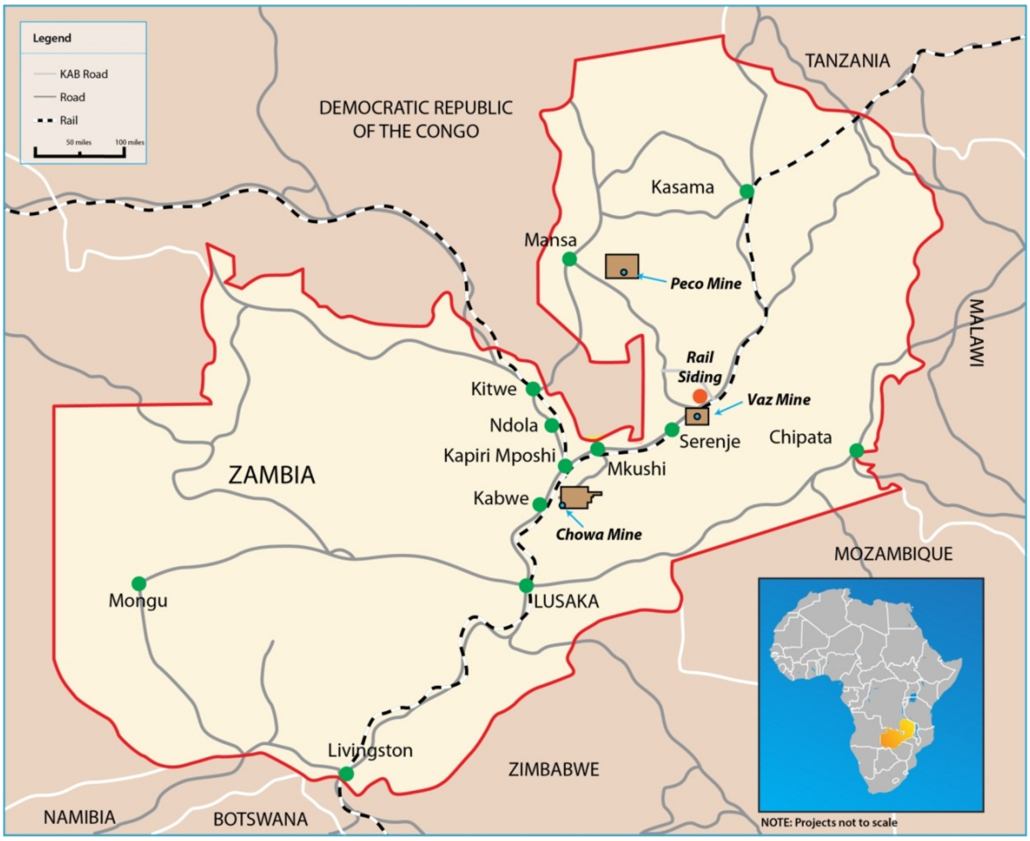
Under the terms of the Off-take Agreement, the Group will deliver to the Noble Group180,000 DMT per year of 48% manganese lump ore from the Group's Zambian Manganese Projects over the life of the project mines.

As at the date of this report a total of US$4.5m has been received from the Noble Group under the US$10m prepayment debt facility completing Tranche A. The funding has been used for the mine development of the Mansa Manganese Project in Northern Zambia, identified as the best first mining opportunity, culminating in first sale of 2,000 tonnes of high grade manganese to the Noble Group under the offtake agreement after year end. The Noble Group agreed to purchase the ore free-on-truck ("FOT") at the minesite and initiated delivery of containers to site for transportation.

The second tranche of US$5.5m under the US$10m Secured Prepayment Debt Facility is available to be drawn down in the period commencing on the date upon which the first five consecutive quarters of production have been successfully delivered to the Noble Group in accordance with the offtake agreement.

Subsequent to year end the Noble Group advanced a further US$1.16M under the second tranche debt facility to upgrade key plant and equipment with a view to increase production from 5,000 tonnes per month to in excess of 10,000 tonnes per month by Q4 2013 / Q1 2014.

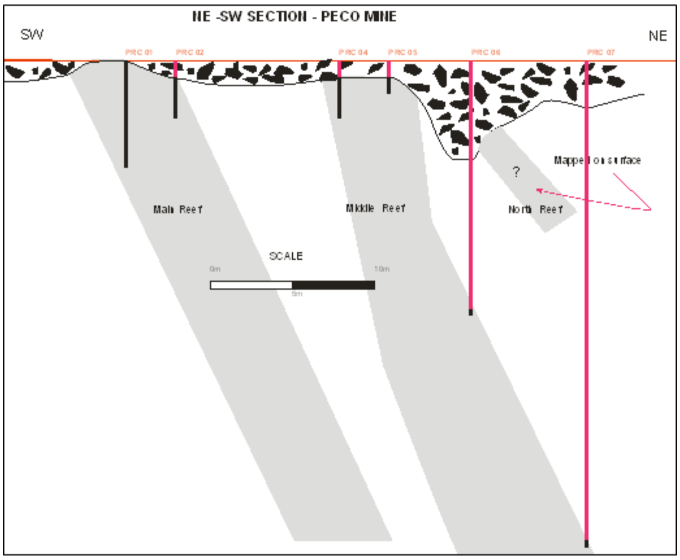
ZAMBIAN MANGANESE PROJECTS



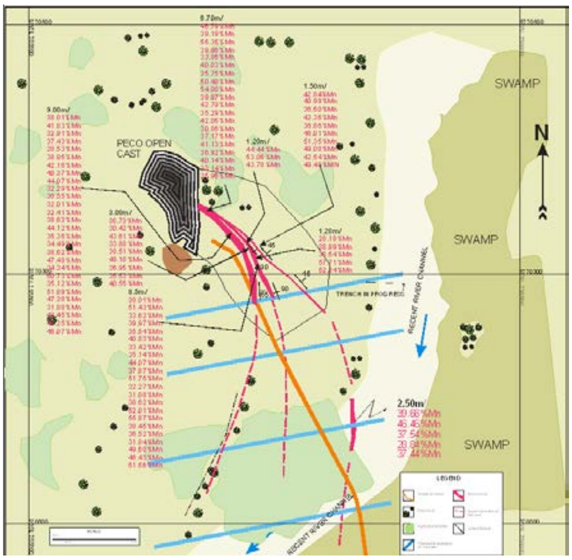
Northern Manganese Project

During the financial year the Group continued the development of its Northern Zambian Project at Mansa. Exploration work completed, including aerial geological surveys, trenching and scout drilling, identified high grade manganese mineralisation in veins typically in excess of 4m wide and strike lengths of over 400m. Trenching undertaken has also shown that the reef is potentially open-ended towards the north-west and south-east. The scout drilling undertaken during the year confirmed the location of at least three main manganese reefs with a north-west south-east strike trend to the north and south of the existing open pit at the project.

Exposed Manganese Reef at Mansa, Northern Zambian Manganese Project



Cross Section of Mineralisation Zone



High Grade Manganese of Identified Reefs

Following site preparation and clearing of over-burden, mining operations commenced at the Mansa Project during the last quarter of the financial year. Blasting commenced on site to expose the high grade manganese reef, including completion of initial blasts to test the new Autostem style explosives used. The technology is safer and allows the Group better contamination control over blasted product which is ideal for the mineralisation structure at the Mansa Project.

Commercial scale mining at the Mansa, Northern Zambian Manganese Project ramped up during the last quarter of the financial year and an initial overburden of 8,000 cubic meters was removed and an estimated 6,000 tons of high grade manganese ore was extracted from the main vein and stockpiled.

Commercial scale mining underway at Mansa, Northern Zambian Manganese Project

Subsequent to year end initial testing of the manganese stockpile grab samples undertaken by independent laboratories, in preparation for commercial settlement of the Group's off-take sale agreement with the Noble Group returned results of 50% plus manganese from grab samples in line with expectations as shown below.

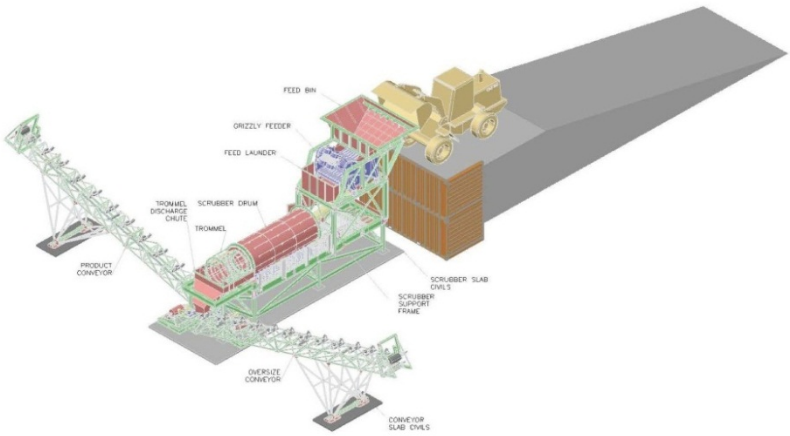
Element	Stockpile 1	Stockpile 2	Stockpile 3	Stockpile 4
Manganese, as Mn	51.86%	52.73%	51.33%	47.76%
Iron, as Fe	2.30%	2.28%	1.95%	1.83%
Silicon, as SiO_2	2.80%	3.05%	3.40%	2.90%
Calcium, as CaO	0.68%	0.20%	0.70%	0.93%
Aluminium, as Al_2O_3	1.92%	1.97%	2.27%	1.71%
Magnesium, as MgO	0.04%	0.05%	0.03%	0.03%
Phosphorus, as P	0.05%	0.05%	0.05%	0.04%
Sulphur, as S	0.12%	0.02%	0.15%	1.27%
Loss On Ignition at 1000 C, as LOI	10.99	10.53	10.72	9.55

High Grade Manganese Stockpiles at Mansa, Northern Zambian Manganese Project

Additional Mining Plant and Equipment

A further US$1.16M was drawn down pursuant to the Noble Group Agreement subsequent to year end, to upgrade key plant and equipment with a view to increase production to in excess of 10,000 tonnes per month. This includes the addition of a scrubber trommel and jig circuit to be used in conjunction with the semi-modular crushing plant as well as a front end loader, excavator and other key equipment items. This additional drawn down underlines the ongoing Noble Group support for the project and the ongoing development of the Group.

The scrubber trommel and jig circuit will be used to recover 20-25% of the high grade manganese nodules that are in the alluvial overburden and will be initially used to process the alluvial stockpile already on site. This unit will upgrade the manganese ore mined, particularly from the alluvial overburden, and is also able to be used to process material during the wet season. The Group anticipates that this capital investment in further mining plant and equipment will see production ramping up to achieve targets of 120,000 tonnes per annum, deliverable under the Noble Group Agreement.

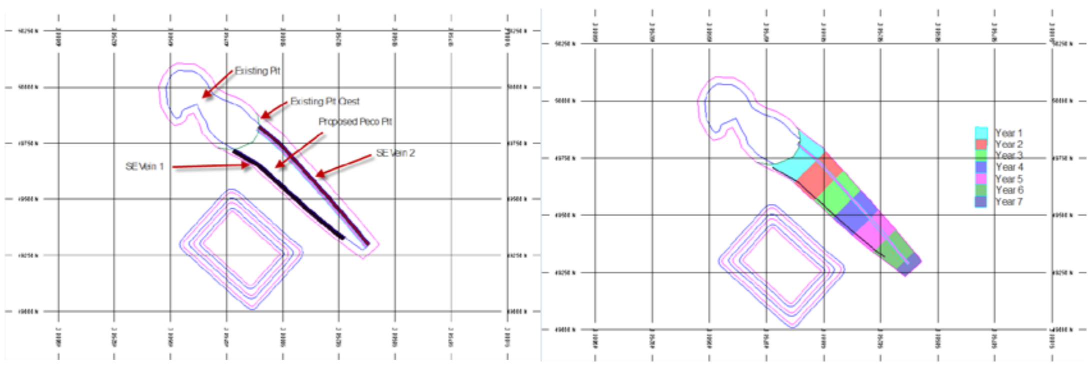


Scrubber Trommel and Jig Circuit Unit

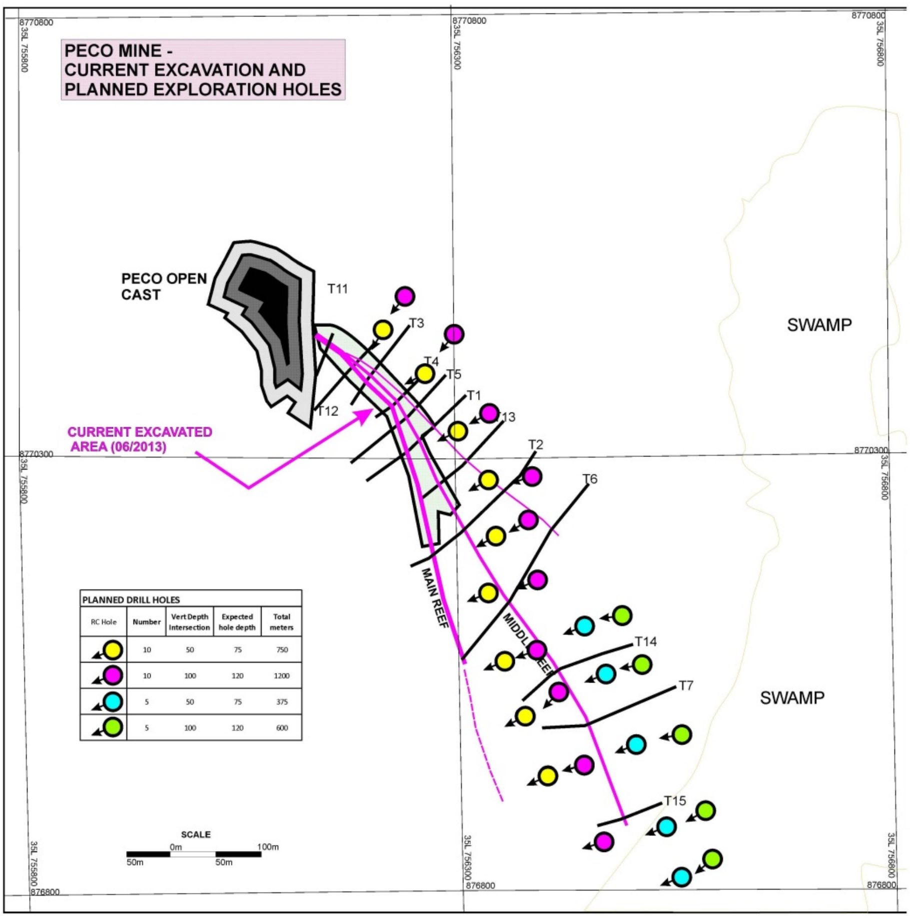
The Group's initial scoping study on the Northern Zambian manganese project at Mansa was completed by independent consultant Minxcon which included an indicative high grade manganese resource estimate and mine plan for operations based on an initial 7 year mine plan.

The scoping study confirms that the budgeted costs for production and logistics at the Mansa Project are in line with the Group's expectations.

In addition the scoping study provides the foundations for a JORC compliance resource statement at the Mansa, Northern Zambian Manganese Project which is expected to be completed Q3 2013, following a further exploration program to drill approximately 24 holes (1,200m) targeting extension of existing mineralisation zone. It is important to note that the Mansa, Northern Zambian Manganese Project license area covers approximately 90km2 (625km2 post year end with further license acquisition as below) and the scoping study focused on the known mineralisation area which represents less than 2% of the total Mansa, Northern Zambian Manganese Project area, emphasising the significant exploration potential of the project.



Mansa, Northern Zambian Manganese Project: Mine Plan



Exploration Program at Mansa, Northern Zambian Manganese Project

New License Area

In July 2013 the Group concluded an agreement with Hon. Mwansa to acquire a 51% interest in large prospecting license (13030-HQ-LPL) in northern Zambia (refer map), with an option to increase its interest in this license to 75%. The Company's interest in the license is held in a new local subsidiary, Innovative Mining Limited. This large-scale exploration license, covering 525.9km², is adjacent to the current Northern Zambian Mansa operation and potentially expands mining operations underway at this site.

New license area expanding the Company's Mansa, Northern Zambian Manganese Project

Initial work on this new license, which has been granted for two years, will be to evaluate key surface outcrop area's that may potentially expand current production activities at Mansa, Northern Zambian Manganese Project.

Emmanuel Project

During the financial year ongoing exploration and development works were undertaken at the Emmanuel Project. Due to the ramping up activities at the Group's Mansa, Northern Zambian Manganese Project the planned further exploration program for this area will not commence until the coming year.

The exploration program includes trenching of identified mineralisation zones to confirm targets for more detailed exploration from three key areas on the project.

Initially, the Group intends to focus on the Kampumba area in the southern part of the Emmanuel Project area. This area is well-known for the Kampumba Deposit, previously worked by the Chinese under Chiman, which is located approximately 10 kilometres from the Group's license. The target area includes an exposed manganese vein about 6 meters long and about 2 meters wide. The Group plans to undertake more trenching in this area to targeting extension of the known mineralisation and exposed manganese vein.

Secondly the Group intends to undertake further exploration at the north-west section of the Emmanuel Project. This area lies to the east of Chowa Mine and is bounded by a large open pit mine previously operated and known as the Lubambe prospect. Historically the Lubambe prospect produced very high grade manganese. The proposed exploration program initially involves manual trenching of identified manganese outcrops.

Thirdly, the Group proposes to dig trenches at the Chowa area to expose the vein for further evaluation. The trenching can be undertaken using non-mechanised / manual labour initially and then utilising an excavator as the trenches are deepened.

Whilst the Company continues to focus on development of the Mansa, Northern Zambian Manganese Project, the Emmanuel Project is scheduled to be the second project to be developed.

SIGNIFICANT EVENTS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial years except as follows:-

- On 20 August 2013 , the Group announced:-
  - That it had rapidly brought the Mansa Mine into operation since the completion of the Noble Group Agreement in March 2013 with production from the mine reaching 5,000 tonnes per month, and it had concluded its first sale of 2,000 tonnes of high-grade Manganese ore to the Noble Group;
  - A further US$1.16M had been drawn from Tranche B of the $10M Pre-Payment Facility for additional key mining plant and equipment to accelerate production underlines the ongoing Noble Group support for the project and the Group.

- On 4 September the Group announced the allotment of 170,440,000 new options exercisable at $0.012 on or before 31 August 2016 in accordance with the Entitlement Issue Prospectus dated 2 August 2013. On 24 September 2013, the Group announced the completion of the option rights issue shortfall of 121,849,368 attaching new options exercisable at $0.012 on or before 31 August 2013. Funds raised from the Option Rights Issue totalled $292,415 before costs.

- On 10 September the Group announced the appointment of Mr Andrew Simpson, Mr Nigel Goodall and Mr Paul D'Sylva to the Board of Directors and the resignation of Mr Leapeetswe (Papi) Molotsane.

LIKELY DEVELOPMENTS AND EXPECTED RESULTS

With the successful transition from exploration to production of the Group's Zambian Mansa Mine, the directors intend to continue to actively pursue the exploration and development of the Group's mineral interests in Zambia and focus on progressing the manganese Zambian projects to production. In addition the Group will pursue opportunities in other parts of Africa and South Africa with synergistic high-grade ore bodies that are in or near to production.

ENVIRONMENTAL REGULATION

The Group's environmental obligations are regulated under both state and federal law. All environmental performance obligations are monitored by the Board and subjected from time to time to government agency audits and site inspections. The Group has a policy of at least complying with, but in most cases exceeding, its statutory environmental performance obligations. No environmental breaches have occurred or have notified by any government agencies during the year ended 30 June 2013.

The Directors have considered compliance with the *National Greenhouse and Energy Reporting Act 2007* which requires entities to report annual greenhouse gas emissions and energy use. The directors have assessed that there are no current reporting requirements, but may be required to do so in the future.

DIRECTORS' REPORT

INFORMATION ON DIRECTORS AND COMPANY SECRETARY

Andrew Simpson

Non-Executive Chairman – Appointed 9 September 2013

Qualifications and Experience:

Andrew Simpson has a strong commercial background and extensive experience in the resource and mining industries at both the Board and executive management level, including more than 30 years of experience in international marketing and distribution of minerals and metals. He is the Noble Group nominee to the Company's Board of Directors.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

Swick Mining Services Limited	from	24 October 2006
Territory Resources Limited	from	25 September 2007
India Resources Limited	from	21 August 2006
Vital Metals Limited	from	23 February 2005
Blackwood Corporation Limited	from	25 September 2007

Special Responsibilities:

Chairman of the Board

Interest in shares and options of the Group as at the date of signing this report:

None

Tokkas Van Heerden

Executive Director and CEO – Appointed 14 January 2013

Qualifications and Experience:

Tokkas Van Heerden has been instrumental in the introduction of the Zambian manganese projects to the Group and in country management of these projects as the operating manager for the Group. Impondo South Africa, a consulting firm owned by Tokkas Van Heerden, provides key operational and personnel support services in country to the Group. Tokkas Van Heerden is actively involved in developing mining rights throughout Africa and has extensive mining experience in South Africa, DRC, Mozambique, Zambia, Namibia and Zimbabwe.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

None

Interest in shares and options of the Group as at the date of signing this report:

5,000,000 fully paid ordinary shares

Nigel Goodall

Executive Director – Appointed 9 September 2013

Qualifications and Experience:

Nigel Goodall has 40 years' experience in the mining and resource industry covering operations, project design and development, marketing and general management. He holds a degree in Mineral Processing from London University and an MBA from the University of Western Australia. He has worked in coal, copper, gold, tin, iron ore and mineral sands.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

Stirling Resources Limited	from 15 September 2010 to 31August 2011
Redbank Copper Limited	from 16 December 2010 to 25 September 2011
MZI Resources Limited	from 15 February 2011 to 31 August 2011

Interest in shares and options of the Group as at the date of signing this report:

None

Malenga Machel

Non-Executive Director

Qualifications and Experience:

Malenga Machel is a founding Director and Managing Director of Resources and Managing Director of Energy of Whatana Investments Group. The Whatana Group is a privately owned and highly successful Mozambican-based investment group established in 2005 that has interests throughout Africa in resources, energy, logistics, telecommunications, the financial sector and property development. The Whatana Group is headed up by Graca Machel, widow of the first president of Mozambique, Samora Machel and current wife of South African former president Nelson Mandela.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

None

Interest in shares and options of the Group as at the date of signing this report:

None

Paul D'Sylva

Non-Executive Director – Appointed 9 September 2013

Qualifications and Experience:

Paul D'Sylva is a Partner of Empire Equity Ltd, a boutique corporate advisory group. He has led and arranged a number of funding transactions since 2008 for a diverse range of resource and energy companies, including the US$10M pre-payment and offtake agreements between the Noble Group and Kaboko Mining Limited.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

Alcyone Resources Limited	from 15 March 2013

Interest in shares and options of the Group as at the date of signing this report:

None

Shannon Robinson

Non-Executive Director and Joint Company Secretary

Qualifications and Experience:

Shannon Robinson is a corporate lawyer and an associate of the Institute of Chartered Secretaries and Administrators (ICSA) and Chartered Secretaries Australia (CSA) and a member of AMPLA. Ms Robinson provides corporate advice in relation to mergers and acquisitions, capital raisings, due diligence reviews and legal compliance, takeovers and managing legal issues associated with client transactions. Ms Robinson has acted as Company Secretary for a number of ASX listed and unlisted companies.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

Black Mountain Resources Limited	from	17 October 2012
White Star Resources Limited	from	22 April 2013

Interest in shares and options of the Group as at the date of signing this report:

681,818 fully paid ordinary shares

568,179 listed options exercisable at $0.012 on or before 31 August 2016

Leapeetswe (Papi) Molotsane

Non-Executive Director – Appointed 14 January 2013, Resigned 9 September 2013

Qualifications and Experience:

Leapeetswe (Papi) Molotsane is the CEO of Africa Commodities Group, a joint venture company between the Noble Group and Altius Investment Holdings, which is a domestically owned South African company with investments in trading, water treatment and technology companies. Leapeetswe (Papi) Molotsane has held senior executive positions in a diversified range of businesses embracing logistics and transport, telecommunications and manufacturing, amongst others.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

None

Interest in shares and options of the Group as at the date of signing this report:

None

Jason Paul Brewer

Executive Director – Resigned 14 January 2013

Qualifications and Experience:

Jason Brewer has over 18 years' international experience in the natural resources sector. He is a mining engineer with a Master's degree in mining engineering with honours from the Royal School of Mines, London. He has experience in mining operations in Africa, North America and Australia and has worked for major investment banks in London, Sydney and Perth.

Directorships of other listed companies in the 3 years prior to the end of the Financial Year:

Continental Coal Limited	from	16 December 2009		
Black Mountain Resources Limited	from	3 February 2012		
Altona Mining Limited	from	2 October 2007	to	28 September 2011
De Grey Mining Limited:	from	3 December 2010		

Interest in shares and options of the Group as at the date of signing this report:

3,600,000 fully paid ordinary shares

Jane Rosemary Flegg

Joint Company Secretary

Experience

Jane Flegg has over 20 years of experience in finance and administration. Ms Flegg has been a corporate advisor to several ASX and AIM listed mining and oil and gas exploration companies specialising in corporate and financial management, compliance and company secretarial advice. Ms Flegg is currently Joint Company Secretary of Range Resources Limited and Company Secretary/CFO of Paynes Find Gold Limited, Eclipse Metals Limited and International Goldfields Limited.

Interest in shares and options of the Group as at the date of this report:

1,000,000 Ordinary Shares

1,000,000 unlisted options exercisable at $0.01 on or before 31 January 2016

333,334 listed options exercisable at $0.012 on or before 31 August 2016

REMUNERATION REPORT (AUDITED)

The information provided in this remuneration report has been audited as required by Section 308(3c) of the *Corporations Act 2001*.

This remuneration report outlines the director and executive remuneration arrangements of the Group in accordance with the requirements of the *Corporations Act 2001* and its Regulations. For the purposes of this report, key management personnel (KMP) of the Group are defined as those persons having authority and responsibility for planning, directing and controlling the major activities of the Group, directly or indirectly.

REMUNERATION POLICY

The Group has not established a Remuneration Committee, the role of the Committee is assumed by the Board as a whole, which is responsible for determining and reviewing the remuneration arrangements of the directors and executives.

The Board is of the view that the Group is not of a size to warrant the use of remuneration consultants; accordingly there have been no services received from remuneration consultants during the year to 30 June 2013.

The Board assesses the appropriateness of the nature and amount of emoluments of such Directors and executives on an annual basis by reference to market and industry conditions.

In order for the Group to prosper, thereby creating shareholder value the Group must be able to attract and retain the highest calibre executives.

Executive and non-executive directors, other key management personnel and other senior employees may be granted ordinary shares and options over ordinary shares. The recipients of options are responsible for growing the Group and increasing shareholder value. If they achieve this goal the value of the options granted to them will also increase. Therefore the options provide an incentive to the recipients to remain with the Group and to continue to work to enhance the Group's value.

There is no relationship between the performance or the impact on shareholder wealth of the Group for the current financial year or the previous four financial years and either the remuneration of directors and executives or the issue of shares and options to directors. Remuneration is set at levels to reflect market conditions and encourage the continued services of directors and executives.

Remuneration is otherwise based on fees approved by the Board of directors.

NON-EXECUTIVE DIRECTORS REMUNERATION

The Board seeks to set remuneration levels that provide the Group with the ability to attract and retain the highest calibre professionals.

Fees and payments to non-executive Directors reflect the demands that are made on, and the responsibilities of the Directors from time to time.

Directors' fees are determined by the Board within the aggregate directors' fee limit approved by shareholders. The maximum currently stands at $500,000 approved by shareholders on 25 October 2006.

The Group may provide remuneration in the form of shares to Directors in lieu of Director's Fees. The issue of shares to Directors requires the Group to obtain prior Shareholder approval. The Board considers that remuneration of Directors in equity will align their interests with those of the shareholders.

Remuneration in the form of share options issued under the Group's Employee Share Option Plan is designed to reward Directors and executives in a manner aligned to the creation of shareholder wealth. Subject to shareholders approval non-executive directors may participate in the Group's Employee Share Option Plan.

Non-executive Directors receive superannuation benefits in accordance with the Superannuation Guarantee Legislation. Non-executive directors are permitted to salary sacrifice all or part of their fees.

The remuneration of directors and executives does not include performance-based incentives.

VOTING AND COMMENTS MADE AT THE GROUP'S 2012 ANNUAL GENERAL MEETING

Kaboko Mining Ltd received more than 90% of "yes" votes on its remuneration report for the 2012 financial year. The Group did not receive any specific feedback at the AGM or throughout the year on its remuneration practices.

APPOINTMENT CONTRACTS WITH DIRECTORS

Non-Executive Chairman – Mr Malenga Machel

- Term of Agreement – The agreement commenced on 13 February 2012 for an unspecified term or until either party gives written notice.
- Remuneration of USD $60,000 (AUD $65,603 at 30 June 2013 exchange rate) per annum payable monthly and reviewed annually to Mr Malenga Machel or his nominee. Mr Machel's remuneration was revised from USD $120,000 to $60,000 midway through the 2013 financial year.

Executive Director and CEO – Mr Tokkas Van Heerden – Appointed 14 January 2013

- Term of Agreement – The agreement commenced on 14 January 2013 for an unspecified term or until either party gives two months' written notice of termination or otherwise terminated in accordance with the Executive Services Agreement.
- Remuneration of $300,000 per annum plus GST payable monthly to Mr Tokkas Van Heerden or his nominee.
- Payment of termination of Agreement without cause – one months' notice and one months' fee *or* two months' fee.

Non-Executive Director – Ms Shannon Robinson

- Term of Agreement – The agreement commenced on 30 August 2011 for an unspecified term or until either party gives written notice.
- Remuneration of $30,000 per annum plus 9% superannuation payable monthly and reviewed annually to Ms Shannon Robinson or her nominee.
- Payment of termination of Agreement without cause – one months' notice and one months' fee *or* two months' fee.

Non-Executive Director – Leapeetswe (Papi) Molotsane – Appointed 14 January 2013 Resigned 9 September 2013

- Mr Molotsane did not have a contract or receive remuneration during his term of office

Executive Director – Mr Jason Brewer – Resigned 14 January 2013

- Term of Agreement – The agreement commenced on 30 August 2011 for an unspecified term or until either party gives two months' written notice of termination or otherwise terminated in accordance with the Executive Services Agreement.
- Remuneration of $45,000 per annum plus GST payable monthly to Mr Jason Brewer or his nominee.
- Payment of termination of Agreement without cause – one months' notice and one months' fee *or* two months' fee.

Equity-Based Compensation

OPTIONS ISSUED AS PART OF REMUNERATION FOR THE YEAR ENDED 30 JUNE 2013

There were no options issued during 2013.

No options lapsed and no options were exercised during the year.

OPTIONS ISSUED AS PART OF REMUNERATION FOR THE YEAR ENDED 30 JUNE 2012

Options are issued to directors and executives as part of their remuneration. The options are not issued based on performance criteria, but are issued to increase goal congruence between executives, directors and shareholders.

Details of options over ordinary shares in the Group provided as remuneration to each director of Kaboko Mining Limited are set out below. When exercisable, each option is convertible into one ordinary share of Kaboko Mining Limited. Further information on the options is set out in note 12 of the financial statements.

Options Granted As Remuneration

	-	4,000,000						60,000

The assessed fair value at grant date of options granted to individuals is allocated over the period from grant date to vesting date, and the amount is included in the tables above. Where the vesting period is uncertain the total value of the options is expensed at the time of issue.

The fair values of unlisted options at grant date are determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the expected dividend yield and the risk-free interest rate for the term of the option.

The options issued during 2012 were unlisted and therefore valued using a Black-Scholes option pricing model with the following inputs:

		2012
(i)	exercise price:	$0.03
(ii)	grant date:	9 Aug 2011
(iii)	expiry date:	15 Jun 2015
(iv)	share price at grant date:	$0.02
(v)	expected volatility of the Group's shares:	125%
(vi)	expected dividend yield: nil	Nil
(vii)	risk-free interest rate:	3.84%

Based on the above inputs, the value per option at grant date was determined to be $0.015.

Issued, unvested options at 30 June 2013 are as follows:

	2013	2013	2013
	Options Granted as Part of Remuneration	% Vested to date	Maximum Total Value of Grant yet to Vest
	$		$

TRADING IN THE GROUP'S SECURITIES BY DIRECTORS, OFFICERS, AND EMPLOYEES

The Board has adopted a policy in relation to dealings in the securities of the Group which applies to all directors and employees. Under the policy, the directors, officers and employees are prohibited from dealing in the Group's securities whilst in possession of price sensitive information and also prohibited from short term or "active" trading in the Group's securities. The directors, officers and employees should also prevent dealing in the Group's securities during specific blackout periods. The Company Secretary or a director must be notified upon a trade occurring.

The policy is provided to all directors and employees. Compliance with it is reviewed on an ongoing basis in accordance with the Group's risk management systems.

There were no loans to directors during the financial year.

This is the end of the audited remuneration report.

DIRECTORS' REPORT

DIRECTORS MEETINGS

During the financial year, five meetings of directors were held. Attendances by each director during the year were as follows:

	Board Meetings	
Director	Held & Eligible to attend	Attended
Mr Malenga Machel	5	4
Mr Tokkas Van Heerden (*from 14 January 2013*)	3	3
Mr Leapeetswe (Papi) Molotsane (*from 14 January 2013*)	3	2
Ms Shannon Robinson	5	5
Mr Jason Brewer *(to 14 January 2013)*	2	1

INDEMNIFYING AND INSURING DIRECTORS, OFFICERS OR AUDITORS

During the financial year, the Group paid premiums for Directors and Officers liability insurance of $16,884.

Except as disclosed above, the Group has not, during or since the financial year, in respect of any person who is or has been an officer or auditor of the Group or a related body corporate:

a) indemnified or made any relevant agreement for indemnifying against a liability, including costs and expenses in successfully defending legal proceedings; or

b) paid or agreed to pay a premium in respect of a contract insuring against a liability for the costs or expenses to defend legal proceedings.

OPTIONS

At the date of this report, the unissued ordinary shares of Kaboko Mining Limited under option are as follows:

Expiry Date	Exercise Price	Number of Options
31/08/2016[1]	$0.012	292,289,368
31/01/2016	$0.01	56,800,000
28/09/2015	$0.02	25,000,000
24/12/2015	$0.02	23,666,667
15/07/2015	$0.03	4,000,000
01/12/2014	$0.022	9,979,382
		411,735,417

[1] Listed Options Entitlement Issue completed September 2013

During the year ended 30 June 2013 and as of the date of this report, no ordinary shares were issued by virtue of the exercise of options.

No person entitled to exercise any of these options had or has any right by virtue of the option to participate in any share issue of any other body corporate.

PROCEEDINGS ON BEHALF OF GROUP

No person has applied for leave of court to bring proceedings on behalf of the Group or intervene in any proceedings to which the Group is a party for the purpose of taking responsibility on behalf of the Group for all or any part of those proceedings. The Group was not a party to any such proceedings during the year.

NON-AUDIT SERVICES

The board of directors is satisfied that the provision of non-audit services during the year (if any) is compatible with the general standard of independence for auditors imposed by the Corporations Act 2001. The directors are satisfied that the services disclosed below did not compromise the external auditor's independence for the following reasons:

- all non-audit services are reviewed and approved prior to commencement to ensure they do not adversely affect the integrity and objectivity of the auditor; and

- the nature of the services provided do not compromise the general principles relating to auditor independence as set out in the Institute of Chartered Accountants in Australia and APES 110 Code of Ethics for Professional Accountants set by the Accounting Professional and Ethical Standards Board.

BDO Perth provided non-audit services to the parent company of $40,853 (note 18) in relation to tax compliance and other assurance services received during the year (2012: $11,689).

AUDITOR'S INDEPENDENCE DECLARATION

In accordance with the *Corporations Act 2001* section 307C a signed Auditor's Independence Declaration to the directors in relation to the year ended 30 June 2013 has been provided to the Group and can be found on the following page.

This report is made in accordance with a resolution of the directors.

Tokkas Van Heerden
Executive Director
Dated this 27th day of September 2013

Competent Person's Statement

The information in this report that relates to results is based on information reviewed and compiled by Mr Francois Martins, who is a registered natural scientist and a member of the South African Council for Natural Scientific Professions. Mr Martins is employed by Kaboko Mining Limited and has sufficient experience which is relevant to the style of mineralisation and the type of deposit under consideration and to the activity which he is undertaking to qualify as a Competent Person as defined in the 2004 edition of the Australasian Code for Reporting of Exploration Results, Coal Resources and Ore Reserves. Mr Martins consents to the inclusion in this report of this information in the form and context in which it appears.

DECLARATION OF INDEPENDENCE BY GLYN O'BRIEN TO THE DIRECTORS OF KABOKO MINING LTD

As lead auditor of Kaboko Mining Ltd for the year ended 30 June 2013, I declare that, to the best of my knowledge and belief, there have been no contraventions of:

- the auditor independence requirements of the Corporations Act 2001 in relation to the audit; and
- any applicable code of professional conduct in relation to the audit.

This declaration is in respect of Kaboko Mining Ltd and the entities it controlled during the period.

Glyn O'Brien
Director

BDO Audit (WA) Pty Ltd
Perth, Western Australia

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES

These consolidated financial statements and notes represent those of Kaboko Mining Limited and Controlled Entities (the "Group").

Kaboko Mining Limited is a listed public company, incorporated and domiciled in Australia.

The separate financial statements of the parent entity, Kaboko Mining Limited, have not been presented within this financial report as permitted by the Corporations Act 2001. Financial information for Kaboko Mining Limited as an individual entity is disclosed in note 16.

Kaboko Mining Ltd is a for-profit entity for the purposes of preparing the financial statements.

Basis of Preparation of Accounts

The financial report is a general purpose financial report that has been prepared in accordance with Australian Accounting Standards, Australian Accounting Interpretations, other authoritative pronouncements of the Australian Accounting Standards Board and the Corporations Act 2001.

Australian Accounting Standards set out accounting policies that the AASB has concluded would result in a financial report containing relevant and reliable information about transactions, events and conditions. The financial statements and notes also comply with International Financial Reporting Standards. Material accounting policies adopted in preparation of this financial report are presented below and have been consistently applied unless otherwise stated.

The financial report has been prepared on an accruals basis and is based on a historical cost basis, except for any available-for-sale financial assets that have been measured at fair value. The presentation currency used in this financial report is Australian Dollars.

This financial report is issued in accordance with a resolution of the directors of the Group on the same date as the Directors' Declaration which is contained with these financial statements.

Functional and Presentation Currency

The presentation currency of the Group is Australian dollars. The functional currency of the Group is Australian dollars.

Summary of Accounting Policies

The following is a summary of the material accounting policies adopted by the consolidated entity in the preparation of the financial statements. The accounting policies have been consistently applied, unless otherwise stated.

a) Principles of Consolidation

Subsidiaries

A controlled entity is any entity over which Kaboko Mining Limited has the power to govern the financial and operating policies so as to obtain benefits from its activities. In assessing the power to govern, the existence and effect of holdings of actual and potential voting rights are considered.

A list of controlled entities is contained in note 23 to the financial statements.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

a) Principles of Consolidation (Cont'd)

As at reporting date, the assets and liabilities of all controlled entities have been incorporated into the consolidated financial statements as well as their results for the year then ended. Where controlled entities have entered (left) the consolidated Group during the year, their operating results have been included (excluded) from the date control was obtained (ceased).

The Group applies a policy of treating transactions with non-controlling interests as transactions with parties external to the Group. Disposals to non-controlling interest results in gains and losses for the Group that are recorded in the profit or loss. Purchases from non-controlling interests result in goodwill, being the difference between any consideration paid and the relevant share acquired of the carrying value of identifiable net assets of the subsidiary.

All inter-group balances and transactions between entities in the consolidated Group, including any unrealised profits or losses, have been eliminated on consolidation. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with those adopted by the parent entity.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the consolidated statement of profit or loss and other comprehensive income and statement of financial position respectively.

Changes in Ownership Interests

The Group treats transactions with non-controlling interest that do not result in a loss of control as transactions with equity owners of the Group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interest to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Kaboko Mining Limited.

When the Group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained recognised in other comprehensive income in respect of that entity or financial asset. In addition, any amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a jointly-controlled entity or an associate is reduced but joint control; or significant influence is retained, on a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where applicable.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

a) Principles of Consolidation (Cont'd)

Business Combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the Group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On and acquisition-by-acquisition basis, the Group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the Group's share of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

All purchase consideration is recorded at fair value at the acquisition date. Contingent payments classified as debt are subsequently remeasured through profit or loss.

Acquisition –related costs are expensed as incurred.

Non-controlling interests in an acquiree are recognised either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets. This decision is made on an acquisition-by-acquisition basis.

If the Group recognises previous acquired deferred tax assets after the initial acquisition accounting is completed there will not be any adjustment to goodwill. As a consequence, the recognition of the deferred tax asset will increase the Group's net profit after tax.

b) Foreign Currency Translation

Functional and presentation currency

The functional currency of each of the Group's entities is measured using the currency of the primary economic environment in which that entity operates. The consolidated financial statements are presented in Australian dollars which is the parent entity's functional and presentation currency.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

b) Foreign Currency Translation (Cont'd)

Transaction and balances

Foreign currency transactions are translated into functional currency using the exchange rates prevailing at the date of the transaction. Foreign currency monetary items are translated at the year-end exchange rate. Non-monetary items measured at historical cost continue to be carried at the exchange rate at the date of the transaction. Non-monetary items measured at fair value are reported at the exchange rate at the date when fair values were determined.

Exchange differences arising on the translation of monetary items are recognised in the profit or loss.

Exchange differences arising on the translation of non-monetary items are recognised directly in equity to the extent that the gain or loss is directly recognised in equity; otherwise the exchange difference is recognised in the profit or loss.

Group companies

The financial results and position of foreign operations whose functional currency is different from the Group's presentation currency are translated as follows:

- assets and liabilities are translated at year-end exchange rates prevailing at that reporting date;
- income and expenses are translated at average exchange rates for the period; and
- retained earnings are translated at the exchange rates prevailing at the date of the transaction.

Exchange differences arising on translation of foreign operations are transferred directly to the Group's foreign currency translation reserve in the statement of financial position. These differences are recognised in the profit or loss in the period in which the operation is disposed.

c) Income Tax

The income tax expense (revenue) for the year comprises current income tax expense (income) and deferred tax expense (income).

Current income tax expense charged to the profit or loss is the tax payable on taxable income calculated using applicable income tax rates enacted, or substantially enacted, as at reporting date. Current tax liabilities (assets) are therefore measured at the amounts expected to be paid to (recovered from) the relevant taxation authority.

Deferred income tax expense reflects movements in deferred tax asset and deferred tax liability balances during the year as well as unused tax losses.

Current and deferred tax assets and liabilities are ascertained based on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the financial statements. Deferred tax assets also result where amounts have been fully expensed but future tax deductions are available. No deferred income tax will be recognised from the initial recognition of an asset or liability, excluding a business combination, where there is no effect on accounting or taxable profit or loss.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

c) Income Tax (Cont'd)

Deferred tax assets and liabilities are calculated at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates enacted or substantively enacted at reporting date. Their measurement also reflects the manner in which management expects to recover or settle the carrying amount of the related asset or liability.

Deferred tax assets relating to temporary differences and unused tax losses are recognised only to the extent that it is probable that future taxable profit will be available against which the benefits of the deferred tax asset can be utilised.
Where temporary differences exist in relation to investments in subsidiaries, branches, associates, and joint ventures, deferred tax assets and liabilities are not recognised where the timing of the reversal of the temporary difference can be controlled and it is not probable that the reversal will occur in the foreseeable future.

Current tax assets and liabilities are offset where a legally enforceable right of set-off exists and it is intended that net settlement or simultaneous realisation and a settlement of the respective asset and liability will occur. Deferred tax assets and liabilities are offset where a legally enforceable right of set-off exists, the deferred tax assets and liabilities relate to income taxes levied by the same taxation authority on either the same taxable entity or different taxable entities where it is intended that net settlement or simultaneous realisation and settlement of the respective asset and liability will occur in future periods in which significant amounts of deferred tax assets or liabilities are expected to be recovered or settled.

(d) Employee Benefits

Provision is made for the Group's liability for employee benefits arising from services rendered by employees to reporting date. Employee benefits that are expected to be settled within one year have been measured at the amounts expected to be paid when the liability is settled.

Employee benefits payable later than one year have been measured at the present value of the estimated future cash outflows to be made for those benefits. Those cash flows are discounted using market yields on national government bonds with terms to maturity that match the expected timing of cash flows.

e) Cash and Cash Equivalents

Cash and cash equivalents in the statement of financial position comprise cash at bank and in hand, bank deposits repayable on demand at reporting date and short-term deposits with a maturity of three months or less. Cash equivalents include deposits that are readily convertible to a known amount of cash and subject to only an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash includes cash on hand and at call deposits with banks or financial institutions, net of bank overdrafts.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

f) Revenue Recognition

Revenue is measured at the fair value of gross consideration received or receivable. The Group recognises revenue when the amount of revenue can be reliably measured, it is probable that future economic benefits will flow to the entity and specific criteria have been met for the Group's activities. The amount of revenue is not considered to be reliably measured until all contingencies relating to the sale have been resolved. The Group bases its estimates on historical results, taking into consideration the type of customer, the type of transaction and the specifics of each arrangement.

Sale of Goods

Sales earned during the testing period/before mine reaches commercial production are offset against exploration and or development and not taken to the profit or loss.

Revenue from the sale of goods and disposal of other assets once commercial production has been achieved is recognised when persuasive evidence, usually in the form of an executed sales agreement, or an arrangement exists, indicating there has been a transfer of risks and rewards to the customer, no further work or processing is required by the Group, the quantity and quality of the goods has been determined with reasonable accuracy, the price can be reasonably estimated, and collectability is reasonably assured.

The Group recognises revenue when the risks and rewards transfers to the buyer which is typically the bill of loading date.

Interest revenue

Interest revenue is recognised using the effective interest rate method, which, for floating rate financial assets is the rate inherent in the instrument. Dividend revenue is recognised when the right to receive a dividend has been established.

All revenue is stated net of the amount of goods and services tax (GST) and (VAT).

g) Goods and Services Tax (GST) and (VAT)

Revenues, expenses and assets are recognised net of the amount of GST, except where the amount of GST incurred is not recoverable from the Australian Tax Office. In these circumstances the GST is recognised as part of the cost of acquisition of the asset or as part of an item of the expense.

Receivables and payables in the statement of financial position are shown inclusive of GST.

h) Impairment of Assets

At each reporting date, the Group reviews the carrying values of its tangible and intangible assets to determine whether there is any indication that those assets have been impaired. If such an indication exists, the recoverable amount of the asset, being the higher of the asset's fair value less costs to sell and value in use, is compared to the asset's carrying value. Any excess of the asset's carrying value over its recoverable amount is expensed.

Where it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

i) Leases

Leases are classified at their inception as either operating or finance leases based on the economic substance of the agreement so as to reflect the risks and benefits incidental to ownership.

Leases in which a significant portion of the risks and rewards of ownership are not transferred to the group as lessee are classified as operating leases (note 19). Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

j) Contributed Equity

Ordinary shares are classified as equity.

Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds. Incremental costs directly attributable to the issue of new shares or options for the acquisition of a business are not included in the cost of the acquisition as part of the purchase consideration.

If the entity reacquires its own equity instruments, eg as the result of a share buy-back, those instruments are deducted from the equity and the associated shares are cancelled. No gain or loss is recognised in the profit or loss and the consideration paid including any directly attributed incremental costs (net of income taxes) is recognised directly in equity.

k) Plant and Equipment

Each class of plant and equipment is carried at cost or fair value as indicated less, where applicable, any accumulated depreciation and impairment losses.

Plant and equipment

Plant and equipment are measured on the cost basis. The carrying amount of plant and equipment is reviewed annually by directors to ensure it is not in excess of the recoverable amount from these assets. The recoverable amount is assessed on the basis of the expected net cash flows which will be received from the assets' employment and subsequent disposal. The expected net cash flows have been discounted to their present values in determining recoverable amounts.

Depreciation
The depreciable amount of all fixed assets is depreciated on a straight-line basis over the asset's useful life to the consolidated Group commencing from the time the asset is held ready for use.
The depreciation rates used for each class of depreciable asset are:

Class of Fixed Asset	Depreciation Rate
Zambia	
Motor vehicles	20-40%
Plant & equipment	16.67% - 66.67%

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

k) Plant and Equipment (Cont'd)

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each reporting date. An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount.

Gains and losses on disposals are determined by comparing proceeds with the carrying amount. These gains or losses are included in the profit or loss.

Impairment

The carrying values of plant and equipment are reviewed for impairment when events or changes in circumstances indicate the carrying value may not be recoverable. For an asset that does not generate largely independent cash inflows, the recoverable amount is determined for the cash-generating unit to which the asset belongs. If any indication of impairment exists and where the carrying values exceed the estimated recoverable amount, the assets or cash-generating units are written down to their recoverable amount.

The recoverable amount of plant and equipment is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

An item of plant and equipment is derecognised upon disposal or when no further future economic benefits are expected from its use or disposal. Any gain or loss arising on de-recognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in profit or loss in the year the asset is derecognised.

l) Trade and Other Receivables

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. Trade receivables are generally due for settlement within 30 days.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off. A provision for impairment of trade receivables is established when there is objective evidence that the Group will not be able to collect all amounts due according to the originals terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy of financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial. The amount of provision is recognised in the profit or loss within other expenses.

m) Trade and Other Payables

These amounts represent liabilities for goods and services provided to the Group prior to the end of financial year which are unpaid. The amounts are unsecured and they are usually paid within 30 days of recognition.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

n) Financial Instruments

Classification

The Group classifies its financial assets in the following categories: loans and receivables and available-for-sale financial assets. The classification depends on the purpose for which the investments were acquired. Management determines the classification of its investments at initial recognition.

(i) Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets. Loans and receivables are included in trade and other receivables (note 5) in the statement of financial position.

(ii) Available-for-sale financial assets

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the reporting date.

Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

Recognition, Initial Measurement and De-recognition

Regular purchases and sales of financial assets are recognised on trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the profit or loss as gains and losses from investment securities.

Subsequent measurement

Loans and receivables are carried at amortised cost using the effective interest method.

Available-for-sale financial assets and are subsequently carried at fair value. Changes in the fair value of monetary and non-monetary securities classified as available-for-sale are recognised in equity.

Details on how the fair value of financial instruments is determined are disclosed in note 25.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

n) Financial Instruments (Cont'd)

Impairment

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired.

If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in the profit or loss. Impairment losses recognised in the profit or loss on equity instruments classified as available-for-sale are not reversed through the profit or loss.

o) Derivatives and Hedging Activities

Derivative instruments

Derivatives are initially recognised at fair value on the date a derivative contract is entered into and are subsequently remeasured to their fair value at each reporting date. The accounting for subsequent changes in fair value depends on whether the derivative is designated as a hedging instrument, and if so, the nature of the item being hedged. The Group designates certain derivatives as either:

- Hedges of the fair value of recognised assets or liabilities or a firm commitment (fair value hedge); or

- Hedges of the cash flows of recognised assets and liabilities and highly probable forecast transactions (cash flow hedge).

At the inception of the hedging transaction, the Group documents the relationship between the hedging instrument and the hedged item, as well as its risk management objective and strategy for undertaking various hedge transactions. The Group also documents its assessment, both at the hedge inception and on an ongoing basis, of whether the derivatives that are used in hedging transactions have been, and will continue to be, highly effective in offsetting changes in fair values or cash flows of hedged items.

The full fair value of a hedging derivative is classified as a non-current asset or liability when the remaining maturity of the hedged item is greater that twelve months; it is classified as a current asset or liability when the remaining maturity of the hedged item is less than twelve months. Trading derivatives are classified as a current asset or liability.

Fair value hedge

Changes in the fair value of derivatives that are designated and qualify as fair value hedges are recorded in the Consolidated Income Statement, together with any changes in the fair value of the hedged asset or liability that are attributable to the hedged risk. The gain or loss relating to the ineffective portion is recognised in the Consolidated Income Statement within other income or other expenses.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

o) Derivatives and Hedging Activities (Cont'd)

The Group did not have any fair value hedges in the period covered by these financial statements.

Cash flow hedge
The effective portion of changes in the fair value of derivatives that are designated and qualify as cash flow hedges is recognised through other comprehensive income in the hedging reserve. The gain or loss relating to any ineffective portion is recognised immediately in the Consolidated Income Statement within other income or other expenses.

Amounts accumulated in equity are recognised in the Consolidated Income Statement in the periods when the hedged item affects profit or loss (for instance when the forecast sale that is hedged takes place).

When a hedging instrument expires or is sold or terminated, or when a hedge no longer meets the criteria for hedge accounting, any cumulative gain or loss existing in equity at that time remains in equity and is recognised when the forecast transaction is ultimately recognised in profit or loss. When a forecast transaction is no longer expected to occur, the cumulative gain or loss that was reported in equity is immediately reclassified to profit or loss.

Derivatives that do not qualify for hedge accounting
Changes in the fair value of any derivative instrument that do not qualify for hedge accounting are recognised immediately in the Consolidated Income Statement and are included in other income or other expenses.

Fair value of option and share repricing liability
The fair value of the option and share repricing liability is determined based on computing the fair value of the related share options using a black-scholes pricing model which takes into account the exercise price, the term of the option, the Company's share price at reporting period, the expected volatility of the underlying share price and the risk-free interest rate (based on government bonds)

p) Exploration and Evaluation Expenditure

Exploration, evaluation and development expenditure incurred is accumulated in respect of each identifiable area of interest. These costs are only carried forward to the extent that they are expected to be recouped through the successful development of the area or where activities in the area have not yet reached a stage that permits reasonable assessment of the existence of economically recoverable reserves.

Accumulated costs in relation to an abandoned area are written off in full against profit in the year in which the decision to abandon the area is made.

When production commences, the accumulated costs for the relevant area of interest are amortised over the life of the area according to the rate of depletion of the economically recoverable reserves.

A regular review is undertaken of each area of interest to determine the appropriateness of continuing to carry forward costs in relation to that area of interest.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

q) Share-Based Payments

Share-based compensation benefits to directors, employees and consultants are provided at the discretion of the board.

The fair value of options granted is recognised as an expense with a corresponding increase in equity. The fair value is measured at grant date and recognised over the period during which the recipient becomes unconditionally entitled to the options.

The fair value at grant date is independently determined using a Black-Scholes option pricing model that takes into account the exercise price, the term of the option, the impact of dilution, the share price at grant date and expected price volatility of the underlying share, the expected dividend yield and the risk free interest rate for the term of the option.

The fair value of the options granted is adjusted to reflect market vesting conditions, but excludes the impact of any non-market vesting conditions (for example, profitability). Non-market vesting conditions are included in assumptions about the number of options that are expected to become exercisable. At each reporting date, the entity revises its estimate of the number of options that are expected to become exercisable. The employee benefit expense recognised each period takes into account the most recent estimate. The impact of the revision to original estimates, if any, is recognised in the profit or loss with a corresponding adjustment to equity.

r) Earnings/(Loss) per Share

(i) Basic earnings per share

Basic earnings per share is calculated by dividing the profit attributable to equity holders of the Group by the weighted average number of ordinary shares outstanding during the financial year, adjusted for bonus elements in ordinary shares issued during the year.

(ii) Diluted earnings per share

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential ordinary shares and the weighted average number of shares assumed to have been issued for no considerations in relation to dilutive potential ordinary shares.

s) Segment Reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the Board of Directors who is responsible for making strategic decisions.

t) Provisions

Provisions are recognised when the Group has a legal or constructive obligation, as a result of past events, for which it is probable that an outflow of economic benefits will result and that outflow can be reliably measured.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

u) Borrowings

Borrowings are initially recognised at fair value, net of transaction costs incurred. Borrowings are subsequently measured at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption amount is recognised in the profit or loss over the period of the borrowings using the effective interest rate method. Fees paid on the establishment of loan facilities, which are not an incremental costs relating to the actual draw-down of the facility, are recognised as prepayments and amortised on a straight-line basis over the term of the facility.

Borrowings are removed from the statement of financial position when the obligation specified in the contract is discharged, cancelled or expired. The difference between the carrying amount of a financial liability that has been extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in other income or other expenses.

Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

v) Borrowings Costs

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial period of time to prepare for their intended use or sale, are added to the cost of those assets, until such time as the assets are substantially ready for their intended use or sale.

All other borrowing costs are recognised in the profit or loss in the period in which they are incurred.

w) Comparative Figures

When required by Accounting Standards, comparative figures have been adjusted to conform to changes in presentation for the current financial year.

x) Non-current Assets (or Disposal Groups) Held for Sale and Discontinued Operations

Non-current assets (or disposal groups) are classified as held for sale if their carrying amount will be recovered principally through a sale transaction rather than through continuing use and a sale is considered to be highly probable. They are measured at the lower of their carrying amount and fair value less costs to sell, except for assets such as deferred tax assets, assets arising from employee benefits, financial assets, and investment property that are carried at fair value.

An impairment loss is recognised for any initial or subsequent write-down of the asset (or disposal group) to fair value less costs to sell. A gain is recognised for any subsequent increases in fair value less costs to sell of an asset (or disposal group), but not in excess of any cumulative impairment loss previously recognised. A gain or loss not previously recognised by the date of the sale of the non-current asset (or disposal group) is recognised at the date of de-recognition.

Non-current assets (including those that are part of a disposal group) are not depreciated or amortised while they are classified as held for sale. Interest and other expenses attributable to the liabilities of a disposal group classified as held for sale continue to be recognised.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

x) Non-current Assets (or Disposal Groups) Held for Sale and Discontinued Operations (Cont'd)

Non-current assets classified as held for sale and the assets of a disposal group classified as held for sale are presented separately from the other assets in the statement of financial position. The liabilities of a disposal group classified as held for sale are classified separately from other liabilities in the statement of financial position.

A discontinued operation is a component of an entity that has been disposed of or is classified as held for sale and that represents a separate major line of business or area of operations, or is a subsidiary acquired exclusively with a view to resale. The results of discontinued operations are presented separately in the consolidated statement of profit or loss and other comprehensive income.

y) Significant Accounting Judgements, Estimates and Assumptions

Significant accounting judgements

In the process of applying the Group's accounting policies, management has made the following judgements, apart from those involving estimations, which have the most significant effect on the amounts recognised in the financial statements:

(i) Exploration and evaluation assets

The Group's accounting policy for exploration and evaluation expenditure is set out above. The application of this policy necessarily requires management to make certain estimates and assumptions as to future events and circumstances, in particular, the assessment of whether economic quantities of reserves are found. Any such estimates and assumptions may change as new information becomes available. If, after having capitalised expenditure under our policy, we conclude that we are unlikely to recover the expenditure by future exploitation or sale, then the relevant capitalised amount will be written off to profit or loss.

Significant accounting estimates and assumptions

The carrying amounts of certain assets and liabilities are often determined based on estimates and assumptions of future events. The key estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of certain assets and liabilities within the next annual reporting period are:

Key Estimates

(i) Taxation

Balances disclosed in the financial statements and the notes thereto, related to taxation, and are based on the best estimates of directors. These estimates take into account both the financial performance and position of the Group as they pertain to current income taxation legislation, and the directors understanding thereof. No adjustment has been made for pending or future taxation legislation. The current income tax position represents that directors' best estimate, pending an assessment by the Australian Taxation Office.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

y) Significant Accounting Judgements, Estimates and Assumptions (Cont'd)

(ii) Deferred tax assets

Deferred tax assets are recognised for deductible temporary differences when management considers that it is probable that future taxable profits will be available to utilise those temporary differences.

(iii) Share-based payment transactions

The Group measures the cost of equity-settled transactions with employees by reference to the fair value of the equity instruments at the date at which they are granted. The fair value is determined using the Black-Scholes option pricing model, using the assumptions detailed in note 14.

(iv) Deferred acquisition liability

As disclosed at note 22, the Group has recorded deferred consideration of $9,534,028 at 30 June 2013, of which $5,680,000 relates to milestone payments and $2,051,801 relates to a royalty payable to the vendors of African Asian Mining Development Ltd. Both components of the deferred consideration are subject to judgements and estimates and therefore are subject to change as the underlying assumptions change.

At 30 June 2013, milestone payments have been estimated based on a 100% probability that the performance milestones as detailed in note 22(a)(ii) and (iii) will be met in the stated timeframes. Should the milestones not be met, or not be met in accordance with the timeframes, actual milestone payments will be less than milestone payments those recorded at 30 June 2013.

Details of the royalty payable to the vendors of African Asian Mining Development Lt can be found in note 22(a)(iv). At 30 June 2013, the estimated royalty payable has been determined based on forecast run of mine production over the life of the mine using a discount rate of 16.5%. Should run of mine production be significantly different than forecast and/or not proceed in accordance with the expected timeframe, the royalty payable may be significantly different than that recorded at 30 June 2013. Significant changes in either the Group's borrowing rate or cost of capital will impact the Group's discount rate, which may also cause the royalty payable to differ significantly from that recorded at 30 June 2013.

z) Going Concern

The Directors have prepared the financial statements on the going concern basis, which contemplates continuity of normal business activities and the realisation of assets and discharge of liabilities in the normal course of business.

As disclosed in the financial statements, the Group incurred losses of $4,196,485 for the year ending 30 June 2013. The Group also had net cash outflows from operating activities for the year of $1,236,721 and net current liabilities of $5,382,114.

The Directors believe the Group will be able to raise the funds necessary to meet their current liabilities and commitments from the profitable sale of manganese from its Zambian Projects and further capital raising.

NOTE 1. SIGNIFICANT ACCOUNTING POLICIES (CONT'D)

z) Going Concern (Cont'd)

As announced 30 July 2012, the Group has entered into a USD $10,000,000 Secured Prepayment Debt Facility and a 10 year binding Manganese Ore Off-Take Agreement with the Noble Resources International Pte, a subsidiary of Noble Group Limited.

The ability of the Group to continue as a going concern and settle its current liabilities is fundamentally dependent upon the ability of the Group to mine its projects profitably and/or raise additional funding for future activities. The Directors consider that there are reasonable grounds to believe that the Group will fulfil the agreement's conditions precedent and/or raise additional funding as necessary.

The financial report does not include any adjustments relating to the amounts or classification of recorded assets or liabilities that might be necessary if the Group does not continue as a going concern.

NOTE 2. REVENUE AND EXPENSES

The profit/(loss) before income tax has been determined after:

	Group 2013 $	Group 2012 $
REVENUE FROM CONTINUING OPERATIONS		
Interest received	3,597	6,951
Rent received	-	7,100
Other revenue	17,792	3,217
TOTAL REVENUE	21,389	17,268
OTHER INCOME FROM CONTINUING OPERATIONS		
Gain on debt settlement	600,000	-
TOTAL OTHER INCOME	600,000	-
TOTAL REVENUE AND OTHER INCOME FROM CONTINUING OPERATIONS	621,389	17,268

	Group 2013 $	Group 2012 $
CHARGING AS EXPENSES FROM CONTINUING OPERATIONS		
Consulting costs	364,361	360,513
Depreciation	268,934	132,013
Employee benefits and directors costs	624,058	722,507
Finance costs associated with derivatives	256,368	-
Interest expense	164,415	113,534
Legal costs	277,911	190,036
Rental expense on operating lease	3,163	169,881
Administration costs	1,352,596	993,712
Operating expenses	341,925	335,474
New opportunity evaluation	469,510	-
Share based payment expense	553,000	899,482
Unrealised exchange loss	-	1,650
TOTAL EXPENSES FROM CONTINUING OPERATIONS	4,676,241	3,917,152

NOTE 3. INCOME TAX

	Group 2013 $	Group 2012 $
INCOME TAX BENEFIT		
Numerical reconciliation between tax expense and pre-tax net loss:	-	-
LOSS BEFORE INCOME TAX BENEFIT	(4,196,485)	(7,154,679)
Income tax using the Group's domestic tax rate of 30%	(1,258,946)	(2,146,404)
Foreign tax rate differential of 5%	(15,159)	(357,734)
Expenditure not allowable for income tax purposes	353,562	529,970
Share based payments	165,900	269,845
Deferred tax assets not brought to account as realisation is not considered probable	754,643	1,704,323
INCOME TAX BENEFIT (EXPENSE) ATTRIBUTABLE TO ENTITY	-	-
Fair value adjustment on mineral exploration expenditure on AAMD's acquisition of its subsidiaries	(5,795,688)	(268,105)
Currency exchange adjustment	(848,137)	(11,361)
Net deferred tax asset/(liability)	(6,643,825)	(3,717,257)

	Group 2013 $	Group 2012 $

NOTE 4. EARNINGS PER SHARE

BASIC EARNINGS PER SHARE

	2013 $	2012 $
From continuing operations attributable to the ordinary equity holders of the Company	(0.56)	(0.86)
From discontinued operations attributable to the ordinary equity holders of the Company	(0.02)	(0.66)
Total basic earnings per share attributable to the ordinary equity holders of the Company	(0.58)	(1.52)

DILUTED EARNINGS PER SHARE

The Group's potential ordinary shares were not considered dilutive, and as a result, diluted EPS is the same as basic EPS.

Potential ordinary shares that could dilute EPS in the future:	2013	2012
Weighted average number of ordinary shares (basic)	697,018,246	454,388,494
Effect of share options on issue (*i*)	411,735,417	410,043,620
Weighted average number of ordinary shares (diluted) at 30 June	1,108,753,663	864,432,114

(i) Includes options issued subsequent to financial year end in the Company's Option rights Issue completed in September 2013

RECONCILIATIONS OF EARNINGS/(LOSS) USED IN CALCULATING EARNINGS PER SHARE

	2013 $	2012 $
Net loss from continuing operations attributable to the ordinary equity holders of the Company	(3,886,333)	(3,640,714)
Net loss from discontinued operations attributable to the ordinary equity holders of the Company	(141,633)	(3,254,795)
Net loss used in the calculation of basic and dilutive EPS	(4,027,966)	(6,895,509)

WEIGHTED AVERAGE NUMBER OF SHARES USED AS THE DENOMINATOR	**No.**	**No.**
Weighted average number of ordinary shares outstanding during the year used in the calculation of basic and dilutive earnings per share	697,018,246	454,388,494

NOTE 5. TRADE AND OTHER RECEIVABLES

	Group 2013 $	Group 2012 $
Other debtors and prepayments	22,619	25,447
Other receivables	-	674,590
	22,619	700,037

Other debtors are non-interest bearing and generally on 30 day terms.

Other receivables generally arise from transactions outside the usual operating activities of the Group. They are non-interest bearing and have no set terms of repayment.

Due to the short term nature of the debtors and receivables balances, their carrying amounts are assumed to approximate their fair values.

Information on the Group's exposure to foreign currency risk is disclosed in note 25. The Group has no interest risk exposure in relation to its receivables.

There were no receivables impaired during the year ended 30 June 2013 (2012: nil). There were no receivables past due, or past due but not impaired, at 30 June 2013 (2012: nil).

NOTE 6. PLANT AND EQUIPMENT

NOTE 7. MINERAL EXPLORATION EXPENDITURE

	Group 2013 $	Group 2012 $
At the beginning of the financial year	11,635,080	3,185,245
Expenditure incurred during the year	2,975,265	2,346,793
Exploration expenditure acquired (note 22)	-	9,660,748
Adjustment to Exploration expenditure acquired (note 22)	5,849,630	-
Pre-production revenue offset against exploration expenditure	-	(52,754)
Transfer to mineral exploration expenditure held for sale	-	(49,207)
Grants Ridge exploration expenditure impaired (note 15)	-	(2,789,758)
Currency exchange adjustment	1,515,377	(665,987)
TOTAL MINERAL EXPLORATION EXPENDITURE	21,975,352	11,635,080

Recoverability of the carrying amount of the capitalised mineral exploration expenditure is dependent on the successful development and commercial exploitation or sale of the respective areas of interest.

Pre-production revenue and costs will be offset against exploration expenditure until commercial production levels are achieved.

The group holds several exclusive prospecting licences in Zambia which provide the legal right to exploration and underpins the exploration and evaluation expenditure asset a 30 June 2013.

Certain Zambian exploration projects were in the process of being renewed at 30 June 2013. The Group has lodged the necessary forms and expects the renewal to be granted in due course.

NOTE 8. TRADE AND OTHER PAYABLES

	Group 2013 $	Group 2012 $
Trade creditors	386,113	250,837
Sundry creditors and accrued expenses	553,724	446,818
	939,837	697,655

Trade creditors and sundry creditors are non-interest bearing and generally on 30 day terms.

NOTE 9. BORROWINGS

	Group 2013 $	Group 2012 $
CURRENT		
Noble Group drawdowns (i)	4,341,588	-
Unsecured other loans (ii)	173,872	390,814
Unsecured other loans (iii)		1,576,877
	4,515,460	1,967,691
NON- CURRENT		
Unsecured other loans (iii)	1,594,154	-
	1,594,154	-
Total Borrowings	**6,109,614**	**1,967,691**

(i) Noble Group drawdowns relate to proceeds received under the $10,000,000 prepayment debt facility and long term manganese off-take agreement. Interest on the proceeds is payable in manganese at 9.5%. These proceeds are treated as borrowings pending satisfaction of all conditions precedent to the facility. As at the date of this report amendments to the facility were being prepared and subsequently executed on 27 July 2013. Upon satisfaction of conditions precedent in the amended agreements, Noble Group drawdowns will be transferred from borrowings to deferred revenue. Subject to completion of conditions precedent and satisfaction of terms in the amended agreement, the funds will be secured over all assets of the Group including the Company's shareholding in AAMD.

(ii) Non-interest bearing with no set term of repayment.

(iii) Interest bearing at a rate of 10% per annum and secured by way of a corporate guarantee and undertaking. The loan is repayable by 31 December 2014 (30 June 2012: repayment date of 31 December 2012).

The parent entity issued $1,000,000 of convertible notes in October 2012. The notes and corresponding interest were convertible at the option of the holder at the holder's elected conversion price, which is either 80% of the 10 day VWAP at the original maturity date of 28 November 2012 or 130% of the 10 day VWAP at the effective date of 28 September 2012. 5,420,401 shares having a total value of $75,000 and 5,000,000 options exercisable at $0.02 on or before 28 September 2015 were issued to the convertible note holder as consideration for the provision of the convertible note in lieu of interest. In November 2012 the maturity date of the note was extended from 28 November 2012 to 28 February 2013, and further extended to 31 March 2013. The Group also paid the note holder a $5,000 per month research & brokerage fee for 4 months and has issued a further 23,666,667 shares having a total value of $142,000 and 23,666,667 options exercisable at $0.02 on or before 24 December 2015 to the convertible note holder as consideration for the maturity date extension in lieu of interest. The Group settled the loan in April 2013.

NOTE 9. BORROWINGS (CONT'D)

Movement in the convertible note is as follows:

	2013 $	2012 $
Carrying amount at 1 July	-	-
Proceeds on issue of convertible note	1,000,000	-
Amount classified as derivative (note 10)	(378,939)	
Amount classified as equity	(75,000)	-
Additional amount classified as derivative upon extension of convertible note(note 10)	(272,244)	
Additional amount classified as equity upon extension of convertible note	(142,000)	-
Interest accretion	868,183	-
Settlement of loan	(1,000,000)	
	-	-

NOTE 10. DERIVATIVE FINANCIAL INSTRUMENT

The Group has the following derivative financial instruments:

	2013 $	2012 $
Derivative liability from convertible note (i)	33,437	-
	33,437	-

Pursuant to the accounting standards the option component of the convertible note is classified as a liability. The value of the derivative fluctuates with the Company's underlying share price, volatility of the company share price, and the time to expiry. The change in the value of the derivative between inception date and 30 June 2013 due to the difference in the Company's share price between inception date and 30 June 2013 is recognised as an unrealised gain within other revenue.

(i) **Derivative liability from convertible note**

Movements in the derivative liability from convertible note during the year are as follows:

	2013 $	2012 $
Carrying amount at 1 July	-	-
Recognition of convertible note derivative	336,124	
Recognition of option derivative	42,815	-
Additional convertible note derivative upon extension of convertible note	142,633	
Additional option derivative upon extension of convertible note	129,610	
Fair value movement	(611,815)	
De-recognition on settlement	(5,930)	-
	33,437	-

Share issue expenses	-	(704,728)
AT THE END OF THE FINANCIAL YEAR	644,250,815	21,315,614

(i) Refer to note 14 for details of share based payments that were made during the year.

(ii) Shares were issued post year end, however as cash was received before year end these shares have been reflected at 30 June 2012.

(iii) Additional 24% shareholding in Impondo Zambia Ltd was acquired by African Asian Mining Development Ltd in June 2012. These Shares were granted at the 29 June 2012 General Meeting of Shareholders and are therefore reflected in the 30 June 2012 balance even though their issue date is post year end.

CAPITAL MANAGEMENT

Management controls the capital of the Group comprising the liquid assets held by the Group in order to maintain an appropriate debt to equity ratio, provide the shareholders with adequate returns and ensure that the Group can fund its operations and continue as a going concern. The Group's debt and capital includes ordinary share capital and financial liabilities, supported by financial assets. There are no externally imposed capital requirements. Management effectively manages the Group's capital by assessing the Group's financial risks and adjusting its capital structure in response to changes in these risks and in the market. These responses include the management of debt levels, distributions to shareholders and share issues. There have been no changes in the strategy adopted by management to control the capital of the Group since the prior year.

NOTE 11. ISSUED CAPITAL (CONT'D)

TERMS AND CONDITIONS OF CONTRIBUTED EQUITY

Ordinary shares have the right to receive dividends as declared and, in the event of winding up the Group, to participate in the proceeds from sale of all surplus assets in proportion to the number of, and amounts paid up, of shares held.

Ordinary shares entitle their holder to one vote, either in person or by proxy, at any meeting of the Group.

OPTIONS

Information relating to share options on issue at the end of the financial year is as follows:

Expiry Date	Exercise Price	Number of Options
31/01/2016	$0.01	56,800,000
28/09/2015	$0.02	25,000,000
24/12/2015	$0.02	23,666,667
15/07/2015	$0.03	4,000,000
01/12/2014	$0.022	9,979,382
		119,446,049

NOTE 12: SHARES AND OPTIONS TO BE ISSUED

As part of the consideration of the acquisition of African Asian Mining Development Ltd ("AAMD") (note 22) the Group has committed to issuing the following milestone shares and options:

- 80,000,000 Shares and 80,000,000 free attaching options exercisable at $0.08 on or before 1 April 2014 on the date the Zambian Manganese Projects achieve a minimum of 10,000,000 tonnes of JORC (or equivalent) manganese resource, subject to achievement of the performance milestone on or before 1 April 2014. A value of $2,480,000 has been assigned to these shares and options based upon a 100% probability of meeting the performance milestone.

- 80,000,000 Shares and 80,000,000 free attaching options exercisable at $0.08 on or before 1 April 2014 on the date the Zambian Manganese Projects achieve a minimum manganese production of 30,000 tonnes per month of JORC (or equivalent) Saleable Manganese Ore for at least 3 months within any 6 month period, provided that it is achieved within 30 months from the executive of the share sale agreement. A value of $3,200,000 has been assigned to these shares and options based upon a 100% probability of meeting the performance milestone.

	Group 2013 $	Group 2012 $

06/07/12 – Free attaching options issued as consideration for placement as approved by shareholders on 29 June 2012 (i)(ii)	17,000,000	170,000
13/07/12 – Free attaching placement options (ii)	25,000,000	-
AT THE END OF THE FINANCIAL YEAR	410,043,620	4,144,049

(i) Refer to note 14 for details of share based payments that were made during the year.

(ii) Options were granted at the 29 June 2012 General Meeting of Shareholders and are therefore reflected in the 30 June 2012 balance even though their issue date is post year end.

The option premium reserve is used to accumulate the fair value of options issued.

The foreign currency translation reserve is used to record exchange differences arising from the translation of the financial statements of foreign subsidiaries.

The other reserve is used to record transactions with non-controlling interests, such as changes in ownership percentages of the Group's subsidiary companies where there is no change in control.

NOTE 14. SHARE BASED PAYMENTS

During the year ended 30 June 2013, the following share based payments were issued by the Group:

Date	Quantity	Security	$ Value	Description/Purpose
03/10/2012	18,679,141 and 20,000,000	Fully paid ordinary shares Free attaching unlisted options exercisable at $0.02 on or before 28 September 2015	274,994	Pursuant to a mandate for corporate advisory and introductory services received in respect of the $10M debt facility and off-take transaction with Noble Group as ratified at the Group's Annual General Meeting of Shareholders. The value of these shares has been determined based on the corresponding vendor invoice.
21/03/2013	18,815,505	Fully paid ordinary shares	278,006	Pursuant to a mandate for corporate advisory and introductory services received in respect of the $10M debt facility and off-take transaction with Noble Group as ratified at the Group's Annual General Meeting of Shareholders. The value of these shares has been determined based on the corresponding vendor invoice.

A total of $553,000 was recognised as a share based payment expense within the Consolidated Statement of Profit or Loss and Other Comprehensive Income during the year ended 30 June 2013.

NOTE 14. SHARE BASED PAYMENTS (CONT'D)

During the year ended 30 June 2012, the following share based payments were issued by the Group:

Date	Quantity	Security	$ Value	Description/Purpose
09/08/2011	4,000,000	Unlisted Options exercisable at $0.03 on or before 15 June 2015 (i)	60,000	Issued to Catherine Hobbs in accordance with her appointment agreement and as approved by shareholders. The total value of these options has been expensed during the year as their vesting period is uncertain. See (i) below for assumptions made in the valuation of these options.
19/10/2011	27,272,738	Listed options exercisable at $0.03 on or before 30 June 2013*	272,727	Issued to parties participating in a placement. The total value of these options has been included within contributed equity as a share issue cost. The value of the options has been determined based on their value at grant date as the securities were issued in accordance with an agreement rather than on receipt of invoices. See (ii) below for assumptions made in the valuation of these options.
21/11/2011	9,979,382	Unlisted Options exercisable at $0.022 on or before 1 December 2014 (ii)	129,732	Issued to Komodo Capital Pty Ltd in accordance with its Corporate Advisory Mandate as approved by shareholders. The total value of these options has been expensed during the year. See (iii) below for assumptions made in the valuation of these options.
03/11/2011	75,000,000	Fully paid ordinary shares	1,802,226	Issued as consideration for 100% of the issued capital of African Asian Mining Development Group Ltd ("AAMD") (see note 22). The total value of these shares has been included within Mineral Exploration Expenditure in the Statement of Financial Position. The value of these shares has been determined based on their market value at grant date.
03/11/2011	5,000,000	Fully paid ordinary shares	197,774	Issued in relation to the acquisition of 100% of the issued capital of African Asian Mining Development Group Ltd ("AAMD").
30/03/2012	15,371,938 and 15,371,937	Fully paid ordinary shares Free attaching listed options exercisable at $0.03 on or before 30 June 2013	338,183 -	Issued to the underwriters of the pro-rata entitlements issue. The total value of these shares has been included within contributed equity as a share issue cost. The value of these shares has been determined based on the vendor invoices received.

NOTE 14. SHARE BASED PAYMENTS (CONT'D)

Date	Quantity	Security	$ Value	Description/Purpose
30/03/2012	750,000	Fully paid ordinary shares	17,250	Issued to Uranium Energy Corporation in accordance with the Grants Ridge Option and Joint Venture Agreement. The total value of these shares has been expensed during the year. The value of these shares has been determined based on their market value at grant date.
06/07/2012	3,000,000 and 4,500,000	Fully paid ordinary shares Listed options exercisable at $0.03 on or before 30 June 2013*	60,000 58,500	Issued to brokers in lieu of cash as consideration for capital raising services received. The total value of these shares has been included within contributed equity as a share issue cost. The value of these shares has been determined based on the vendor invoice received. The options have been assigned a value and expensed during the year based on the difference between the value of services received and value of equity issued. See (iv) below for assumptions made in the valuation of these options.
30/03/2012 & 06/07/2012	16,000,000 and 16,000,000	Fully paid ordinary shares Listed options exercisable at $0.03 on or before 30 June 2013*	320,000 144,000	Issued to consultants for not related party corporate advisory and investor relations services received. The total value of these shares and options has been expensed during the year. The value of the shares and options has been determined based on their market value at grant date as the securities were issued in accordance with an agreement rather than on receipt of a vendor invoice. See (v) below for assumptions made in the valuation of these options.
06/07/2012	17,000,000	Listed options exercisable at $0.03 on or before 30 June 2013*	170,000	Issued to consultants for corporate advisory services received. The total value of these options has been expensed during the year. The value of the shares and options has been determined based on their market value at grant date as the securities were issued in accordance with an agreement rather than on receipt of a vendor invoice. See (vi) below for assumptions made in the valuation of these options.
14/08/2012	24,000,000	Fully paid ordinary shares	480,000	Issued to non-controlling shareholders as consideration for an additional 24% of Impondo Zambia Ltd share capital. The total value of these shares is recorded as exploration expenditure at 30 June 2012. The value of these shares has been determined based on their market value at grant date. (note 22)

** These listed options have been valued using black-scholes option pricing models as they are considered to be trading in an inactive market.*

NOTE 14. SHARE BASED PAYMENTS (CONT'D)

Vesting terms and conditions and factors and assumptions used in determining the fair value of the unlisted options at grant date are as follows:

(i) 2,000,000 Options will be exercisable on and from the date the Zambian Manganese Projects achieve 3 consecutive months of manganese production at 30,000 tonnes or more, and 2,000,000 Options will be exercisable on and from the date a feasibility study is commissioned for the Grants Ridge Project in the USA.

The value of these options has been determined by using the black-scholes valuation methodology with the following inputs:

Exercise price	$0.03
Grant date	9 August 2011
Expiry date	15 June 2015
Share price at grant date	$0.020
Expected volatility of the Group's shares	125%
Expected dividend yield	Nil
Risk free interest rate	3.84%
Fair value of option at grant date	$0.015

(ii) 27,272,738 Options issued to parties participating in a placement vested upon issue.

The value of these options has been determined by using the black-scholes valuation methodology with the following inputs:

Exercise price	$0.03
Grant date	19 October 2011
Expiry date	30 June 2013
Share price at grant date	$0.020
Expected volatility of the Group's shares	125%
Expected dividend yield	Nil
Risk free interest rate	3.29%
Fair value of option at grant date	$0.010

NOTE 14. SHARE BASED PAYMENTS (CONT'D)

(iii) 9,979,382 Options issued to Komodo Capital Pty Ltd vested upon issue.

The value of these options has been determined by using the black-scholes valuation methodology with the following inputs:

Exercise price	$0.022
Grant date	21 November 2011
Expiry date	1 December 2014
Share price at grant date	$0.018
Expected volatility of the Group's shares	125%
Expected dividend yield	Nil
Risk free interest rate	3.23%
Fair value of option at grant date	$0.013

(iv) 4,500,000 Options issued to brokers in lieu of cash vested upon issue.

The value of these options has been determined by using the black-scholes valuation methodology with the following inputs:

Exercise price	$0.03
Grant date	16 February 2012
Expiry date	30 June 2013
Share price at grant date	$0.025
Expected volatility of the Group's shares	125%
Expected dividend yield	Nil
Risk free interest rate	3.29%
Fair value of option at grant date	$0.013

(v) 16,000,000 Options issued to consultants vested upon issue.

The value of these options has been determined by using the black-scholes valuation methodology with the following inputs:

Exercise price	$0.03
Grant date	10 October 2011
Expiry date	30 June 2013
Share price at grant date	$0.02
Expected volatility of the Group's shares	125%
Expected dividend yield	Nil
Risk free interest rate	3.29%
Fair value of option at grant date	$0.009

NOTE 14. SHARE BASED PAYMENTS (CONT'D)

(vi) 17,000,000 Options issued to consultants vested upon issue.

The value of these options has been determined by using the black-scholes valuation methodology with the following inputs:

Exercise price	$0.03
Grant date	27 October 2011
Expiry date	30 June 2013
Share price at grant date	$0.02
Expected volatility of the Group's shares	125%
Expected dividend yield	Nil
Risk free interest rate	3.29%
Fair value of option at grant date	$0.010

A total of $899,482 was recognised as a share based payment expense within the Consolidated Statement of Profit or Loss and Other Comprehensive Income during the year ended 30 June 2012.

The number and weighted average exercise prices of share options are as follows:

	2013		2012	
	Number of Options	Weighted Average Exercise Price $	Number of Options	Weighted Average Exercise Price $
Outstanding at the beginning of the year	79,252,120	$0.035	500,000	$0.50
Granted	-	-	78,752,120	$0.027
Forfeited	-	-	-	-
Exercised	-	-	-	-
Expired	-	-	-	-
Cancelled	-	-	-	-
Outstanding at year end	79,252,120	$0.035	79,252,120	$0.035
Exercisable at year end (i)	75,252,120	$0.036	75,252,120	$0.036

(i) The difference between options outstanding at year end and options exercisable at year end is 4,000,000 unvested options.

NOTE 15. ASSETS AND LIABILITIES CLASSIFIED AS HELD FOR SALE AND DISCONTINUED OPERATION

DISCONTINUED OPERATION

The Group made the decision to dispose of its interest in Grants Ridge during the year ended 30 June 2012 to enable the Group to focus on its newly acquired Zambian manganese projects. The sale completed on 28 August 2012.

At completion, the Group received proceeds from the sale of USD $50,000.

(A) ASSETS CLASSIFIED AS HELD FOR SALE

	2013 $	2012 $

NOTE 21. SEGMENT INFORMATION

IDENTIFICATION OF REPORTABLE SEGMENTS

The Group has identified its operating segments based on internal reports that are reviewed and used by the board of directors (chief operating decision makers) in assessing performance and determining the allocation of resources.

The Group's principal activities are exploration and development of and manganese projects. These activities are managed on a project by project basis. Operating segments are therefore determined on the same basis.

Reportable segments disclosed are based on aggregating operating segments where the segments are considered to have similar economic characteristics.

BASIS OF ACCOUNTING FOR PURPOSES OF REPORTING BY OPERATING SEGMENTS

Unless stated otherwise, all amounts reported to the board of directors as the chief decision maker with respect to operating segments are determined in accordance with accounting policies that are consistent with those adopted in the annual financial statements of the Group.

Segment assets are clearly identifiable on the basis of their nature and physical location.

Liabilities are allocated to segments where there is a direct nexus between the incurrence of the liability and the operations of the segment. Segment liabilities include trade and other payable and certain direct borrowings.

Items of revenue, expense, assets and liabilities are not allocated to operating segments if they are not considered part of the core operations of any segment.

NOTE 22. BUSINESS COMBINATION

a) Summary of acquisition

On 28 October 2011, the Group announced that, following the completion of its technical, legal and financial due diligence, it had acquired 100% of the share capital of African Asian Mining Development Ltd ("AAMD") and its subsidiaries. The acquisition of AAMD provides the Group with a 51% interest in 5 Large Scale Prospecting Licenses and 2 Small Scale Mining Licenses covering over 2,700 km^2 including large areas known to be prospective for manganese comprising the Emmanuel Project which includes the current Chowa Open Pit Mine, the Mansa Project, and the Serenje Project (together the "Zambian Manganese Projects").

Details of the purchase consideration, net assets acquired, and fair value of exploration acquired are as follows:

Purchase consideration (refer to (**b**) below):

		Deferred Consideration		
	Total	**Shares & Options to be Issued (Equity)**	**Current Liability**	**Non-Current Liability**
	$	**$**		
Cash	1	-	-	-
Tranche 1 Shares (i)	1,802,226	-	-	-
Tranche 2 Shares and Options(ii)	2,480,000	2,480,000	-	-
Tranche 3 Shares and Options (iii)	3,200,000	3,200,000	-	-
Royalties (iv)	2,051,801	-	216,200	1,835,601
Total	**9,534,028**	**5,680,000**	**216,200**	**1,835,601**

(i) In accordance with the share sale agreement, the Group issued 75,000,000 Shares on 3 November 2011 upon completion of the acquisition.

(ii) In accordance with the share sale agreement, the Group will issue 80,000,000 Shares and 80,000,000 free attaching options exercisable at $0.08 on or before 31 July 2012 on the date the Zambian Manganese Projects achieve a minimum of 10,000,000 tonnes of JORC (or equivalent) manganese resource within 18 months from the execution of the share sale agreement (by March 2013). During the year ended 30 June 2013, the performance milestone date was extended from March 2013 to 1 April 2014 and the expiration date of the 80,000,000 Options was extended to 1 April 2014. A value of $2,480,000 has been assigned to these shares and options based upon a 100% probability of meeting the performance milestone.

(iii) In accordance with the share sale agreement, the Group will issue 80,000,000 Shares with 80,000,000 free attaching options exercisable at $0.08 on or before 1 April 2014 on the date the Zambian Manganese Projects achieve a minimum manganese production of 30,000 tonnes per month of JORC (or equivalent) Saleable Manganese Ore for at least 3 months within any 6 month period, provided that it is achieved within 30 months from the execution of the share sale agreement. A value of $3,200,000 has been assigned to these shares and options based upon a 100% probability of meeting the performance milestone.

NOTE 22. BUSINESS COMBINATION (CONT'D)

(iv) The Company will also pay a $1 per tonne royalty to parties nominated by the vendors as consideration for the acquisition. The estimated royalty payable has been determined based on forecast run of mine production over the life of the mine using a discount rate of 16.5%. Should run of mine production be significantly different than forecast and/or not proceed in accordance with the expected timeframe, the royalty payable may be significantly different than that recorded at 30 June 2013. Significant changes in either the Group's borrowing rate or cost of capital will impact the Group's discount rate, which may also cause the royalty payable to differ significantly from that recorded at 30 June 2013.

(v) To secure its 100% equity interest in AAMD, the Company must spend a total of $2,500,000 on the acquired projects in the two years from acquisition date. The Group has expended more than the required amount on the projects between date of acquisition and 30 June 2013 and therefore considers its expenditure obligations met.

The assets and liabilities recognised as a result of the acquisition are as follows:

	Carrying Value $	30 June 2013 Fair Value $	30 June 2012 Provisional Fair Value $
Cash	125,646	125,646	125,646
Trade and other receivables	164,578	164,578	164,578
Plant and equipment	121,949	121,949	121,949
Mineral exploration expenditure	1,564,680	15,510,378	9,660,748
Trade and other creditors	-	-	-
Borrowings	(744,626)	(744,626)	(744,626)
Inter-company borrowings	(1,725,947)	-	-
Deferred tax liability	(268,105)	(5,753,214)	(3,705,810)
Subtotal	(761,825)	9,424,711	5,622,485
Attributable to non-controlling interest	109,317	109,317	109,317
Net assets/(liabilities) acquired	(652,508)	9,534,028	5,731,802

At 30 June 2012 the fair values of assets and liabilities acquired were determined on a provisional basis. During the measurement period to 28 October 2012, being 12 months after the date of acquisition, the provisional amounts recognised at acquisition date have been retrospectively adjusted to reflect the issue of Tranche 2 and Tranche 3 Shares and Options which were approved by shareholders subsequent to 30 June 2012. This has resulted in an adjustment to shares to be issued of $4,000,000 and a reclassification of options to be issued of $1,200,000 from the deferred acquisition liability to equity. These adjustments are reflected in the increased fair value of mineral exploration expenditure and increased deferred tax liability.

NOTE 22. BUSINESS COMBINATION (CONT'D)

b) Purchase consideration – cash outflow

	$
Cash consideration paid as of 31 December 2011	1
Less: cash balances acquired	(125,646)
Net outflow/(inflow) of cash – investing activities	(125,645)

At 30 June 2013, acquisition related costs of approximately nil (30 June 2012: $64,000) are included within corporate and operational costs in profit or loss and in operating cash flows in the statement of cash flows.

NOTE 23. CONTROLLED ENTITIES

SUBSIDIARIES

The consolidated financial statements include the assets, liabilities, and results of the following subsidiaries as disclosed in note 1(a).

	Country of Incorporation	% Owned 2013	% Owned 2012
Parent Entity			
Kaboko Mining Ltd	Australia		
Entities controlled by Kaboko Mining Ltd

(ii) Deregistered during the year
(iii) Incorporated during the year.

NOTE 23. CONTROLLED ENTITIES (CONT'D)

TRANSACTIONS WITH NON-CONTROLLING INTERESTS

On 29 June 2012, African Asian Mining Development Ltd ("AAMD") acquired an additional 24% shareholding in Impondo Zambia Limited through the issue of 24,000,000 ordinary fully paid shares of Kaboko Mining Ltd (note 11). The 24% increase in shareholding takes AAMD's shareholding in Impondo Zambia Limited to 75% at 30 June 2012.

The carrying amount of the non-controlling interests at acquisition date was $3,573. The Group recognised an increase in non-controlling interests of $301,252 and a decrease in equity attributable to the parent of $784,825 as a result of the additional 24% shareholding acquired.

The effect of changes in the ownership interest of Impondo Zambia Limited on the equity attributable to the owners of Kaboko Mining Ltd during the year is as follows:

	30 June 2013	30 June 2012
	$	$
Carrying amount of non-controlling interests	-	3,573
Increase in non-controlling interests	-	301,252
Consideration paid to non-controlling interests	-	480,000
EXCESS OF CONSIDERATION PAID RECOGNISED WITHIN OTHER RESERVES IN EQUITY	-	784,825

NOTE 24. CONTINGENT LIABILITIES

Pursuant to the prepayment debt facility with Noble Group and as approved by shareholders at the Company's Annual General Meeting on 27 November 2012, the Company has committed to issue a maximum of 100,000,000 warrants to Noble Group.

As consideration for the lease of the Chowa Small Scale Mining Site, licence number 14869-HQ-SML, the Group has committed to pay a royalty of USD $6/tonne on all Manganese ore sold from the licence area.

There are no other contingent liabilities at 30 June 2013 (30 June 2012: nil).

NOTE 25. FINANCIAL INSTRUMENTS

This note presents information about the Group's exposure to credit, liquidity, and market risks; its objectives, policies, and processes for measuring and managing risk; and the management of capital (note 11). Further quantitative disclosures are included throughout this financial report.

The Board of Directors has an overall responsibility for the establishment and oversight of the risk management framework.

The Group holds the following financial instruments:

	2013 $	2012 $
Financial Assets		
Cash and cash equivalents	266,764	206,513
Trade and other receivables	22,619	700,037
Financial Liabilities		
Trade and other payables	939,837	713,744
Borrowings	6,109,614	1,967,691
Derivative financial instrument	33,437	-
Deferred acquisition liability	2,051,801	3,731,801

Due to the nature of the Group's financial instruments, fair values and carrying values are the same.

FINANCIAL RISK MANAGEMENT POLICIES

The Group's financial instruments consist of deposits with banks, trade and other receivables, trade and other payables, borrowings, a derivative financial instrument, and a deferred acquisition liability. The Group's policy is that no trading in financial instruments shall be undertaken. The main purpose of non-derivative financial instruments is to finance Group operations.

The Group's derivative financial instrument arises from a convertible note issued by the Group.

The Group does not speculate in the trading of derivative instruments.

TREASURY RISK MANAGEMENT

The Board considers the Group's financial risk exposure and treasury management strategies in the context of the Group's operations. The Board's overall risk management strategy seeks to assist the Group in meeting its financial targets, whilst minimising potential adverse effects on financial performance.

NOTE 25. FINANCIAL INSTRUMENTS (CONT'D)

FINANCIAL RISK EXPOSURES AND MANAGEMENT

The main risks the Group is exposed to through its financial instruments are foreign currency risk, credit risk, price risk, and liquidity risk. The Board reviews each of these risks on an on-going basis.

INTEREST RATE RISK

The Group has a policy of minimising its exposure to interest rate risk on debt by fixing interest rates. Details of the Group's interest rates are included in note 9.

FOREIGN CURRENCY RISK

The Group is exposed to fluctuations in foreign currencies arising from the sale and purchase of goods and services in currencies other than the Group's measurement currency. The Group's exploration projects are located in overseas jurisdictions and payments for exploration activities as well as the anticipated receipts from potential future production are denominated in foreign currencies. The Group is also exposed to fluctuations in foreign currencies arising from deposits with banks denominated in foreign currencies. The Group does not seek to hedge this exposure at this stage of its development.

EXPOSURE TO CURRENCY RISK

The Group's exposure to foreign currency risk at reporting date was as follows:

	Consolidated	
	30 June 2013	30 June 2012
	USD	USD
Cash and cash equivalents	76,095	-
Receivables	-	685,461
Borrowings	(4,659,020)	(397,113)
Trade and other payables	(30,470)	(66,347)
	(4,613,395)	222,001

SENSITIVITY ANALYSIS

The Group has performed a sensitivity analysis relating to its exposure to foreign currency risk at balance date. This sensitivity analysis demonstrates the effect on the current year results and equity which could result from a change in these risks.

A 10 percent strengthening of the Australian Dollar against the following currencies at 30 June 2012 would have increased/(decreased) equity and profit or loss by the amounts shown below. This analysis assumes that all variables, in particular interest rates, remain constant. The analysis is performed on the same basis for 2012. 10 percent is management's assessment of the possible change in foreign exchange rates based on historical information.

	Equity		Profit or Loss	
	2013	2012	2013	2012
	$	$	$	$
Consolidated				
USD	107,437	274,886	107,437	274,886
	107,437	274,886	107,437	274,886

NOTE 25. FINANCIAL INSTRUMENTS (CONT'D)

CREDIT RISK

At 30 June 2013, cash deposits of nil were committed as security for credit cards, operating leases and environmental bonds (2012: $108,255).

The maximum exposure to credit risk, excluding the value of any collateral or other security, at reporting date to recognised financial assets, is the carrying amount, net of any provisions for impairment of those assets, as disclosed in the statement of financial position and notes to the financial statements. There are no other material amounts of collateral held as security at 30 June 2013 or at 30 June 2012. Credit risk is managed on a Group basis and reviewed by the Board. It arises from exposures to customers as well as through deposits with financial institutions. The Board monitors credit risk by actively assessing the quality and liquidity of counter parties, consequently only banks are utilised for deposits and all potential customers are assessed for credit worthiness taking into account their size, market position and financial standing. The counterparties included in trade and other receivables at 30 June 2013 and at 30 June 2012 are not rated, however given the amount and nature of these financial instruments, the Board is satisfied that they represent a low credit risk for the Group. There are no significant concentrations of credit risk within the Group.

COMMODITY PRICE RISK

The Group is exposed to commodity price risk through its Zambian Manganese Projects. Manganese prices may vary substantially and the Group does not currently hedge the price it sells at. The Group's projects at 30 June 2013 are at the exploration stage. The value of the Group's exploration projects and their ultimate feasibility is subject to risk from changes in the market price of manganese.

Equity price risk

The Group is exposed to equity price risk on its derivative liabilities disclosed at note 10. The liability fluctuates with the Group's underlying share price until the option holders convert. The Group has no policy for mitigating potential adversities associated with its own equity price risk given its dependence on market fluctuations.

The Group's exposure to equity price risk at reporting date was as follows:

	Profit or Loss	
	2013	2012
	$	$
Derivative financial instrument	33,437	-
	33,437	-

NOTE 25. FINANCIAL INSTRUMENTS (CONT'D)

LIQUIDITY RISK

The Group manages liquidity risk by monitoring forecast cash flows and ensuring that adequate funds are available through on-going business activity and capital raisings.

CONTRACTUAL MATURITIES OF FINANCIAL LIABILITIES

Contractual liabilities of financial liabilities are as follows:

2013	Carrying amount $	Principle & Interest (Contractual Cashflow) $	6 months or less $	6-12 months $	1-2 years $	2-5 years $
Consolidated						
Trade and other payables	939,837	939,837	939,837	-	-	-
Borrowings	6,109,614	6,349,392	4,515,460	-	1,833,932	-
Derivative financial instrument	33,437	33,437	-	-	-	33,437
Deferred acquisition liability	2,051,801	2,051,801	216,200	-	1,835,601	-
	9,134,689	9,374,467	5,671,497	-	3,669,533	33,437

2012	Carrying amount $	Principle & Interest (Contractual Cashflow) $	6 months or less $	6-12 months $	1-2 years $	2-5 years $

NOTE 25. FINANCIAL INSTRUMENTS (CONT'D)

FINANCING ARRANGEMENTS

At 30 June 2013 and as disclosed at note 9, the Group has a USD $10M prepayment & off-take facility with Noble Group, of which USD $4,500,000 has been drawn down at 30 June 2013.

FAIR VALUE MEASUREMENTS

The fair value of financial assets and liabilities must be estimated for recognition and measurement purposes.

AASB 7 Financial Instruments: Disclosures requires disclosure of fair value measurements by level of the following fair value hierarchy:

(a) Quoted prices (unadjusted) in active markets for identical assets or liabilities (level 1)
(b) Inputs other than quoted prices included within level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices) (level 2), and
(c) Inputs for the asset or liability that are not based on observable market data (unobservable inputs) (level 3).

The following table presents the Group's assets and liabilities measured and recognised at fair value at 30 June:

2013

	Level 1 $	Level 2 $	Level 3 $	Total $
Liabilities				
Derivative financial instrument	-	33,437	-	33,437
	-	33,437	-	33,437

There were no financial assets or liabilities requiring fair value hierarchy disclosure at 30 June 2012.

The fair value of financial instruments that are not traded in an active market is determined using valuation techniques. The Group makes a number of assumptions based upon observable market data at each reporting period. The fair values of the option derivative is determined based on a black-scholes option pricing model, based upon various inputs at the end of the reporting period. These instruments are included in level 2.

NOTE 26. RELATED PARTY TRANSACTIONS

The Group is not controlled by any other entity.

Transactions between related parties are on normal commercial terms and conditions no more favourable than those available to other parties unless otherwise stated. Transactions with related parties comprise:

CONTROLLED ENTITIES

Interests in controlled entities are set out in Note 23.

NOTE 26. RELATED PARTY TRANSACTIONS (CONT'D)

OTHER TRANSACTIONS WITH DIRECTORS AND DIRECTOR RELATED ENTITIES

During the year consulting fees of $175,000 were paid or accrued to Okap Ventures Pty Ltd, a company of which Mr Jason Brewer is a director for the period up to his resignation, for the provision of company secretarial, financial management, strategic and corporate advisory, capital raising, investor and public relations and associated services in fully serviced offices in both Perth and London.

During the year consulting fees of ZAR 3,651,639 (AUD $393,089) were paid or accrued to Impondo South Africa Limited , a company of which Tokkas Van Heerden is a director for the period since his appointment, for the provision of Operational Services for the Zambian Projects.

Amounts owing to related parties included within trade and other payables at 30 June 2013 as follows:

Related party	Nature	Amount
Okap Ventures Pty Ltd	Corporate management services	$330,927
Malenga Machel	Director fees	$3,565
Tokkas Van Heerden	Director fees	$150,000
Tokkas Van Heerden	Consultancy fees	$327,812
Shannon Robinson	Director fees	$7,725

NOTE 27. EVENTS OCCURRING AFTER THE REPORTING PERIOD

No other matters or circumstances have arisen since the end of the financial year which significantly affected or may significantly affect the operations of the Group, the results of those operations, or the state of affairs of the Group in subsequent financial years except as follows:-

- On 20 August 2013 , the Group announced:-
  - That it had rapidly brought the Mansa Mine into operation since the completion of the Noble Group Agreement in March 2013, with production from the mine reaching 5,000 tonnes per month, and it had concluded its first sale of 2,000 tonnes of high-grade Manganese ore to the NobleGroup;
  - A further US$1.16M had been drawn from Tranche B of the $10M Pre-Pay Facility for additional key mining plant and equipment to accelerate production underlines the ongoing Noble Group support for the project and the Company.

- On 4 September the Group announced the allotment of 170,440,000 new options exercisable at $0.012 on or before 31 August 2016 in accordance with the Entitlement Issue Prospectus dated 2 August 2013. On 24 September 2013, the Group announced the completion of the option rights issue shortfall of 121,975,898 attaching new options exercisable at $0.012 on or before 31 August 2013. Funds raised from the Option Rights Issue totalled $292,415 before costs.

- On 10 September the Group announced the appointment of Mr Andrew Simpson, Mr Nigel Goodall and Mr Paul D'Sylva to the Board of Directors and the resignation of Mr Leapeetswe (Papi) Molotsane.

NOTE 28. DIVIDENDS

No dividends have been paid or proposed during the year.

NOTE 29. NEW ACCOUNTING STANDARDS AND INTERPRETATIONS

AUSTRALIAN ACCOUNTING STANDARDS/AMENDMENTS RELEASED BUT NOT YET EFFECTIVE: 30 JUNE 2013 YEAR END

The following new/amended accounting standards and interpretations have been issued, but are not mandatory for financial year ended 30 June 2013. They have not been adopted in preparing the financial statements for the year ended 30 June 2013 and are expected to impact the consolidated entity in the initial period of application. In all cases the entity intends to apply these standards from the date of application as indicated below:-

AASB Reference	Title and Affected Standard(s)	Nature of Change	Application Date	Impact on Initial Application
AASB 9 *(issued December 2009 and amended December 2010)*	Financial Instruments	Amends the requirements for classification and measurement of financial assets. The available-for-sale and held-to-maturity categories of financial assets in AASB 139 have been eliminated. Under AASB 9, there are three categories of financial assets: • Amortised cost • Fair value through profit or loss • Fair value through other comprehensive income. The following requirements have generally been carried forward unchanged from AASB 139 *Financial Instruments: Recognition and Measurement* into AASB 9: • Classification and measurement of financial liabilities; and • Derecognition requirements for financial assets and liabilities. However, AASB 9 requires that gains or losses on financial liabilities measured at fair value are recognised in profit or loss, except that the effects of changes in the liability's credit risk are recognised in other comprehensive income.	Annual reporting periods beginning on or after 1 January 2015	The Group has financial liabilities measured at fair value through profit or loss. The amendments require that any changes in fair value attributable to the liability's credit risk be recognised in other comprehensive income instead of profit or loss. There will be no impact on the financial statements when these amendments are first adopted because they apply prospectively from 1 January 2015.

NOTE 29. NEW ACCOUNTING STANDARDS AND INTERPRETATIONS (CONT'D)

AASB Reference	Title and Affected Standard(s)	Nature of Change	Application Date	Impact on Initial Application
AASB 10 *(issued August 2011)*	Consolidated Financial Statements	Introduces a single 'control model' for all entities, including special purpose entities (SPEs), whereby all of the following conditions must be present: • Power over investee (whether or not power used in practice) • Exposure, or rights, to variable returns from investee • Ability to use power over investee to affect the entity's returns from investee. Introduces the concept of 'de facto' control for entities with less than a 50% ownership interest in an entity, but which have a large shareholding compared to other shareholders. This could result in more instances of control and more entities being consolidated. Potential voting rights are only considered when determining if there is control when they are substantive (holder has practical ability to exercise) and the rights are currently exercisable. This may result in possibly fewer instances of control.	Annual reporting periods beginning on or after 1 January 2013	When this standard is first adopted for the year ended 30 June 2014, there will be no impact on transactions and balances recognised in the financial statements because the entity does not have any special purpose entities or because the new definition of control does not change the classification of any of the entities investments in subsidiaries, joint arrangements or associates.
AASB 11 *(issued August 2011)*	Joint Arrangements	Joint arrangements will be classified as either 'joint operations' (where parties with joint control have rights to assets and obligations for liabilities) or 'joint ventures' (where parties with joint control have rights to the net assets of the arrangement). Joint arrangements structured as a separate vehicle will generally be treated as joint ventures and accounted for using the equity method (proportionate consolidation no longer allowed). However, where terms of the contractual arrangement, or other facts and circumstances indicate that the parties have rights to assets and obligations for liabilities of the arrangement, rather than rights to net assets, the arrangement will be treated as a joint operation and joint venture parties will account for the assets, liabilities, revenues and expenses in accordance with the contract.	Annual reporting periods beginning on or after 1 January 2013	When this standard is first adopted for the year ended 30 June 2014, there will be no impact on transactions and balances recognised in the financial statements because the entity has not entered into any joint arrangements.

NOTE 29. NEW ACCOUNTING STANDARDS AND INTERPRETATIONS (CONT'D)

AASB Reference	Title and Affected Standard(s)	Nature of Change	Application Date	Impact on Initial Application
AASB 13 *(issued September 2011)*	Fair Value Measurement	Currently, fair value measurement requirements are included in several Accounting Standards. AASB 13 establishes a single framework for measuring fair value of financial and non-financial items recognised at fair value in the statement of financial position or disclosed in the notes in the financial statements. Additional disclosures required for items measured at fair value in the statement of financial position, as well as items merely disclosed at fair value in the notes to the financial statements. Extensive additional disclosure requirements for items measured at fair value that are 'level 3' valuations in the fair value hierarchy that are not financial instruments, e.g. land and buildings, investment properties etc.	Annual reporting periods beginning on or after 1 January 2013	The Group has yet to conduct a detailed analysis of the differences between the current fair valuation methodologies used and those required by AASB 13. However, when this standard is adopted for the first time for the year ended 30 June 2014, there will be no impact on the financial statements because the revised fair value measurement requirements apply prospectively from 1 July 2013. When this standard is adopted for the first time for the year ended 30 June 2014, additional disclosures will be required about fair values.
AASB 119 *(reissued September 2011)*	Employee Benefits	Main changes include: • Elimination of the 'corridor' approach for deferring gains/losses for defined benefit plans • Actuarial gains/losses on remeasuring the defined benefit plan obligation/asset to be recognised in OCI rather than in profit or loss, and cannot be reclassified in subsequent periods • Subtle amendments to timing for recognition of liabilities for termination benefits • Employee benefits expected to be settled (as opposed to due to settled under current standard) wholly within 12 months after the end of the reporting period are short-term benefits, and therefore not discounted when calculating leave liabilities. Annual leave not expected to be used wholly within 12 months of end of reporting period will in future be discounted when calculating leave liability.	Annual reporting periods beginning on or after 1 January 2013	The Group currently calculates its liability for annual leave employee benefits on the basis that it is due to be settled within 12 months of the end of the reporting period because employees are entitled to use this leave at any time. The amendments to AASB 119 require that such liabilities be calculated on the basis of when the leave is expected to be taken, i.e. expected settlement. When this standard is first adopted for the 30 June 2014 year end, annual leave liabilities will be recalculated on 1 July 2012 as long-term benefits because they are not expected to be settled wholly within 12 months after the end of the reporting period.

NOTE 29. NEW ACCOUNTING STANDARDS AND INTERPRETATIONS (CONT'D)

AASB Reference	Title and Affected Standard(s)	Nature of Change	Application Date	Impact on Initial Application
AASB 119 *(reissued September 2011)*	Employee Benefits			This will result in a reduction of the annual leave liabilities recognised on 1 July 2012, and a corresponding increase in retained earnings at that date. Comparatives for the year ended 30 June 2013 will also be restated, resulting in a further decrease in the annual leave liability and an increase in profit.
Interpretation 20 *(issued November 2011)*	Stripping Costs in the Production Phase of a Surface Mine	Clarifies that costs of removing mine waste materials (overburden) to gain access to mineral ore deposits during the production phase of a mine must be capitalised as inventories under AASB 102 *Inventories* if the benefits from stripping activity is realised in the form of inventory produced. Otherwise, if stripping activity provides improved access to the ore, stripping costs must be capitalised as a non-current, stripping activity asset if certain recognition criteria are met (as an addition to, or enhancement of, an existing asset).	Annual reporting periods beginning on or after 1 January 2013	The Group currently expenses stripping costs in profit or loss. When this interpretation is first adopted for the year ended 30 June 2014, stripping costs incurred prior to 1 July 2012 will not need to be capitalised retrospectively. However, if certain recognition criteria are met, stripping costs expensed on or after 1 July 2012 will need to be capitalised and depreciated/amortised over the expected useful life of the identified component of the ore body that becomes more accessible as a result of the stripping activity. Comparatives for the year ended 30 June 2013 will be restated and profit and non-current assets to which the stripping activity relates will increase.
AASB 12 *(issued August 2011)*	Disclosure of Interests in Other Entities	Combines existing disclosures from AASB 127 *Consolidated and Separate Financial Statements*, AASB 128 *Investments in Associates* and AASB 131 *Interests in Joint Ventures*. Introduces new disclosure requirements for interests in associates and joint arrangements, as well as new requirements for unconsolidated structured entities.	Annual reporting periods beginning on or after 1 January 2013	As this is a disclosure standard only, there will be no impact on amounts recognised in the financial statements. However, additional disclosures will be required for interests in associates and joint arrangements, as well as for unconsolidated structured entities.

NOTE 29. NEW ACCOUNTING STANDARDS AND INTERPRETATIONS (CONT'D)

AASB Reference	Title and Affected Standard(s)	Nature of Change	Application Date	Impact on Initial Application
AASB 2012-6 *(issued September 2012)*	Amendments to Australian Accounting Standards - Mandatory Effective Date of AASB 9 and Transition Disclosures	Defers the effective date of AASB 9 to 1 January 2015. Entities are no longer required to restate comparatives on first time adoption. Instead, additional disclosures on the effects of transition are required.	Annual reporting periods beginning on or after 1 January 2015	As comparatives are no longer required to be restated, there will be no impact on amounts recognised in the financial statements. However, additional disclosures will be required on transition, including the quantitative effects of reclassifying financial assets on transition.

KABOKO MINING LTD
ABN 93 107 316 683

DIRECTOR'S DECLARATION

The directors of the Group declare that:

1. the financial statements comprising the consolidated statement of profit or loss and other comprehensive income, consolidated statement of financial position, consolidated statement of cash flows, consolidated statement of changes in equity and accompanying notes, are in accordance with the *Corporations Act 2001* and:

   (a) comply with Accounting Standards and the Corporations Regulations 2001 and other mandatory professional reporting requirements; and

   (b) give a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of its performance for the year ended on that date.

2. The consolidated entity has included in the notes to the financial statements an explicit and unreserved statement of Compliance with International Financial Reporting Standards.

3. In the director's opinion there are reasonable grounds to believe that the Group will be able to pay its debts as and when they become due and payable.

4. The directors have been given the declarations by the chief executive officer and chief financial officer required by section 295A.

This declaration is made in accordance with a resolution of the Board of Directors and is signed for and on behalf of the directors by:

Tokkas Van Heerden
Executive Director

INDEPENDENT AUDITOR'S REPORT

To the members of Kaboko Mining Ltd

Report on the Financial Report

We have audited the accompanying financial report of Kaboko Mining Ltd, which comprises the consolidated statement of financial position as at 30 June 2013, the consolidated statement of profit or loss and other comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entities it controlled at the year's end or from time to time during the financial year.

Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that gives a true and fair view and is free from material misstatement, whether due to fraud or error. In Note 1, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the company's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Kaboko Mining Ltd, would be in the same terms if given to the directors as at the time of this auditor's report.

Opinion

In our opinion:

(a) the financial report of Kaboko Mining Ltd is in accordance with the *Corporations Act 2001*, including:

 (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2013 and of its performance for the year ended on that date; and

 (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and

(b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 1.

Emphasis of Matter

Without modifying our opinion, we draw attention to Note 1 in the financial report which indicates that the ability of the consolidated entity to continue as a going concern is dependent upon the future successful raising of necessary funding through equity, successful exploration and subsequent exploitation of the consolidated entity's tenements. These conditions, along with other matters as set forth in Note 1, indicate the existence of a material uncertainty that may cast significant doubt about the consolidated entity's ability to continue as a going concern and therefore, the consolidated entity may be unable to realise its assets discharge its liabilities in the normal course of business at the amounts stated in the financial report.

Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2013. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

Opinion

In our opinion, the Remuneration Report of Kaboko Mining Ltd for the year ended 30 June 2013 complies with section 300A of the *Corporations Act 2001*.

CORPORATE GOVERNANCE STATEMENT

The Board of Directors is responsible for the overall strategy, governance and performance of Kaboko Mining Limited and its controlled entities. The Group is an exploration Group whose strategy is to add substantial shareholder value through the acquisition, exploration, development and commercialisation of its projects. The Board has adopted a corporate governance framework which it considers to be suitable given the size, history and strategy of the Group.

Principles of Best Practice Recommendations

In accordance with ASX Listing Rule 4.10, Kaboko Mining Limited is required to disclose the extent to which it has followed the Principles of Best Practice Recommendations during the financial year. Where Kaboko Mining Limited has not followed a recommendation, this has been identified and an explanation for the departure has been given. Further details can be found on the Group's website.

	BEST PRACTICE RECOMMENDATION	COMMENT
1.	***Lay solid foundations for management and oversight***	
1.1	Companies should establish the functions reserved to the board and those delegated to senior executives and disclose those functions.	Satisfied. Refer the Corporate Governance section on the Group website.
1.2	Companies should disclose the process for evaluation the performance of senior executives.	Not satisfied. The Group has not yet established formal performance review measures for key executives given the size and stage of the Group's operations.
1.3	Provide the information indicated in *Guide to Reporting on Principle 1.*	Satisfied. Refer to Director's report and the Corporate Governance section on the Group website.
2.	***Structure the board to add value***	
2.1	A majority of the board should be independent directors.	Satisfied. Four of the six directors are non-executives.
2.2	The chairperson should be an independent director.	Satisfied. The Board was pleased to announce the appointment of Non-Executive Chairman Mr Andrew Simpson on 9 September 2013.
2.3	The roles of chairperson and chief executive officer should not be exercised by the same individual.	Satisfied. The roles of the Chairman and the Chief Executive Officer are exercised by Mr Andrew Simpson and Mr Tokkas Van Heerden respectively.
2.4	The board should establish a nomination committee.	Not satisfied. The Board considers that given the current size of the board, this function is efficiently achieved with full Board participation. Accordingly, the Board has resolved not to establish a nomination committee at this stage.
2.5	Disclose the process for performance evaluation of the board, its committees and individual directors, and key executives.	Not satisfied. The Group has not yet established formal performance review measures for key executives nor has it established a nomination committee given the size and stage of the Group's operations. The full Board will review the performance of key executives.
2.6	Provide the information indicated in *Guide to Reporting on Principle 2.*	Satisfied. Refer to Director's report and the Corporate Governance section on the Group website. In addition, The Board, Board Committees or individual Directors may seek independent external professional advice as considered necessary at the expense of the Group, subject to prior consultation with the Chairman. A copy of any such advice received is made available to all members of the Board.

CORPORATE GOVERNANCE STATEMENT

	BEST PRACTICE RECOMMENDATION	COMMENT
3.	***Promote ethical and responsible decision-making***	
3.1	Companies should establish a code of conduct to guide the directors, the chief executive officer (or equivalent), the chief financial officer (or equivalent) and any other key executives as to: (a) the practices necessary to maintain confidence in the group's integrity; and (b) the practices necessary to take into account their legal obligations and the reasonable expectations of their stakeholders (c) the responsibility and accountability of individuals for reporting and investigating reports of unethical practices.	Satisfied. Refer the Corporate Governance section on the Group website.
3.2	Companies should establish a policy concerning diversity and disclose the policy or a summary of that policy. The policy should include requirements for the board to establish measureable objectives for achieving gender diversity and for the board to assess annually both the objectives and progress in achieving them.	Not Satisfied. The Group recognises that a talented and diverse workforce is a key competitive advantage and that an important contributor to the Group's success is the quality, diversity and skills of its people. Under the Group's Code of Conduct, employees must not harass, discriminate or support others who harass and discriminate against colleagues or members of the public on the grounds of sex, pregnancy, marital status, age, race (including their colour, nationality, descent, ethnic or religious background), physical or intellectual impairment, homosexuality or transgender. Such harassment or discrimination may constitute an offence under legislation. Due to the small scale of the Group's operations and the limited number of employees, the Group has not yet established a Diversity Policy. However, as the Group develops the Board will consider adopting such a policy.
3.3	Companies should disclose in each annual report the measureable objectives for achieving gender diversity set by the board in accordance with the diversity policy and progress in achieving them.	Not Satisfied. Given the size of the Group, the Group has not yet set measurable objectives for achieving gender diversity. In addition, the Board will review progress against any objectives identified on an annual basis.
3.4	Companies should disclose in each annual report the proportion of women employees in the whole organisation, women in senior executive positions and women on the board.	Satisfied. Given the size of the Board and the Group, the Board considers that this function is efficiently achieved with Ms Robinson as a director. In addition Ms Flegg and Ms Robinson are joint Group Secretary holding senior executive position in the Group. There are currently 2 women in senior executive positions within the Group, representing 30% of total senior executive positions within the Group.
3.5	Provide the information indicated in *Guide to Reporting on Principle 3.*	Satisfied. Refer the Corporate Governance section on the Group website.
4.	***Safeguard integrity in financial reporting***	
4.1	The board should establish an audit committee.	Not Satisfied. The Directors believe that it would not increase efficiency or effectiveness to have a separate audit committee, and that audit matters are of such

	BEST PRACTICE RECOMMENDATION	COMMENT
		significance that they should be considered by the full Board. The Board may seek independent external professional advice as considered necessary if it requires assistance in this area.
4.2	Structure the audit committee so that it consists of: (a) only non-executive directors; (b) a majority of independent directors; (c) an independent chairperson, who is not chairperson of the board; and (d) at least three members.	Not satisfied. Refer 4.1.
4.3	The audit committee should have a formal charter.	Not satisfied. Refer 4.1.
4.4	Provide the information indicated in *Guide to Reporting on Principle 4.*	Satisfied. Refer to Director's report.
5.	***Make timely and balanced disclosure***	
5.1	Establish written policies and procedures designed to ensure compliance with ASX Listing Rule disclosure requirements and to ensure accountability at a senior executive level for that compliance and disclose those policies or a summary of those policies.	Satisfied. Continuous disclosure policy is available in the Corporate Governance section on the Group website.
5.2	Provide the information indicated in *Guide to Reporting on Principle 5.*	Satisfied. Refer 5.1
6.	***Respect the rights of shareholders***	
6.1	Design a communications policy for promoting effective communication with shareholders and encouraging their participation at general meetings and disclose the policy or a summary of that policy.	Satisfied. Communications with Shareholders policy is available in the Corporate Governance section on the Group website.
6.2	Provide the information indicated in *Guide to Reporting on Principle 6.*	Satisfied. Refer to the Group website.
7.	***Recognise and manage risk***	
7.1	The Group should establish policies for the oversight and management of material business risks and disclose a summary of those policies.	Satisfied. Risk management policy is available in the Corporate Governance section on the Group website.
7.2	The Board should design and implement the risk management and internal control system to manage the group's material business risks and report on whether those risks are being managed effectively. The Board should disclose that management has reported to it as to the effectiveness of the Group's management of its material business risks.	Satisfied. Refer 7.1 & 7.3
7.3	The board should disclose whether it has received assurances from the chief executive officer (or equivalent) and the chief financial officer (or equivalent) that the declaration provided in accordance with section 295A of the Corporations Act is founded on a sound system of risk management and internal control and that the system is operating effectively in all material respects in relation to	Satisfied.

	BEST PRACTICE RECOMMENDATION	COMMENT
	financial reporting risks.	
7.4	Provide the information indicated in *Guide to Reporting on Principle 7.*	Satisfied. Refer 7.1
8.	***Remunerate fairly and responsibly***	
8.1	The board should establish a remuneration committee.	Not satisfied. The Board considered this recommendation and formed the view that it would not increase efficiency or effectiveness to have a separate committee, and that remuneration matters are of such significance that they should be considered by the full Board. The Board may seek independent external professional advice as considered necessary if it requires assistance in this area.
8.2	Clearly distinguish the structure of non-executive directors' remuneration from that of executives.	Details of executive and non-executive remuneration are outlined in the Directors' report.
8.3	Provide the information indicated in *Guide to Reporting on Principle 8.*	Satisfied.
