

## TERANGA AND OROMIN ANNOUNCE COMPLETION OF OFFER

**Toronto and Vancouver, Canada:** August 7, 2013 – Teranga Gold Corporation (“**Teranga**”) (TSX and ASX:TGZ) and Oromin Explorations Ltd. (“**Oromin**”) (TSX:OLE and OTC/BB:OLEPF) today announced that as at the expiry time of 9:00 p.m. (Toronto Time) on August 6, 2013, a total of 78,985,388 common shares (“**Oromin Shares**”) of Oromin, representing approximately 57.5% of the outstanding Oromin Shares (on a non-diluted basis), had been tendered to the Teranga offer (the “**Offer**”) to acquire all of the outstanding Oromin Shares that Teranga did not already own. Together with 18,669,500 Oromin Shares currently owned by Teranga, this represents a total of 97,684,888 Oromin Shares, or approximately 71.1% of the outstanding Oromin Shares (on a non-diluted basis). This excludes deficient tenders that may yet be rectified and additional Oromin Shares that may be tendered pursuant to the Notice of Guaranteed Delivery process.

All Oromin options have been rolled-over into Teranga options in accordance with the terms of the Support Agreement between Teranga and Oromin dated July 22, 2013 in respect of the transaction.

Teranga has taken up all Oromin Shares that were validly deposited to the Offer and has notified Kingsdale Shareholder Services Inc., in its capacity as depository for the Offer, that Teranga will promptly pay for the Oromin Shares that have been taken up, on the basis of 0.60 of a Teranga common share for each Oromin Share tendered to the Offer.

Teranga now expects to move forward with a plan of arrangement transaction under the B.C. Business Corporation Act to acquire the remaining Oromin Shares not deposited to the Offer, which would include causing a special meeting of Oromin shareholders to be called to consider a statutory arrangement involving Oromin and/or the Oromin shareholders and Teranga, or an affiliate of Teranga. Details of the plan of arrangement will be announced in due course.

“I am very pleased that so many Oromin shareholders have agreed to participate in our vision for the consolidation of our respective properties, a combination that unlocks not only immediate operational synergies but more importantly the opportunity to bring the OJVG property into production in the near term,” said Alan R. Hill, Executive Chairman of Teranga.

Mr. Chet Idziszek, President and director of Oromin, commented, “We are very pleased with this transaction from an Oromin perspective as it not only offers Oromin shareholders an attractive upfront premium it also allows all shareholders - Teranga and Oromin - to participate in the value creation we would anticipate from a combined operation, and in

particular leveraging Teranga's existing infrastructure and operational capabilities with the OJVG's high grade, near surface ore."

"With the OJVG deposits in production, we would anticipate increased production, earnings and free cash flows from Teranga's interest in the OJVG open pit reserves. We truly believe this is a win-win for all parties and we are confident that we can work with all shareholders including the Government of Senegal to realize value." added Richard Young, President and CEO of Teranga.
