Dear Sir,

## **ANNOUNCEMENT**

The Directors of Tasmania Mines Limited are pleased to announce that for the first time in many years the Company has sold approximately 40,000 tonnes of 66% Fe magnetite fines for steel making in China. Shipment is scheduled in the middle of September 2013.

This comes at an opportune time as the Company has observed a softening in the demand for magnetite for Australian coal washery purposes.

The Directors note that the Company is planning to undertake additional capital expenditure in the next few years on the necessary update of the Kara mine electrical systems, filtration and storage facilities which should lead to improved efficiency.

Yours faithfully,  
**Tasmania Mines Limited**
