Company Announcements Platform ASX Limited

BLUGLASS WELCOMES SWANSEA UNIVERSITY TO SHARE REGISTER

BluGlass Limited (ASX: BLG) is pleased to welcome Swansea University to its share registry following the gifting of shares by SPTS Technologies UK Limited ("SPTS") to one of its valuable strategic partners.

Swansea University in Wales is a world leading academic and research institution, with its Department of Research and Innovation (DRI) acting as a bridge between industry and academia. Through knowledge exchange projects, the DRI has enabled SPTS to extend its scope of research beyond existing markets and to gain access to additional R&D funding. In the future, BluGlass looks forward to exploring potential collaboration options with Swansea University.

It should be noted that SPTS remains BluGlass' largest shareholder and continues to support BluGlass through its strategic position in the Company. In addition, SPTS CEO Dr. William Johnson continues to provide invaluable industry expertise and guidance to BluGlass as a member of the Board of Directors.

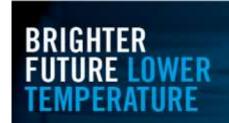

-Ends-

About BluGlass:

BluGlass Limited (winner of the 2013 Australian Cleantech Competition) is an Australian green technology company formed to commercialise a breakthrough in the Semiconductor Industry. BluGlass has invented a new process using Remote Plasma Chemical Vapour Deposition (RPCVD) to grow semiconductor materials such as gallium nitride (GaN) and indium gallium nitride (InGaN), crucial to the production of high efficiency devices such as next generation lighting technology Light Emitting Diodes (LEDs) with advanced low cost potential.

The RPCVD technology, because of its low temperature and highly flexible nature, offers many potential benefits over existing technologies including higher efficiency, lower cost and greater scalability.
