

24 January 2014

Dear Shareholder,

### 2014 Renounceable Rights Issue Offer and Shortfall Offer

As announced to the market on 22 January 2014, Immuron Limited (ASX: IMC) (**Company**) is pleased to provide an opportunity to its shareholders to participate in a renounceable pro-rata rights issue (the **Offer**). The Offer will raise approximately \$9.66 million before transaction costs and is fully underwritten. Pursuant to the Offer, the Company expects to issue 1,931,745,402 new fully paid ordinary shares (**New Shares**) at an issue price of \$0.005 (0.5 cents) per New Share.

Patersons Securities Limited is Lead Manager and Underwriter to the Offer. BBY Limited is Broker to the Offer.

The Company intends to use the net proceeds raised from the Offer to fund Phase 2B clinical trials for the treatment of Non-Alcoholic SteatoHepatitis (**NASH**), to continue the global commercialisation of Travelan, to repay the existing debt owed to Paladin, for general working capital purposes and to fund the development and commercialization of other Immuron products.

“This capital raising is an important milestone for Immuron,” said Immuron CEO Amos Meltzer. “It is the first time in a long time that funds have been raised for growth, rather than survival. With the protracted turn-around process well and truly bedded down, these funds will ensure that the Company’s technology platform can be exploited for a range of products”.

“Foremost, we are excited to be finally pursuing the important Phase 2B trial for NASH. NASH is a very large unmet medical need with relatively few companies developing a product for it. Those companies with NASH product candidates, like Immuron, can expect to be in the spotlight. This notion was recently exemplified by Intercept Pharmaceuticals (NASDAQ: ICPT) which announced positive phase 2B clinical trial results on 9 January 2014 and saw its market value soar from \$1.5 billion to over \$8 billion and currently remains valued at approximately \$6 billion.”

The New Shares in the Rights Issue will be fully paid, they will rank equally with the Company’s existing issued shares (IMC) and the Company will make an application to the ASX for official quotation of the New Shares. They will be offered to shareholders with an address in Australia or New Zealand (**Eligible Shareholders**) as at 5:00 p.m. AWST on 3 February, 2014 (**Record Date**) on the basis of eleven (11) New Shares for each six (6) fully paid ordinary shares held in the Company as at the Record Date (**Entitlement**). Fractional Entitlements will be rounded up to the nearest whole number. Those shareholders who subscribe for their full Entitlement are also able to subscribe for any New Shares other shareholders have not subscribed for under their Entitlements (**Shortfall Offer**).

The number of issued Shares in the Company at the date of this announcement and the total number of New Shares to be issued at the close of the Offer are as follows:

Shares	Number
Securities currently on issue	1,053,679,310
New Shares (issued on the basis of a 11:6 ratio)	1,931,745,402
<b>Total</b>	<b>2,985,424,712</b>
