ANNOUNCEMENT CLARIFICATION

nearmap's announcement dated 29 May 2014 stated that "RP Data offers map imagery that is almost a year old." nearmap would like to clarify that, in the event of any misinterpretation, RP Data also offers map imagery that is more recent.

nearmap further clarifies that, in the event of any misinterpretation, the reference to "old, slow data" in the announcement is not a specific reference to RP Data, but to the current industry generally.
