Financial Review

Group revenue increased by 50% year-on-year ("y-o-y") to S\$313.3 million in FY2014, largely due to full year contribution from Neptune Marine Services ("Neptune"), which became the Group's subsidiary in December 2012. The Oilfield Engineering segment also contributed to revenue growth, with increased activity levels in Bahrain, incremental growth in Singapore, and contribution from the Binder Group in its first quarter of consolidation with the Group. However, revenue from the Engine Systems segment declined by 11% mainly due to the depreciation of the Australian Dollar.

Gross profit grew by 42% y-o-y to S\$103.8 million in FY2014. The inclusion of Neptune lowered gross profit margin slightly to 33.1% in FY2014, compared to 35.0% in FY2013. Similarly, staff cost grew by 71% to S\$45.7 million. Other operating expenses remained relatively stable at S\$27.1 million, taking into consideration the restatement of FY2013 financial statements to adjust for finalized figures relating to the acquisition of Neptune.

In line with revenue growth, net profit attributable to shareholders increased by 57% to S\$24.2 million in FY2014 from S\$15.4 million in FY2013. This translated into basic earnings per share of 19.19 Singapore cents (FY2013: 13.17 Singapore cents).

Balance Sheet	31 Mar 2014	31 Mar 2013 (Restated)
	SGD'000	SGD'000
Net current assets	79,087	85,888
Net assets	140,605	120,759
Cash and cash equivalents	37,432	40,911
Finance lease payable	1,360	916
Borrowings	64,517	72,659
Shareholder's funds	130,950	110,356
Net gearing ¹	16.8%	21.3%
Net assets value ²	103.0 cents	88.0 cents

Net gearing ratio is calculated based on net debt divided by net capitalisation. The Group includes within its net debt, bank borrowings and finance lease payable, less cash and cash equivalents. Net capitalisation refers to net debt plus total equity.

Net assets value is calculated based on the Group's shareholders' funds divided by the total number of issued shares excluding treasury shares as at the end of the financial period.

The Group generated S\$32.2 million in cash flows from operating activities on the back of robust business activities. The repayment of bank borrowings reduced net gearing from 21.3% in FY2013 to 16.8% in FY2014. Consequently, the Group's cash and cash equivalents stood at S\$37.4 million as at 31 March 2014.

Rewarding Shareholders

The Board of Directors has proposed a final cash/scrip dividend of 2 Singapore cents per share. In addition, the Group will propose a bonus issue of one new ordinary share for every five ordinary shares held in the capital of MTQ which will be subjected to the approval of the Singapore Exchange Securities Trading Limited ("SGX-ST") for the listing and quotation of the bonus shares on the official list of the SGX-ST. Barring any unforeseen circumstances, the Group expects that the bonus shares will be entitled to the proposed final cash/scrip dividend in respect of the financial year ended 31 March 2014, which will represent a dividend payout ratio of 22.9% and an effective 50% increase in dividends paid over that of 2 years ago. Details of the proposed bonus issue will be provided in a separate announcement.

<u>Outlook</u>

Commenting on the results and outlook, Mr Kuah Boon Wee, Group Chief Executive Officer, said, "We are delighted to have achieved a good year of revenue and profit growth in FY2014, with stronger contributions from all the oil and gas divisions. Neptune had an exceptional quarter for 4QFY2013 which accounts for the weaker comparative for 4QFY2014. For FY2014, I am pleased that Neptune had an improved performance and that Singapore and Bahrain also improved their operating performance. We will focus on consolidating our operations and we anticipate a profitable year moving ahead.

The outlook for our operating businesses remains encouraging, although global economic uncertainties persist. Operationally, we will continue to focus on improving results in both Singapore and Neptune. We intend to build on 4QFY2014's record revenue in Bahrain and aim to achieve profitability in FY2015. The long term outlook for LNG projects underpins our desire to grow the Binder Group.

I am pleased that our efforts to build a more broad-based oilfield services group has led to increased returns to our shareholders in recent years. We will continue to work on improving our value proposition to our customers, so that we can continue to reward shareholders and our employees moving ahead.

As at 31 March 2014, the final allocation of the purchase price to the identifiable assets acquired and the liabilities assumed is currently being determined and has not been completed. Apart from the business combination, the change in net assets was also due to:

- Apart from the obstacles commisses commissed the relationships and the commission was also due to decrease in overall bank borrowings from S\$72.7 million to S\$64.5 million resulting mainly from repayment of the loans; profits of S\$24.9 million recognised for the financial year; and
- net translation loss of S\$1.1 million arising from foreign currency movements.

Whether the same accounting policies and methods of computation as in the issuer's most recently audited annual financial statements have been applied.

Other than the per share calculations and the finalisation of purchase price allocation ("PPA") of the acquisition of Neptune Marine Services Limited and its subsidiaries ("Neptune Group") (as described below), the Group has applied the same accounting policies and methods of computation as in the audited financial statements for the year ended 31 March 2013. The Group has also applied FRS and INT FRS that become effective in the financial year beginning on or after 1 April 2013. The adoption of these FRS and INT FRS has no significant impact on the financial

5 If there are any changes in the accounting policies and methods of computation, including any required by an accounting standard, what has changed, as well as the reasons for, and the effect of, the change.

i) Earnings per share calculations

On 12 July 2013, the Company issued 25,041,089 ordinary shares pursuant to the bonus issue on the basis of one (1) bonus share for every four (4) existing ordinary shares. Following the issue of bonus shares, the aggregate number of issued shares increased from 100,167,851 shares to 125,209,940 shares. As a result, the number of ordinary shares used for the per share calculations has been adjusted for retrospectively as required by FRS 33.

ii) PPA arising from acquisition of Neptune Group
On 1 November 2012, the Company's subsidiary, Blossomvale Investments Pte Ltd ("Blossomvale"), made an offer ("Offer") for all the issued ordinary shares in the capital of Neptune Marine Services Limited ("Neptune"), other than those already acquired by Blossomvale, at an offer price of A\$0.032 per share. As at the date of the offer, the Group held an equity interest of 19.24% in Neptune and accounted for it as an available-for-sale financial asset. On 14 December 2012, being the initial Offer close date, Blossomvale's equity interest in Neptune increased to 71.76%. Accordingly, Neptune became a subsidiary of the Group. With the completion of the final purchase price allocation during the current financial period, the following adjustments to the initial accounting for the business combination were made:

- . Intangible asset was reduced by S\$16.9 million to S\$1.3 million. The recognised intangible asset relates to order backlog and customer contracts which existed as at the date of acquisition and was amortised over the duration of the contracts. As at 31 March 2013, the intangible asset had been fully amortised;
- There was no longer a gain on bargain purchase of S\$5.1 million. Instead, a goodwill of S\$7.1 million was recognised;
- The fair value loss on available-for-sale financial asset reclassified to profit or loss upon obtaining control of S\$4.8 million, which was presented net of the provisional gain on bargain purchase as "other income" in the statement of comprehensive income in the prior financial period, was now reclassified to "other operating expenses"; and
- Subsequent to the initial Offer close date, Blossomvale acquired additional equity interests in Neptune from its non-controlling interests during the financial year ended 31 March 2013. Following the finalisation of the purchase price allocation, the fair value of the non-controlling interests acquired changed accordingly and the discount paid on acquisition of non-controlling interests was reduced by S\$2.3 million, resulting in a premium paid on acquisition of non-controlling interests of \$875,000 instead.

The effects of the finalisation of the purchase price allocation on prior period financial information were as follows:

Unaudited Financial Statements And Dividend Announcement For The Year Ended 31 March 2014

8 A review of the performance of the Group, to the extent necessary for a reasonable understanding of the Group's business. It must include any significant factors that affected the turnover, costs, and earnings of the group for the current financial period reported on, including (where applicable) seasonal or cyclical factors; and any material factors that affected the cash flow, working capital, assets or liabilities of the Group during the current financial period reported on.

3 months ended 31 March 2014 ("4QFY2014") vs 3 months ended 31 March 2013 ("4QFY2013")

The Group reported revenue of \$\$78.9 million for 4QFY2014, a decrease of 16% from \$\$93.7 million recorded in 4QFY2013, largely due to the absence of vessel campaign, which boosted 4QFY2013's revenue. The vessel campaign ended in June 2014. The Oilfield Engineering business contributed to revenue growth, with increased activity levels in Bahrain, incremental growth in Singapore, and contribution from the Binder Group in its first quarter of consolidation with the Group. Revenue from the Engine Systems segment declined by 13% mainly due to the depreciation of the Australian Dollar.

Gross profit margin increased slightly to 33.5% in 4QFY2014, compared to 32.6% in 4QFY2013, despite a decrease in gross profit by 14% to S\$26.4 million in 4QFY2014. Other operating expenses had decreased due to lower amortisation expense and provision for doubtful debts.

In line with the lower revenue, net profit attributable to shareholders decreased by 13% to \$\$5.8 million in 4QFY2014 from \$\$6.7 million in 4QFY2013. This translated into basic earnings per share of 4.56 Singapore cents (FY2013: 5.33 Singapore cents).

12 months ended 31 March 2014 ("FY2014") vs 12 months ended 31 March 2013 ("FY2013")

The Group reported revenue of S\$313.3 million for FY2014, increase of 50% over S\$208.7 million recorded in FY2013. The increase in revenue was largely due to full year contribution from Neptune Marine Services ("Neptune"), which became the Group's subsidiary in December 2012. The Oilfield Engineering business contributed to revenue growth, with increased activity levels in Bahrain, incremental growth in Singapore, and contribution from the Binder Group in its first quarter of consolidation with the Group. However, revenue from the Engine Systems segment declined by 11% mainly due to the depreciation of the Australian Dollar.

Gross profit grew 42% to \$\$103.8 million in FY2014. The inclusion of the Neptune Group lowered gross profit margin slightly to 33.1% in FY2014, compared to 35.0% in FY2013. Similarly, staff cost grew by 71% to \$\$45.7 million. Other operating expenses remained relatively stable at \$\$27.1 million, taking into consideration the restatement of FY2013 financial statements to adjust for finalised figures relating to the acquisition of Neptune.

In line with revenue growth, net profit attributable to shareholders increased by 57% to S\$24.2 million in FY2014 from S\$15.4 million in FY2013. This translated into basic earnings per share of 19.19 Singapore cents (FY2013: 13.17 Singapore cents).
