SCEE advises that it has received notification from Rio Tinto of the award of further Electrical and Instrumentation works at the Cape Lambert Port B Project with a value of approximately \$40m.

The award, which takes the form of variations to the previously awarded Phase 1 package for the Car Dumpers and Screenhouse, covers the Balance of Works and brings the total value of SCEE's awarded work on the project to approximately \$80m.

#### About SCEE

SCEE is an emerging Tier One provider of specialised electrical and instrumentation services to Australia's resources sector. Delivering life-of-project electrical infrastructure, construction and support services to its blue-chip customers for more than 30 years, SCEE also has a strong reputation for safety and excellence. Our expertise and capacity enables us to undertake complex large-scale projects in harsh and remote environments. Committed to our people with a strong focus on training and development, our track-record and collaborative, flexible approach has seen us continually expand our operations.

SCEE was established in 1978 and is listed on the Australian Securities Exchange in 2007 under the code SXE.
