

## **Brisbane Electrical and Maintenance Services Business - Sold**

Following the sale of the major business assets of Thomas & Coffey to the Skilled Group in February, the Board of THO Services are pleased to advise that the Brisbane Electrical and Maintenance Services Business (EMS) has been sold to a private investment group.

This is a pleasing result as it has meant that some of our remaining staff will be employed by the new owner, who will also take over the Acacia Ridge business premises that are currently leased.

We will continue to keep shareholders informed of our progress.
