Company Announcements Office  
ASX Ltd  
Level 4, 20 Bridge Street  
Sydney, NSW 2000

Dear Sir /Madam

**Supply of Automated Parcel Locker System to Poste Italiane**

TZ Limited (“TZ” and the “Company”) announces that the Italian postal organization, Poste Italiane, has awarded its automated parcel locker system tender to TZ’s integration partner, FBA Italy. As a result of this tender win, TZ will supply Poste Italiane with their Smart Parcel Locker requirements for an initial pilot program scheduled for deployment early in the New Year.

FBA Italy is a trusted supplier to Poste Italiane and a leading designer and manufacturer of turn-key handling systems and innovative technology dedicated to the worlds of Express Couriers, Logistics, Air Cargo and Industrial processes. With the support of TZ, FBA has worked through a competitive tender process to successfully win the Post Italiane business. It is understood that if the pilot is successful, it is Poste Italiane’s intention to build a parcel locker network throughout Italy.

As part of the pilot program, TZ will be supplying an initial five (5) locker banks and associated software and integration services and will train and support FBA Italy to undertake the maintenance and servicing of these lockers in operation.

“We are pleased to be working with our partner, FBA Italy to supply, commission and support the deployment of a TZ Smart Locker System for Poste Italiane” stated Kenneth Ting, Executive Director of TZ Limited. “This is a significant endorsement of our technology and clearly demonstrates that our offering is recognized as being world class and competitive on the world scale. It’s another milestone for TZ and shows that we can win postal business in Europe against the traditional European based parcel locker suppliers.”

**About FBA Italy**

FBA is a leading Italian designer and manufacturer of turn-key handling systems and cutting-edge technology dedicated to the worlds of Express Couriers, Logistics, Air Cargo and Industrial processes. Each FBA plant is tailored to meet customers’ specific needs and demands. FBA provides a fully comprehensive service, from the design, held by skilled and expert engineers, to the creation of management software, that ensures top quality automation performance, to the assembly of mechanical parts, both in factory or on-site. FBA guarantees a 24/7 After Sales Service providing specific, effective and fast intervention.
