28 February 2014

**Approvals in place for New Drilling Program to build on Copper and Gold intersections of Scout drilling program at Gabanintha and Rights Issue to raise up to \$3,490,262**

- Approvals from DMP are in place for drill program at Gabanintha.
- Approximately 20 RC holes to approximately 80m depth for a total of 1600m planned.
- Drilling program is planned to consolidate and add to previous outstanding gold and copper intercepts at the Northern Sector of the Gabanintha tenements in the Mid-West of Western Australia.
- As reported to the ASX on 27<sup>th</sup> November 2013:
  - GRC1159 intersected 5m at 9.64 g/t Au and 0.18% Cu from 58m down hole
  - GRC1158 intersected 1m at 11.4 g/t Au and 12.3% Cu within an interval of 5m at 8.72 g/t Au and 3.05% Cu from 31m down hole.
  - GRC1157 intersected 1m at 6.99 g/t Au within an interval of 10m at 2.59 g/t Au and 0.10% Cu from 33m down hole as well as 1m at 1.26 g/t Au at 50m down hole
- A detailed 1:10,000 scale mapping program will be conducted in the Northern Sector of E51/843 to confirm the strike and dip orientations of mineralised structures in advance of final design of drill hole azimuths.
- Yellow Rock Resources Limited to undertake non-renounceable rights issue to existing shareholders on the basis of 1 new share for every 1 share currently held at an issue price of 1 cent per new share, plus 1 free attaching option for every 1 share subscribed for and allotted.
- Rights issue to raise up to \$3,490,262 to strengthen balance sheet, facilitate further exploration at Gabanintha and other Yellow Rock Projects and provide working capital.

## Programme of Works Approval

Yellow Rock Resources Limited is pleased to announce it is in receipt of approval of the Programme of Work (PoW) from the Western Australian Department of Mines and Petroleum for Approximately 20 RC holes to a depth of about 80m for a total of 1600m at the Gabanintha Project.

The new RC drilling program has been designed to follow up on outstanding intercepts reported on the 27 November 2013.

Current geological interpretation is that several mineralized structures orientated approximately 005 degrees are parallel to a large quartz vein as well as the main contact between basalt and ultramafic units and form the target zones for this new program.

Detailed 1:10,000 scale mapping of outcrops, shears, quartz veins and workings will be conducted to confirm the structural orientation of the mineralization prior to drilling.

See Figure 2 for proposed collar locations.

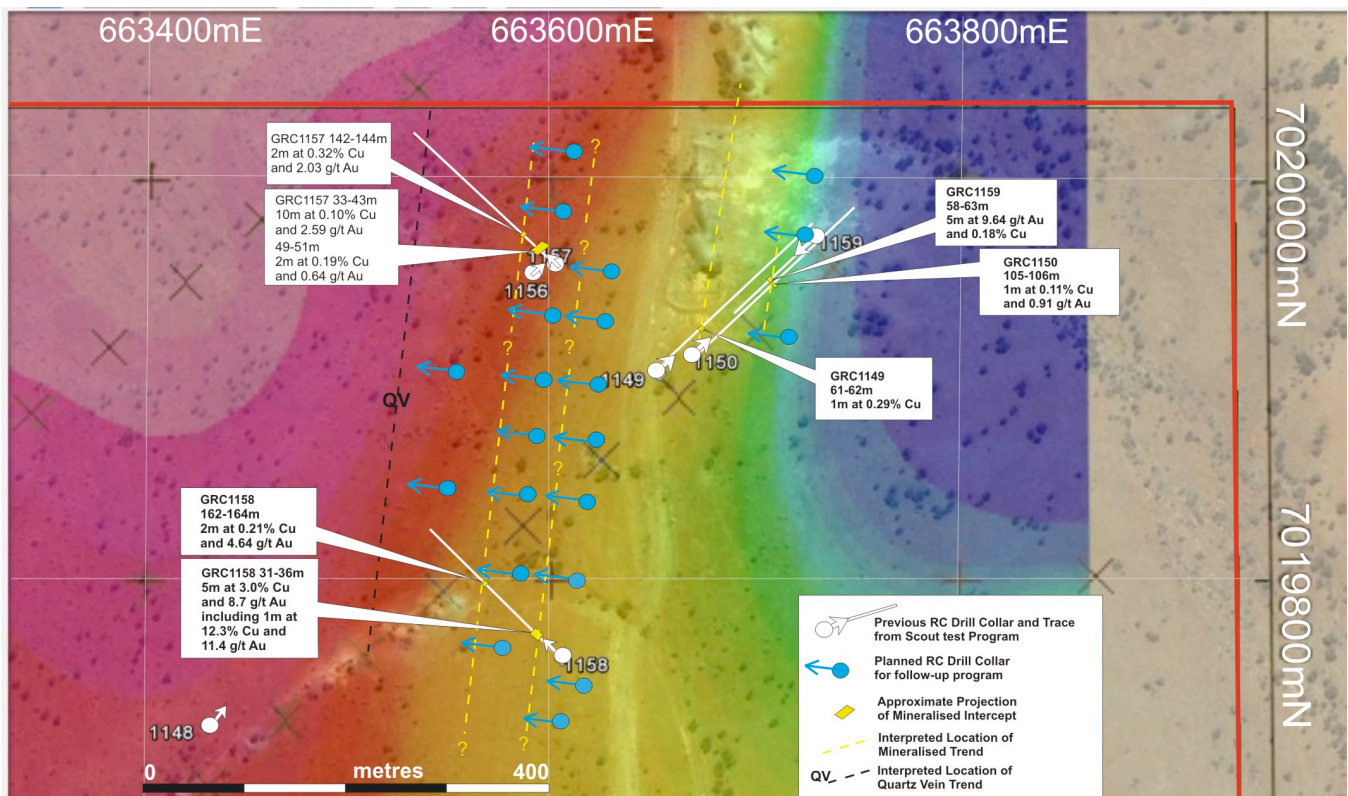

Figure 2 – Drilled collar sites GRC 1148 to GRC 1150 and GRC 1156 to GRC 1159 on background of Northern Sector IP anomaly. Proposed follow up program into two parallel lode structures. Arrows show UTM azimuth at dips at -60 degrees for all holes.

p (08) 9227 6300 f (08) 9227 6400 e [yrrinfo@yellowrock.com.au](mailto:yrrinfo@yellowrock.com.au)

It is pleasing to note that the 2013 12-hole scout program produced good assay values up to 12% copper and up to 23 g/t gold which is a first for the Northern Sector of E51/843.

The results to date confirm that YRR has discovered significant mineralized structures and that there is strong exploration upside for copper and gold on the Gabanintha tenements. Detailed mapping is expected to confirm the orientation of the mineralization. This will allow the planned RC drilling program to accurately follow up the very encouraging initial results.

### **Rights Issue**

Yellow Rock is pleased to announce a rights issue to existing shareholders to raise up to \$3,490,262. Shareholders will have the opportunity to subscribe for one (1) new share for every one (1) share held at the record date at an issue price of 1 cent per new share. Subscribers to the rights issue will also receive one (1) free attaching option exercisable at 1.5 cents and expiring on 31 December 2017, for every one (1) new subscribed for and issued.

Funds raised under the rights issue will be utilized for the upcoming exploration program at Gabanintha, future exploration programs of the Company's projects, working capital and costs of the issue.

The Company will advise further details of the rights issue in due course

Yours sincerely,

**Leslie Ingraham**  
Executive Director
