**CHATHAM ROCK PHOSPHATE LIMITED  
LISTS ON FRANKFURT BOURSE**

**WELLINGTON New Zealand** – Chatham Rock Phosphate Limited (TSXV: “**NZP**” and NZAX: “**CRP**” or the “**Company**”) wishes to announce that it has listed on the Frankfurt Stock Exchange, to make it easier for its burgeoning international investor base to trade their shares.

The latest move follows the completion of Chatham’s listing on the TSX Venture Exchange in March after a friendly reverse takeover of Antipodes Gold. Chatham has been listed on the New Zealand Alternative Exchange (NZAX) since 2006, when it was originally named Widespread Energy.

Investors domiciled in Singapore, Switzerland, United Kingdom, Germany, the Netherlands and North America have supported recent capital raisings by Chatham.

About 60 per cent of shares are held by New Zealanders.

“We continue to enjoy strong investor interest in Europe, North America and Asia, so we are facilitating the trading in our shares,” Managing Director Chris Castle said today.

Chatham’s ticker code in Frankfurt is 3GRE.
