CORRESPONDENCE

All correspondence and enquiries to the Manager about the Fund should be addressed to the Manager, Smartshares Limited, at the above address.

AUSTRALIAN RESOURCES FUND

Smartshares Limited (the 'Manager') and Public Trust (the 'Supervisor') are parties to a master trust deed dated 24 June 2014 as amended and restated on 9 September 2016 (the 'Trust Deed'). The Trust Deed sets out the terms and conditions on which units in the funds within the Smartshares Exchange Traded Funds are offered for subscription, whether to the public or otherwise.

The Trust Deed provides that each fund is to be established by the Manager and the Supervisor entering into an establishment deed setting out the specific terms and conditions relating to that fund.

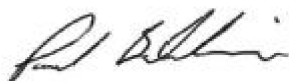

The Australian Resources Fund (the 'Fund') was created by an establishment deed dated 19 March 2015 as amended on 5 June 2015 and amended and restated on 9 September 2016 between the Manager and the Supervisor.

STATEMENT BY THE MANAGER

In our opinion, the accompanying financial statements and notes are prepared in accordance with Generally Accepted Accounting Practice in New Zealand ('NZ GAAP'), and fairly present the financial position of the Fund as at 30 September 2017, and the results of its financial performance and cash flows for the six months ended 30 September 2017 in accordance with the requirement of the Trust Deed.

It is believed that there are no circumstances that may materially and adversely affect any interest of the unitholders in the assets other than those already disclosed in this report.

For and on behalf of the Manager:

AUSTRALIAN RESOURCES FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

GENERAL INFORMATION

The Australian Resources Fund (the 'Fund') is a for-profit fund registered in New Zealand and established under the Financial Markets Conduct Act 2013 ('FMC Act 2013'). It is offered under a registered managed investment scheme known as the Smartshares Exchange Traded Funds. Smartshares Limited, the Manager of the Fund is a FMC reporting entity for the purposes of the FMC Act 2013.

The Fund is governed by the Trust Deed dated 24 June 2014 as amended and restated on 9 September 2016 between the Manager and the Supervisor. The Fund was established on 19 March 2015 and commenced operation on 7 April 2015.

The Fund's units are quoted on the NZX Main Board. The Fund is a passive investment fund that tracks the S&P/ASX 200 Resources Index (the 'Index'). As prescribed by the Trust Deed, the Fund invests in the securities included in the Index broadly in proportion to the weightings of the Index. Investments are valued at fair value according to last traded market prices on the Australian Securities Exchange on 29 September 2017 (see Note 2).

STATEMENT OF ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these financial statements are set out below. These accounting policies have been consistently applied to the periods/year presented.

Basis of preparation

The financial statements of the Fund have been prepared in accordance with the requirements of the FMC Act 2013, Financial Reporting Act 2013, New Zealand equivalents to International Financial Reporting Standards ('NZ IFRS') and International Financial Reporting Standards ('IFRS'). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss. The functional currency of this entity is the same as the presentation currency of these financial statements being the New Zealand Dollar ('NZD'), rounded to the nearest thousand.

The preparation of financial statements in conformity with NZ IFRS requires the use of certain critical accounting estimates. It also requires the Smartshares Limited Board of Directors to exercise its judgement in the process of applying the Fund's Statement of Accounting Policies.

Financial assets at fair value through profit or loss

(a) Classification

The Fund classifies its investments in equity securities held at fair value as financial assets at fair value through profit or loss. These financial assets are designated by the Smartshares Board of Directors at inception as the financial assets' performance is managed and evaluated on a fair value basis in accordance with a documented investment strategy.

(b) Recognition/derecognition

Purchases and sales of investments are recognised on the trade date - the date on which the Fund commits to purchase or sell the investment. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Fund has transferred substantially all risks and rewards of ownership.

(c) Measurement

Financial assets at fair value through profit or loss are recognised at fair value. Gains and losses arising from changes in the fair value of the 'financial assets at fair value through profit or loss' category are presented in the Statement of Comprehensive Income when they arise. Dividend income from financial assets at fair value through profit or loss is recognised in the Statement of Comprehensive Income within dividend income when the Fund's right to receive payment is established.

(d) Fair value estimation

The fair value of the financial instruments is based on quoted market prices at the reporting date. The quoted market price used for financial assets held by the Fund is the last traded market price.

Receivables

Trade receivables and other receivables that have fixed or determinable payments that are not quoted in an active market are classified as 'receivables'. Receivables are measured at amortised cost using the effective interest method less impairment.

Payables

Trade payables and other payables are recognised when the entity becomes obliged to make future payments resulting from the purchase of goods and services, and are measured at amortised cost.

AUSTRALIAN RESOURCES FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

Foreign currency transactions and balances

Foreign currency transactions are translated into the functional currency (NZD) using the exchange rate prevailing at the dates of the transactions.

Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at balance date exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Translation differences of non-monetary financial assets such as equities held at fair value through profit or loss are recognised in the Statement of Comprehensive Income as part of the net changes in fair value of financial assets at fair value through profit or loss.

Cash and cash equivalents

Cash and cash equivalents are considered to be cash at banks, net of bank overdrafts. Operating activities in the Statement of Cash Flows include all transactions or events that are not investing or financing activities. Investing activities are those activities that relate to the acquisition, holding and disposal of investments and securities not falling within the definition of cash. Financing activities relate to cash contributions, withdrawals and distributions.

Units

The Fund issues units, which provide the holder with a beneficial interest in the Fund. The units can be put back to the Fund via a basket redemption, in accordance with the redemption rules as defined in the Trust Deed, for securities of the constituent companies in proportion to the index and of a proportion of cash held in the Fund.

The units are issued and redeemed based on the Fund's net asset value per unit at the time of issue or redemption. The Fund's net asset value per unit is calculated by dividing the net assets attributable to the unitholders by the total number of outstanding units. In accordance with the provisions of the Trust Deed, investment positions are valued based on the last traded market price for the purpose of determining the net asset value per unit for subscriptions and redemptions.

Dividend income

Dividend income is recognised when the right to receive payment is established.

Distributions to unitholders

Distributions are made up of income received from the investments less expenses paid and allowances for future liabilities. Income from investments held is attributed to unitholders on the basis of the number of units held on the record date of the distribution. To the extent that imputation credits are available, distributions to unitholders will be fully imputed. The record date for the distributions are on the last business day of May and November in each year. Currently, distributions are paid to unitholders within 20 business days of the record date.

Taxation

The Fund is domiciled in New Zealand and is registered as a Portfolio Investment Entity ('PIE').

The Fund is liable for tax at the prevailing company tax rate on taxable dividends (excluding dividends from investments in securities subject to the Fair Dividend Rate method ('FDR')) from the investment in securities listed in Note 2 after the deduction of management fees. For securities subject to FDR, the Fund is liable for tax based on the market value of the security. The Fund is able to utilise imputation credits and foreign withholding tax credits when they arise. The Fund pays tax to the extent that the imputation credits and foreign withholding tax credits do not cover the tax liability in full.

Deferred tax is recognised in respect of temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes. Current and deferred tax is measured using the tax rates enacted or substantively enacted at the reporting date. The temporary differences relate to accrued dividends.

Goods and services tax (GST)

The Fund is not registered for GST and consequently all components of the financial statements are stated inclusive of GST where appropriate.

Segment information

The Fund operates solely in the business of investment management, investing in Australian equities. The Fund received all of its income from its Australian equity investments. For the period ended 30 September 2017, three equity investment individually contributed 10% or more of the Fund's dividend income (30 September 2016: three equity investments; 31 March 2017: three equity investments). The individual dividend income received from these equity investments was \$172,000, \$57,000 and \$44,000 (30 September 2016: \$55,000, \$24,000 and \$71,000; 31 March 2017: \$219,000, \$115,000, and \$89,000).

AUSTRALIAN RESOURCES FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

Changes in accounting policies and accounting standards adopted during the period

(a) Changes in accounting policies

There have been no significant changes in accounting policies during the period. All policies have been applied on a basis consistent with those used in the prior periods.

(b) New accounting standards adopted

There were no new accounting standards adopted during the period that have a material impact on the financial statements of the Fund.

Issued but not yet effective accounting standards

A number of accounting standards have been issued or revised that are not yet effective as at 30 September 2017, and have not been applied in preparing the financial statements. The Fund does not plan to adopt these standards early. The standards which are relevant to the Fund are as follows:

- NZ IFRS 9 Financial Instruments - Effective for annual reporting periods beginning on or after 1 January 2018. The impact of any changes has not yet been determined.
- NZ IFRS 15 Revenue from Contracts with Customers - Effective for annual reporting periods beginning on or after 1 January 2018. The impact of any changes has not yet been determined.

AUSTRALIAN RESOURCES FUND

NOTES TO THE FINANCIAL STATEMENTS FOR THE SIX MONTHS ENDED 30 SEPTEMBER 2017

3. FAIR VALUE OF FINANCIAL INSTRUMENTS

Financial instruments measured at fair value can be categorised across the following 3 levels based on the degree to which their fair value is 'observable':

Level 1 – Fair value measurements are derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2 – Fair value measurements are derived from inputs other than quoted prices included within level 1 that are observable either directly or indirectly;

Level 3 – Fair value measurements are derived from valuation methods that include inputs that are not based on observable market data.

All financial instruments of the Fund measured at fair value have been categorised as level 1 in the hierarchy. There were no transfers between levels in the period ended 30 September 2017 (30 September 2016: none; 31 March 2017: none).

4. EARNINGS PER UNIT

The basic earnings per unit (EPU) is calculated by dividing the net profit/(loss) after tax attributable to the unitholders by the weighted average number of units on issue during the period.

The Fund's diluted EPU is the same as the basic EPU since the Fund has not issued any instrument with dilutive potential.

	30 September 2017	30 September 2016	31 March 2017

The net asset value of each unit per the financial statements is \$3.88711 (30 September 2016: \$3.28789; 31 March 2017: \$3.74014). Any difference between the net asset value announced to the market for 29 September 2017 and the net asset value per the financial statements is due to different unit pricing methodology.

7. RELATED PARTY TRANSACTIONS

Related party holdings

Key management personnel are the Directors of the Manager. There were no transactions with key management personnel during the period.

The Fund is managed by Smartshares Limited, which is a wholly owned subsidiary of NZX Limited, a company listed on the NZX Main Board.

SuperLife superannuation scheme ("SLSS"), a scheme managed by SuperLife Limited, a wholly owned subsidiary of NZX Limited, was an investor in the Fund until 27 October 2016. Effective 28 October 2016, the investments were transferred from SLSS to SuperLife Invest managed investment scheme ("SLI"), a scheme managed by the Manager, also a wholly owned subsidiary of NZX Limited. The transfer of assets and change of Manager was completed as part of the transition of the SuperLife scheme to comply with the Financial Markets Conduct Act 2013.

As at 30 September 2017, SLI held 6,021,077 (31 March 2017: 6,021,077) units valued at \$23,415,000 (31 March 2017: \$22,529,000) in the Fund. As at 30 September 2016, SLSS held 6,021,077 units valued at \$19,808,000 in the Fund.

Distributions

The Fund paid distribution of \$285,000 to SLI for the period ended 30 September 2017 (31 March 2017: \$114,000). The balance remaining as payable at the end of the period is \$nil (31 March 2017: \$nil). The Fund paid distribution of \$61,000 to SLSS for the period ending 30 September 2016 (31 March 2017: \$61,000). The balance remaining as payable as at 30 September 2016 was \$61,000. All distributions were settled prior to the transfer of investments from SLSS to SLI on 28 October 2016.

Management fees

The Manager receives management fees from the Fund. Under the Trust Deed the Manager pays the supervisor, custodian, registrar and auditor on behalf of the Fund and receives all direct purchase application fees and interest earned on cash at banks.

Total gross management fees for the period ended 30 September 2017 amounted to \$65,000 (30 September 2016: \$51,000; 31 March 2017: \$112,000), with \$1,000 (30 September 2016: \$9,000; 31 March 2017: \$1,000) of outstanding accrued management fees due to the Manager at the end of the period.

The total interest earned on cash at banks for the period ended 30 September 2017 amounted to \$1,000 (30 September 2016: \$2,000; 31 March 2017: \$3,000).

8. FINANCIAL RISK MANAGEMENT

Strategy in using financial instruments

The Fund utilises a number of financial instruments in the course of its normal investing activities. Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised in respect of each class of financial asset and financial liability are disclosed in the Statement of Accounting Policies.

The financial instruments not accounted for at fair value through profit and loss are short-term financial assets and financial liabilities whose carrying amounts approximate fair value.

Funds held for unit purchases	(75)	(11)	(43)

The Fund's activities expose it to a variety of financial risks: market price risk, credit risk, liquidity risk and currency risk. The risk management policies used by the Fund are detailed below:

8a. Market price risk

The Fund's equity securities are exposed to market price risk arising from uncertainties about future prices of the financial instruments.

Because the Fund tracks an Australian equity index and is fully invested in the index's underlying Australian equity securities, the value of the Fund will move up and down with the Australian market.

A 10% increase/decrease in equity prices as at 30 September 2017 would have increased/decreased net profit and unitholder funds by \$2,534,000 (30 September 2016: \$2,024,000; 31 March 2017: \$2,350,000).

8b. Credit risk

The Fund is exposed to the potential risk of financial loss resulting from the failure of counterparties to honour fully the terms and conditions of a contract with the Fund. Financial instruments that subject the Fund to credit risk consist primarily of cash and receivables.

The maximum credit risk of financial instruments is considered to be their carrying value. The risk of non-recovery of monetary assets is considered very low due to the quality of counterparties dealt with.

The Fund does not require collateral or other security to support financial instruments with credit risk. The maximum exposures to credit risk at the reporting date are:

	30 September 2017 \$'000	30 September 2016 \$'000	31 March 2017 \$'000
Cash and cash equivalents	341	232	315
Receivables	134	39	132

Cash and cash equivalents

The Fund's cash and cash equivalents balances are held with ANZ Bank New Zealand Limited ('ANZ'), BNP Paribas Securities Services ('BNP Paribas') and Westpac New Zealand Limited ('Westpac').

The table below discloses the Standard & Poor's credit rating for the Fund's cash and cash equivalents balance with each bank above at the reporting date.

	30 September 2017		30 September 2016		31 March 2017	
	Balance \$'000	Credit rating	Balance \$'000	Credit rating	Balance \$'000	Credit rating
ANZ	75	AA-	11	AA-	43	AA-
BNP Paribas	16	A	49	A-	23	A
Westpac	250	AA-	172	AA-	249	AA-
	<u>341</u>		<u>232</u>		<u>315</u>	

8c. Liquidity risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with the financial liabilities that are settled by delivering cash or another financial asset.

The Fund's investments in listed securities are considered readily realisable, as they are quoted on the Australian Securities Exchange. In addition, liquidity risk associated with redemptions is managed by meeting redemptions in the form of baskets rather than cash. The Fund meets its redemption obligations by returning the proportionate number of underlying securities in return for the units. Liquidity risk for the Fund is therefore low.

8d. Currency risk

Currency risk is the risk that the value of the financial instruments will fluctuate due to changes in foreign exchange rates.

The Fund holds assets denominated in a currency other than the New Zealand dollar, the functional currency. It is therefore exposed to currency risk, as the value of the securities denominated in Australian dollars will fluctuate due to changes in the exchange rate. The Fund's policy is not to enter into any currency hedging transactions.

A 10% strengthening/weakening of the New Zealand dollar against the Australian dollar as at 30 September 2017 would have decreased/increased profit and unitholders funds by \$2,549,000 (30 September 2016: \$2,033,000; 31 March 2017: \$2,366,000).

The table below summarises the Fund's exposure to currency risks.

	30 September 2017 \$'000	30 September 2016 \$'000	31 March 2017 \$'000
Australian dollar cash held (NZD)	16	49	23
Receivables	134	39	132
Investments in equity securities held at fair value through profit or loss	25,344	20,239	23,503

9. COMMITMENTS AND CONTINGENCIES

The Fund had no commitments or contingencies as at 30 September 2017 (30 September 2016: none; 31 March 2017: none).

10. EVENTS AFTER THE REPORTING YEAR

Since 30 September 2017 there have been no matters or circumstances not dealt with in the financial statements that have significantly affected or may significantly affect the Fund.
