

## EXECUTIVE CHANGE: RESIGNATION OF CFO

Pacific Edge Limited advises that Kate Rankin has resigned as Chief Financial Officer with effect from 19<sup>th</sup> December 2019, to take up an opportunity with a larger organisation.

Pacific Edge CEO, David Darling, commented: “On behalf of the team at Pacific Edge, I would like to thank Kate for her contributions as Pacific Edge has continued to progress in its commercial journey in taking Cxbladder to the international and home markets. Kate joined Pacific Edge in 2014 and over this time has been a key member of the executive team. We wish Kate well in her future role.”

“Kate will remain in her CFO role with Pacific Edge until December this year.”

Pacific Edge will initiate a formal search to appoint a CFO and will advise the market in due course.

### OVERVIEW [www.pacifiedge.co.nz](http://www.pacifiedge.co.nz) [www.pacifiedgedx.com](http://www.pacifiedgedx.com)

Pacific Edge Limited (NZX: PEB) is a New Zealand publicly listed, cancer diagnostic company specialising in the discovery and commercialisation of diagnostic and prognostic tests for better detection and management of cancer. Its Cxbladder suite of non-invasive, simple to use and accurate diagnostic tests provide actionable results, and better detection and management of urothelial cancer. The company is developing and commercialising its range of Cxbladder bladder cancer tests globally through its wholly owned central laboratories in New Zealand and the USA. The company's products have been tested and validated in international multi-centre clinical studies.

### ABOUT Cxbladder Triage [www.cxbladder.com](http://www.cxbladder.com)

Cxbladder Triage combines the power of the genomic biomarkers with additional phenotypic and clinical risk factors to accurately identify patients with haematuria who have a low probability of bladder cancer and may not require a more extensive urological evaluation. Cxbladder Triage is a tool for use by clinicians and physicians in primary evaluation of patients with haematuria and is intended to reduce the need for an expensive and invasive work-up in patients who have a low probability of having urothelial carcinoma.

### ABOUT Cxbladder Detect [www.cxbladder.com](http://www.cxbladder.com)

Cxbladder Detect enables the non-invasive detection of bladder and other urinary tract cancers from a small volume of a patients' urine. Cxbladder Detect provides clinicians with a quick, cost effective and accurate measure of the presence of the cancer as an effective adjunct to cystoscopy.

### ABOUT Cxbladder Monitor [www.cxbladder.com](http://www.cxbladder.com)

Cxbladder Monitor allows urologists to monitor bladder cancer patients for recurrence of the disease. Bladder cancer has a recurrence rate of 50-80% and requires life-long surveillance. Cxbladder Monitor accurately identifies patients with a prior history of urothelial cancer (UC) whose Cxbladder Monitor score shows that they have a low probability of recurrent urothelial carcinoma. Cxbladder Monitor is designed to be used as the preferred adjunct test to cystoscopy in the management of patients for ongoing evaluation of recurrent bladder cancer.

**ABOUT Cxbladder Resolve** [www.cxbladder.com](http://www.cxbladder.com)

Cxbladder Resolve identifies those patients who are likely to have aggressive or more advanced bladder cancer. Cxbladder Resolve, when used as part of the primary evaluation of haematuria and/or in conjunction with other Cxbladder tests (Triage, Detect), is designed to assist clinicians by accurately identifying patients with a high probability of having high grade or late stage bladder cancer, for whom alternative or expedited treatment options may be warranted, or who can be prioritised for further investigation in high throughput settings.
