

Earnings Guidance Update**29 May2025**

Solution Dynamics (SDL or Company) previously advised on 25 March 2025 that it estimated the Company's second half FY2025 earnings result would likely to be in the range of around breakeven to around a loss of \$0.3 million, meaning the full year FY2025 result was expected to be in the range of \$2.0 million to \$2.4 million.

The combination of SDL's cost cutting initiatives, along with slightly better-than-expected revenue growth, now means it is likely that SDL's second half earnings are expected to produce a small profit.

Consequently, SDL's full year FY2025 earnings result is now likely to be around the top end of previous guidance, subject to the caveat that market and macroeconomic uncertainties remain unusually elevated.
