

[Templeton Emerging Markets Investment Trust PLC \('Temit'\)](#)

On behalf of Temit, Franklin Templeton Investment Trust Management Limited reports the unaudited cum-income net asset value ('NAV') of Temit as at

19 July 2024 was £2012.088m, representing a NAV of 185.27 pence per share.

The unaudited ex-income NAV of Temit as at **19 July 2024** was £1979.645m, representing a NAV of 182.29 pence per share.

In accordance with the Association of Investment Companies recommendations, the cum-income NAV has been calculated based on the total value of underlying assets,

including accumulated or accrued income, and using bid price information relating to the underlying assets.

The ex-income NAV has been calculated based on the total value of underlying assets, excluding these income elements, and using bid price information relating to the underlying assets.

[Portfolio data for Temit can be found on the website **www.Temit.co.uk**.](#)

If the long-term debt was valued at cost, the cum-income NAV would decrease by 0.23p
