Annual Report 2025

Leveraging our strength to seize new opportunities

As supply chain disruption is becoming the global norm, we continue to utilise our agility, scale and resources to turn volatility into opportunity.

Our key strengths in this environment

> One diversified network

A presence across 27 countries gives us the flexibility and scale to quickly respond and adapt to changing conditions. As markets ebb and flow, we are geared to seize opportunities when they arise.

> A borderless business

We draw on an international pool of experience and intelligence to meet our customers' complex geographical and service requirements. By being integrated, we provide comprehensive, smarter solutions.

> Potential to feed the network

We leverage our facilities and resources across the network. A single customer has the potential to utilise our entire international network. We look to attract customers with the potential to do this.

> A team that believes in better

None of this happens without our can-do Mainfreight family. Challenge is exciting, doing things better and smarter is embraced. We continue to invest in our people, providing what they need to excel; excellent facilities, training, technologies, ownership and belief.

NOTICE OF MEETING Notice is given that the annual meeting of shareholders of Mainfreight Limited will be held at 4.00pm on Wednesday, 30 July 2025 in the Level 4 Lounge, South Stand, Eden Park, Reimers Avenue, Kingsland, Auckland, New Zealand. Full details, including the Meeting Agenda, are contained in the separate Notice of Meeting and Explanatory Notes accompanying this report, and are also available on the Company's website, www.mainfreight.com, or by scanning the QR code to the left.

We should be proud of the business and the team for what they have achieved.

Some of us would express dissatisfaction with the advancement of mankind over the past two years. Global warming, natural disasters, and religious and racial intolerance seems to grow, while educational interest and achievement are replaced by crime, insolence, and violence.

At this year's ANZAC Day dawn parade service, it was emphasised that the time between World War 1 and World War 2 was only 21 years, followed closely by wars in Korea, Malaysia and Vietnam, and ongoing belligerence between Middle Eastern countries and religions.

It is a trying time of poor behaviour and prejudice, we should be grateful for those political and business leaders who advocate and practice peace and tolerance, and adherence to civilised human values. This should include all of us, teachers, parents, aunties, uncles and team members. May we contribute and care about our country and our neighbours.

While the results of our company are marginally behind the progress we made last year, and that disappoints us, we should be proud of the business and the team for what they have achieved. We have not only increased our revenue, but have dedicated ourselves to substantial infrastructure development to enhance our future business capabilities. This is especially true in New Zealand, where our expansion is driven by new transport cross-docks and warehouses. These advancements distinguish us from our competitors, and ensure that we offer our customers exceptional service moving forward.

We celebrate that in the latest year, Mainfreight Australia has surpassed the profits of Mainfreight New Zealand. We are delighted with this success, which we believe shows our full acceptance in the Australian market. We also believe that other larger countries will come to view New Zealand and Australia as a single market.

As I have written many times before, your company, Mainfreight, began collecting rainwater off the roof of its first branches in 1987. This has continued as we expand around the world. The water was originally used for truck washing and irrigation, but has now improved to drinking water standards at most branches. It is hard to believe that New Zealand governments have not made rainwater collection and use mandatory. Similarly, most

of our 337 branches around the world have sufficient solar panels to allow us to operate all electric forklifts and a number of electric trucks. Other opportunities are coming as battery storage improves, and surplus power is saved, not just returned to the supplier.

Business has much to gain by having a relationship with local schools. Often business can give an opportunity to a local school at very little cost, especially when both parties know the other cares, and they communicate. It also keeps us all more in touch with the way education is progressing, and the difficulties with attendance and social media etc. Seeing children learning is very good for the soul. Mainfreight has supported "Duffy Books in Homes" for over 31 years. Alongside this annual report we have included a copy of the "Duffy Books in Homes" brochure for all our New Zealand shareholders and team members in the hope that some of you may be able to help support the programme during these difficult times.

It is important to acknowledge our teams all around the world who have contributed to offer exceptional service in often challenging circumstances. Our sincerest thanks to our people and our customers.

A handwritten signature in black ink, appearing to read 'B. Pleased'.

BRUCE PLESTED, June 2025

JESSIER SORIANO AND FRAYNER VIDAL, NEWARK, USA
using one of our electric vehicles to make a delivery in Manhattan

Sales revenues have improved by 11% to NZ\$5.2 billion, recognising our ability to delight our loyal customers and attract new customers.

DON BRAID, Group Managing Director

To our shareholders, customers and team members of the Mainfreight family.

If we thought the previous three years post-covid have been tumultuous across supply chain activity, then we are very likely headed towards the most disruptive year the world supply chain has experienced post-World War 2 due to tariff charges initiated by the USA administration.

The post-covid tonnage increases were the result of over stimulated economies and product shortages. The current tariff upheaval is unravelling the efficiency of global trade finessed by companies over the last 60 plus years. No matter the country, or the outcome of trade negotiations, we will all need to readjust to trade tariff barriers changing supply trade routes, manufacturing and supply hubs.

Tariff responses

There have been a variety of supply chain responses from our customers as tariff negotiations continue. Many are taking a 'wait and see' approach, while others begin to adjust their manufacturing hubs and explore different trade lanes. Despite these changes, ongoing uncertainty is likely to result in fluctuating freight volumes and trade lane pricing in the immediate future. Mainfreight is well positioned to assist our customers to manage these uncertainties, leveraging our capabilities across Air & Ocean, Warehousing and domestic distribution.

➤ For our company, the uncertainties provide an opportunity for us to provide stability, capability and advice to our customers. Being located across 27 countries, with significant exposure to trade lane activity, we are well placed geographically to not only assist, but also take advantage of growth opportunities.

Whilst our results in the year-ended 31 March 2025 disappoint us, we have continued to improve our infrastructure and capability alongside satisfactory revenue growth. Sales revenues have improved by 11% to NZ\$5.2 billion, recognising our ability to delight our loyal customers and attract new customers.

This revenue growth was achieved across all divisions. Our profit before tax declined by 3%, to NZ\$383.6 million, impacted by an intensely competitive environment, and significantly higher property overheads as we migrate to new facilities. These new facilities highlight our continued investment in the very best infrastructure to enable our people to deliver ever improving service levels – not just in the immediate future, but pre-empting the growth we are pursuing.

Capital expenditure on land and buildings in this past year was \$111.2 million, with \$330.0 million planned over the next two years.

As we continue to develop our international network, we are taking the opportunity to learn from others, particularly where we identify ways to improve efficiency or reduce costs when constructing cross-docks for Transport and Warehousing. We remain cautious with our capital investments and network intensification in what is likely to be an ongoing challenging economic environment. We have learnt from our experience outside New Zealand and Australia that cross-docks for domestic distribution can be far more efficient if we tail load our vehicles, rather than side load via curtain-side equipment. This also reduces the size requirement of our cross-docks, reducing capital expenditure.

Focus on quality

Quality of service remains the cornerstone of our customer relationships and, where possible, we seek to provide service across our customers' end-to-end supply chain. This includes Air & Ocean services for their imports and exports, Warehousing when third party facilities are required and, of course, Transportation to and from their customers and suppliers. We prefer to focus on freight consignments, and with no infrastructure in courier or parcel activities, we contract these out to third party providers if required by our customers.

Our three core services **Air & Ocean, Warehousing** and **Transport** continue to be the foundations of our customer offering. Fine tuning and improving our capability across all three services is key to our quality standards. The majority of our freight profile for

Transport and Warehousing is "dry freight"; freight that does not require temperature-controlled equipment or facilities. The perishable and/or refrigerated freight and storage market is an expansion opportunity, particularly in Australia and New Zealand where we have full network capability and capacity. New warehouses will incorporate chiller capacity, and our Transport teams have initiated discussions with potential customers to develop refrigerated services to complement our "dry freight" services.

Our Warehousing requirements are driving the construction of larger warehouses, with automation features providing better efficiency and improved return on investment. The use of overflow warehousing is actively discouraged due to inherent inefficiencies and higher costs.

Our Air & Ocean teams continue to develop competencies in LCL freight consolidations to and from branches across our international network, alongside our full container services. This provides our customers increased options with airfreight for urgent consignments, LCL freight for small sea freight requirements and comprehensive multiple shipping company FCL services across trade lanes within our international network.

We continue to grow international freight volumes, moving 435,872 TEU's across the world's oceans, and 144m kgs of airfreight in this past financial year. Wharf cartage, or drayage as it is called in North America, and customs documentation are additional service offerings to our customers. Customs clearances now exceed 250,000 per annum for our customers.

ELLA LORIMER, EPPING, MELBOURNE, AUSTRALIA

OLIVER HUTCHBY AND CRAIG HINE, TAURANGA, NEW ZEALAND

We continue to develop our information technology for customers and suppliers to provide more information, transparency and visibility across all supply chain freight transactions. We are also exploring the role artificial intelligence (AI) will play in the future.

Performance across the regions

Our broad geographical capability is divided into five regions; Europe, Asia, The Americas, Australia and, of course, our home market in New Zealand. We provide freight and logistics capabilities across 337 branches in these regions, where the Mainfreight family work together to deliver exceptional customer service. It is often surprising to identify the latent opportunities for additional business within many of our customers' supply chains that we have yet to unlock. This may be due to the scale or breadth of their operations, or their lack of understanding of our network and service capabilities. Understanding, informing and educating

our customers on how we can help their business is integral for our future growth.

In 1998 we invested in an Australian transport company to grow our fledgling startup business in Australia. The market and media often referred to that investment as a "dog". Today that investment is our largest revenue and profit contributor. There is no doubt that our international network plays a significant role in supporting this growth, providing customers access to markets worldwide. Likewise, the tenacity and exceptional focus of our Australian team to deliver ever improving service has underpinned the growth in our customer base. Our capital investment of A\$443 million in Australian facilities and network growth over the past 10 years, reflects our confidence in the region. We will continue to invest accordingly, with A\$140 million allocated for investment in Australian facilities over the next two years.

Our shareholders should view the evolution of our Australian business as a yardstick by which to

understand and measure our progress in other parts of the world. Developing logistics businesses in large markets like Europe, Asia and the Americas, all of which are highly competitive, is not for the faint-hearted. Our Australian business proves what is possible.

Our business across the Americas (Canada, USA, Mexico and Chile) again had disappointing financial returns, although we do expect acceptable profitability

from the region to take time, as it did in Australia. Operationally we continue to improve our range of services, with two new cross-docks opened in Dallas, Texas, and Chicago, Illinois. As domestic volumes grow, further cross-dock infrastructure investments will be made. Our Warehousing and Air & Ocean business units are profitable, and provide a foundation in the region for future growth across our Canadian and Mexican operations.

Australia: The network example

From challenging beginnings in 1998 to becoming our largest revenue and profit contributor today, our Australian business has proven what our network is capable of.

Our European operations have much yet to achieve, as they transition from a strong Netherlands business, to a broader European centric business. We expect to grow sales and profitability across our French, German, Polish, Romanian, Italian, UK and Spanish branches over time.

In Asia we expect to see more growth in our Southeast Asian and Indian branches as manufacturing and supply chain operations shift from China in light of ongoing tariff uncertainties. Notwithstanding these shifts, China remains a key market for future growth.

As a proudly New Zealand listed business, we would encourage more New Zealand businesses to explore expanding their operations internationally. It is invigorating, satisfying and lots of hard work, but it also

supports the economic development New Zealand needs to improve its place on the world stage.

Our results in New Zealand were disappointing, as we incurred higher property costs than anticipated in new warehouse and cross-dock developments, and experienced lower transport margins as we navigated higher costs due to reduced service levels from rail and ferry operator, KiwiRail. The recent Government decision to appoint a Minister for Rail is a logical move – acknowledging the importance of ferries and rail to New Zealand's transport infrastructure. We will have to contend with reduced rail capability over the next four years until the arrival of the new Cook Strait ferries, and this will increase the cost of transport to New Zealand consumers.

We have a strong and well established reputation with our customers, which will be very important as we continue to seek growth around our network. Long term relationships have been established with a number of major shipping companies and airlines. Trust and integrity are a key factor in providing confidence for our customers that their freight will move as booked.

Nurturing and developing a complete range of freight and logistics services for our customers, and convincing them to utilise Mainfreight across all three products is a key challenge and opportunity for us all. The number of our top 500 customers utilising all three of our services has increased to 39%, up from 37% the year prior.

Our network, and presence in Europe, the Americas and Asia will add to the success we already have in Australia and New Zealand.

We still have plenty to improve and develop, such as our infancy in worldwide logistics. Our people are hardworking, committed and have their feet firmly planted to provide the foundation, energy and capability to deliver on the expectations of our shareholders and the wider Mainfreight family.

Enjoy the ride with us.

5 Regions 3 Divisions ONE integrated network

Our business is responding to disruption by leveraging the diversity of our growing international network.

Being an integrated business spread across different regions with different service offerings means we have:

- > Many alternative options and configurations to offer customers
- > Limited exposure to instabilities in any single market or trade lane
- > The agility and resources to quickly 'cut our cloth' and seize new opportunities

As our customers navigate increasingly complex trading conditions, our supply chain expertise and international knowledge makes us a trusted supplier.

How we optimise our network

One customer working with us in one region, or using just one of our services has the potential to impact sales across our entire international network.

A customer in Germany exports around the world and currently uses Mainfreight to transport product to customers across Europe. Our goal – and the potential – is to be their single supply chain partner.

Using a mix of modes and warehousing we configure end-to-end solutions based on their priorities – whether that's transit time, cost, supply chain efficiencies or even carbon emissions.

Capital expenditure is directed and approved by the Board of Directors based on recommendations made by senior management. Expenditure can be classified into three divisions; Property, Racking and Fit-Out Costs; Plant, Equipment and Software; and Information Technology.

During this past financial year, net capital expenditure totalled \$234.5 million. Total capital expenditure is estimated at \$202.9 million for the 2026 financial year, of which capital required for property development is expected to be approximately \$98.2 million (with approximately \$123.6 million for the 2027 financial year).

Capital expenditure on land and buildings has been reduced from \$161 million to \$98 million for the forthcoming year due to uncertainty surrounding economic growth. The likelihood of lower volumes has meant a more cautionary approach to property development. Further, the introduction of more end-loading capability for road vehicles in New Zealand and Australia will see smaller, more efficient Transport facilities being developed in the future.

Property / racking and fit-out costs

Of the \$234.5 million, \$111.2 million was spent on land and buildings, primarily across our network in New Zealand and Australia. A further \$75 million was spent on racking and other property fit-out costs.

Land purchases, planning and resource consent processes and construction are underway across a number of projects in New Zealand and Australia. These include both large city developments in Auckland and Brisbane, and a number of smaller regional sites as we continue the intensification of our network. Land in Chicago, in the US has been purchased, and will be held in a land bank until our network requires additional capacity, and our profitability returns to acceptable levels to justify further investment.

Property investment decisions will continue to be made on an as-required basis, albeit with longer growth planning for land purchases. Better land banking would be advantageous, particularly in Australasia, rather than the current buy-to-construct-now approach.

In the past we have been hesitant to invest in new regions until we achieve acceptable growth and returns, and until we better understood the requirements of those markets. We are now more confident, but still cautious, at the prospect of investing in property in Europe and the Americas.

In conjunction with these land and building investment decisions, we are continuing to commit to a number of long-term lease arrangements, particularly for warehouses in every region as and when customer demand and growth dictates.

Plant, equipment and software

Capital spend of \$48 million is attributable to plant, equipment and software purchases across New Zealand, Australia, the Americas and Europe.

Information Technology

As Mainfreight continues to expand internationally, we are focused on developing our technology to support the Group's momentum.

The next iteration of the Mainfreight Technology stack will leverage the cloud, where appropriate, to create a scalable, flexible and secure environment for the future to improve our customer facing technology.

Changes are being adopted across our business to ensure we operate more efficiently by focussing on technology tools available to our teams. This enhances the level of information we can provide our customers.

Examples of these improvements are listed on the facing page.

Data Security Incident

During December 2024 we had a data security incident that targeted a non-production system, compromising files which included personal details of 75 individuals. Immediate steps were taken to rebuild the affected server, with all systems secure within a matter of days, and all affected individuals and the relevant privacy authorities notified. The wider IT environment, including trading and operating systems, were not impacted by this incident. We continue to work closely with our external IT and Cyber Security partners to further improve data protection and monitoring.

Across all systems and hardware development, strong and resilient Cyber Security protocols have been adopted to protect not only our own operating systems, but also those of our customers and suppliers. Ongoing monitoring and team training will continue to form a core part of our Cyber Security programme.

Mainfreight is well underway on our modernisation journey for technology. The modern platforms we are adopting will help us leverage new technologies like AI as they are rapidly integrated into our operations and customer interactions.

Automated stock management trial

Equipped with a 13-metre telescopic mast and advanced sensors, our autonomous robot scans up to 10,000 pallet locations per hour with 99.9% accuracy, capturing real-time inventory data and instantly comparing physical stock with system records to identify discrepancies. This ensures inventory is consistently accurate, optimally placed and maintained under the right conditions. Integrated AI analytics provide real-time visibility and assists with space optimisation and stock management efficiencies within our warehouse. The trial of this automated stock management system is in our Zaltbommel, Netherlands warehouse. Should its return on investment be satisfactory, additional warehouses may adopt this technology.

Technology

- > **Microsoft Cloud:** Moving our first public facing application, Shipment Centre Air & Ocean, to our newly designed cloud platform in Microsoft Azure
- > **Data Analysis Platform:** Beginning to move our data to our new modern operating model platform in Microsoft Fabric.

Software

- > **Cargowise:** Introduced at CaroTrans America, aligning them with the rest of Air & Ocean, and removing old and outdated high-risk software from our business
- > **Smart Billing:** Continuing our work to improve management of rates and billing processes
- > **Order Management:** Enhancing order visibility across sales, operations and customer service, to create a seamless and transparent order management experience
- > **Driver Experience:** Modernising the software application our drivers use to pick up and deliver
- > **Warehousing Automation:** Enhancing our current integration to enable this technology to be used across multiple customers to maximise returns from our investment in this technology.

Approach to Sustainability

Our approach to sustainability is embedded in our 100-year vision. To be the thriving company we aim to be requires more than good financial management. It requires the nurturing of all preconditions that allow our company to succeed, and decisions to be made with a long term, multi-generational perspective.

For Mainfreight, climate is especially relevant. We operate in an emissions intensive industry, and one that is not easily abated. We are acutely aware that decarbonisation isn't just a broad-brush expectation on us as a large company, but an important service offering that our customers will rely on in their own decarbonisation journeys. As the world continues to warm, efforts to decarbonise must be paired with robust and resilient supply chains that keep freight moving in the face of disruption. Our sustainability and climate strategies aim to serve these two parallel needs.

Over the past year we have continued to expand our decarbonisation efforts, with international solar generation now at 9,370kW (up 11%) and Battery Energy Storage Systems (BESS) now at 9,750kWh (up 3%). It is particularly pleasing to open two new custom transport facilities in the United States, each with solar, site

batteries and water capture and storage among the sustainability features that our customers are coming to recognise us for.

Operationally, our forklift and small vehicle fleet continue to progress towards electrification, now at 86% and 54% respectively (up from 84% and 46% in 2024). Our heavy fleet transition has also progressed, albeit slower than we may like. It is, however, positive to be winning new business on the back of zero emission transport offerings, and we are optimistic that growing customer demand will further facilitate our transition to zero emission heavy transport.

Once again we welcome the opportunity to present our Sustainability and Climate Report alongside our Annual Report to provide a detailed account of our work to date, and our ambitions ahead.

Intensity Factors

DESCRIPTION	2025	2024	CHANGE
CO2e per tonne kilometre of Domestic Freight (Road/Rail)	0.091 kg	0.084 kg	8.3%
CO2e per tonne kilometre of Air freight	1.199 kg	1.210 kg	-0.9%
CO2e per TEU kilometre of Sea freight	0.058 kg	0.066 kg	-12.1%

Emission Sources (tonnes CO2e)

MODE/TYPE	2025	2024	CHANGE
Road	467,593	409,331	14.2%
Rail	9,092	9,305	-2.3%
Air	942,542	880,806	7.0%
Sea	161,689	144,099	12.2%
Total Customer Freight Emissions (Total of road, rail, air and sea)	1,580,916	1,443,541	9.5%
Direct Operational Emissions	75,965	47,215	60.9%
Total Emissions	1,656,881	1,490,756	11.1%

Mainfreight Limited (together with its subsidiaries, the Mainfreight Group) is a Climate Reporting Entity (CRE) under the Financial Markets Conduct Act 2013 (the Act). Readers will find our disclosures in compliance with the Aotearoa Climate Standards issued by the External Reporting Board within our Sustainability and Climate Report.

For our full Sustainability and Climate report, please visit: www.mainfreight.com/global/en-nz/investor/reports-library/sustainability-information

GHG Emissions Inventory

For 2025 we have reported a 166,125 tonne increase in gross CO₂e emissions, with some of this increase attributable to two significant reporting changes.

First, the inclusion of capital goods has added over 26,000 tonnes CO₂e, accounting for 90% of the variation in operational emissions (up to 4.58% of total emissions). Secondly, a shift towards more conservative Australia Road Emission Factors, added approximately 35,000 tonnes of CO₂e to our road freight total (without accounting for any change in physical volumes).

The Red Sea disruption impacted approximately 12% of sea freight shipments. This resulted in an additional 9,000 tonnes of CO₂e for the period, and increased the emissions on affected shipments by over 35%. Increases in air, sea and road freight volumes contributed to the remainder of the increase in emissions reported this year.

Of our three tracked intensity measures (refer Intensity Factors table), we have seen a small decline (1%) in air freight intensity due to a slight improvement in the proportion of long-haul vs short-haul activity. Sea freight intensity has dropped 12.1% due in part to a major update in Clean Cargo emission factors. Our domestic intensity measure has increased by 8.3%, largely due to the change in Australian road emission factors. Overall, we anticipate continued improvement across all our tracked intensity measures.

Our domestic measure will benefit from both greater use of Mainfreight specific emission factors for our fleet (beyond NZ), and our transition towards low emission heavy vehicles.

Sea and air freight factors, while further removed from our direct control, are benefiting from promising industry-led developments. In addition, novel fuels are already available across some lanes, and we are actively working on solutions to integrate this into direct customer offerings.

Our ongoing performance remains subject to the overall level of growth across the Mainfreight business, particularly as we continue to gain market share.

We are nonetheless confident that our climate strategy, coupled with greater availability of new fuels, technologies and partnerships, will create further opportunities for improvement.

Mainfreight Emissions (tonnes CO₂e)

CATEGORY	CATEGORY DESCRIPTION	2025	2024
Category 1	Direct GHG emissions and removals in tonnes CO ₂ e (Road freight: Owner Driver vehicles & owned / leased vehicles)	340,037	303,309
Category 2	Indirect GHG emissions from imported energy (Electricity, LPG, etc)	18,561	16,798
Category 3	Indirect GHG Emissions from Transportation (Third party road, rail, air, sea transport)	1,175,870	1,082,068
Category 4	Indirect GHG emissions associated with the use of products by the organisation	122,413	88,581
Category 5	Indirect GHG emissions associated with the use of products from the organisation		-
Category 6	Other indirect GHG emissions sources		-
Total Emissions		1,656,881	1,490,756

People and Communities

A culture of better

Across the communities we are part of around the world, we are invested in helping create a better future through education and life experiences.

We are equally invested in developing our Mainfreight family. Through careful recruitment, challenging development programmes and promoting from within, we help every member of our Mainfreight family, be the best they can.

TYRUS GARRET, CHICAGO, USA

At Mainfreight, our culture drives how we work, how we grow our people, and how we look after our customers. It is not something we switch on when it is needed – it is built into everything we do.

We are a networked international team that shares ideas, experiences, and responsibilities across our branches, countries, and roles. Whether it's a delivery around the corner or across the world, we back each other to find a way to provide exceptional service for our customers.

Our teams are trusted to make decisions, take ownership, and do what they say they will do. This shows in the way we serve our customers – with urgency, attention to detail and a personal approach. We know the service we offer is only as good as the people providing it.

We keep building knowledge across the business – learning from one another, and from the challenges we face every day. We keep improving and keep delivering better outcomes.

Looking ahead, we are backing our people and our culture to keep improving performance.

When you have got a team that is connected, confident, and proud of what they do, the results speak for themselves.

In 2025

- > 56 Mainfreight team members from over 20 countries participated in our Outward Bound programmes. The maturity and quality of attendees has been outstanding – an endorsement of our depth of both experience and potential.
- > We continued to make small adjustments to a formula we know works – educating our team on our basics and fundamental disciplines and flicking our flywheel of culture.
- > We continued to provide world-class facilities that are supported by world-class safety practices and systems. Our team are provided with the best resources, the best training and the best support to operate safely.
- > Health and safety continues to be embedded in Mainfreight's culture. We prioritise safety at every level.

Equipping our people to be their best

We continue to recruit the best people and provide world-class facilities, training, technologies and career opportunities.

Wāhine Toa

In 2018 we introduced the Main Divide Programme, focusing on the development of both the capabilities of our operational leaders and, more importantly, their self-belief. 2025 saw the first all-women “Wāhine Toa” Main Divide programme, showcasing the strength of the women in our business. Their potential, coupled with self-belief, means anything is possible. We anticipate future courses in both New Zealand and Australia.

Lisa Parangi – Auckland

“The trip itself was truly amazing, words can hardly capture the experience and its significance. It was more challenging – physically and mentally – than I expected, but I wouldn’t change that for anything.

The barriers I overcame have shown me that I am stronger than I thought and have instilled a sense of self-belief that has been missing for some time.”

Mainfreight Scholarship Programme: Opening Doors for Every Kind of Future

At Mainfreight, our investment in the next generation stretches far beyond our warehouse or branch walls. Whether through national partnerships like Duffy Books in Homes or the Life Education Trust, or through our own internal initiatives, we're passionate about empowering young people to reach their full potential. A key part of this commitment is the Mainfreight Scholarship Programme – a long-standing initiative that supports the children of our team members and owner drivers across New Zealand and Australia.

This year marked an exciting new chapter for the programme, as we proudly expanded our support to include trade qualifications alongside university and other tertiary study. This is a step that reflected our belief that education comes in many forms – and that all career paths deserve to be valued, celebrated, and supported.

Each Mainfreight Scholarship offers \$4,000 per year for up to three years of study, totalling a maximum of \$12,000 per student. That's not just a financial boost – it's a commitment to helping our extended Mainfreight family take meaningful steps toward their career goals. Whether a student is studying law, engineering, nursing, or now, an apprenticeship in the trades or commercial pilot training, the scholarship is available to help turn aspirations into action.

The programme has been running for over 20 years, and since 2007 alone, more than 400 scholarships have been awarded. We've seen students study across New Zealand and Australia – with some even making the move across the Tasman – proving just how far this kind of support can go.

And our educational support doesn't stop there; through our partnership with Bairds Mainfreight Primary School in Auckland, we continue to offer secondary and tertiary scholarships to former students, helping eliminate financial barriers for families in our local community.

Education has always been one of Mainfreight's core values. It represents growth, opportunity, and the

future. By backing the children of our people – whether they're university-bound or entering the trades – we're helping build a brighter, more skilled, and more diverse workforce across the regions we operate in.

At its heart, the Mainfreight Scholarship Programme is about belief: in our people, in their families, and in the power of education to change lives.

Books in Homes Life Education Trust

Mainfreight has been part of the "Duffy Books in Homes" programme since its inception in 1994. We currently support over 100 schools in New Zealand, Australia and the USA. This means over 25,000 children every year are getting new books to read due to our support. In New Zealand alone, Mainfreight's support has ensured that 47,456 books were delivered to 18,974 children throughout 2024.

The philosophy behind the programme is simple: to break the cycle of 'booklessness'. This is achieved through choice, agency and ownership when the students get their books, with the added aim of ensuring that Books in Homes promotes the value of reading for pleasure.

Both the Duffy Books in Homes and Life Education Trust charities remain important to us, and receive significant funding to support their efforts to educate less privileged children. We would encourage more New Zealand businesses to seriously consider investing in the Duffy Books in Home charity enabling the team to expand the number of schools they support.

RAJU VEGESNA OF AIR AND OCEAN, AUCKLAND, NEW ZEALAND
WITH HIS SON, SCHOLARSHIP RECIPIENT AND GRADUATE, AKSHAY

Akshay Vegesna – 2025 Graduate

“The Mainfreight Scholarship meant a lot to me; more than just financial support, it was a sign that Mainfreight believed in me and my potential. That belief gave me a real boost through my studies and reminded me that I wasn’t on this journey alone. I’ve always seen Mainfreight as more than just a company. The sense of community and family, and receiving the scholarship felt like being supported by whānau.”

ADRIANA SOLARES, NEWARK, USA

This statement is a summary of the Corporate Governance arrangements approved and observed by Mainfreight's Board of Directors ("the Board") as of 28 May 2025. The code of ethics, policies, charters and other associated documents are available on the Investor pages of the Company's website:

<https://www.mainfreight.com/global/en/global-home/investor-centre/governance.aspx>

Mainfreight have reported against the NZX Corporate Governance Code, dated 31 January 2025. Mainfreight's Corporate Governance practices do not materially differ from the NZX Corporate Governance Code, except that Mainfreight has not established a Nominations Committee, preferring to accomplish this task with the assistance of the full Board.

Also, Recommendation 2.9 of the NZX Corporate Governance Code ("the Code") states, "An issuer should have an independent chair of the Board". Mainfreight

have not adopted this recommendation, however, are confident that its existing Board composition, including Mainfreight founder Bruce Plested, who has been chair of the Company since 2002, continues to provide effective oversight, decision making and accountability and compliance with regulatory requirements and principles. We continue to review this annually.

The Role of the Board of Directors

The Board is committed to the highest standards of ethical behaviour in its own undertakings and those of the Group's team members. The Board follows the Corporate Governance rules established by the NZX, and Directors exercise their duties in the best interests of the Group. A formal charter has been adopted by the Board, and further sets out the responsibilities of Directors.

The Board is responsible for the proper direction and control of the Group's activities. This responsibility includes such areas of stewardship as the identification and control of the Group's business risks (including oversight of health and safety, and sustainability considerations), the integrity of management

WAREHOUSE AUTOMATION, MOOREBANK, SYDNEY, AUSTRALIA

information systems and reporting to shareholders. While the Board acknowledges that it is responsible for the overall control framework of the Group, it recognises that no cost-effective internal control system will preclude all errors and irregularities. Our system is based upon written procedures, policies and guidelines, organisational structures that provide an appropriate division of responsibility, and the careful selection and training of all qualified personnel.

The Board includes in its decision making; dividend payments, the raising of new capital, major borrowings, the approval of half year and annual accounts, the provision of information to shareholders, major capital expenditure and acquisitions. The Board delegates the conduct of the day-to-day affairs of the company to the Group Managing Director and Executive Leadership team.

Financial statements are prepared monthly in conjunction with the weekly profit and loss statements generated at branch level. These are reviewed by the Board progressively throughout the year to monitor

management's performance and assess the integrity of management information.

Board Composition

The Board currently comprises seven Directors: our Chairman, Group Managing Director and five independent Directors.

Richard Prebble retired on 25 July 2024, post our Annual Shareholders Meeting. Bryan Mogridge has also signalled he will not seek re-election after his current term, effective July 2026.

We note that commentary included in the Code identifies tenure as a factor that may impact a Director's independence. Mainfreight values the contribution of its long-serving Directors, who have a depth of understanding and insight gained through extensive travel to the Company's international facilities and ongoing review of each business unit's progress toward meeting the Group's strategic goals. These relationships are actively reviewed to ensure that our Directors' independent judgement is not compromised.

BRUCE PLESTED CHAIRMAN AND FOUNDING OWNER

47 years with Mainfreight

Appointment to Board 1978

Shareholding at 31 March 2025: 14,927,062 shares*

AGE: 83

As Chairman and Founder, Bruce shares his vision for the Company with the Mainfreight team, bringing a particular focus to quality and our culture. Likewise, his strongly held beliefs relating to the importance of education and recycling/sustainability, continue to positively shape the Company's behaviours.

HAYLEY BUCKLEY INDEPENDENT DIRECTOR

Appointment to Board 2024

Shareholding at 31 March 2025: Nil shares*

AGE: 48

Hayley has broad commercial and capital markets experience and has acted as lead counsel for a number of large companies in the transport and supply chain sector. Hayley's career includes time spent in London and the US, and she regularly advises on cross-border transactions. She is a member of the Institute of Directors of New Zealand and is an Alumna of the Harvard Business School. Hayley's commercial acumen, energy and work ethic will be of great assistance to the Board.

Other Current Directorships: The Snowball Effect Limited, Hammerforce Technology Limited.

KATE PARSONS INDEPENDENT DIRECTOR

Appointment to Board 2017

Shareholding at 31 March 2025: 1,015 shares*

AGE: 52

Kate brings to the Board her broad financial and analytical experience acquired in a range of industries, both in New Zealand and overseas. Her knowledge of high-tech companies is a welcome addition to the Board's capabilities, as is her familiarity with the complexities of acquisitions, and steering companies through growth and change.

Other Current Directorships: Entrada Travel Group Limited (and a number of subsidiary companies), Freedom Group Holdings Limited, Freedom Management Services Limited and private family companies.

SIMON COTTER INDEPENDENT DIRECTOR

Appointment to Board 2013

Shareholding at 31 March 2025: 80,000 shares*

AGE: 58

Simon has a long association with Mainfreight having served as the Company's main adviser for acquisitions, debt structure and other matters since 2003 (through Grant Samuel & Associates), prior to joining the Mainfreight Board. He brings strong financial skills and business acumen to the role.

Other Current Directorships: First Mortgage Trust.

DON BRAID GROUP MANAGING DIRECTOR

31 years with Mainfreight

Appointment to Board 2000

Shareholding at 31 March 2025: 2,920,591 shares*

AGE: 65

Don has over 48 years experience in the freight industry, including 31 with Mainfreight. His leadership is underpinned by a strong belief in Mainfreight's international competency and capabilities to provide high-quality supply chain solutions for our customers. His visits to our local and overseas operations guide our teams to be sales-focused and always aiming for operational excellence. He is fiercely proud of the Mainfreight culture – seeing this as a key reason customers choose Mainfreight over the competition.

ANNIE STEEL INDEPENDENT DIRECTOR

Appointment to Board 2024

Shareholding at 31 March 2025: 710 shares*

AGE: 41

Annie was born in Hong Kong and immigrated with her family when she was young. She is a partner for a corporate law firm and has considerable experience across complex and challenging corporate transactions and strategic advisory engagements, including cross-border M&A activity. Annie's energy and commercial expertise, along with her trilingual background, is a welcome addition to the Board table.

Other Current Directorships: Harmos Horton Lusk Limited and private family and investment companies.

BRYAN MOGRIDGE INDEPENDENT DIRECTOR

Appointment to Board 2003

Shareholding at 31 March 2025: 200,000 shares*

AGE: 79

Bryan has a wealth of experience, both in executive and board roles. He has also lent his considerable support to not-for-profit organisations such as the Starship Foundation. His intellect and pragmatic approach is highly regarded at the Board table.

Other Current Directorships and Trusteeships: Energy Education Trust, Starship Foundation, Massey University Foundation.

*Number of shares are those held with beneficial interest. Additional detail for Director Shareholdings is provided under the Statutory Information section on page 101.

Board of Directors at Mainfreight Railway Lane, Auckland, New Zealand

Directors' Meetings

The Directors normally hold five full Board Meetings per year; with three of these held over two-to-three day periods in operational regions of interest and concern, providing the Board opportunities to meet with customers and/or our team. The other two meetings are shorter and held primarily to review performance and strategy. Additional meetings are held for the purposes of considering interim and final dividends, and approving financial results for release to the market, and as otherwise required. From time to time, key executives are invited to attend full Board Meetings and are encouraged to fully participate in all debate.

The Board met on eight occasions in the financial year ended 31 March 2025, in Tauranga and Auckland, New Zealand; Dallas and Chicago, USA; 's-Heerenberg, The Netherlands; and Melbourne, Australia.

The table below summarises Director attendance at Board and Committee meetings:

Share Trading

The Board has set out a procedure which must be followed by Directors and key Executive Management when trading in Mainfreight Limited shares. This procedure assists those persons to ensure they comply

with the insider trading provisions in the Financial Markets Conduct Act 2013. Mainfreight has adopted a blackout period whereby restricted persons (including Directors and Officers who have access to material information that other shareholders may not) are prohibited from trading in Mainfreight shares for the period from the close of trading of March and September month end until the trading day following results announcements to the NZX, and any other period that our Chief Financial Officer may specify from time to time.

Group Management Structure

The Group's organisational structure is focused on its core competencies; domestic transportation, international air and ocean freight forwarding, warehousing and supply chain management. These operations are located in New Zealand, Australia, the Americas, Europe and Asia. A country/region management structure exists to reflect the size and diversity of our international operations.

Our management structure is deliberately kept as flat and minimal as possible. This provides an ideal platform for succession planning, and allows for decision-making by those closest to our customers. We manage with a philosophy that encourages all to contribute.

Director	Board	Audit Committee	Remuneration Committee
Bruce Plested	8/8	-	1/1
Don Braid*	8/8	2/2	-
Simon Cotter	8/8	2/2	1/1
Bryan Mogridge	8/8	2/2	1/1
Kate Parsons	8/8	1/2	-
Hayley Buckley	8/8	-	-
Annie Steel	8/8	-	-
#Richard Prebble	3/8	1/2	-

*Don Braid attends the Audit Committee by invitation

Richard Prebble retired at the AGM in July 2024

	THIS YEAR		LAST YEAR	
	Male	Female	Male	Female
Directors	4	3	5	3
Officers	9	0	10	0

Team Gender Ratios	THIS YEAR		LAST YEAR	
	Male	Female	Male	Female
New Zealand	78%	22%	77%	23%
Australia	72%	28%	71%	29%
Europe	75%	25%	74%	26%
Americas	59%	41%	65%	35%
Asia	39%	61%	37%	63%
Total Group	70%	30%	71%	29%

If we remove Owner Drivers and EU Drivers from the calculation, gender ratios are 66% Male and 34% Female (the same as the year prior).

FEMALE MANAGERS (in roles with Profit & Loss responsibility)			
2025	67	2020	53
2024	73	2019	46
2023	63	2018	37
2022	54	2017	31
2021	53	2016	27

The number of key management roles held by females still falls well below our expectations and we continue to look for improvement.

Diversity

Mainfreight is firmly committed to diversity and equality in all areas of its operations and has included a gender breakdown across its full team in its Annual Reports for many years. The Group's Diversity Policy is available on our website.

At the level of Directors and Officers, gender composition is set out in the table on page 62.

Anti-Corruption and Competitive Practice Guideline

In an ever increasing global economy, most countries have put in place anti-corruption and competition laws, which we at Mainfreight welcome and endorse.

Mainfreight, as an international company, has adopted guidelines and policy to enforce anti-corruption and anti-competitive behaviour. The group's anti-corruption and anti-competitive policies are available on our website.

The integrity of our brand, and the way we are perceived in the market, is of paramount importance to us. Mainfreight always demands from its team members honesty, integrity and a scrupulously "clean" approach to the way we conduct our business.

The Role of Shareholders

The Board aims to ensure that shareholders are informed of all major developments affecting the Group's state of affairs. Information is communicated to shareholders in the Annual Report and twice-yearly newsletters, in addition to information released via the NZX and available on our website. The Board has adopted a continuous disclosure policy to assist Mainfreight to comply with its continuous disclosure obligations under the NZX Listing Rules. The Board encourages full participation of shareholders at the Annual Meeting to ensure a high level of accountability and identification with the Group's strategies and goals.

The Board has constituted the following standing Committees that focus on specified areas of the Board's responsibility. Each Committee operates under its own charter outlining composition and responsibilities.

Audit Committee

The Committee is responsible for the framework of internal control mechanisms that ensure proper management of the Group's affairs. The Committee is accountable to the Board for the recommendations of the external auditors, EY, directing and monitoring the audit function and reviewing the adequacy and quality

of the annual audit process. The Committee provides the Board with additional assurance regarding the accuracy of financial information for inclusion in the Group's Annual Report, including the Financial Statements.

The Committee is also responsible for ensuring that the Group has an effective internal control and risk framework, and reviews all major risks including those escalated by Management. A member of the Group's finance team oversees regular internal control assessments, and reports to the Group Chief Financial Officer and the Audit Committee as appropriate.

These internal controls include the safeguarding of assets, maintaining proper accounting records, complying with legislation including resource management and health and safety issues, ensuring the reliability of financial information, and assessing and overseeing business risk.

The Committee also oversees and makes recommendations to the Board on the Climate-related Disclosure Report and deals with governmental and NZX compliance requirements.

Audit Committee:

Simon Cotter, Chairman
Bryan Mogridge, Director
Kate Parsons, Director

Remuneration Committee

The Committee is responsible for reviewing the remuneration and benefits of the Group Managing Director and senior executives, reviewing the remuneration of Board members, and making recommendations to the Board. The Committee also monitors and reports on general trends and proposals concerning employment conditions and remuneration.

General remuneration for all team members is reviewed on an annual basis and takes into account CPI and responsibility changes for each individual. This does not include senior executives whose remuneration is reviewed every two years, and was last reviewed in October 2024.

The discretionary bonus system used by Mainfreight was applied during the financial period with Board approval. The bonus calculation is applied across all business units which meet the criteria, and only to those people who have completed 12 months' continuous full-time service with Mainfreight. The total cost of the discretionary bonus for the 2025 financial year is \$30.5 million.

Remuneration Committee:

Bruce Plested, Chairman
Simon Cotter, Director
Bryan Mogridge, Director

The Directors are pleased to present this 30th published Annual Report of Mainfreight Limited.

Financial Result

Consolidated sales for the year were \$5.2 billion, up on the previous year by \$518.6 million, or 11%.

Profit Before Tax for the year was \$383.6 million, down 3%.

Net Profit for the 2025 financial year was \$274.3 million, up 31%.

Comparisons to the 2024 result are set out in the five-year review; page 104 of the financial statements.

Financial Position

The Group financial position remains stable, with shareholders' equity of \$1,995 million funding 49% of total assets. Earnings cover interest on debt 8.82 times compared to 13.27 times in the prior year as a result of higher interest rates on leased properties. Net cash flows from operations were \$584 million, up from \$505 million last year.

Dividend

A dividend of 87.0 cents per share was paid in July 2024, fully imputed. A supplementary dividend of 15.35 cents per share was paid to non-resident shareholders with this dividend. A further dividend of 85.0 cents per share was paid in December 2024, fully imputed. A supplementary dividend of 15.00 cents per share was paid to non-resident shareholders with this dividend. A fully imputed dividend of 87.0 cents per share, payable on 18 July 2025 is proposed, together with a supplementary dividend of 15.35 cents per share for non-resident shareholders. Books close for this dividend on 11 July 2025.

Statutory Information

Additional information is set out on pages 100 to 103 including Directors' Interests as required by the Companies Act 1993.

Directors

Don Braid, Simon Cotter and Kate Parsons retire by rotation and are available for re-election.

Directors' Remuneration

Directors' fees were not increased during the financial year, and remained at \$120,000 per annum for each Director, and \$240,000 per annum for the Chairman of the Board. The Chairman has for some time elected not to take his fee entitlement. From 1 April 2025 Director fees have increased to \$150,000 per annum per Director, and are funded from the original pool of fees (\$904,000) approved by the shareholders at our Annual Shareholder meeting in July 2017. The Remuneration Committee will review the Directors' fees bi-annually.

Audit

The Company's Auditors, EY, will continue in office in accordance with the Companies Act 1993. The Company has a formally constituted Audit Committee.

Reporting and Communications

Mainfreight continues to support high levels of public company disclosure. The Company provides half-yearly reporting on results, with ongoing disclosure as required.

The Company is effective in communicating the Group's affairs and results to shareholders, NZX, regulatory bodies and the media. The first half-year result to 30 September 2025 is scheduled for release on 12 November 2025.

Outlook

The Directors are satisfied with the direction and development of the Group. The next twelve months will continue the developments that Mainfreight has underway with the subsequent benefits to our shareholders and stakeholders.

Notes to the Financial Statements

FOR THE YEAR ENDED 31 MARCH 2025

1 CORPORATE INFORMATION

The financial statements of Mainfreight Limited ("the Parent") and its subsidiaries ("the Group") for the year ended 31 March 2025 were authorised for issue in accordance with a resolution of the Directors.

Mainfreight Limited is a company limited by shares incorporated in New Zealand whose shares are publicly traded on the NZX Main Board (New Zealand Stock Exchange).

2 SUMMARY OF MATERIAL ACCOUNTING POLICIES

(a) Basis of Preparation

The financial statements have been prepared in accordance with generally accepted accounting practice in New Zealand (NZ GAAP) and the requirements of the Companies Act 1993 and the Financial Markets Conduct Act 2013. The financial statements have been prepared:

- On a historical cost basis, except for land, and derivative financial instruments.
- On a GST exclusive basis, except for receivables and payables that are stated inclusive of GST.

(b) Statement of Compliance

The financial statements comply with New Zealand equivalents to International Financial Reporting Standards (NZ IFRS) and other applicable Financial Reporting Standards, as appropriate for profit-oriented entities. The financial statements comply with International Financial Reporting Standards (IFRS).

(c) Basis of Consolidation

The consolidated financial statements comprise the financial statements of Mainfreight Limited ("the Parent") and its subsidiaries (the "Group") as at 31 March each year (as outlined in note 11).

Consolidation of a subsidiary begins when the Group obtains control over the subsidiary and ceases when the Group loses control of the subsidiary.

Control is achieved when the Group is exposed, or has rights, to variable returns from its involvement with the investee and has the ability to affect those returns through its power over the investee.

The financial statements of subsidiaries are prepared for the same reporting period as the parent company, using consistent accounting policies. Income and expenses for each subsidiary whose functional currency is not New Zealand dollars are translated at exchange rates which approximate the rates at the actual dates of the transactions. Assets and liabilities of such subsidiaries are translated at exchange rates prevailing at balance date. All resulting exchange differences are recognised in the foreign currency translation reserve which is a separate component of equity.

In preparing the consolidated financial statements, all inter-company balances and transactions, income and expenses and profit and losses resulting from intra-group transactions have been eliminated in full.

(d) Foreign Currency Translation

(i) Functional and Presentation Currency

The presentation currency of the Group is New Zealand dollars (\$) and all values are rounded to the nearest thousand dollars (\$000). Each entity in the Group determines its own functional currency and items included in the financial statements of each entity are measured using that functional currency.

(ii) Transactions and Balances

All exchange differences in the consolidated financial statements are taken to the income statement with the exception of differences on foreign currency borrowings that provide a hedge against a net investment and differences arising on translation of a foreign operation. These are recognised in other comprehensive income and accumulated in reserves until disposal of the net investment at which time they are recognised in profit or loss. On disposal of a foreign operation, the cumulative amount recognised in equity relating to that particular foreign operation is recognised in the income statement. Tax charges and credits attributable to exchange differences on those borrowings are also recognised in equity.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rate as at the date of the initial transaction. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

(iii) Hedges of a Net Investment

Hedges of a net investment in a foreign operation are accounted for by including the gains or losses on the hedging instrument relating to the effective portion of the hedge directly in equity while any gains or losses relating to the ineffective portion of the hedge are recognised in profit or loss.

(e) Changes in Accounting Policies

The accounting policies applied in the preparation of the consolidated financial statements are consistent with the prior year, except for the adoption of Amendment to FRS-44 - Disclosure of Fees for Audit Firms' Services effective 1 January 2024. The introduction of this amendment did not have a material impact on the financial statements. The Group has not early adopted any other standards, interpretation or amendment that have been issued but are not yet effective.

(f) New Accounting Standards and Interpretations

IFRS 18 Presentation and Disclosure in Financial Statements

In May 2024, the XRB issued NZ IFRS 18, which replaces NZ IAS 1 Presentation of Financial Statements. IFRS 18 introduces new requirements for presentation within the statement of profit or loss, including specified totals and subtotals. Furthermore, entities are required to classify all income and expenses within the statement of profit or loss into one of five categories: operating, investing, financing, income taxes and discontinued operations, whereof the first three are new.

It also requires disclosure of newly defined management-defined performance measures, subtotals of income and expenses, and includes new requirements for aggregation and disaggregation of financial information based on the identified 'roles' of the primary financial statements (PFS) and the notes.

In addition, narrow-scope amendments have been made to NZ IAS 7 Statement of Cash Flows, which include changing the starting point for determining cash flows from operations under the indirect method, from 'profit or loss' to 'operating profit or loss' and removing the optionality around classification of cash flows from dividends and interest. In addition, there are consequential amendments to several other standards.

NZ IFRS 18, and the amendments to the other standards, is effective for reporting periods beginning on or after 1 January 2027, but earlier application is permitted and must be disclosed. NZ IFRS 18 will apply retrospectively.

The Group is currently working to identify all impacts the amendments will have on the primary financial statements and notes to the financial statements.

(g) Revenue Recognition

In relation to freight transactions, the Group considers its sole performance obligation to be the delivery of freight to the final destination. Ancillary services such as customs clearance are not considered to be separate performance obligations. Instead, together with freight they represent a bundle of performance obligations.

The Group considers that the performance obligation is satisfied over time, and so will recognise the related revenue as the performance obligation is satisfied. In relation to Domestic Transport and Warehousing the stage of completion is to be measured relative to cost whereas in relation to Air and Ocean freight it will be measured relative to time.

Judgement is involved in determining the measure of cost and time on which to base the recognition of revenues at each reporting date.

Revenue has been disaggregated in note 5 by Domestic Transport, Warehousing and Air and Ocean forwarding.

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group's principal financial instruments, other than derivatives, comprise bank loans and overdrafts, cash and short-term deposits, trade creditors and accruals, other receivables, accrued revenue and trade debtors.

The main purpose of these financial instruments is to raise finance and provide working capital for the Group's operations.

The Group may enter into derivative transactions, principally interest rate swaps. The purpose is to manage the interest rate risks arising from the Group's operations and its sources of finance. These are not currently hedge accounted.

The main risks arising from the Group's financial instruments are cash flow interest rate risk, fair value interest rate risk, liquidity risk, foreign currency risk and credit risk.

Details of the material accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial assets, financial liabilities and equity instruments are disclosed in notes 2 and 4 to the financial statements and other relevant notes.

Cash Flow Interest Rate Risk

The Group's exposure to cash flow risk through changes in market interest rates relates primarily to the Group's long-term debt obligations with a floating interest rate. The level of debt is disclosed in note 15.

The Group's policy is to manage its interest cost using a mix of fixed and variable rate debt. To manage this mix in a cost efficient manner, the Group enters into interest rate swaps, in which the Group agrees to exchange, at specified intervals, the difference between fixed and variable rate interest amounts calculated by reference to an agreed-upon notional principal amount. The Board decided not to enter into any swaps at this time (2024: nil). At 31 March 2025 none of the Group's borrowings are at a fixed rate of interest (2024: nil).

Fair Value Interest Rate Risk

If the Group holds fixed rate debt there is a risk that the economic value of a financial instrument will fluctuate because of changes in market interest rates. The level of fixed rate debt is disclosed in note 15 and it is acknowledged that this risk is a by-product of the Group's attempt to manage its cash flow interest rate risk. The Group is also exposed to fair value interest rate risk through the use of interest rate swaps. The Group accepts this risk as a by-product of its hedging strategy.

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

Interest on financial instruments classified as floating have their rates repriced at intervals of less than one year. Fixed rate instruments are fixed until the maturity of the instrument.

The Group regularly analyses its interest rate risk exposure. Within this analysis consideration is given to potential renewals of existing positions, alternative financing and the mix of fixed and variable interest rates.

The following sensitivity analysis is based on the interest rate exposures in existence at the balance sheet date.

At 31 March 2025, if interest rates had moved, as illustrated in the table below, with all other variables held constant, post tax profit (including swap fair value movements) and equity would have been affected as follows:

	Post Tax Profit and Equity Higher (Lower)	
	2025 \$000	2024 \$000
+ 1.0% (100 Basis Points)	101	151
- 0.5% (50 Basis Points)	(50)	(76)

Foreign Currency Risk

Foreign currency risk is the risk that the value of the Group's assets, liabilities and financial performance will fluctuate due to changes in foreign currency rates.

The Group is primarily exposed to currency risk as a result of its operations in Australia, The Americas, Europe and Asia.

The risk to the Group is that the value of the overseas subsidiaries' financial positions and financial performances will fluctuate in economic terms and as recorded in the financial statements due to changes in overseas exchange rates.

Included in bank term loans at 31 March 2025 is a borrowing of EU€1,700,000 (2024 €27,700,000) which has been designated as a hedge of the net investments in the European subsidiaries. It is being used to hedge the Group's exposure to changes in exchange rates on the value of its net investments in Europe. Gains or losses on the retranslation of this borrowing are recognised in other comprehensive income to offset any gains or losses on translation of the net investments in the subsidiaries. A net after tax loss on the retranslation of the borrowing used to hedge the net investments of NZ\$245,079 (2024 net after tax loss \$1,096,121) was recognised in other comprehensive income for the period within the foreign currency translation reserve.

There is an economic relationship between the hedged item and the hedging instrument as the net investment creates a translation risk that will match the foreign exchange risk on the EUR borrowing. The Group has established a hedge ratio of 1:1 as the underlying risk of the hedging instrument is identical to the hedged risk component. Hedge ineffectiveness will arise when the amount of the investment in the foreign subsidiary becomes lower than the amount of the fixed rate borrowing.

	2025 AU\$000	2024 AU\$000
Net Assets Relating to Australian Subsidiaries Exposed to Currency Risk	445,943	435,422
	US\$000	US\$000
Net Assets Relating to American & Asian Subsidiaries Exposed to Currency Risk	196,462	202,356
	EU€000	EU€000
Net Assets Relating to European Subsidiaries Exposed to Currency Risk	177,692	159,100

Currency movements in the foreign denominated balances above are reflected in the foreign currency translation reserve. The movements were comprised of the following:

	2025 NZ\$000	2024 NZ\$000
Retranslation of Net Assets in Foreign Subsidiaries	37,010	30,046
Tax on Unrealised Foreign Exchange Gain	95	426
MOVEMENT IN FOREIGN CURRENCY TRANSLATION RESERVE	37,105	30,472

The Group is exposed to currency risk in relation to trading balances denominated in other than the NZ dollar, principally by the trading of the Group's overseas businesses.

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

At 31 March 2025 the Group has the following monetary assets and liabilities denominated in other than the NZ dollar: 76% of trade accounts payable (2024 77%), 80% of trade accounts receivable (2024 80%), 100% of cash assets (2024 100%). These amounts are inclusive of the above balances held in foreign subsidiaries.

The following sensitivity is based on the foreign currency risk exposures in existence at the balance sheet date:

At 31 March 2025, had the New Zealand Dollar moved as illustrated in the table below with all other variables held constant, post tax profit and equity would have been affected as follows:

Judgements of reasonably possible movements:

		Post Tax Profit Higher / (Lower)		Equity Higher / (Lower)	
		2025 \$000	2024 \$000	2025 \$000	2024 \$000
NZD/AUD	+10%	(7,463)	(6,040)	(44,885)	(38,381)
NZD/AUD	-10%	9,122	7,383	54,861	46,910
NZD/USD	+10%	(2,316)	(2,208)	(34,097)	(34,805)
NZD/USD	-10%	2,827	2,699	41,674	42,539
NZD/EURO	+10%	(4,001)	(3,195)	(31,397)	(28,148)
NZD/EURO	-10%	4,891	3,906	38,377	34,402

The movement in equity is a combination of movement in post-tax profit and the movement in the foreign currency translation reserve as values of overseas investments in subsidiaries change.

Management believes the balance date risk exposures are representative of the risk exposure inherent in the financial instruments.

Credit Risk

In the normal course of business, the Group is exposed to credit risk from financial instruments including cash, trade debtors, accrued revenue, other receivables and derivative financial instruments. The carrying amounts of these financial instruments represent the maximum exposure to credit risk.

Receivable balances are monitored on an ongoing basis with the result that, in management's view, the Group's exposure to bad debts is not significant. The Group does not have concentrations of credit risk by industry but does have concentrations by geographical sectors (refer to Segment Reporting in note 5).

With respect to credit risk arising from the other financial assets of the Group, which comprise cash and cash equivalents, and certain derivative instruments, the Group's exposure to credit risk arises from default of the counterparty, with a maximum exposure equal to the carrying amount of these instruments. The Group has a policy only to deal with registered banks or financial institutions with high quality credit ratings.

It is the Group's policy that customers considered higher risk who wish to trade on credit terms are subject to credit verification procedures including an assessment of their independent credit rating, financial position, past experience and industry reputation. Risk limits are set for each individual customer in accordance with parameters set by the Board. These risk limits are regularly monitored.

Liquidity Risk

Liquidity risk represents the Group's ability to meet its contractual obligations. The Group's objective is to maintain a balance between continuity of funding and flexibility through the use of bank overdrafts, bank loans, and asset finance loans. The Board considers that, in general, the Group has sufficient cash flows from operating activities to meet their obligations. If there are projected shortfalls, management ensures adequate committed finance is available.

At 31 March 2025, \$11,198,000 of the Group's debt will mature in less than one year (2024: \$12,319,000).

3 FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (CONTINUED)

The table below reflects all contractually fixed payments and receivables for settlement, repayments and interest resulting from recognised financial assets and liabilities, including derivative financial instruments as of 31 March 2025. The respective undiscounted cash flows for the respective upcoming fiscal years are presented. Cash flows for financial assets and liabilities without fixed amount or timing are based on the conditions existing at 31 March 2025.

The remaining contractual maturities of the Group's financial liabilities are:

	2025 Year (\$'000)				
	<6 months	6-12 months	1-2 years	2-5 Years	Total
Term Loan	3,533	3,533	7,067	131,605	145,738
Lease Liability	126,683	126,683	259,343	828,914	1,341,623
Creditors	513,452	-	-	-	513,452
Asset Finance Loans	6,630	6,630	12,062	21,304	46,626
TOTAL	650,298	136,846	278,472	981,823	2,047,439

	2024 Year (\$'000)				
	<6 months	6-12 months	1-2 years	2-5 Years	Total
Term Loan	4,205	4,205	8,410	155,812	172,632
Lease Liability	122,896	122,896	255,049	718,706	1,219,547
Creditors	495,659	-	-	-	495,659
Asset Finance Loans	7,574	7,573	12,328	25,550	53,025
TOTAL	630,334	134,674	275,787	900,068	1,940,863

At balance date, the Group has approximately \$379 million (2024: \$352 million) of unused credit facilities available for its immediate use.

Fair Value

The Group uses various methods in estimating the fair value of assets carried at fair value. The methods comprise:

Level 1: the fair value is calculated using quoted prices in active markets,

Level 2: the fair value is estimated using inputs other than quoted prices included in Level 1 that are observable for the asset or liability, either directly (as prices) or indirectly (derived from prices),

Level 3: the fair value is estimated using inputs for the asset or liability that are not based on observable market data.

The methods for estimating fair value are outlined in the relevant notes to the financial statements. Refer to note 12.

4 SIGNIFICANT ACCOUNTING JUDGEMENTS, ESTIMATES AND ASSUMPTIONS

In applying the Group's accounting policies, management continually evaluates judgements, estimates and assumptions based on experience and other factors, including expectations of future events that may have an impact on the Group. All judgements, estimates and assumptions made are believed to be reasonable based on the most current set of circumstances available to management. Actual results may differ from the judgements, estimates and assumptions and the differences may be material. Significant judgements, estimates and assumptions made by management in the preparation of these financial statements are discussed within the specific accounting policy or note as shown below:

AREA OF JUDGEMENT	Note
Estimation of Land Valuation	12
Timing of Revenue Recognition	2

5 SEGMENTAL REPORTING

An operating segment is a component of an entity that engages in business activities from which it may earn revenues and incur expenses whose operating results are regularly reviewed by the entity's chief operating decision maker and for which discrete financial information is available.

The Group operates in the domestic supply chain (i.e. moving and storing freight within countries) and air and ocean freight industries (i.e. moving freight between countries).

New Zealand, Australia, The Americas, Asia and Europe are each reported to management as separate segments as the businesses there perform both domestic and air and ocean services.

The accounting policies of the operating segments are the same as those described in note 2 with the exception of deferred tax and the fair value of derivative financial instruments which are not reported on a monthly basis.

The segmental results from operations are disclosed below.

Geographical Segments

The following table represents revenue, margin and certain asset information regarding geographical segments for the years ended 31 March 2025 and 31 March 2024.

Year Ended 31 March 2025	New Zealand	Australia	The Americas	Asia	Europe	Inter- Segment	Total \$000
OPERATING REVENUE							
- Sales to customers outside the group	1,158,861	1,655,699	1,119,880	212,349	1,089,648	-	5,236,437
- Inter-segment sales	20,994	47,021	113,706	158,598	69,315	(409,634)	-
TOTAL REVENUE	1,179,855	1,702,720	1,233,586	370,947	1,158,963	(409,634)	5,236,437
Transport Costs	(675,884)	(1,033,131)	(804,415)	(289,922)	(635,354)	409,634	(3,029,072)
Depreciation & Amortisation	(83,159)	(86,388)	(76,414)	(7,312)	(75,589)	-	(328,862)
Finance Costs	(16,225)	(20,463)	(6,193)	(266)	(5,928)	-	(49,075)

5 SEGMENTAL REPORTING (CONTINUED)

Division Segments

The following table represents revenue and PBT regarding the three main types of services for the years ended 31 March 2025 and 31 March 2024.

Year Ended 31 March 2025	Domestic Transport	Warehousing	Air & Ocean Forwarding	Total \$000
Revenue	2,262,861	865,364	2,108,212	5,236,437
PBT	169,788	63,592	150,198	383,578
PBT to Revenue Margin - ROR	7.5%	7.3%	7.1%	7.3%

Year Ended 31 March 2024	Domestic Transport	Warehousing	Air & Ocean Forwarding	Total \$000
Revenue	2,188,882	784,790	1,744,124	4,717,796
PBT	172,468	59,654	163,261	395,383
PBT to Revenue Margin - ROR	7.9%	7.6%	9.4%	8.4%

Reconciliation between non-GAAP and the Income Statement

	2025 \$000	2024 \$000
PROFIT BEFORE TAXATION FOR THE YEAR	383,578	395,383
Finance Costs Relating to Lease Liabilities	40,105	25,611
Other Net Finance Costs	8,970	6,619
EBITA	432,653	427,613
Depreciation of Right of Use Assets	221,223	193,146
Other Depreciation and Amortisation Expenses	107,639	99,822
EBITDA (ADJUSTED)	761,515	720,581

EBITDA (adjusted) is defined as earnings before net interest expense, tax, depreciation, amortisation, and royalties (segment only; not Group).

There are no customers in any segment that comprise more than 10% of that segment's revenue.

Bank term loan is allocated based on segment net assets excluding bank term loan.

The geographical segments are determined based on the location of the Group's assets.

6 EXPENSES AND OTHER INCOME

The Profit before Taxation is stated:

	2025 \$000	2024 \$000

Finance Costs Relating to Lease Liabilities	40,105	25,611
Donations and Sponsorships **	1,542	1,611
AFTER CREDITING OTHER INCOME:		
Net Gain / (Loss) on Foreign Exchange	5,790	13,032
Net Gain / (Loss) on Disposal of Property, Plant & Equipment	5,424	3,088

*EY are independent of the Group in accordance with Professional and Ethical Standard 1 "International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)" issued by the New Zealand Auditing and Assurance Standards Board, and they have fulfilled their other ethical responsibilities in accordance with these requirements - refer Auditor's Report pages 96-99
Simon O'Connor, the current EY audit partner, was appointed 28 June 2023.

**No donations to political parties were made in either year.

7 INCOME TAX

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities based on the current period's taxable income. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the balance sheet date.

Deferred income tax is generally provided on all temporary differences at the balance sheet date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each balance sheet date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

The OECD/G20 Inclusive Framework on BEPS addresses tax challenges from digitalisation of the global economy. The Pillar Two model rules apply a 15% global minimum tax to multinational enterprises (MNEs) with annual revenue over EUR750 million. These rules have been enacted in several countries in which the Group operates, including the Netherlands, Belgium, Australia, and others, effective from 1 January 2024. The Group qualifies as a MNE under these rules.

Pillar Two legislation became effective in New Zealand, where the Group is headquartered, from 1 January 2025. The Group has adopted amendments to NZ IAS 12 Income Tax, effective 10 August 2023, which includes:

- A temporary exception to the recognition and disclosure of deferred taxes from Pillar Two rules.
- Disclosure requirements to help users understand the Group's exposure to Pillar Two income taxes.

The Group has assessed its potential exposure to Pillar Two taxes based on 2024 and 2025 financial information including the transitory safe harbours rules. As a result, the effective tax rates in significant jurisdictions where the Group operates are above 15%, so no significant current tax impact is expected from Pillar Two rules for the year ended 31 March 2025.

The Group will continue to monitor Pillar Two legislative developments to evaluate future impacts on its consolidated financial position, and cash flows.

DEFERRED TAX (INCOME) / EXPENSE			(14,118)	102,527

8 DIVIDENDS PAID AND PROPOSED

	2025 \$000	2024 \$000
RECOGNISED AMOUNTS		
Declared and Paid During the Year to Parent Shareholders		
Final Fully Imputed Dividend for 2024: 87.0 cents (2023: 87.0 cents)	87,608	87,608
Interim Fully Imputed Dividend for 2025: 85.0 cents (2024: 85.0 cents)	85,594	85,594
	173,202	173,202
UNRECOGNISED AMOUNTS		
Final Fully Imputed Dividend for 2025: 87.0 cents (2024: 87.0 cents)	87,608	87,608

After the balance date, the above unrecognised dividends were approved by Directors' resolution dated 28 May 2025. These amounts have not been recognised as a liability in 2025 but will be brought to account in 2026.

9 EARNINGS PER SHARE

Basic earnings per share is calculated as net profit attributable to members of the Parent, adjusted to exclude any costs of servicing equity (other than dividends), divided by the weighted average number of ordinary shares.

There was no dilution of earnings per share in 2025 (nil 2024).

The following reflects the income used in the basic and diluted earnings per share computations:

Net profit from continuing operations attributable to ordinary equity holders of the Parent.

	2025 \$000	2024 \$000
FOR BASIC AND DILUTED EARNINGS PER SHARE		
Net Profit Attributable to Ordinary Equity Holders of the Parent	274,341	208,671
WEIGHTED AVERAGE NUMBER OF SHARES		
	Thousands	Thousands
Weighted Number of Ordinary Shares for Basic Earnings Per Share	100,699	100,699
	Cents	Cents
Basic and Diluted Earnings Per Share: Total Operations	272.44	207.22

10 CURRENT ASSETS - TRADE DEBTORS

Trade debtors are non-interest bearing and are generally on 7-30 day terms. They are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less an allowance for impairment. Accrued revenue is recognised for revenue earned from freight services performed but not yet billed and is included within trade debtors.

Collectability of trade debtors is reviewed on an ongoing basis. Debts that are known to be uncollectible are written off when identified.

The Group applies a simplified approach in calculating expected credit losses. Therefore the group does not track changes in credit risk, but instead recognises a loss allowance based on lifetime expected credit losses at each reporting date. This is based on historical credit loss experience, adjusted for forward-looking factors specific to the debtors and the economic environment. Trade debtors and accrued revenue are written off as bad debts when all avenues of collection have been exhausted. Due to the short-term nature of debtors and accrued revenue their carrying values is assumed to approximate fair value.

	2025 \$000	2024 \$000
Trade Debtors	649,696	622,300
Allowance for Impairment Loss	(8,936)	(7,367)
	640,760	614,933
Movements in the allowance for impairment were as follows:		
Balance at 1 April	7,367	7,343
Charge for the Year	4,580	4,637
Amounts Written Off	(3,011)	(4,613)
BALANCE AT 31 MARCH	8,936	7,367

At 31 March, the ageing analysis of trade debtors and accrued revenue is as follows:

\$000	Total	0-30 Days	31-60 Days	61-90 Days PDNI*	61-90 Days CI#	+91 Days PDNI*	+91 Days CI#
2025	649,696	511,007	107,869	13,536	1,474	8,348	7,462
2024	622,300	487,178	107,109	14,196	395	6,450	6,972

* Past due not impaired (PDNI)

Considered Impaired (CI)

Credit risk management policy is disclosed in note 3.

The maximum exposure to credit risk is the fair value of trade debtors and accrued revenue. Collateral is not held as security, nor is it the Group's policy to transfer or factor receivables.

11 INVESTMENT IN SUBSIDIARY COMPANIES

Principal Subsidiary Companies all with 31 March Balance Dates Include:	Principal Activity	Country of Incorporation	2025 Shareholding	2024 Shareholding

12 NON-CURRENT ASSETS - PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment, except land, is stated at historical cost less accumulated depreciation and any accumulated impairment losses. Such cost includes the cost of replacing parts that are eligible for capitalisation when the cost of replacing the parts is incurred. All other repairs and maintenance are recognised in the income statement as incurred.

Land is measured at fair value, based on valuations by external independent valuers who apply the International Valuation Standards Committee International Valuation Standards, less any impairment losses recognised after the date of the revaluation. Land is revalued at least every three years with the last valuations done as at 31 March 2024.

Depreciation is calculated on a straight-line basis at rates calculated to allocate the assets' cost, less estimated residual value, over their estimated useful lives as follows:

	Per annum		Per annum
Land	not depreciated	Leasehold Improvements	10% or life of lease if shorter
Buildings	1.33% to 3.00%	Plant, Vehicles and Equipment	8% to 36%

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance date.

Disposal

An item of property, plant and equipment is de-recognised upon disposal or when no further future economic benefits are expected from its use or disposal.

At 31 March 2024 independent registered valuers performed a valuation of the Group's land and buildings.

A summary of the 2024 valuations is:

Registered Valuer	Country	Weighted Average Capitalisation Rate	Valuation 2024
Extensor Advisory Ltd	New Zealand	5.94%	NZ\$713,705,000
Jones Lang LaSalle	Australia	5.37%	AU\$441,500,000
DTZ Zadelhoff V.O.F.	Netherlands	8.19%	EU€23,110,604
DTZ Zadelhoff BE	Belgium	7.54%	EU€30,896,683
Galtier Expertise	France	7.25%	EU€4,260,285
Nica Violeta Cornelia	Romania	8.73%	EU€12,012,595
GROUP TOTAL			NZ\$1,323,076,665

The element of this valuation related to land has been recorded in the financial statements resulting in the revaluation of land by \$321,768,000 (2024 \$320,488,000) above cost. In addition a deferred tax liability of \$50,087,000 (2024 \$49,707,000) was recorded resulting in a revaluation reserve of \$271,681,000 (2024 \$270,781,000)

The element of this valuation related to buildings has not been recorded in the financial statements. If it had been recorded a revaluation in buildings of \$252,530,000 (2024 \$240,836,000) would have occurred. In addition, a deferred tax liability of \$21,207,000 (2024 \$19,495,000) would have needed to be recorded resulting in an increase in the revaluation reserve of \$231,323,000 (2024 \$221,341,000).

In determining the fair value of land, the valuers have considered relevant general and economic factors and in particular have investigated recent sales and leasing transactions of comparable properties that have occurred in the relevant locations within which the assets sit. The valuers have used two principal approaches which are a capitalisation analysis and a direct comparison approach. The valuations of land have been determined using the direct comparison approach to value each parcel of land and as a result these are considered level 2 valuations.

Included in the Group book values above but not in the valuations are Leasehold Improvements of \$91,057,000 (2024 \$56,837,000). There were no properties held for sale included in these valuations (2024 nil).

Leased plant, vehicles and equipment is pledged as security for the related asset finance loans.

12 NON-CURRENT ASSETS - PROPERTY, PLANT AND EQUIPMENT (CONTINUED)

(b) Carrying Amounts if Land Was Measured at Cost Less Accumulated Impairment

If Land, excluding properties for sale, was measured using the cost model the carrying amounts would be as follows:

	2025 \$000	2024 \$000
Cost	290,015	250,194
Accumulated Impairment	-	-
NET CARRYING AMOUNT	290,015	250,194

13 NON-CURRENT ASSETS - INTANGIBLE ASSETS AND GOODWILL

(i) Goodwill

Goodwill acquired in a business combination is initially measured at cost being the excess of the cost of the business combination over the Group's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities.

Following initial recognition, goodwill is measured at cost and tested annually for impairment.

(ii) Intangible Assets

Intangible assets acquired separately or in a business combination are initially measured at cost. The cost of an intangible asset acquired in a business combination is its fair value as at the date of acquisition. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and any accumulated impairment losses. Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is recognised in the income statement in the year in which the expenditure is incurred.

(iii) Software

The Group uses both internal and external resources to develop software. An intangible asset arising from expenditure on an internal project is recognised only when the Group can demonstrate the technical feasibility of completing the intangible asset so that it will be available for use or sale, its intention to complete and its ability to use or sell the asset, how the asset will generate future economic benefits, the availability of resources to complete the development and the ability to measure reliably the expenditure attributable to the intangible asset during its development. Following the initial recognition of the expenditure, the cost model is applied requiring the asset to be carried at cost less any accumulated amortisation and accumulated impairment losses. Any expenditure so capitalised is amortised over the period of expected benefit from the related project.

A summary of the policies applied to the Group's software assets is as follows:

Amortisation method used:

Amortised over the period of expected future benefit from the related project on a straight-line basis generally from three to ten years.

Internally generated or acquired:

Both.

*** Software included work in progress with a book value at 31 March 2025 of nil (2024 nil). \$913,088 of the total software net carrying amount was internally generated, primarily team member costs for the development of new software systems (2024 \$1,624,000).

13 NON-CURRENT ASSETS - INTANGIBLE ASSETS AND GOODWILL (CONTINUED)

(b) Impairment Tests for Goodwill

(i) Description of the cash generating units and other relevant information

Goodwill acquired through business combinations have been allocated to seven groups of cash generating units (CGUs) for impairment testing.

The recoverable amount per CGU has been determined based on a value in use calculation using cash flow projections based on financial forecasts approved by senior management covering a five year period. The post-tax discount rate applied to cash flow projections per CGU and long-term growth rates used per CGU are as follows:

	2025 Post-Tax % Discount Rate	2024 Pre-Tax % Discount Rate	2025 Long-Term % Growth Rate	2024 Long-Term % Growth Rate
New Zealand Domestic	8.89%	9.40%	2.19%	2.00%
New Zealand Air & Ocean	8.89%	9.40%	2.19%	2.00%
Australian Domestic	8.62%	9.70%	2.44%	2.00%
Australian Air & Ocean	8.62%	9.70%	2.44%	2.00%
Americas	8.57%	8.30%	3.11%	2.00%
Asia	7.25%	12.10%	2.45%	2.00%
Europe	6.96%	7.16%	3.95%	2.00%

(i) Carrying amount of goodwill allocated to each group of cash generating units

	2025 \$000	2024 \$000
New Zealand Domestic	12,215	12,215
New Zealand Air & Ocean	8,549	8,549
Australian Domestic	5,549	5,497
Australian Air & Ocean	16,999	16,818
Americas	80,176	76,487
Asia	10,251	10,092
Europe	101,470	96,507
	235,209	226,165

(ii) Key assumptions used in value in use calculations for cash generating units (CGUs)

The calculation of value in use for all CGUs is most sensitive to the following assumptions; EBITDA (adjusted), discount rates and growth rates used.

EBITDA (adjusted) is based on forecasts.

Discount rates reflect management's estimate of the time value of money and the risks specific to each CGU.

For the purposes of impairment testing a terminal growth rate has been used for all segments based on the long-term industry and country averages.

(iii) Sensitivity to changes in assumptions

With regard to the assessment of the value in use for all CGUs, management believes that no reasonably possible change in any of the above key assumptions would cause the carrying values of the units to materially exceed its recoverable amount.

14 EMPLOYEE ENTITLEMENTS

(i) Long Service Leave

Consideration is given to expected future wage and salary levels, experience of employee departures, and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currencies that match, as closely as possible, the estimated future cash outflows.

	Current		Non-current	
	2025 \$000	2024 \$000	2025 \$000	2024 \$000
Annual Leave	57,037	57,837	-	-
Bonus Accrual	30,462	25,449	-	-
Long Service Leave	18,124	15,446	4,331	4,347
Defined Benefit Pension Scheme	-	-	395	297
Other	-	-	134	160
	105,623	98,732	4,860	4,804

15 INTEREST-BEARING LOANS AND BORROWINGS

All loans and borrowings are initially recognised at the fair value of the consideration received less directly attributable transaction costs. After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortised cost using the effective interest method. Fees paid on the establishment of loan facilities that are yield related are included as part of the carrying amount of the loans and borrowings. Borrowings are classified as current liabilities unless the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

Borrowing Costs

Borrowing costs are recognised as an expense when incurred unless funding costs have been incurred which are directly attributable to the acquisition, construction, or production of a qualifying asset in which case funding costs are included within the cost of the asset. Capitalisation of borrowing costs cease when substantially all the activities necessary to prepare the qualifying asset for its intended use or sale are complete. Borrowing costs of \$2,046,888 were capitalised in 2025 (2024 \$870,381). The capitalisation average rate was 6.14% (2024 2.32%).

The loans are identified as follows:

	2025 \$000	2024 \$000
Bank Term Loans	124,538	147,402
Asset Finance Loans	40,440	44,541
	164,978	191,943

Presented in the balance sheet as:

	2025 \$000	2024 \$000
Current Asset Finance Loans	11,198	12,319
Non-current Asset Finance Loans	29,242	32,222
Non-current Bank Loan	124,538	147,402
	164,978	191,943

A long-term revolving facility of NZ\$85,000,000 with the Westpac Banking Corporation (Westpac) was established on 6 June 2014 expiring on 4 April 2028.

A long-term revolving facility of NZ\$65,000,000 plus EU€15,000,000 with the Commonwealth Bank of Australia (CBA) was established on 6 June 2014 expiring on 4 April 2028.

A long-term revolving facility of NZ\$110,000,000 plus EU€13,000,000 with the Hongkong and Shanghai Banking Corporation (HSBC) was established on 5 June 2014 expiring on 4 April 2028.

A long-term revolving facility of EU€50,000,000 with ING Belgium NV/SA (ING) was established on 15 August 2017 expiring on 4 April 2028.

A long-term revolving facility of NZ\$100,000,000 with the Bank of China (BOC) was established on 25 July 2019 expiring on 4 April 2028.

All facilities operate under a negative pledge and cross company guarantees.

The facilities allow the borrowing Group to offset deposits against borrowings when calculating indebtedness for covenant compliance.

15 INTEREST-BEARING LOANS AND BORROWINGS (CONTINUED)

These loan facilities are at a floating interest rate. Banking covenants remain unchanged. Debt approximates fair value due to floating nature of current drawdowns.

Interest was payable during the year at the average rate of 5.92% per annum (2024 5.64%).

The Asset Finance Loans relate to the financing of vehicles and are typically repayable in equal instalments over 5 to 7 years. Finance charges are recognised as an expense in profit or loss.

16 LEASES

The determination of whether an arrangement is or contains a lease is based on the substance of the arrangement and requires an assessment of whether the fulfilment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

Property leases are often negotiated with rights of renewal in order that we have flexibility in location and size of premises to cater for future growth; whilst ensuring certainty of future tenure.

At balance date the Group had the following Right of Use Assets and Lease Liabilities :

	Right of Use Assets 2025 \$000	Right of Use Assets 2024 \$000	Lease Liabilities 2025 \$000	Lease Liabilities 2024 \$000
Opening Book Value	975,726	744,914	(1,024,399)	(781,104)

Non-current	987,989	843,657
	1,182,011	1,024,399

17 CONTRIBUTED EQUITY

Ordinary shares are classified as equity. Incremental costs directly attributable to the issue of new shares or options are shown in equity as a deduction, net of tax, from the proceeds.

	2025 Shares	2024 Shares	2025 \$000	2024 \$000
Authorised, Issued and Fully Paid Up Capital Ordinary shares	100,698,548	100,698,548	85,821	85,821

Ordinary shares do not have a par value.

All ordinary shares have equal voting rights and share equally in dividends and any surplus on winding up to the extent that they are paid up.

Capital Management

When managing capital, the Board of Directors' (the "Board") objective is to ensure the entity continues as a going concern as well as to maintain optimal returns to shareholders and benefits for other stakeholders. The Board also aims to maintain a capital structure that ensures the lowest cost of capital available to the entity. The capital structure of the Group consists of shareholders' equity and debt.

The Board is periodically reviewing and adjusting the capital structure to take advantage of favourable costs of capital. As the market is constantly changing, the Board may change the amount of dividends to be paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The Board has no current plans to issue further shares on the market.

The Board monitors capital through the Group gearing ratio (net debt / net debt and equity).

	2025 \$000	2024 \$000

The Group had the following capital commitments at 31 March 2025 totalling \$86,004,179 (2024 \$75,313,096).

- New Zealand Auckland, Hastings Property Development	12,810,337
- New Zealand Auckland, Penrose Property Development	16,728,902
- New Zealand Other Property Developments and Equipment	5,012,603
- Australia Brisbane, Willawong Property Development	46,885,128
- American Sundry and Equipment	611,208
- Europe Sundry Vehicles and Equipment	3,956,001

21 CAPITAL COMMITMENTS AND CONTINGENT LIABILITIES (CONTINUED)

There are additional bank performance guarantees and bonds totalling \$33,738,000 (2024 \$31,915,000) undertaken by the Group.

	2025 \$000	2024 \$000
GUARANTEES COMPRISE:		
Rent Guarantees	1,347	
Custom Guarantees	22,861	21,542
	24,208	21,542
PERFORMANCE BONDS COMPRISE:		
NZX (New Zealand Stock Exchange)	75	75

European Other Guarantees	7,780	8,629
European Government Licensing Guarantees	1,170	1,113
	9,530	10,373

The Group is party to sub-lease / tenancy agreements where third parties lease excess office / industrial space from the Group. In the event of default by third parties the Group would be exposed to these liabilities.

As a result of the IRD's programme of routine and regular tax audits, the Group anticipates that IRD audits may occur in the future. The Group is similarly subject to routine tax audits in certain overseas jurisdictions. The Group believes that it is making adequate provision for its taxation liabilities. However, there may be an impact to the Group if any revenue authority investigations result in an adjustment that increases the Group's taxation liabilities.

The Group can also be subject to legal claims as a result of conducting business. The Group believes that it is making adequate provision for its legal liabilities. However, there may be an impact to the Group if any legal cases result in an adjustment that increases the Group's legal liabilities.

22 ABNORMAL ITEMS

Abnormal items are determined in accordance with the principles of consistency, relevance and clarity. Transactions considered for classification as abnormal items include acquisition and disposal costs; impairment or reversal of impairment of assets; business integration; and transactions or events outside of the Group's ongoing operations that have a significant impact on reported after tax profit.

During the year the Group had no abnormal pre-tax expenses (2024 nil). The related after tax expense was nil (2024 \$69,224,000).

	2025			2024		
	Pre-Tax \$000	Tax \$000	After Tax \$000	Pre-Tax \$000	Tax \$000	After Tax \$000
Building Depreciation Taxation ^{##}	-	-	-	-	(69,224)	(69,224)
	-	-	-	-	(69,224)	(69,224)

^{##}On 28 March 2024, the New Zealand Government enacted changes to the tax legislation to remove the ability to depreciate buildings with a life over 50 years for tax deduction purposes. For the Group the application of this taxation change under NZ IAS 12 Income Taxes creates a tax carrying value of nil from 1 April 2024 onwards for these New Zealand buildings. This increases the deferred taxation liability by \$69,224,000 and creates a one-off, non-cash accounting adjustment to the taxation expense for deferred tax on buildings for the year ended 31 March 2024 of \$69,224,000. The application of NZ IAS 12 which creates this large deferred taxation liability does not reflect taxation payable if the assets were sold.

23 SUBSEQUENT EVENTS

A dividend of 87.0 cents per share was declared on 28 May 2025 totalling \$87,607,737. Payment date is to be 18 July 2025.

Independent auditor's report to the shareholders of Mainfreight Limited

Report on the audit of the financial statements

Opinion

We have audited the financial statements of Mainfreight Limited (the "Company") and its subsidiaries (together the "Group") on pages 67 to 95, which comprise the consolidated statement of financial position of the Group as at 31 March 2025, and the consolidated income statement, the consolidated statement of comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended of the Group, and the notes to the consolidated financial statements including material accounting policy information.

In our opinion, the consolidated financial statements on pages 67 to 95 present fairly, in all material respects, the consolidated financial position of the Group as at 31 March 2025 and its consolidated financial performance and cash flows for the year then ended in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards.

This report is made solely to the Company's shareholders, as a body. Our audit has been undertaken so that we might state to the Company's shareholders those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's shareholders, as a body, for our audit work, for this report, or for the opinions we have formed.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (New Zealand). Our responsibilities under those standards are further described in the *Auditor's responsibilities for the audit of the financial statements* section of our report.

We are independent of the Group in accordance with Professional and Ethical Standard 1 *International Code of Ethics for Assurance Practitioners (including International Independence Standards) (New Zealand)* issued by the New Zealand Auditing and Assurance Standards Board, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Ernst & Young provides taxation compliance services, taxation advisory services, financial statement preparation services and other assurance related services to the Group. Partners and employees of our firm may deal with the Group on normal terms within the ordinary course of trading activities of the business of the Group. We have no other relationship with, or interest in, the Group.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current year. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, but we do not provide a separate opinion on these matters. For each matter below, our description of how our audit addressed the matter is provided in that context.

We have fulfilled the responsibilities described in the *Auditor's responsibilities for the audit of the financial statements* section of the audit report, including in relation to these matters. Accordingly, our audit included the performance of procedures designed to respond to our assessment of the risks of material misstatement of the financial statements. The results of our audit procedures, including the procedures performed to address the matters below, provide the basis for our audit opinion on the accompanying consolidated financial statements.

A member of Ernst & Young Global Limited

Revenue Recognition

Why significant	How our audit addressed the key audit matter
<p>The Group recognised revenue totalling \$5.2 billion for the year in the consolidated income statement.</p> <p>Under New Zealand equivalents to International Financial Reporting Standard 15: <i>Revenue from Contracts with Customers</i> ("NZ IFRS 15"), an entity must recognise revenue with respect to the performance obligations it has identified within its contracts with customers.</p> <p>Mainfreight has determined it meets performance obligations in its customer contracts over time. There is judgement involved in assessing the stage of completion and therefore the amount of revenue recognised. This is particularly relevant to the Air & Ocean Forwarding businesses for which delivery times are longer than for other revenue streams and the transactions are therefore more likely to span year end.</p> <p>The Group bills for these services at different points in time depending on the nature of the service and then adjusts to record revenue in the correct period.</p> <p>Revenue recognition is a key audit matter as, collectively, material revenue transactions can occur close to year end and there is a risk that revenue is recognised in the incorrect period.</p> <p>Disclosures related to the Group's revenue are included in note 2 and note 5 to the consolidated financial statements.</p>	<p>In obtaining sufficient audit evidence in respect of revenue recognised:</p> <ul style="list-style-type: none"> • We evaluated the Group's practices in respect of the timing of providing the service, timing of billing and when revenue is recognised in accordance with NZ IFRS 15; • We tested a sample of revenue transactions recorded near year end to assess whether they were recorded in the correct period. This included considering shipping or other documentation indicating the timing of shipment; • Performed a three-way correlation between revenue, receivables, and cash to support that revenue is being appropriately recorded as well as identify and test unusual transactions in the revenue process; • We completed analytical procedures considered against expectations over reported margins for the year; • We analysed credit notes issued after year end to assess whether these could significantly impact revenue recognised within current financial year; • We performed testing of manual journal entries recognised within revenue near year end; and, • We considered the adequacy of revenue disclosures in the consolidated financial statements.

Group audit planning and co-ordination

Why significant	How our audit addressed the key audit matter
<p>Mainfreight is an international business with 78% of the Group's revenue being generated in countries other than New Zealand.</p> <p>A significant area of focus when conducting the audit was assessing that sufficient audit evidence was obtained by each component audit team to enable us to reach our opinion on the consolidated financial statements as a whole. This was both with respect to the determination and allocation of materiality as well as the determination of the nature and extent of procedures to be performed by each component audit team.</p>	<p>As the coordinating primary team ("group audit team"), EY New Zealand performed risk assessment for the Group (incorporating feedback from component teams). The group audit team considered risks of material misstatement to the Group financial statements to determine the accounts and level of work assigned to each component team in significant locations. Consideration was given to the nature, size and risks associated with each of the group's significant businesses and the results of our risk assessment analytical procedures performed.</p> <p>As a result of this assessment, each business was allocated specific accounts and scope reflecting the extent of audit procedures required.</p> <p>The group audit team communicated to the component audit teams significant risk areas to be considered and the information to be reported back to the group audit team. The component and group audit teams then determined the extent and nature of audit procedures to be performed.</p> <p>To obtain sufficient coverage of group balances, the group audit team performed centralised testing over certain accounts and performed work in relation to number of smaller business units.</p> <p>All component teams provided written confirmation to the group audit team summarising the results of their work as well any significant findings or observations. In addition, the Group audit team had regular communications with the component audit teams and reviewed certain workpapers responding to risk areas.</p> <p>Members of the group audit team visited Mainfreight management and component audit teams in USA, Europe and Hong Kong and held discussions with the component teams for all significant non-New Zealand locations (Australia, USA, Europe and Asia). During these discussions, the work performed by each team was considered, and the key judgements were discussed, as were findings relevant to the group audit.</p>

Information other than the financial statements and auditor's report

The directors of the Company are responsible for the other information. The other information comprises the annual report, which includes the Climate Statement but does not include the financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained during the audit, or otherwise appears to be materially misstated.

If, based upon the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Directors' responsibilities for the financial statements

The directors are responsible, on behalf of the entity, for the preparation and fair presentation of the consolidated financial statements in accordance with New Zealand Equivalents to International Financial Reporting Standards and International Financial Reporting Standards, and for such internal control as the directors determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing on behalf of the entity the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or cease operations, or have no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with International Standards on Auditing (New Zealand) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

A further description of the auditor's responsibilities for the audit of the financial statements is located at the External Reporting Board's website: <https://www.xrb.govt.nz/standards/assurance-standards/auditors-responsibilities/audit-report-1-1/>. This description forms part of our auditor's report.

The engagement partner on the audit resulting in this independent auditor's report is Simon O'Connor.

Statutory Information

DIRECTORS

The following people held office or ceased to hold office as Director during the year and received the following remuneration including benefits during the year:

Name		Remuneration 2025	Remuneration 2024	Current Director or Date Appointed or Resigned
Bruce Plested	1	-	-	Current
Don Braid	2	\$2,903,367	\$3,781,227	Current
Simon Cotter	3	\$120,000	\$120,000	Current
Bryan Mogridge	3	\$120,000	\$120,000	Current
Kate Parsons	3	\$120,000	\$120,000	Current
Richard Prebble	3, 4	\$160,000	\$120,000	Retired
Annie Steel	3	\$120,000	\$10,000	Current
Hayley Buckley	3	\$120,000	\$10,000	Current

1. Elected not to receive director fees since 2014.
2. The remuneration comprised:

	2025	2024
Base Salary	2,900,000	2,900,000
Discretionary Performance Bonus ***	0	877,587
Vehicle and Other Non-cash	3,367	3,640
	\$2,903,367	\$3,781,227

***The discretionary performance bonus (short term incentive) relates to the previous financial year based on that year's revenue and profit growth as well as other quality KPIs. A maximum of 33.3% of base salary is payable. There were no other short or long term incentives. Please refer to the Remuneration Policy on our website.

3. No fees are payable in connection with committee roles.
4. Richard Prebble retired from the Mainfreight board at the end of July 2024, and was paid director's fees of \$40,000 and a retirement allowance of \$120,000 as approved at the July 2024 AGM.

Notes:

1. Net Profit (NPAT) is net profit after tax, abnormal Items and minorities but before dividends.
2. Net Profit Before Abnormal Items for the year is NPAT excluding abnormal items after tax
3. Profit Before Abnormal Items and Taxation - see note 5 for reconciliation.
4. EBITDA (adjusted) is defined as earnings before net interest expense, tax, depreciation, amortisation, abnormal Items and royalties (segments only; not Group) - see note 5 for reconciliation.
5. EBITA is defined as earnings before net interest expense, tax, abnormal Items and royalties (segments only; not Group) - see note 5 for reconciliation
6. Abnormal items for the year ended 31 March 2024 - see note 22.
7. Pro-forma Cash Flow is defined as NPAT before amortisation, depreciation, and abnormal items after tax.
8. Net Tangible Assets does not include Software or Deferred Tax Assets.
9. Net Debt / (Net Funds) is long-term plus short-term debt less cash balances.
10. Equity Ratio is Net Tangible Assets as a percentage of Total Assets.
11. Return on NTA is NPAT as a percentage of Net Tangible Assets.
12. Net Interest Cover is Profit before abnormal items, interest and tax divided by net interest cost.
13. Per Share calculations are based on the average issued capital in each year - 100,698,548 shares in 2025.
14. Adjusted Earnings per Share figures are based on Net Profit with tax affected abnormal items added back.

Air & Ocean	Distinguishes Mainfreight's traditional international freight from that moved by land across borders in Europe and the Americas
