

## Chatham welcomes Trans Tasman Resources' new marine consent application

---

**23 August 2016**

Chatham Rock Phosphate has welcomed news of Trans Tasman Resources' new application for a marine consent from the Environmental Protection Authority.

"Shareholders at our annual meeting last month expressed considerable interest in the progress of TTR's project, which is why we are commenting today.

"Along with other international marine resources companies, Chatham will be watching progress with a very keen interest and wish TTR every success."
