CORPORATE GOVERNANCE STATEMENT

The Board has the responsibility of ensuring that the Company is properly managed so as to protect and enhance shareholders' interests in a manner that is consistent with the Company's responsibility to meet its obligations to governance policies with which it interacts. To this end, the Board has adopted what it believes to be appropriate corporate governance policies and practices having regard to its size and nature of activities.

The main corporate governance policies are summarised as below:

1. Director's Access to Independent Advice

It is the Board's policy that any committees established by the Board should:

- Be entitled to obtain independent professional or other advice at the cost of the Company, unless the Board determines otherwise.
- Be entitled to obtain such resources and information from the Company including direct access to employees of and advisers to the Company as they might require.
- Operate in accordance with the terms of reference established by the Board.

2. Audit Board and Risk

Board representatives meet with the external auditors at least once a year. The specific activities include assessing and monitoring:

- The adequacy of the Company's internal controls and procedures to ensure compliance with all applicable legal obligations.
- The adequacy of the financial risk management processes.
- The appointment of the external auditor, any reports prepared by the external auditor and listing with the external auditor.

3. Remuneration and Management Succession

The Board in fulfilling its responsibilities to shareholders by:

- Reviewing and approving the executive remuneration policy to enable the Company to attract and retain executives and Directors who will create value for shareholders;
- Ensuring that the executive remuneration policy demonstrates a clear relationship between key executive performance and remuneration;
- Maintaining a Board that has an appropriate mix of skills and experience to be an effective decision making body; and
- Ensuring that the Board is comprised of Directors who contribute to the successful to the successful management of the Company and discharge their duties having regard to the law and the highest standards of corporate governance.

According to the register of directors' shareholdings, the interests of directors holding office at the end of the financial year in shares of the Company during the financial year are as follows:-

	Number of A Class Converting Preference Shares			
	At 1.1.2022	Acquired	(Disposed)	At 31.12.2022
<i>Indirect Interests</i>				
Dato' Dr. Cheng Kok Leong	14,000,000	-	-	14,000,000

DIRECTORS' BENEFITS

During and at the end of the financial year, no arrangements subsisted to which the Company is a party, with the object or objects of enabling directors of the Company to acquire benefits by means of the acquisition of shares in, or debentures of, the Company or any other body corporate.

Since the end of the previous financial year, no director has received or become entitled to receive a benefit (other than a benefit included in the aggregate amount of emoluments received or due and receivable by the directors shown in the financial statements or the fixed salary of a full-time employee of the Company) by reason of a contract made by the Company or a related corporation with the director or with a firm of which the director is a member, or with a company in which the director has a substantial financial interest.

DIRECTOR'S REPORT (Continued)

DIRECTORS' REMUNERATION

This report details the nature and amount of remuneration for each director of Nanopac Innovation Limited, and for the executives receiving the highest remuneration.

REMUNERATION POLICY

All issues in relation of both Executive Directors and Non-Executive Directors are dealt with by the Board as a whole.

The Constitution of Nanopac Innovation Limited requires approval by the shareholders in general meetings of a maximum amount for consideration in general meeting, and in determining the allocation, the Board takes account of the time demands made on Directors, together with such factors as the general level of fees paid to Directors. The amount of remuneration currently approved by shareholders for Non-Executive Directors is a maximum of US\$50,000 per annum.

Non-Executive Directors hold office until such as they retire, resign or are removed from office under the terms set out in the constitution of the Company. Non-Executive Directors do not receive any performance based remuneration.

Details of the remuneration paid to the Director of the Group was as follows:

	Group	
	2022	2021
	USD	USD
Remuneration	<u>59,927</u>	<u>44,046</u>

INDEMNIFYING DIRECTORS, OFFICERS OR AUDITORS

No indemnities have been given or insurance premiums paid, during or since the end of the financial year, for any person who is or has been the director, officer or auditor of the Company.

OTHER STATUTORY INFORMATION

Before the financial statements of the Group and of the Company were made out, the directors took reasonable steps to ascertain that:

- (a) all known bad debts have been written off and adequate allowance made for doubtful debts; and
- (b) any current assets which were unlikely to be realised in the ordinary course of business have been written down to an amount which they might be expected so to realise.

At the date of this report, the directors are not aware of any circumstances:

- (a) that would render the amount written off for bad debts, or the amount of the allowance for doubtful debts, in the Group and in the Company inadequate to any substantial extent; or
- (b) that would render the value attributed to the current assets in the Group and in the Company financial statements misleading; or

DIRECTOR'S REPORT (Continued)**OTHER STATUTORY INFORMATION** (Continued)

At the date of this report, the directors are not aware of any circumstances:

- (c) which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate; or
- (d) not otherwise dealt with in this report or the financial statements, that would render any amount stated in the financial statements of the Group and of the Company misleading.

At the date of this report, there does not exist:

- (a) any charge on the assets of the Group and of the Company that has arisen since the end of the financial year which secures the liabilities of any other person; or
- (b) any contingent liability in respect of the Group and of the Company that has arisen since the end of the financial year.

No contingent liability or other liability of the Group and of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the financial year which, in the opinion of the directors, will or may substantially affect the ability of the Group and of the Company to meet its obligation as and when they fall due.

In the opinion of the directors, the financial performance of the Group and of the Company for the financial year ended 31 December 2022 have not been substantially affected by any items, transaction or event of a material and unusual nature nor has any such item, transaction occurred in the interval between the end of that financial year and the date of this report.

ASSOCIATES

The principal activity and other details of the Associates are disclosed in Note 10 to the financial statements.

SIGNIFICANT EVENTS DURING REPORTING DATE

The significant events during reporting date are disclosed in Note 39 to the financial statements.

AUDITORS' REMUNERATION

Total amounts paid to or receivable by the auditors as remuneration for their services as auditors are as follows:

	Group		Company

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NANOPAC INNOVATION LIMITED

Report on the audit of the financial statements

Opinion

We have audited the financial statements of **Nanopac Innovation Limited**, which comprise the statements of financial position as at 31 December 2022 of the Group and the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and the Company for the financial year then ended, and notes to the financial statements, including a summary of significant accounting policies, as set out on pages 15 to 73.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the Group and the Company as at 31 December 2022, and of their financial performance and their cash flows for the financial year then ended, in accordance with International Financial Reporting Standards ("IFRS").

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing ("ISA"). Our responsibilities under those standards are further described in the *Auditors' Responsibilities for the Audit of the Financial Statements* section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence and other ethical responsibilities

We are independent of the Company in accordance with the *International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants (including International Independence Standards)* ("IESBA Code"), and we have fulfilled our other ethical responsibilities in accordance with the By-Laws and the IESBA Code.

Information Other than the Financial Statements and Auditors' Report Thereon

The directors of the Company are responsible for the other information. The other information comprises the Directors' Report but does not include the financial statements of the Group and the Company and our auditors' report thereon.

Our opinion on the financial statements of the Group and the Company does not cover the Directors' Report and we do not express any form of assurance conclusion thereon.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NANOPAC INNOVATION LIMITED (Continued)

Information Other than the Financial Statements and Auditors' Report Thereon (Continued)

In connection with our audit of the financial statements of the Group and the Company, our responsibility is to read the Directors' Report and, in doing so, consider whether the Directors' Report is materially inconsistent with the financial statements of the Group and the Company or our knowledge obtained in the audit or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of the Directors' Report, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Directors for the Financial Statements

The directors of the Company are responsible for the preparation of financial statements of the Group and the Company that give a true and fair view in accordance with International Financial Reporting Standards. The directors are also responsible for such internal control as the directors determine is necessary to enable the preparation of financial statements of the Group and the Company that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements of the Group and the Company, the directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements of the Group and the Company as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with approved standards on auditing in Malaysia and International Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NANOPAC INNOVATION LIMITED (Continued)

Auditors' Responsibilities for the Audit of the Financial Statements (Continued)

As part of an audit in accordance with approved standards on auditing in Malaysia and International Standards on Auditing, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements of the Group and the Company, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group and the Company's ability to continue as a going concern.
- If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the financial statements of the Group and the Company or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group and the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements of the Group and the Company, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with the directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF NANOPAC INNOVATION LIMITED (Continued)

Other Matters

This report is made solely to the members of the Company, as a body, in accordance with NSX Listing Rules 6.10 of Section IIA and for no other purpose. We do not assume responsibility to any other person for the content of this report.

NOTES TO THE FINANCIAL STATEMENTS

AS AT 31 DECEMBER 2022

1. GENERAL INFORMATION

The Company was incorporated in and under the laws of Samoa on 7 March 2014 and was listed on the National Stock Exchange of Australia on 23 July 2014.

The registered offices are located at Level 2, Lotemau Centre, Vaea Street, Apia, Samoa and 31, Highgate Cct, North Kellyville NSW 2155, Australia.

The Company is an investment holding company. The Group is principally engaged in manufacturing, supplying and importing, exporting of nano technology products, photo catalyst power, coating solutions and chemical solutions of every description, and manufacturing, supplying, importing, exporting of engine oil products.

The financial statements have been prepared based on the currency of the primary economic environment in which the entity operates (i.e., its functional currency). The functional currency of the subsidiaries are Ringgit Malaysia ("RM"), while the presentation currency of the Group and the Company are United States Dollars ("USD"). All financial information is presented in United States Dollars, unless otherwise stated.

2. SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Group and the Company have been prepared in accordance with the International Financial Reporting Standards ("IFRS").

The financial statements have been prepared on the historical cost basis, except when indicated in the individual policy notes. The principal accounting policies adopted are set out below:

(a) Basis of consolidation

(i) Subsidiaries

Subsidiaries are entities, including special purpose entity, controlled by the Company. The financial statements of subsidiaries are included in consolidated financial statements from the date that control commences until the date that control ceases.

Investments in subsidiaries are measured in the Company's statement of financial position at cost less any impairment losses. The cost of investment includes transaction cost.

(ii) Associates

The Group and the Company recognises an associate based on the criterion of significant influence. Significant influence exists when the Company has the power to participate in the financial and operating policy decisions of the investee but has no control or joint control of those policies. This is normally (though not necessarily) accomplished when the Group and the Company, directly or indirectly through associates, holds 20 per cent, or more of the voting rights of the investee.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Basis of consolidation (Continued)

(ii) Associates (Continued)

When the Group's and the Company's voting rights in investee are less than 20 per cent, the Group and the Company assesses of potential voting rights that are substantive, representation on the board of directors, participation in policy making processes, material transactions between the Group and the Company and the investee, interchange of managerial personnel and provision of essential technical information.

The Group and the Company may sometimes hold an insignificant equity interest in investee to cement a trading relationship and is represented on the board of the directors of the investee. If the Group's and the Company's representation on the board of directors is solely for the purpose of protecting the value of the investment rather than participation in the policy decisions, the investee is not classified as an associate.

As no consolidated financial statements have been prepared during the financial year, the investment in Associate is accounted for using the cost.

(iii) Business combination

Business combinations are accounted for by applying the purchase method from the acquisition date, which is the date on which the Group obtains control of the acquire. The cost of business combination is aggregate of the fair values, at the date of exchange, of assets given, liabilities incurred or assumed, and equity instruments issued by the acquirer, in exchange for control of the acquire, and any costs directly attributable to the business combination.

When the cost of the business is in excess of the Group's interest in the net fair value of the identifiable asset, liabilities and contingent liabilities recognised, the excess recognised as goodwill. When the excess is negative, a bargain purchase gain is recognised immediately in profit and loss.

The non-controlling interest in the acquiree is measured at the proportionate share of the acquiree's identifiable net assets at the acquisition date.

(iv) Acquisition of non-controlling interests

The Group accounts all changes in its ownership interest in a subsidiary that do not result in a loss of control as equity transactions between the Group and its non-controlling interest holders. Any difference between the Group's share net assets before and after the change, and any consideration received or paid, is adjusted to or against Group reserves.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(a) Basis of consolidation (Continued)

(v) Loss of control

Upon the loss of control of a subsidiary, the Group recognises the difference between proceeds from the disposal of the subsidiary and its carrying amounts as of the date of disposal. If the Group retains any interest in the former subsidiary, that investment is accounted for as a financial asset from the date the entity ceases to be a subsidiary, provided that it does not become an associate or a jointly controlled entity. The carrying amount of the investment at the date that the entity ceases to be a subsidiary is regarded as the cost on initial measurement of the financial asset.

(vi) Non-controlling interests

Non-controlling interests at the end of the reporting period, being the equity in a subsidiary not attributable directly or indirectly to the equity holder of the Company, are presented in the consolidated statement of the financial position within equity, separately from equity attributable to the owners of the Company. Non-controlling interests in the results of the Group is presented in the consolidated statement of profit or loss and other comprehensive income as an allocation of the profit or loss and the comprehensive income for the financial year between non-controlling interests and owners of the Company.

Losses applicable to the non-controlling interests in a subsidiary are allocated to the non-controlling interests even if doing so causes the non-controlling interests to have deficit balance.

(vii) Transaction eliminated on consolidated

Intra-group balances and transactions, including income, expenses and dividends, are eliminated in full in preparing the consolidated financial statements.

Unrealised profits and losses arising from the transactions with equity-accounted associates and jointly controlled entities are eliminated against the investment to the extent that there is evidence of an impairment of the asset transferred.

(b) Goodwill

Goodwill is measured at cost less accumulated impairment losses, if any. The carrying value of goodwill is reviewed for impairment annually or more frequently if events or changes in circumstances indicate that the carrying amount may be impaired. The impairment value of goodwill is recognised immediately in profit or loss. An impairment loss recognised for goodwill is not reversed in a subsequent period.

Under the acquisition method, any excess of the sum of the fair value of the consideration transferred in the business combination, the amount of non-controlling interests recognised and the fair value of the Group's previously held equity interest in the acquiree (if any), over the net fair value of the acquiree's identifiable assets and liabilities at the date of acquisition is recorded as goodwill.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(b) Goodwill (Continued)

Where the latter amount exceeds the former, after reassessment, the excess represents a bargain purchase gain and is recognised in profit or loss immediately.

In respect of equity-accounted associates, the carrying amount of goodwill is included in the carrying amount of the investment and an impairment loss on such an investment is not allocated to any asset, including goodwill that forms part of the carrying amount of the equity-accounted associates.

(c) Functional and foreign currencies

(i) Functional and presentation currency

The individual financial statements of each entity in the Group and the Company are presented in the currency of the primary economic environment in which the entity operates, which is the functional currency.

The consolidated financial statements are presented in United States Dollar ("USD"), which is the Group's and the Company's functional and presentation currency.

(ii) Foreign currency transactions and balances

Transactions in foreign currencies are converted into the respective functional currencies on initial recognition, using the exchange rates at the transaction dates. Monetary assets and liabilities at the end of the reporting period are translated at the exchange rates ruling as of that date. Non-monetary assets and liabilities are translated using exchange rates that existed when the values were determined. All exchange differences are recognised in profit or loss.

(iii) Foreign operations

Assets and liabilities of foreign operations (including any goodwill and fair value adjustments arising on acquisition) are translated to the Group's presentation currency at the exchange rates at the end of the reporting period. Income, expenses and other comprehensive income of foreign operations are translated at exchange rates at the dates of the transactions. All exchange differences arising from translation are taken directly to other comprehensive income and accumulated in equity; attributed to the owners of the Company and non-controlling interests, as appropriate.

Goodwill and fair value adjustments arising from the acquisition of foreign operations are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the end of the reporting period.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(c) Functional and foreign currencies (Continued)

(iii) Foreign operations (Continued)

On the disposal of a foreign operation (i.e. a disposal of the Group's entire interest in a foreign subsidiary, or a partial disposal involving loss of control over a subsidiary that includes a foreign operation, or a partial disposal of an interest in an associate and joint ventures that includes a foreign operation of which the retained interest becomes a financial asset), all of the exchange differences accumulated in equity in respect of that foreign operation attributable to the owners of the Company are reclassified to profit or loss as part of the gain or loss on disposal. The portion that related to non-controlling interests is derecognised but is not reclassified to profit or loss.

In addition, in relation to a partial disposal of a subsidiary that does not result in the Group losing control over the subsidiary, the proportionate share of accumulated exchange differences are reattributed to non-controlling interests and are not recognised in profit or loss. When the Group disposes of only part of its investment in an associate and joint venture that includes a foreign operation while retaining significant influence and joint control, the proportionate share of the accumulative exchange differences is reclassified to profit or loss.

In the consolidated financial statements, when settlement of an intragroup loan is neither planned nor likely to occur in the foreseeable future, the exchange differences arising from translating such monetary item are considered to form part of a net investment in the foreign operation and are recognised in other comprehensive income.

(d) Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. The policy for the recognition and measurement of impairment losses is in accordance with Note 2 (v).

Freehold land are not depreciated but is subject to impairment test if there is any indication of impairment.

On disposal of property, plant and equipment, the differences between disposal proceeds and its carrying amount is charged or credited to the financial statements.

Property, plant and equipment are written down to recoverable amounts if the recoverable amounts are less than their carrying values. Recoverable amount is the higher of an asset's net selling price and its value in use.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(d) Property, plant and equipment (Continued)

Depreciation is provided on the straight-line method at rates required to write off the cost or valuation of the property, plant and equipment to its residual value over its estimated useful life. the principal annual rates used are as follows:

	<u>Method</u>	<u>Useful life (years)</u>
ECR self-toilet system	Straight-line	5
Electrical and fittings	Straight-line	5
Factory building	Straight-line	50
Furniture and fitting	Straight-line	5
Leasehold land	Straight-line	95 - 96
Machineries	Straight-line	5
Motor vehicles	Straight-line	5
Office equipment	Straight-line	5
Renovation	Straight-line	5
Simulator system	Straight-line	10

Fully depreciated assets are retained in the financial statements at nominal values until they are no longer in use.

(e) Impairment of non-financial assets

At each reporting date, the Group and the Company assesses whether there is any indication that the assets may be impaired. If any such indication exists, the recoverable amounts of the assets are estimated. Irrespective of whether there is any indication of impairment, an entity shall also: (a) test an intangible asset with an indefinite useful life or an intangible asset not yet available for use for impairment annually by comparing its carrying amount with its recoverable amount and (b) test goodwill acquired in a business combination for impairment annually.

When it is not possible to estimate the recoverable amount of an individual asset, the Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the higher of the fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

When the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount. An impairment loss is recognised immediately in profit or loss, unless it reverses a previous revaluation, in which case it is treated as a revaluation decrease.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(f) Investment property

The Group recognises a land, building (including a floor of a building), or both land and building, including a property under construction, as an investment property if it is within the Group's business model objective of holding the property for capital appreciation, rental income or both. An investment property is recorded at cost on initial recognition. Cost of an investment property comprises purchase price plus all directly attributable costs incurred to bring the property to its present location and condition intended for use as an investment property.

Investment property whose fair value cannot be measured reliably without undue cost or effort are subsequently measured at cost less accumulated depreciation and impairment loss.

Freehold land is not depreciated but is subject to impairment test if there is any indication of impairment.

An investment property is derecognised when either it has been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. Any gains or losses on the retirement or disposal of an investment property are recognised in profit or loss in the financial period in which it arises.

(g) Intangible assets

(i) Research and development

All expenditure for both research and development activities is recognised as an expense when it is incurred, unless it forms part of the cost of another recognised asset, in which case, the expenditure is capitalised in that asset.

(ii) Other intangible assets

Acquired identifiable intangible assets are recognised as an asset and initially measured at cost, which is the fair value of the consideration paid. Subsequently, intangible assets are measured at cost less accumulated amortisation and any accumulated impairment losses.

The amortisation method used and the estimated useful lives of the respective classes of intangible assets are as follows:

	<u>Method</u>	<u>Useful life (years)</u>
Acquired licences	Straight-line	6 - 12

(h) Investment in associates

An associate is an entity in which the Company have a long-term equity interest and where it exercises significant influence over the financial and operating policies.

Investments in associates are stated at cost in the statement of financial position of the Company, and are reviewed for impairment at the end of the financial year if events or changes in circumstances indicate that the carrying values may not be recoverable. The cost of the investment includes transaction costs.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(i) Inventories

Inventories are measured at the lower of cost and net realisable value.

Cost comprises direct materials, direct labour costs and overheads, where applicable, that have been incurred in bringing the inventories to their present location and condition. Cost is calculated using the first-in first-out method. Net realisable value represents the estimated selling price less all estimated costs of completion and costs to be incurred in marketing, selling and distribution.

(j) Receivables

Most sales are made on the basis of normal credit terms, and the receivables do not bear interest. Where credit is extended beyond normal credit terms, receivables are measured at amortised cost using the effective interest method. At the end of each reporting period, the carrying amounts of receivables are reviewed to determine whether there is any objective evidence that the amounts are not recoverable. If so, an impairment loss is recognised immediately in profit or loss.

(k) Cash and cash equivalents

Cash and cash equivalents consist of cash in hand, bank balances, deposits with banks and highly liquid investments which have an insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents are presented net of bank overdrafts and pledged deposits.

(l) Provisions

Provisions are recognised when there is a present obligation, legal or constructive, as a result of past event, when it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation, and a reliable estimate of the amount can be made.

A provision is measured at the present value of the expenditures expected to be required to settle the obligation using a discount rate that reflects the time value of money and the risk that the actual outcome might differ from the estimate made. the unwinding of the discount is recognised as an interest expense.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(m) Liabilities

Payables are stated at cost, which is the fair value of the consideration to be paid in the future for goods and services received.

(n) Share capital

Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Ordinary shares are classified as equity.

Dividends to equity holders are recognised in the statements of changes in equity in the financial year in which they are paid or declared. Dividends on ordinary shares are recognised as liabilities when declared.

Redeemable preference shares issued are classified as equity as the preference shares bear no predetermined dividend rate and are redeemable at the discretion of the Board of Directors. The dividend on these preference shares are recognised in the statements of changes in equity in the financial year in which they are paid or declared.

(o) Related parties

A party is related to an entity if:

- (i) Directly, or indirectly through one or more intermediaries, the party:
 - (a) Controls, is controlled by, or is under common control with, the entity (this includes parents, subsidiaries and fellow subsidiaries);
 - (b) Has an interest in the entity that gives it significant influence over the entity; or
 - (c) Has joint control over the entity;
- (ii) the party is an associate of the entity;
- (iii) the party is a joint venture in which the entity is a venturer;
- (iv) the party is a member of the key management personnel of the entity or its parent;
- (v) the party is a close member of the family of any individual referred to in (i) or (iv);
- (vi) the party is an entity that is controlled, jointly controlled or significantly influenced by, or for which significant voting power in such entity resides with, directly or indirectly, any individual referred to in (iv) or (v); or
- (vii) the party is a post-employment benefit plan for the benefit of employees of the entity, or of any entity that is a related party of the entity.

Close members of the family of an individual are those family members who may be expected to influence, or be influenced by, that individual in their dealings with the entity.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Leases

A contract is, or contains, a lease if the contract conveys a right to control the use of an identified assets for a period of time in exchange for consideration. To assess whether a contract conveys the right to control the use of an identified asset, the Group assesses whether:

- (i) the contract involves the use of an identified asset - this may be specified explicitly or implicitly, and should be physically distinct or represent substantially all of the capacity of a physically distinct asset. If the supplier has a substantive substitution right, then the asset is not identified;
- (ii) the consumer has the right to obtain substantially all of the economic benefits from use of the asset throughout the period of use; and
- (iii) the customer has the right to direct the use of the asset. The customer has this right when it has the decision-making rights that are most relevant to changing how and for what purpose the asset is used. In rare cases where the decision about how and for what purpose the asset is used is predetermined, the customer has the right to direct the use of the asset if either the customer has the right to operate the asset; or the customer designed the asset in a way that predetermines how and for what purpose it will be used.

At inception or on reassessment of a contract that contains a lease component, the Group allocates the consideration in the contract to each lease and non-lease component on the basis of their relative standalone prices. However, for leases of properties in which the Group is a lessee, it has elected not to separate non-lease components and will instead account for the lease and non-lease components as a single lease component.

(i) As a lessee

The Group recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or before the commencement date, plus any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the underlying asset or the site on which it is located, less any lease incentives received.

The right-of-use asset is subsequently measured at cost less accumulated depreciation and any impairment losses, and adjusted for any remeasurement of the lease liability. The depreciation starts from the commencement date of the lease. If the lease transfer ownership of the underlying asset to the Group or the cost of the right-of-use asset reflects that the Group expects to exercise a purchase option, the related right-of-use asset is depreciated over the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset to the earlier of the end of the useful life of the right-of-use asset or the end of lease term. The estimated useful lives of the right-of-use assets are determined on the same basis as those property, plant and equipment.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Leases (Continued)

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that rate cannot be readily determined, the respective Group's incremental borrowing rate is used. Generally, the Group use their incremental borrowing rate as the discount rate.

Lease payments included in the measurement of the lease liability comprise the following:

- (a) fixed payments, including in-substance fixed payments;
- (b) variable lease payments that depend on an index or a rate, initially measured using the index or rate as at the commencement date;
- (c) amounts expected to be payable under a residual value guarantee;
- (d) the exercise price under a purchase option that the Group are reasonably certain to exercise; and
- (e) penalties for early termination of a lease unless the Group are reasonably certain not to early terminate the contract.

The lease liability is subsequently measured at amortised cost using the effective interest method. It is remeasured when there is a change in future lease payments arising from a change in an index or rate, if there is a revision of in-substance fixed lease payments, or if there is a change in the Group's estimate of the amount expected to be payable under a residual value guarantee, or if the Group changes its assessment of whether it will exercise a purchase, extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Group excludes variable lease payments that linked to future performance or usage of the underlying asset from the lease liability. Instead, these payments are recognised in profit or loss in the period in which the performance or use occurs.

The Group has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Group recognises the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(p) Leases (Continued)

(ii) As a lessor

When the Group acts as a lessor, it determines at lease inception whether each lease is a finance lease or an operating lease.

To classify each lease, the Group makes an overall assessment of whether the lease transfers substantially all of the risks and rewards incidental to ownership of the underlying asset. If this is the case, then the lease is a finance lease; if not, then it is operating lease.

If an arrangement contains lease and non-lease components, the Group applies the applicable accounting standard to allocate the consideration in the contract based on the stand-alone selling prices.

When the Group is an intermediate lessor, it accounts for its interests in the head lease and the sublease separately. It assesses the lease classification of a sublease with reference to the right-of-use asset arising from the head lease, not with reference to the underlying asset. If a head lease is a short-term lease to which the Group applies the exemption described above, then it classifies the sublease as an operating lease. The Group recognises lease payments received under operating leases as income on a straight line basis over the lease term as part of “revenue”.

(q) Borrowings

(i) Classification

Borrowings are recognised initially at fair value, net of transaction costs incurred. Borrowings are subsequently stated at amortised cost. Any difference between the proceeds (net of transaction costs) and the redemption value is taken to profit or loss over the period of the borrowings using the effective interest method.

Borrowings which are due to be settled within twelve months after the end of the reporting period are included in current borrowings in the statement of financial position even though the original term was for a period longer than twelve months and an agreement to refinance, or to reschedule payments, on a long-term basis is completed after the end of the reporting period and before the financial statements are authorised for issue. Other borrowings due to be settled more than twelve months after the reporting period are included in non-current borrowings in the statement of financial position.

(ii) Borrowing costs

Borrowing costs are capitalised as part of the cost of a qualifying asset if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the asset for its intended use or sale are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale. All other borrowing costs are recognised in profit or loss in the period they are incurred. Borrowing costs consist of interest and other costs that the Group incurred in connection with the borrowing of funds.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(r) Revenue recognition

The Group recognise revenue from contracts with customers for the provision of goods and services based on the five-step model as set out below:

- (i) Identify contract(s) with a customer: A contract is defined as an agreement between two or more parties that creates enforceable rights and obligations and sets out the criteria that must be met.
- (ii) Identify performance obligations in the contract: A performance obligation is a promise in a contract with a customer to transfer a good or service to the customer.
- (iii) Determine the transaction price: The transaction price is the amount of consideration to which the Group expect to be entitled in exchange for transferring promised goods or services to a customer, excluding amounts collected on behalf of third parties.
- (iv) Allocate the transaction price to the performance obligations in the contract: For a contract that has more than one performance obligation, the Group allocate the transaction price to each performance obligation in an amount that depicts the amount of consideration to which the Group expect to be entitled in exchange for satisfying each performance obligation.

The Company satisfy a performance obligation and recognise revenue over time of the Company's performance:

- (i) Do not create an asset with an alternative use to the Group and have an enforceable right to payment for performance completed to-date; or
- (ii) Create or enhance an asset that the customer controls as the asset is created or enhanced; or
- (iii) Provide benefits that the customer simultaneously receives and consumes as the Company perform.

For performance obligations where any one of the above conditions is not met, revenue is recognised at the point in time at which the performance obligation is satisfied.

When the Group satisfy a performance obligation by delivering the promised goods or services, it creates a contract based asset on the amount of consideration earned by the performance. Where the amount of consideration received from a customer exceeds the amount of revenue recognised, this gives rise to a contract liability.

(i) Sales of goods

Revenue from the sales of goods is recognised when the significant risks and rewards of ownership of the goods have been transferred to the buyer.

(ii) Rendering of services

Revenue from rendering of services is recognised as and when the services are performed.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(r) Revenue recognition (Continued)

(iii) Rental income

Rental income is recognised on an accrual basis, unless collectability is in doubt, in which case it is recognised on a receipt basis.

(s) Income taxes

(i) Current tax

Tax expense represents the aggregate amount of current and deferred tax. Current tax is the expected amount payable in respect of taxable income for the financial year, using tax rates enacted or substantively enacted by the reporting date and any adjustments recognised for prior years' tax. When an item is recognised outside profit or loss, the related tax effect is recognised either in other comprehensive income or directly in equity.

(ii) Deferred tax

Deferred tax is recognised using the liability method, on all temporary differences between the tax base of assets and liabilities and their carrying amounts in the financial statements.

Deferred tax is not recognised if the temporary difference arises from the initial recognition of an asset or liability in a transaction, which is not a business combination and at the time of the transaction, affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to apply in the period in which the assets are realised or the liabilities are settled, based on tax rates and tax laws that have been enacted or substantively enacted by the reporting date.

Deferred tax assets are recognised only to the extent that there are sufficient taxable temporary differences relating to the same taxable entity and the same taxation authority to offset or when it is probable that future taxable profits will be available against which the assets can be utilised.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will be available for the assets to be utilised.

Deferred tax assets relating to items recognised outside profit or loss is recognised outside profit or loss. Deferred tax items are recognised in correlation to the underlying transactions either in other comprehensive income or directly in equity and deferred tax arising from business combination is adjusted against goodwill on acquisition or the amount of any excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the acquisition cost.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(t) Employee benefits

(i) Short-term employee benefits

Wages, salaries, social security contributions and bonuses are recognised as an expense in the financial year in which the associated services are rendered by employees of the Company. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences, and short term non-accumulating compensated absences such as sick leave are recognised when absences occur.

(ii) Defined contribution plans

Contributions payable to the defined contribution plan are recognised as a liability and an expense when the employees have rendered services to the Group.

(u) Financial instruments

Unless specifically disclosed below, the Group and the Company generally applied the following accounting policies retrospectively.

(i) Initial recognition and measurement

Financial assets or financial liabilities are recognised in the statements of financial position when, and only when, the Group and the Company becomes a party to the contractual provisions of the instrument.

A financial assets (unless it is a trade receivable without significant financing component) or a financial liabilities is initially measured at fair value plus or minus, for an item not at fair value through profit or loss, transaction costs that are directly attributable to its acquisition or issuance. A trade receivable without a significant financing component is initially measured at the transaction price.

An embedded derivative is recognised separately from the host contract where the host contract is not a financial asset, and accounted for separately if, and only if, the derivative is not closely related to the economic characteristics and risks of the host contract and the host contract is not measured at fair value through profit or loss. The host contract, in the event an embedded derivative is recognised separately, is accounted for in accordance with policy applicable to the nature of the host contract.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(u) Financial instruments (Continued)

(i) Initial recognition and measurement (Continued)

The Group and the Company categorise financial instruments as follows:

Financial assets

Categories of financial assets are determined on initial recognition and are not reclassified subsequent to their initial recognition unless the Group and the Company changes its business model for managing financial assets in which case all affected financial assets are reclassified on the first day of the first reporting period following the change of the business model.

(ii) Financial instrument categories and subsequent measurement

Financial assets

Amortised cost

Amortised cost category comprises financial assets that are held within a business model whose objective is to hold assets to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The financial assets are not designated as fair value through profit or loss. Subsequent to initial recognition, these financial assets are measured at amortised cost using the effective interest method. The amortised cost is reduced by impairment losses. Interest income, foreign exchange gains and losses and impairment are recognised in profit or loss.

Any gain or loss on derecognition is recognised in profit or loss.

Interest income is recognised by applying effective interest rate to the gross carrying amount except for credit impaired financial assets where the effective interest rate is applied to the amortised cost.

Financial liabilities

Amortised cost

Other financial liabilities not categorised as fair value through profit or loss is subsequently measured at amortised cost using the effective interest method.

Foreign exchange gains and losses are recognised in the profit or loss. Any gains or losses on derecognition are also recognised in the profit or loss.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(u) Financial instruments (Continued)

(iii) Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount presented in the statements of financial position when, and only when, the Group and the Company currently has a legally enforceable right to set off the amounts and it intends either to settle them on a net basis or to realise the asset and liability simultaneously.

(iv) Derecognition

A financial asset or part of it is derecognised when, and only when the contractual rights to the cash flows from the financial asset expire or control of the asset is not retained or substantially all of the risk and rewards of ownership of the financial assets are transferred to another party. On derecognition of a financial asset, the difference between the carrying amount and the sum of the consideration received (including any new asset obtained less any new liability assumed) and any cumulative gain or loss that had been recognised in equity is recognised in profit or loss.

A financial liability or a part of it is derecognised when, and only when, the obligation specified in the contract is discharged or cancelled or expires. On derecognition of a financial liability, the difference between the carrying amount of the financial liability extinguished or transferred to another party and the consideration paid, including any non-cash assets transferred or liabilities assumed, is recognised in profit or loss.

(v) Impairment

(i) Financial assets

At each reporting date, the Group and the Company recognise a loss allowance for expected credit losses on a financial asset measured at amortised cost. The loss allowance is measured at an amount equal to the lifetime expected credit losses if the credit risk on the financial asset has increased significantly since initial recognition. If the credit risk has not increased significantly since initial recognition, the loss allowance is measured at an amount equal to 12-month expected credit losses. Any adjustment to the loss allowance is recognised in profit or loss as an impairment gain or loss.

Irrespective of whether there is any significant increase in credit risk since initial recognition, the loss allowance for trade receivables is always measured at an amount equal to lifetime expected credit losses using the simplified approach in accordance with the applicable accounting standard. Such lifetime expected credit losses are calculated using a provision matrix based on historical credit loss experience and adjusted for reasonable and supportable forward-looking information that is available without undue cost or effort.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

2. SIGNIFICANT ACCOUNTING POLICIES (Continued)

(v) Impairment (Continued)

(i) Financial assets (Continued)

The expected credit losses for a credit-impaired financial asset are measured as the difference between the asset's gross carrying amount and the present value of estimated future cash flows discounted at the asset's original effective interest rate. The gross carrying amount of a credit-impaired financial asset is directly written off when there is no reasonable expectation of recovery.

(ii) Non-financial assets

The carrying amounts of the other assets (except for inventories and deferred tax asset) are reviewed at each reporting period to determine whether there is any indication of impairment.

If any such indication exist, and then the asset's recoverable amount is estimated. For the purpose of impairment testing, assets are grouped together into smallest group of assets that generates cash flows from continuing use that are largely independent of the cash inflows of other assets or groups of assets. (the "cash-generating unit").

The recoverable amount of an asset or cash-generating unit is the greater of its value in use and its fair value less costs to sell. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

Impairment losses are recognised in profit or loss.

In respect of non-financial assets, impairment losses recognised in prior periods are assessed at each reporting period for any indications that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount since the last impairment loss was recognised. An impairment loss is reversed only to the extent that the asset's carrying amount that would have been determined, net of depreciation or amortisation, if no impairment loss has been recognised. Reversals of impairment losses are credited to profit or loss in the year in which the reversals are recognised.

3. STANDARDS ISSUED BUT NOT YET EFFECTIVE

Certain new accounting standards and interpretations have been published that are not mandatory for the 31 December 2022 reporting period. The Group's assessment of the impact of these new standards and interpretations is that they will result in no significant changes to the amount recognised or matters disclosed in the Group's financial statements.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

4. SIGNIFICANT ACCOUNTING ESTIMATES AND JUDGEMENTS

Key sources of estimation uncertainty

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year are discussed below.

(i) Intangible assets

The Group has intangible assets (other than goodwill) and the annual amortisation of intangible assets is charged to the statements of comprehensive income. The Group reviews the residual value and useful life of intangible assets at each reporting date in accordance with the accounting policy as disclosed in Note 2 (g). Changes in the residual value arising from the impairment assessment and the review of useful life could have significant impact on the results of the Group.

(ii) Income taxes

There are certain transactions and computations for which the ultimate tax determination may be different from the initial estimate. The Group and the Company recognises tax liabilities based on its understanding of the prevailing tax laws and estimates of whether such taxes will be due in the ordinary course of business. Where the final outcome of these matters is different from the amounts that were initially recognised, such difference will impact the income tax and deferred tax provisions in the period in which such determination is made.

(iii) Impairment of non-financial assets

When the recoverable amount of an asset is determined based on the estimate of the value-in-use of the cash generating unit to which the asset is allocated, the management is required to make an estimate of the expected future cash flows from the cash-generating unit and also to apply a suitable discount rate in order to determine the present value of those cash flows.

(iv) Impairment of intangible assets

This requires management to estimate the expected future cash flows, to apply a suitable discount rate to determine the present value of those cash flows. The impairment assessment could be materially affected by the changes in the assumptions and estimates used in the cash flows projection.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

4. SIGNIFICANT ACCOUNTING POLICIES (Continued)

Key sources of estimation uncertainty (Continued)

(v) Impairment of financial assets

The Group and the Company assess at each reporting date whether there is any objective evidence that a loan or receivable is impaired. To determine whether there is objective evidence of impairment, the Group and the Company consider factors such as the probability of insolvency or significant financial difficulties of the debtor or significant delay in payments.

Where there is objective evidence of impairment, the amount and timing of future cash flows are estimated based on historical loss experience for assets with similar credit risk characteristics. The carrying amounts of the Group and the Company's loan and receivables at the reporting date are disclosed in note to the financial statements.

In adoption of the applicable accounting standard, the Group and the Company assess on a forward-looking basis the expected credit loss associated with their debt instruments carried at amortised cost. The impairment methodology applied as disclosed in Note 2 (v) depends on whether there has been a significant increase in credit risk

(vi) Carrying value of investment in subsidiaries

Investment in subsidiaries is reviewed for impairment annually in accordance with its accounting policy whenever events or changes in circumstances indicate that the carrying values may not be recoverable.

Significant judgement is required in the estimation of the present value of future cash flows generated by the subsidiaries, which involves uncertainties and are significantly affected by assumptions and judgements made regarding estimates of future cash flows and discount rates. Changes in assumptions could significantly affect the carrying values of investment in subsidiaries.

(vii) Impairment of investment in an associate

The Group and the Company assess at each reporting date whether the carrying amount of its investment in an associate is impaired. This involves measuring the recoverable amounts which includes fair value less costs to sell and valuation techniques. Valuation techniques include the use of discounted cash flows analysis, considering the current market value indicators and recent arms-length market transactions. These estimates provide reasonable approximations to the computation of recoverable amounts. In performing discounted cash flows analysis, discount rate and growth rates used reflect, amongst others, the maturity of the business development cycle as well as the industry growth potential. The growth rates used to forecast the projected cash flows for the following year approximate the performances of the respective investments based on the latest available management accounts.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

12. GOODWILL ON CONSOLIDATION (Continued)

Impairment testing for cash-generating units containing goodwill

The recoverable amount of the goodwill is assessed based on its estimated value in use. The value in use was estimated by discounting the projected future cash flows to be generated from the continuing use of the unit based on the following key assumptions:

- There will be no material changes in the structure and principal activities of the subsidiary.
- There will not be any significant changes in economic conditions or other abnormal factors, which will adversely affect the operation of the subsidiary.
- Financial year ending December 2022 (“FY2022”) budget was used as a base where no significant changes in profitability is anticipated in view of the current economic situation and a 2% growth from year 2023 to year 2027 has been projected in line with economic growth projected.
- Discount rate of 12% (2021: 10%) was applied on the projected cash flows in determining the recoverable amount of the above investment.

Ordinary shares

Ordinary shares entitle the holder to participate in dividends and the proceeds on the winding up of the company in proportion to the number of and amounts paid on the shares held. On a show of hands every member present at a meeting in person or by proxy shall have one vote and upon a poll each share shall have one vote.

“A” Converting Shares

The “A” Converting Shares are convertible automatically into ordinary shares once the Company has raised additional capital in excess of US\$10,000,000 provided the holder will not hold more than 75% of the issued ordinary shares. These shares otherwise rank pari passu with ordinary shares. No further “A” Converting Shares may be issued.

PAR Value

All shares have a par value of US\$0.01. The Company has an authorised capital of US\$14,000,001.

20. NON-CONTROLLING INTERESTS

This consists of the non-controlling interest shareholders’ proportion of share capital and reserves of a subsidiary, net of their share of subsidiary’s goodwill on consolidation and amortisation of goodwill charged to the non-controlling interest shareholders.

Provision for enterprise income tax of the subsidiaries operating in Malaysia is made in accordance with the income tax law of Malaysia concerning Foreign Investment Enterprises and Foreign Enterprises. Taxation has been provided at the appropriate tax rates prevailing in Malaysia in which the Group operates on the estimated assessable profits for the financial year. These rates generally range at 24% (2021: 24%) for the reporting period.

29. LOSS PER SHARE

The loss per share is calculated based on the consolidated loss attributable to owners of the Company divided by the weighted average number of shares on issue of 78,816,917 (2021: 78,816,917) shares during the financial year.

The following table reflect the loss and share data used in the computation of diluted loss per share from continuing operations for the financial year ended 31 December:

	Group	
	2022	2021
	USD	USD
Weighted average number of ordinary shares for the purpose of calculating dilute loss per share	78,816,917	78,816,917
Loss for the purpose of calculating basic and diluted loss per share	(181,949)	(289,815)
Basic earnings per share (loss)	<u>(0.23)</u>	<u>(0.37)</u>

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

35. FINANCIAL INSTRUMENTS (Continued)

(b) Financial Risk Management Objectives and Policies

The Group is exposed to the financial risks arising from its operations and the use of financial instruments. The key financial risks include credit risk, liquidity risk, interest rate risk, foreign currency risk and market price risk. The Group's and the Company's overall risk management program focuses on the unpredictability of financial markets and seeks to minimise adverse effects from the unpredictability of financial markets on the Group's and the Company's financial performance.

Risk management is carried out by the Finance Division under policies approved by the Board of Directors. The Finance Division identifies, evaluates and hedges financial risks in close cooperation with the Groups' operating units. The Board provides written principles for overall risk management, as well as written policies covering specific areas, such as foreign exchange risk, interest rate risk, credit risk, use of derivative and non-derivative financial instruments and investing excess liquidity.

(i) Credit risk

The Group's and the Company's exposure to credit risk, or the risk of counterparties defaulting arises mainly from trade and other receivables. The group manages its exposure to credit risk by the application of credit approvals, credit limits and monitoring procedures on an ongoing basis. For other financial assets (including cash and cash equivalents), the Group and the Company minimise credit risk by dealing exclusively with high credit rating counterparties.

The Company monitors the results of these subsidiaries regularly and repayments made by the subsidiaries.

(a) Credit risk concentration profile

The Group and the Company does not have any major concentration of credit risk related to any individual customer or counterparty.

(b) Exposure of credit risk

At the end of the reporting period, the maximum exposure to credit risk is represented by the carrying amount of each class of financial assets recognised in the statements of financial position of the Group and the Company after deducting any allowances for impairment losses (where applicable).

(c) Assessment of impairment losses

At each reporting date, the Group and the Company assesses whether any of the financial assets at amortised cost and contract assets are credit impaired. The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery (i.e the debtor does not have assets or sources of income to generate sufficient cash flows to repay the debt) despite the fact that they are still subject to enforcement activities.

(b) Financial Risk Management Objectives and Policies (Continued)

(i) Credit risk (Continued)

(d) Assessment of impairment losses

At each reporting date, the Group and the Company assesses whether any of the financial assets at amortised cost and contract assets are credit impaired. The gross carrying amounts of financial assets are written off when there is no reasonable expectation of recovery (i.e the debtor does not have assets or sources of income to generate sufficient cash flows to repay the debt) despite the fact that they are still subject to enforcement activities.

Trade receivables

The Group and the Company applies the simplified approach to measure expected credit losses which uses a lifetime expected loss allowance for all trade receivables.

To measure the expected credit losses, trade receivables have been grouped based on shared credit risk characteristics and the days past due.

Other receivables

Other receivables are also subject to the impairment requirements of the applicable accounting standards, the identified impairment loss was immaterial and hence, it is not provided for.

Cash and cash equivalents

The cash and cash equivalents are held with banks. As at the reporting period, the maximum exposure to credit risk is represented by their carrying amounts in the statements of financial position. These banks have low credit risks. Hence, a loss allowance is not necessary.

(ii) Liquidity risk

Liquidity risk arises mainly from general funding and business activities. The Group and the Company practises prudent risk management by maintaining sufficient cash balances and the availability of funding through certain credit facilities.

36. CAPITAL RISK MANAGEMENT

The consolidated group's objectives when managing capital is to safeguard its ability to continue as a going concern, so that it can provide returns for shareholders and benefits for other stakeholders and to maintain an optimum capital structure to reduce the cost of capital.

Capital is regarded as total equity, as recognised in the statement of financial position, plus net debt. Net debt is calculated as total borrowings less cash and cash equivalents.

In order to maintain or adjust the capital structure, the consolidated group may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

The consolidated group would look to raise capital when an opportunity to invest in a business or company was seen as value adding relative to the current company's share price at the time of the investment. The consolidated group is not actively pursuing additional investments in the short term as it continues integrate and grow its existing businesses in order to maximise synergies.

The consolidated group is subject to certain financing arrangements covenants and meeting these is given priority in all capital risk management decisions. There have been no events of default on the financing arrangements during the financial year.

37. SEGMENT REPORTING

The Group is principally engaged in the manufacturing, supplying, importing, exporting of nano technology products, photo catalyst power, coating solutions and chemical solutions of every description and manufacturing, supplying, importing and exporting of engine oil products in Malaysia. For management purposes, the Group operates in one business unit based on its services and products, and has one reportable segment.

Since most of the Group's revenue was generated in Malaysia, no geographical information is presented.

38. CONTINGENCIES AND COMMITMENTS

The Group and the Company had neither contingent liabilities/assets nor any financial commitments as at 31 December 2022.

39. SIGNIFICANT EVENTS DURING REPORTING DATE

(a) Material litigation

Tee Chong Teck & 32 others ("the Plaintiffs") and Nanopac (M) Sdn Bhd ("the Subsidiary")

On 17 January 2020, the Plaintiffs filed the writ to Shah Alam High Court against Nanopac Innovation Limited, Nanopac (M) Sdn Bhd ("the Subsidiary"), Cheng Kok Leong, Gain Angel International Sdn Bhd, Idia Investment Limited and Farid, Wong & Wee ("the defendants").

The Plaintiff was filed on the ground of the 6 defendants conspired to cheat through misrepresentation to the 32 plaintiffs. They claimed to nullify the agreement signed with the Company and request full compensation.

NOTES TO THE FINANCIAL STATEMENTS (Continued)

AS AT 31 DECEMBER 2022

39. SIGNIFICANT EVENTS DURING REPORTING DATE (Continued)

(a) Material litigation (Continued)

Tee Chong Teck & 31 others (“the Plaintiffs”) and Nanopac (M) Sdn Bhd (“the Subsidiary”) (Continued)

On 3 July 2020, the Subsidiary’s legal representative, SP Ng & Associates have applied to strike out the case on behalf the Subsidiary and filed to the Shah Alam High Court for remove or cancel the legal action against the Subsidiary.

The plaintiffs have not filed for any interim or summary judgement and so the matter will go for full trial.

The previously fixed case management was on 25 November 2021, and the initial full trial dates were 29 and 30 November 2021. The lawyer had to postpone the trial due to the change of the court and judge for this case.

On 21 February 2022, the trial date was fixed and postponed again due to no High Court Judge available. In March 2022, the dates have been vacated, and new trial dates have not been fixed as we have to wait for a new judge to be assigned.

Therefore, as of today, no High Court Judge assigned, and the trial date has yet to confirm.

The directors after obtain advice from their solicitor strongly believes that the Subsidiary is not held responsible for the alleged claimed. Accordingly, no provision has been made with regard this matter.

- (b) On 15 August 2022, the Company announced that Nanopac Alaska Sdn. Bhd. had signed an agreement to acquire 51% interest in Alaska Mining Sdn. Bhd. (Company No. 202201021593 (1467290-W)), a Company incorporated in Malaysia.

On 15 December 2022, the Company announced that it had terminated the agreement to acquire 51% interest in Alaska Mining Sdn Bhd due to the non-fulfilment of terms by Alaska Mining Sdn Bhd.

40. COMPARATIVE FIGURES

No comparative figures have been reclassified to conform to current financial year’s format of presentation.

41. AUTHORISATION FOR ISSUE OF THE FINANCIAL STATEMENTS
