

GENERAL MARKET DISCLOSURE

Directors of CTG Fibersway International Limited (the “Company”) refer to recent news reports that the United States plans to impose levies on about US\$50 billion in Chinese electronics, aerospace and machinery products, and wish to advise the market that while the Company’s operating subsidiaries (together with the Company, the “Group”) do export to the United States, they do not expect this development to have any material effect on the Group’s financial performance because:

- (1) exports to the United States represent only a small portion of the Group’s total sales; and
- (2) directors do not expect that any of the Group’s products to be included in the detailed list of Chinese products which will subject to the proposed levies.

Nonetheless, directors are monitoring this situation closely and will advise the market if any further development is likely to impact on the Group’s operations.

For and on behalf of
CTG Fibersways International Limited

SHENG Zejun (Richard)
Executive chairman
Hangzhou, China
