

ASX ANNOUNCEMENT

30 January 2024

CuFe^{ltd}

WEATHER IMPACT ON JWD OPERATIONS

CuFe Ltd (ASX: **CUF**) (**CuFe** or the **Company**) advises that the Wiluna region has recently been subject to a significant weather event with official readings at Wiluna airport indicating rainfall in excess of 125mm within a 48 hour period, which is more than half of the average annual rainfall for the region.

While rainfall events occur occasionally, the disruption to operations is typically limited and this has been the case for crushing and mining activities, which recommenced approximately 24 hrs after the rain event concluded. However, due to the level of flooding the Main Roads Department has closed the section of the Goldfields Highway via which the JWD site is accessed to all vehicles since 24 January 2024.

Once the highway re-opens, the Company will endeavour to make up lost haulage over the remainder of the quarter to minimise the impact on sales figures reported for the March quarter.

Announcement released with authority of the CuFe Board of Directors.

CuFe_{ltd}

About CuFe Ltd

CuFe Ltd (ASX: CUF) is a producer and explorer, focused on near-term, high grade premium product iron ore projects and exposure to key strategic metals; Copper and Lithium. The Company has diversified commodity interests in various projects and tenements prospective for copper, lithium, REEs, gold and iron ore, located in world-class mineral provinces of Australia.
