

Emefcy Group (ASX: EMC) and RWL Water Announce Shipment of Packaged Plants To Accelerate China Market Adoption:

First jointly manufactured plants under recently announced strategic alliance between Emefcy and RWL provide path to enhanced revenue from deployments

April 27, 2017

Melbourne, Australia and Caesarea, Israel: Emefcy Group Limited (ASX: EMC), a global leader in energy-efficient wastewater treatment solutions and RWL Water (www.rwlwater.com), one of the fastest growing water solutions companies in the world, today announced completion of manufacturing and delivery of Emefcy's packaged demonstration plants to two of the company's Chinese strategic partners, China Gezhouba Group Corporation (CGGC) and Beijing Sinorichen Environmental Protection Corp. Ltd. ("Sinorichen").

Produced at RWL Water's manufacturing facility in Israel, the Emefcy demonstration plants are expected to be installed and begin operation by the end of Q2 2017.

China Gezhouba Group Corporation (CGGC) is one of China's largest construction and engineering companies which operates in over 100 countries, with over 4,000 successful projects, including the great Three Gorges Dam Project. CGGC and Emefcy intend to jointly bid on an initial 345 rural wastewater treatment plants of varying capacity in two key Districts in Hebei. Should the partners win the bidding, deployment could occur over the course of 2017.

Sinorichen is a leader in wastewater treatment consulting and engineering services throughout Beijing Province and Northern China. Sinorichen intends to deploy Emefcy's MABR-based wastewater treatment systems to rural communities in Beijing Province and throughout Northern China.

Richard Irving, Chairman of Emefcy, commented: "We believe these packaged plants are delivered in a form which helps to accelerate our partners' time to deployment and potentially enhances Emefcy's share of revenue in these deployments. These are key early results of our successful strategic alliance with RWL Water whose engineering skills coupled with Emefcy's product development capability are highly complementary."

Henry Charrabe, CEO of RWL Water stated: "With our global leadership position in designing packaged water and wastewater treatment solutions, we are excited to leverage that experience to engineer these containerized solutions and assist Emefcy in executing on their solid pipeline of opportunities in China."

About Emefcy Group Limited

Emefcy develops, manufactures and markets new, energy-efficient MABR based wastewater treatment solutions, aiming to change the economics of various markets and addressing the growing global demand for clean water in municipal and industrial plants.

With several global innovation awards and a strong scientific background, Emefcy is at the forefront of the next generation of MABR based wastewater treatment. Additional MABR based wastewater solutions out of Emefcy's extensive R&D operations are expected to be announced in the coming year.

Emefcy Group Limited (ASX: EMC) is a public company traded on the Australian Stock Exchange.
