12th March, 2020: The GO2 People Ltd (ASX:GO2) ("The GO2 People" or "the Company") is pleased to announce it has executed two key cashflow initiatives as part of its consolidation of operations and focus on capital management and improving EBITDA performance.

Initiative 1: The Company has secured a two-year extension to its existing \$15m invoice factoring facility with Scottish Pacific (BFS) Pty Ltd ("Scottish Pacific"). The extension of this facility continues the long-standing relationship GO2 has with Scottish Pacific and it will provide ongoing working capital support as the Company

continues to execute its strategic plan for the remainder of FY20 and beyond. Importantly, a competitive interest rate has been maintained, whilst the facility allows for funding in real time as soon as GO2 has invoiced its clients.

Initiative 2: GO2 has agreed the sale of the Mining Camp acquired through its work on the rehabilitation of the Kintyre Mine Site in 2019. The sale of this asset is expected to contribute circa \$200k of free cashflow to the Company. A deposit has already been received with the sale agreement to be signed by 20th March 2020 and the transaction expected to settle on or before 27th March 2020.

The extension of the funding facility and the sale of the camp, in addition to previous funding initiatives achieved, positively impact GO2's cashflow position, whilst reiterating the Company's commitment to responsible capital management and EBITDA improvement.

Managing Director, Billy Ferreira: "The Company made it very clear to investors that we intended to focus on responsible capital management and EBITDA improvement in FY20 and that's what we're doing. Securing an extension to our Scottish Pacific facility and selling surplus assets, further reinforces that commitment. Additionally, it further enhances our cashflow position which has shown improvement in the most recent Quarter. We certainly feel like we are making steady progress."
